

SEARCH WARRANT CASE UP MONDAY

Ownership of Missing Jewelry Will Be Established in Hearing Before Justice Kuehl.

RELATIVES ARE DEFENDANTS

Joseph Guard, Former Groceryman, Accuses Wife and Brother-in-Law With Stealing Valuables.

Marital troubles between Joseph Guard and his wife Beate, and which will be preliminary to the trial of the divorce suit, are expected to be heard when a search warrant case is tried before Justice of the Peace Carl Kuehl Monday afternoon.

At that time the justice will attempt to establish the ownership of some jewelry which was secured in three homes here by a constable armed with a search warrant which was served on Mr. Guard, who formerly conducted a grocery store at 628 Eighth street.

Mr. Guard named as defendants in the warrant Beate Guard, 628 Eighth street; Jack Sax, a brother-in-law, 22 Seventh avenue, and Max Coln, mother-in-law, 714 Seventh avenue. The constable visited the three homes and secured the following jewelry at the three places: Diamond ring, band ring, man's ring, set of earrings, two lot of silver, and a pocketbook containing old and valuable coins.

SAYS WINDOW PRIED

Mr. Guard charges in the warrant that these were stolen from his home on Sept. 8. He charges that a window was pried open. In a search warrant case the justice of the peace holds no opinion as to whether the constable after making a search returns with it. After the case is heard he deposes who the owner shall be and turns the property in question over to that person. Mrs. Guard has filed suit for damages in circuit court.

GREEK IS FREED IN ERIE POLICE COURT

James Zabrinos, the young Greek who was arrested in Moline recently on charges of police of Erie, Pa., who held a warrant for him, sworn to by his uncle, Andrew Zabrinos, former Moline groceryman, in which the boy was charged with larceny of \$150, is back in Moline, free.

Before leaving here a week ago the boy declared the charge was false and that it had been made by his uncle for revenge and also to get him back to Pennsylvania. He had worked for five years for his uncle, he said, without receiving any pay.

Friends of the boy in Moline rallied to his aid and when he left for Erie he was accompanied by Peter Lambros, prominent member of the Greek fraternity in this vicinity. Arriving in Erie, Lambros succeeded in forcing an immediate trial. The boy was acquitted and he and Lambros immediately returned to Moline.

SIGNS NOW WARN VISITING DRIVERS

Motorists Notified of Speed and Dimmer Ordinances Being in Effect in Rock Island.

PLACED AT ALL THE GATEWAYS

Measure Recently Passed by the Council and Now in Force Responsible for Action.

The tourist motorist who visits Rock Island will have no occasion in the future to say: "I didn't know." Today Commissioner J. H. Liedtke and Officer Ginnane suspended signs at each of the important gateways into the city of Rock Island, informing the automobile driver that this city had speed and dimmer ordinances which must be obeyed.

Each sign is large enough so that it can be seen from a distance and is so painted that the words can be distinguished at night when the headlights of the automobiles flash upon it. The signs bear these words: "Take notice, Speed and dimmer ordinances are strictly enforced in the city of Rock Island." The background is of white and the letters are in black, trimmed with red.

Signs were placed at each of the following places: Fifth avenue and Forty-sixth street; Fourteenth avenue and Forty-sixth street; Seventh avenue and Forty-sixth street; Thirty-eighth street and Eighteenth avenue; Thirtieth street and Eighteenth avenue; and on each of the bridges on the Twelfth street road.

Since the dinner ordinance has been in effect local automobilists have been warned by the police that they must conform with the new regulations. Strangers, however, have but little chance of knowing of such measure being in effect here unless notified. The dinner ordinance, Commissioner Liedtke said today, is responsible for the signs, although he declared that notification of the speed ordinance being enforced here is none the less important.

Lessons will be under the supervision of Secretary Alben and Physical Director Holdenman. The crowd will be taught, at this is the record of speed stroke.

GERMAN COMMENT ON KITCHENER SPEECH

Berlin, Sept. 18. (via wireless to Tuckerton, N. J.)—"The Tages Zeitung" interprets Earl Kitchener's speech complimenting Turkey as an offer in disguise for a separate peace. England being unable to force the Dardanelles," says the Overseas News Agency. "This is a strange contrast to the statement of Premier Asquith, when Turkey declared war, that Turkey had signed her own death sentence."

In a speech before the house of lords on Thursday, Earl Kitchener said there was evidence of demoralization among the Turks but that, judging from a humane point of view, their methods of warfare were "superior to those which have disgraced their German masters."

Russians Admit Railway Is Cut

Petrograd, Sept. 18, via London.—The Germans have cut the railway line between Vilna and Mlodziech and the only outlet by rail from Vilna still remaining in Russian hands is the line running southward to Lida. The war office maintains, however, that there are sufficient wagon roads to use in emergency. It is stated that a decision concerning the longer retention of Vilna will be reached soon.

The Lida railway line has been under sharp attack since Sept. 14. In an effort to check the German cavalry the Russians are developing strong cavalry forces in the Vilna district.

A Museum's Worst Enemy

One of the worst enemies visitors of museums have is contained with a tiny beetle, which works so neatly that there is no evidence of its work until the specimen is found disintegrated or otherwise ruined. Neither in America or England has any effective remedy been found. The tiny mischievous worm is the Athribus museumorum. The adult measures only or even less than one-eighth of an inch in length and is covered in form. The female lays eggs in specimens, and the larvae feed on them—the value buttedly and the magnificent beetle—brought from afar. These larvae are small, plump, hairy grubs, and the sole sign of their presence, likely to be overlooked by the amateur, is a few specks of brown dust in the case.—Scientific American.

Hunting Trouble

When a man just naturally wants trouble it is mighty easy to find an excuse for making it. According to Mike Hogan, Casey and O'Brien were having a personal argument of their own. It had progressed to the extent that each had forgotten what it was about originally, and they were wholly oblivious of the gathering crowd until an urbane and genteel person in a frock coat put in:

"Come, come, my man," he said, gently plucking Casey by the sleeve. "You don't want to fight. I can tell it by your looks. Your face is too benign."

"Two be nine! Two be nine, is it, ye scut?" belovved Casey. "Me face is two be nine, is it?"

And there was where the real trouble began.—Louisville Times.

How Much Does a War Cost?

At the end of the first year of the war, peace societies have been taking stock. Announcement is sent out that so far the nations involved have spent a sum just about equal to the value of all the farm lands in America. That would be more than \$28,000,000,000. The figures are inconceivable, and they may be exaggerated; but that is one way in which you can get an idea of the enormous expense of maintaining armies in the field. If every farm in America was free from mortgage debt, and if every farmer should sell every acre he owns and put the proceeds in the great European war purse, the total amount would pay the last year's bills. It is hard to figure how war pays, isn't it?—Farm Life.

Two other murder cases are to be heard at the approaching term. Charles Carrington, colored, is to be tried again for the slaying of Lester Nash, Burlington car repairer.
