No Other Refrigerator But the **AUTOMATIC.** Has All These Features

There is no wasted, tainted, odorous, or spoiled food in the Automatic. The food is chilled by continuous circulating cold air.

Endorsed by housewives everywhere, because of its white enamel linings, rounded corners, easy to clean.

Come in and learn the difference between the Automatic and other makes.

The Automatic is being used by Miss Peet during The Argus' free school of Home Economics.

Do You Think It's Fair

To yourself to even consider any other but the

Edison Phonograph

Just think, the greatest inventor the world has even known is back of this wonderful instrument.

Thomas A. Edison

And this is his pet invention—You certainly can look for great things in connection with the

These Fine Evenings There is Nothing Better than Ice Cream For Your Program

These hot summer nights when the veranda is the haven for your family, neighbors and friends, ice cream should be part of the program.

It is cooling, refreshing, nutritious and pleasing to everyone. It is the safety valve against irritableness or dullness occasioned by the heat of the day.

You'll find it much easier to entertain and be entertained after this ice cream has been passed around.

The best ice cream naturally accomplishes the most satisfactory results. That is our ice cream, of course.
