HEART and HOME PROBLEMS

MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I am a young woman 25 years old and am married to a man 15 years older than I am. Before we were married he seemed to dote on doing anything I wanted.

You should not marry when you have no desire to and do not love the man. It would also not be right to remain at home and be a burden to your family.

What can I do to make him act the way he used to? I certainly cannot complain about his neglecting me because he is perfectly contented to spend every evening and Sunday at home with me and the children.

Dear Mrs. Thompson: (1) Is there anything wrong in keeping a marriage secret for a year until the bride finishes her schooling? (2) Is a marriage certificate binding if a few extra letters have been added to the names to disguise them and are later removed?

There is rarely a marriage that has not its disappointments. It seems to me that you have little to complain of. Try to please your husband, and when he sees that you are willing to give up things that mean much to you because they do not interest him, he will surely try harder to please you.

(3) Is there any fluid that will remove ink writing from white paper and not harm the paper? (1) No. (2) Yes. (3) There is a fluid that will remove writing from white paper without injuring the paper.

Dear Mrs. Thompson: I am 21 years old and like two young men very much, but I do not love them. One of them as asked me to marry him, and I know that the other has serious intentions from things he has said to my parents.

Dear Mrs. Thompson: (1) What is good for nervous people? (2) I am 17. Do you think I am too young to go to dances if I go with my brothers? (1) Sleep, exercise, work and regular hour are necessary to good health. There is nothing like idleness to make a person nervous. (2) You are young to go to dances at night, but if you go it is better to go with your brothers than with other boys.

Dear Mrs. Thompson: I am troubled with an ugly wart on my finger and I can't get rid of it. I have tried silver of nitrate and it does not seem to do any good. Will I have to have it removed with the electric needle?

Nitric acid will remove the wart. Apply it with a little cotton batting on the end of a toothpick. Be careful not to touch any part but the wart.

SAGE TEA TURNS GRAY HAIR DARK

It's Grandmother's Recipe to Bring Back Color and Lustre to Hair.

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray, streaked and looks dry, wispy and scraggy, just an application of two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the tonic; you can get from any drug store a 50-cent bottle of "Wyeth's Sage and Sulphur Compound," ready to use. This can always be depended upon to bring back the natural color, thickness and lustre of your hair and remove dandruff, stop scalp itching and falling hair.

Everybody uses "Wyeth's Sage and Sulphur" because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy, lustrous and abundant.
