HEART and HOME PROBLEMS

MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: I have been going in the best set in this city for some time, but recently I was "dropped." I do not mean to insinuate that one crowd of young people is really any better than the others, but simply that the set which I belonged to was made up of the so considered best.

For over a year I was everybody's favorite, but that couldn't last. Not long ago several of the girls went to get with older fellows who were not in our set, and then it was that they began to ignore me.

Will you tell me how to win back the girls I want? They were once crazy about me, every one of them, and to my knowledge I haven't changed any since that time.

You want me to be frank, don't you? From the general tone of your letter about your set, you think too much about yourself and regard other people only from the standpoint of what they can do for you.

Think of the rapidly with which things in this world change. Troubles are forgotten and pleasures forgotten.

Dear Mrs. Thompson: (1) I have many small blackheads on my face. They look badly and spoil my complexion. Is there any soap or other harmless remedy for them?

(2) The pores on my face are very large. How can I make them small without injuring my skin?

(3) I have many wrinkles in my neck and under my eyes. What can I do to remove them?

(4) What will keep hair curly? My hair is long, but I can't keep the curl in it.

(5) A lotion for blackheads is made from two ounces of pure brandy, one ounce of cologne, and one-half an ounce of liquor of potash.

(6) A lotion for enlarged pores is made from one dram of borax acid and four ounces of distilled witch hazel.

(7) Wrinkles can usually be removed by daily massaging, first with a circular movement and then up and down across the line of conformation.

(8) Quince-seed cuticle is made from three teaspoonfuls of quince seed to a pint of hot water.

(9) Frost bit LeCaquet is much preferred. In shape it resembles a great tadpole. Whereas the Drachon is inconvenient by a wind of from 50 to 75 feet a second, LeCaquet can remain in the air unless the wind exceeds 8 to 10 feet a second.

It takes an experienced man to maneuver it (as soon as it leaves the shed great attention must be paid to the wind current so as to save the envelope from being torn.

When the balloon strains an altitude of from 2,000 feet to 3,000 feet the windmill to which the cable is fixed is drawn by horses or molarcar at a moderate pace to a point near the ground line, where a refuge excavated in the soil has been prepared.

Household Hints

Tips for the Wise Housewife. A few drops of lemon juice added to a bottle of cream will make it whip more quickly.

The best kind of ironing board cover is made of a heavy layer of absorbent cotton, such as is used for comforters. It should be cut to fit the board and tied, the knobs being left on the wrong side.

Mirrors and window sills are easily washed if a little ammonia or sal soda is added to the water. Much also depends upon the polishing clothes, of which there should be several, dry and absorbent.

Meat and Tomato Pie. This dish presents an excellent way of using up small quantities of either cold beef or cold mutton. If fresh tomatoes are used, peel and slice them; if canned, drain off the liquid. Place a layer of tomato in a baking dish, then a layer of sliced meat, and over the two dredge flour, pepper and salt, repeat until the dish is nearly full.

Meat Pies Are Excellent if Well Baked. Meat pies represent one method of combining food with meat. They are ordinarily baked in a fairly deep dish, the sides of which may or may not be lined with dough.

Twelve O'clock Pie. This is made with shoulder of mutton, boiled with carrot and onion, then cut up, mixed with potatoes separately boiled and cut up and put into a baking dish.

The Tub. Meat and Rice Loaf—Two cups cold beef (cooked) chopped fine, two cups cold cooked rice, one egg, two tablespoon butter, tablespoon chopped parsley, half a small onion (chopped fine), salt and pepper.

leave whole six white turnips and three large carrots. Cook in salted water till tender but firm. Hollow out a spoonful of each. The carrots will represent small boats. Fill each with green peas or creamed mushrooms. Serve meat on a large platter, arrange the filled vegetables around, and garnish with parsley. Thickened gravy with four. Serve mashed potatoes and a plain lettuce salad.

Meat and Pastry Rolls. Small quantities of cold beef (cooked) or cold mutton may be used for these. The meat should be chopped fine, well seasoned, mixed with enough savory fat or butter to make a "shape," and formed into rolls about the size of a finger. A short dough (made up of a pint of flour, two tablespoonfuls of lard, one teaspoonful of baking powder, one-half teaspoonful of salt, and one-half cup of water) should be rolled thin, cut into strips and folded about the meat rolls, care being taken to keep the shape regular. The rolls should be baked in a quick oven until they are a delicate brown color and served hot.

To Make Bedroom Shoes from Old Cloth—Get a "gum" shoe pattern, cut shoes like pattern; allow extra for other children, a piece of cloth will make fine soles; piece of sheeting will do for lining.

Use for Old Socks—Lay on board and iron the socks into shape as they come from the stock. Lay later's stockings on the stock, close up on bottom from the back, close up on bottom from the front, put in the ends of the socks, cut around baby's stockings (from front and leg) well beaten without separating yolk and white, and paralyze and seasoning. Pack in buttered baking dish. When baked brown turn onto a hot platter and pour over a sauce made of tomatoes strained, thickened with a little flour and seasoned highly.

Pot Roast with Vegetables—Purchase a piece of beef or veal from the round. Brown on both sides in hot lard or butter with a large onion sliced. Add three bay leaves, salt and pepper and two cups water. Simmer two and one-half hours. Pare and will have a very comfortable skirt.
