In The Lodges

At the regular meeting of Nobel lodge No. 288, Order of Vasa, held last evening, 13 applications were received. These candidates will be voted on next meeting night. After business was transacted a social hour followed and refreshments were served.

IN AUSTRALIA TO ARRANGE FOR U. S. TO SECURE WHEAT

Sydney, Australia.—The complex subject of Australian wheat and the war-time purchase of it by the United States has been discussed in recent speeches by J. T. Duvel, crop technologist in charge of grain standardization investigations of the United States department of agriculture, who has completed a tour of the wheat-growing states of Australia in the interest of Australian-American war relations. He was sent here by the Washington authorities, in advising the executive officers of the Royal Agricultural Society of New South Wales at a complimentary luncheon which this organization honored him at the Australian hotel here, Dr. Duvel said.

That what will be the situation in the United States without recourse to further purchase of wheat from Australia when the new crop comes in, I am not in a position to say, but I believe the government will continue to buy wheat in order to secure a regular supply against possible failure next year, because the indications are that this war is not over and it is likely to continue for some time.

"Much of the wheat in Australia would go into the United States had it not been for the wheat classified in Australia. Hard white wheats are the best American wheats and bring a premium in the market. That is one of the reasons why I am here, to advise you what is the handling of Australian wheat which is going to the United States what our standards are. Here you have been working on the f. a. q. basis but wheat is being sold on the basis of the American standards. It is only now that the Australian should know what the American standards are and what our classification is, and that if the Australian grows put hard white wheat into a shipment they are entitled to receive a premium.

"There has been some anxiety on the part of the American people as to the condition of Australian wheat as a result of some conditions you have had, and that is another reason why I am here. I am glad to be able to report that these conditions are not as serious as some people through the press had led us to believe.

"The 'conditions' referred to by Dr. Duvel were weevils and the mouse plague of about a year ago. "If Australia had adopted bulk handling of wheat ten years ago," added Dr. Duvel, "I believe that what she would have saved in the wheat lost during the past three years would have paid for the entire installation of the elevator system."

Dr. Duvel promised the hearty cooperation of the United States department of agriculture in the development of the agricultural industry in Australia and the efforts to place it on a better and sounder basis.

In responding to a toast at a luncheon given him at Sydney by the Millers club, Dr. Duvel said, "In buying wheat the United States wants to be sure to get the Australian products. My people insist on this matter as a family affair."

Non-alcoholic wines, Beardsley's.

RHEUMATICS NO LONGER GLOOMY

They have used "Neutrons Prescription 99" and found it there with the punch that kills Rheumatism.

Only the skeptical now suffer. The victims of Rheumatism all tell the same story, they have sore, inflamed muscles and stiff joints, they have no ambition or strength and get nervous, cross and irritable. Which is not to be wondered at, thousands of old time Rheumatists are now in the best of health after using "Neutrons Prescription 99."

Its satisfied users are its best advertisers, pretty good advertisers, too.

No matter how little or how much you suffer go and get a bottle of "Neutrons Prescription 99." You will be surprised at the results. Sore, inflamed joints and burning, aching muscles will disappear, and you will feel fine every hour of the day. Mail orders filled at \$1.00 size. A. J. Hines, the drug and leading druggists everywhere.—(Adv.)

NOT REPORTING TYPHOID CASES

Discovery of Old Ones Mainly Responsible for Yesterday's Scare Official Finds.

It has been discovered that the 13 suspected cases of typhoid reported in the vicinity of Eighth street and Fourth avenue, Moline, yesterday, are mainly old cases, not reported, and that many of the patients were already in the hospital. Nine of the 13 cases were reported in this class and four have been found new cases. Two are still regarded as uncertain typhoid cases, however.

A state health official yesterday after an investigation reported that many physicians are not reporting typhoid cases as quickly as they are discovered. Today the epidemic was reported by officials as practically unbroken. Only three new cases have been reported at the office of the city physician in the past 24 hours. No additional deaths are reported.

Mrs. McGovern, 215 Eighth street, on whose property the well which was supposed to have been responsible for the new cases yesterday, asserted this morning that none of the members of her family had used the water. She also declared that no tag of warning had been put upon the well as city officials.

FOUR MEN ENTRAIN FOR ARMY SERVICE

Four registrants of the Moline exemption board voluntarily inducted into the service, were entrained for schools of instruction at noon today.

Chester Schofield of the 1217 draft, and William McKeever, who registered June 5 of this year, were sent to the Northwestern University at Evanston for a special course of instruction. Louis Lohk and J. Willis Bergstrom, both of this year's registration, were sent to the Lewis Institute, a polytechnical school at Chicago, for training in automobile mechanical lines. Bergstrom was the first Moller called in the 1918 draft.

PIERCE MOTION FOR NEW TRIAL DENIED

An appeal for a new trial made by Harold A. Weld, attorney for Ira Nels Pierce in the case of Pierce vs. Stouffer was yesterday afternoon denied in Moline city court, Judge G. O. Dixie presiding.

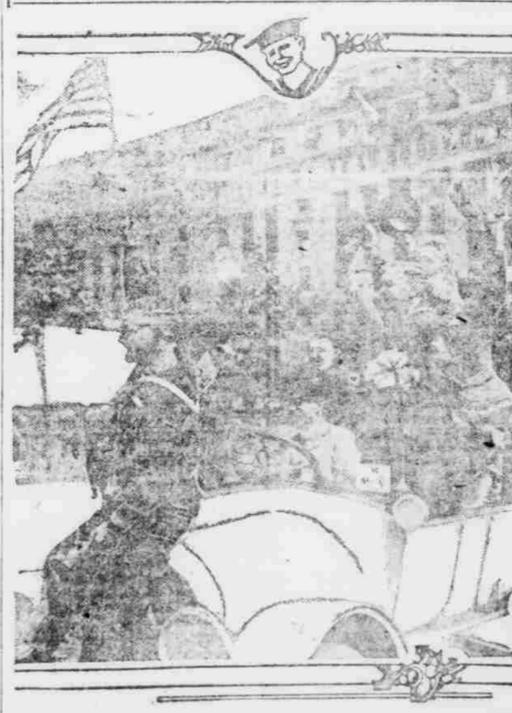

An alleged assault upon Pierce by A. C. Stouffer, Moline commissioneer, took place last fall. When the damage case instituted by Pierce was tried last month Stouffer was found not guilty.

Obituary

Louis C. Nelson.
The funeral of Louis C. Nelson was held at 2:30 yesterday afternoon from the home, 1117 Sixteenth avenue, Moline. Services were conducted by Rev. C. J. Soderstrom. Pallbearers were Erick Anderson, Harold E. Kruse, John Gless, Fred Carlson, John A. Larson and Judge N. A. Larson. Interment was in Riverside cemetery.

DRUNK PICKED UP.
John Stevens was arrested in East Moline last night when it was found that he had consumed too much of the amber fluid evidently from the hip tank of an obnoxious friend. This morning he was fined a total of \$5.00 on a charge of drunkenness.

WHEN AMERICAN BOYS DO LONDON TOWN

American navy and army boys in London. This photo shows a group of American boys from the army and navy seeing London. They are also seeing some of their comrades passing in a bus. The sailor on the right is sporting on having a clear view of everything there is to see.

NURSE TELLS OF WOUND INCURRED BY LOCAL YOUTH

Word has been received from a Red Cross nurse in an American hospital in Paris that Crate M. Ellison, son of Mrs. David Ellison, 2425 Eighteenth avenue A, Moline, was wounded in action July 16. The injury is not reported as serious, however, and the nurse states that he is rapidly recovering.

Ellison enlisted in a field artillery battery shortly after a state of war was declared. His brother, James, enlisted in the same battery a day later. Both Crates went to the hospital they were together. When he volunteered Crates was 21 and James had not yet completed his high school course. He was awarded his diploma, however, by the board of trustees.

Walton Ellison is also with a field artillery unit in France, and still another son, Roy, Lucien Ellison, is an army T. M. C. A. man at present stationed at Camp Pike, Ark. Four sons in the service, one already wounded therefore is Mrs. Ellison's record.

WAR CAMP PAYS BEACH EXPENSE

Home That War Chest Fund Maintains Forty-eighth Street Swimming Place is Bewild.

Eighteen soldiers from the arsenal at Island enjoyed the privileges of the Forty-eighth street bath house and beach last Sunday, and 50 of the boys have planned to be there next Sunday. The tri-city war camp committee has ordered bathing suits for the soldiers and these will be ready for use at the time. Any soldier or sailor home on furlough is welcome and invited to use the bath house and beach. Everything is free for the soldier and sailor.

The war camp committee is an integral part of the system established by the United States government for the care and training of its soldiers and sailors for this war, and recently broadened to include war industrial workers, such as armament employees or employees working on government products. The tri-city war camp committee serves both, acting in cooperation with the community organizations and the local committee on the local committee.

No war chest or local funds are being used in payment of these expenditures.

The work of the war camp committee serves for its motive the development of the recreational and social resources of the community and the strengthening of these resources in such a way as to be of the greatest benefit to the officers, enlisted men and war industrial workers located here.

TREN CATCH FINE.
A pile of dirt along the railroad track at Twenty-ninth street, Moline, were in an unknown manner ignited. The fire department experienced no difficulty in extinguishing the blaze.

AMERICANS ARE PIOUS FIGHTERS

Revelations to Former Moline Pastor Show Yank as Kind, Broadly and God-Fearing.

"It may seem incomprehensible to a pacifist or dogmatic theologian, but many of these fighting men are truly pious and all sincerely believe in God," writes H. S. Willing, former pastor of the Union Congregational church of Moline and now a Young Men's Christian association worker with the American forces in France. "In an environment where all the emphasis is laid on 'Kill! Kill! Kill!' the only explanation is that these men are gladly offering their all on what they believe to be the altar of eternal night."

Mr. Willing has been for some time on the Alsace-Lorraine and Italian battle fronts and has made a detailed study of the spiritual life of the men fighting in the allied forces. The contents of the "Letter" is an interesting display of some of the more interesting things which have been revealed to him.

"Over here," he writes, "heroism is a tame commonplace. Every man is either a potential hero, beyond the widest range of imagery, or he is an unspotted yellow dog, and such are rare—other canines or human. It is amazing how the pressure of war, the life or death struggle, stimulates the latent potentialities of apparently mediocre men."

The former Moline pastor declared that he is experiencing the excitement he dreamed of and in addition is having his heart's desire fulfilled as to choice of work.

"I had a slight encounter with a 'E-bout on the way over' he says, 'a wonderful trip up the Gironde river to Bordeaux, then a delightful trip to Paris in the funny little French cars. After about two weeks there we started for Alsace-Lorraine on a five-ton truck.

"I cannot tell you about affairs there, but it was war. It gives one a queer sensation to see the white of a big explosion overhead and then see another tear a hole in the earth as big as a stone quarry. And not know what the next moment may bring you square in the 'bummy.' No one sleeps the first 48 hours under fire.

"They may not be afraid, may have no sense of fear, may even be in a frame of mind where they do not care—but still they would not sleep."

"Men seem to be haunted by the prayers and affectionate expectations of their friends over there. They are unusually kind and brotherly, though rough. Not only does the fellowship of suffering manifest itself in mutual self-sacrifice, but the strange atmosphere of war, the proximity of death, constantly reminds men of the beautiful standards once erected before the moral sensibilities were blunted and scarred by years of neglect.

"No one doubts the patriotism of American soldiers, but I find among them another sentiment, manifest, though often crudely expressed. It transcends patriotism yet it is in perfect accord with it.

"They feel that they are fighting not merely to cover Old Glory with fresh glory, not only to maintain the majesty of our government, not only to overthrow a reincarnated Butcher Weyler, Tambores and Nero combined, not even to aid our struggling allies in a righteous cause.

"They feel that civilization is at stake. They feel, in a vague way, that it is their duty and privilege to usher in a new and better era, when no more from want and sorrow we'll hear the helpless cry, but strife shall cease and perfect peace shall flourish by and by."

FORMER MOLINER NOW CAPTAIN IN ENGINEER CORPS

Official word from Washington yesterday announced the awarding of a captain's commission to Theodore L. Burkland of Chicago, formerly of Moline. He is assigned to the engineers' corps.

Captain Burkland was graduated from the Moline high school in 1892. After a course in civil engineering at the University of Illinois he was for a time employed by the Peoria Water company. Later he was president of a bank at Nampa, Idaho. He has been in Chicago for the past two years. Captain Burkland is a son of Swan F. Burkland, and Mrs. Glen Burston and Mrs. Almada Burkland of Moline are sisters.

DORVICH STRUCK MORVICH; AWAITS GRAND JURY NOW

Steve Dorwich, box car resident in Silvis, was yesterday bound over to the grand jury by Justice S. D. Marchant on a charge of assaulting John Morvich with a deadly weapon. Following an alleged drinking spree, both participated in a fist encounter Sunday afternoon. It is said that Dorwich picked up a piece of iron and struck Morvich a crack on the back of the head. The assaulted one fell to the ground and did not regain consciousness until 10 hours later. He was in court yesterday, and following the hearing walked out of the building talking to Dorwich, apparently his friend.

Dorwich's bail was fixed at \$100. He paid, Liberty bonds forming part of his security.

CELEBRATION TO HELP RED CROSS IS SIBERIAN IDEA

In the interest of the American and Serbian Red Cross, members of the Serbian Orthodox Brotherhood of Silvis, will stage a celebration Sunday, a feature of which will be a parade. It will be formed at 1 o'clock in front of the Majestic theatre, East Moline, and will go through the streets of East Moline and as far as Twelfth street in Silvis. There it will turn and proceed to the Bohemian hall at Twentieth street and Seventh avenue.

A program of speeches and music has been arranged and proceeds of the entertainment will be donated to the two national societies named above. The Belgian-American band of East Moline will head the parade and will also have part in the program.

Festivities begin at 9 o'clock in the morning with services in the rooms above the theatre.

HEADQUARTERS TO BE VACANT STORE

A vacant room in the Luddell building will be used as headquarters for the old clothes campaign which is to be conducted next week by the patriotic service committee of the Moline Rotary club in the interest of Belgian relief. This was made known yesterday by F. W. Walker, chairman, at the regular meeting of the club held yesterday. Final arrangements, he said, are to be completed this evening.

George J. Ross of East Moline and Rev. C. P. O'Neill of Rock Island were the principal speakers at the meeting yesterday. Dr. W. E. Taylor told the club that by the willing efforts of a number of its members he was able to fulfill a demand for thrashers which came to him a few days ago. He said the crop was saved by C. E. Hens, Jay Barnard, C. B. Hall and John Sundine.

HOUSING OFFICE OPENED IN BANK BUILDING TODAY

The home registration office of the federal housing committee in Moline was officially opened today in the lobby of the Peoples Savings Bank and Trust company building. Mrs. E. Kennedy has been appointed by the sub-committee to direct the work of the office. She stated this morning that from reports which had reached the office the survey to ascertain the number of rooms and houses available for rental in the city would be completed this evening. Many of the committees opened their drive yesterday while others did not start until today. All of the information secured will be compiled, indexed and kept in the office where it will be accessible to the public, both during the day time and evening. A telephone has also been installed and information can be given and secured by that means. The number is Moline 1633.

PROMINENT CAPITAL GIRL TO BE NURSE

Miss Agnes O'Gorman, daughter of former Senator O'Gorman of New York, has announced that she will go to Washington soon to enter upon a three-year course in nursing. Miss O'Gorman has been at Westport on Lake Champlain. She is well known in Washington society.

ICE TROUBLE OF SILVIS IMPROVED SAYS DR. TAYLOR

According to an announcement coming this morning from the office of Dr. W. E. Taylor, county food administrator, the ice situation which has been causing trouble in Silvis for the past five days is somewhat improved. It was Charles Kebrer, well known chauffeur, who came to the assistance of the people of the village Tuesday and yesterday. He operated an ice truck between Moline and Silvis. The Silvis Ice company has been experiencing difficulty in securing a truck operator to transport the ice from Moline. The manager of the company states, however, that he intends to do his utmost to maintain a supply of ice at the company's office.

It was stated in these columns several days ago that the food administrator had taken over a supply of ice, the property of the Northwestern Brewing company in East Moline, in order to relieve the situation in Silvis. It has since developed that the company had a small stock for which it had no use and which it was perfectly willing to turn over to the Moline Ice company. This company, in turn, made the supply available to the Silvis concern.

BLANKS READY FOR G. A. R. ENCAMPMENT

Certificates of identification of the national encampment of the G. A. R. and its associated organizations, which will be held at Portland, Ore., one week, beginning Aug. 19, have been received by E. B. McKeever, adjutant of Graham post, G. A. R. Members of the Moline organization who expect to attend should procure the certificates from Mr. McKeever.

CALLED TO FIRE

A call from Hillside was received yesterday afternoon at the East Moline fire station for aid in fighting flames which were consuming a cow barn, hog house and a straw stack, the property of Richard Huybert, on a farm one mile from Joslin. Two men in the police auto with ladders and other equipment were rushed to the scene, but were powerless to save the property.

HOME IS RANSACKED

The home of Gust Hanson, Fifty-fourth street and Eighth avenue, was entered sometime yesterday afternoon. Mr. Hanson reported to the police today that about sixty pennies and an open-faced gold watch were missing. Youth are suspected of having committed the burglary.

Auto whirling flags, Beardsley's. Flavoring extracts, Beardsley's.

LACK OF CINDERS POSTPONES CLOSE OF WORK ON ROAD

Still another Wednesday afternoon of toil faces business men of Moline as a result of failure of two carloads of cinders from the Union Malleable plant in East Moline to reach the scene of activities on the Colona bridge approach yesterday afternoon. It was thought that the labors would be completed by nightfall yesterday but now one more afternoon must be spent in spreading the cinders.

Twenty-five volunteer workmen representing practically every line of business, spent four hours yesterday repairing holes, leveling high spots and spreading the surface with sand. Seven teams donated by Dimock, Gould & Co., three by the Greenleaf Hardware company, East Moline, and three by the East Moline Lumber company were on the job and aided greatly in the work.

At 6 o'clock the road gang proceeded to the Larson farm, nearby, and was served with a fried chicken dinner by the women of the vicinity. Enough had been prepared for 50 and one can well imagine that the 25 who were present had their fill of the now rare diet.

Those responsible for the fry were Mesdames Sherrill, Delaney, Rost, Horn, Hall and Greene and Miss Ruth Rost. The entire community contributed to the "feed" and on behalf of the workmen R. S. Haney thanked all who either gave or assisted with the supper. Frank Ammerman of Colona was given a mighty crafion when he appeared with a box of cigars after the supper had been consumed.

Here is the lineup of yesterday's toilers: William Carlsons, A. J. Kucheman, E. E. Morgan, H. N. Lacey, Dave Holmstrom, C. G. Hogberg, C. E. Hogberg, Floyd Hogberg, Eli DeRue, M. J. McEnty, Olof Nelson, R. S. Haney, Warren Sten, A. J. Pierce, J. A. Donahoe, E. L. McKenzie, Theodore Weitzand, Herbert Weitzand, Albert Vender, Vernon E. Schafer, C. F. Rost, Rene Guest, Henry Zimser, Wilson F. Hunt and Robert Brandt.

DIARRHOEA Quickly Cured by WAKEFIELD'S Blackberry Balsam

Wakefield's Blackberry Balsam has been the safest and most effective remedy for Diarrhoea, Dysentery, Cholera Infantum and Cholera Morbus for 75 years. While it is quick and positive in its action, it is unlike other remedies in that it is harmless and does not cause dizziness. It simply checks the trouble and puts the stomach and bowels in their natural, regular condition. Of the millions of bottles that have been sold, never has a case been reported to the manufacturer where a cure was not effected within directions were followed, even after other remedies had failed. Every home should have a bottle or more on hand ready for sudden attacks. Full size, 50c or \$1 for \$1.00 everywhere.

NEW FALL GARMENTS

In splendid assortments already in stock at THE BEE HIVE

Women who like to keep posted on the trend of fashion will find much of interest in the extensive assortments already here. In every department you can now see representative displays of the new and fashionable things for autumn wear.

THE NEW TAILORED SUITS
SILK AND CLOTH DRESSES
BLOUSES OF ALL KINDS
HUNDREDS OF NEW SKIRTS
MEDIUM WEIGHT FALL COATS
BEAUTIFUL NEW WINTER COATS
NEW MODELS, NEW FABRICS, NEW COLORS

A half hour or so spent in viewing the garments now ready will give you a definite idea of what fashion's tendencies are for the on-rushing season, and if a very substantial saving is of interest to you, right now is the time to make selections. The entire industrial world is turned topsy-turvy by wartime conditions, many materials and much of the skilled labor now being used for war purposes. We began preparations much earlier than usual and you can benefit by a worth while saving and by better qualities as long as present stocks last. Many of the finer materials can not be duplicated later at any price.

A deposit will reserve any garment for you until needed
THE BEE HIVE 2nd and Brady Davenport
