

THE ROCK ISLAND ARGUS.

VOLUME XXXIII NO 199.

ROCK ISLAND, ILLINOIS, THURSDAY, JUNE 18, 1885.

ESTABLISHED OCT. 18, 1851

THIS BEATS THEM ALL.

We Lead; Let Those Follow Who May.

Starting Saturday, May 23, we will sell for two weeks only, the following named goods at these remarkable low prices:

250 Men's All Wool Suits Only \$5.95.

These goods are the best quality of Cassimeres, Worsted, etc., and are all the latest styles, which we have been selling at from \$8.00 to \$12.00. Remember we are selling these goods at 25 per cent less than other merchants have to pay for the same.

200 Men's Fine Suits, your Choice for \$8.40.

All colors, finest quality, latest styles, sold everywhere at from \$10.00 to \$15.00; your choice for two weeks only \$8.40.

Men's Best Middlesex Flannel Suits, \$9.15
Men's Seersucker Coats and Vests, 2.75

Other merchants charge \$3.50 to \$4.00 for the same, and all other goods in the same proportion. Remember this is no advertising scheme, no damaged goods or bankrupt stuff, but simply done to give the people a grand opportunity to secure bargains such as they never had before. Call early and make selections as this grand sale will only continue two weeks. Remember the place.

COLOSSAL "LIBERTY."

BARTHOLOMEW'S GREAT STATUE SAFE IN NEW YORK HARBOR.

Sent Over in a Slow Vessel, It Still Gets Here Before the American People Are Ready for It—The Reception.

New York, June 18.—The French steamship I-ero, with the Bartholdi statue aboard, has arrived off Sandy Hook. The commander of the I-ero at once reported by telegraph to Gen. Charles P. Stone, engineer of the pedestal. The grand demonstration will not take place until Thursday morning, and will last for four hours' notice, in which time to prepare.

LATER DETAILS.

New York, June 18.—The long looked-for French steamship I-ero came to anchor in the harbor Wednesday morning, having consumed twenty-seven days in her voyage from Rouen, France. The vessel is anchored abreast of the United States steamer Omaha, which has been waiting her arrival for a week. The voyage was prolonged by the fact that the I-ero had been used as a transport and only had accommodations for coal enough to last six days for steaming purposes. She took a southerly course and touched at the Azores Islands, where she recalled. The most of the voyage was made under sail, her average speed not exceeding 10 miles per hour. The United States steamer Omaha received the visitor with full honors. When the I-ero came to anchor Capt. De Saunoy sent a telegram to Gen. Stone, the acting secretary of the Bartholdi statue commission, notifying him of the vessel's arrival and asking for instructions. To this Capt. Stone sent a reply welcoming Capt. De Saunoy and informing him that he would at once go down to the I-ero. At 9:30, accompanied by several members of the finance committee, Capt. Stone proceeded down the bay in one of the tugs belonging to the French consulate. When nearing the I-ero, the American colors on the tug were dipped, and was responded to by the lowering of the French tricolor on the steamer. Capt. De Saunoy met Gen. Stone at the gangway, and they heartily greeted each other. The other gentlemen of the party were then introduced. The party was then invited below, when Gen. Stone laid before the French commander the letter of introduction. The party then returned to the city.

Gen. Stone said that he could not state positively whether or not the formal reception of the I-ero and the gift she bears would take place to-morrow. He thought that the ceremony would be postponed until Friday. The reception, he said, would certainly not take place until the arrival of the French flagship Lafayette from Newport. Monday night a letter was received at the World office containing a check for \$30,000, signed, apparently, by William H. Vanderbilt. Tuesday it came out that the check was for the work of a practical joker who probably desired to convey a hint to Mr. Vanderbilt that he had better furnish the odd \$30,000 yet lacking to enable the engineers to prepare the foundation pedestal on Bedloe's island for the statue's reception.

A Canadian Land Patent Swindler.

OTTAWA, Canada, June 18.—In connection with the northwest trouble, it has come out that an official of the department of the interior named Robert Lang, who was sent some time ago to the northwest by the government to adjust certain land claims, has been issuing bogus land patents to settlers in the northwest and pocketing the money. An investigation is now going on, but as yet it is impossible to know the extent to which the unfortunate settlers have been victimized by Lang, who is reported that he had been detected in his fraudulent operations, left for the United States. It is believed that Lang was not alone in the land-patent swindle, and that several prominent individuals were implicated. It is shown to have been associated with him.

Duncan Ross Breaks the Record.

SAN FRANCISCO, June 18.—At Central park Tuesday Duncan C. Ross attempted to lower the record of Davidson, of Edinburgh, Scotland, and succeeded. His score was: Sixteen-pound hammer—Davidson, 103 feet; Ross, 109 feet 2 inches. Twelve-pound hammer—Davidson, 118 feet 6 inches; Ross, 121 feet 4 inches. Twenty-one-pound hammer—Davidson, 78 feet; Ross, 82 feet 3/4 inches. Putting sixteen-pound weight—Owen Duffy, Edinburgh, 43 feet 4 1/2 inches; Ross, 42 feet 7 1/2 inches. Throwing fifty-six-pound weight—Davidson, 28 feet 1 inch; Ross, 28 feet 6 inches. The judges were prominent athletes and newspaper men.

A Free Market for Oligomargarine.

SARATOGA, N. Y., June 18.—The opinion of the court of appeals against the constitutionality of the law prohibiting the manufacture of oligomargarine, says: "It prevents competition and places a bar upon progress and invention. It invades rights both of person and property guaranteed by the constitution. The sale of a substitute for any article of manufacture is a legitimate business, and if effected without deception can not be arbitrarily suppressed. The act is not aimed at deceiving, but it in effect creates a monopoly destructive of rights protected by the constitutions both of state and of the United States."

The Ohio "Democratic Aid Society."

CLEVELAND, Ohio, June 18.—It has just been discovered that the Ohio Woman's Christian Temperance union, which held its state convention at Kenton at the same time the Republican convention was being held at Springfield, has agreed unanimously to work against Mr. Foraker, because he ran on a liquor-tax platform two years ago and defeated the second amendment. The Republicans are very indignant, and have nicknamed the Woman's Christian Temperance union the Democratic Aid society. The women declare their intention to defeat Mr. Foraker if they can.

Another Scoundrel in Canada.

ERIC, Pa., June 18.—Reuben Pettit, the fugitive cashier of the Erie County Savings bank, was recognized Tuesday at Chatham, Canada, where he is running a store. Since his defection four of the depositors' depositors have killed themselves and three have gone crazy. Many of the victims threaten to cross the lake and punish the bank wrecker in his Canadian refuge. Steps will at once be taken for his arrest and extradition. The gentleman who saw Pettit telegraphs that he is sure of the identification.

Depose Elected Railway President.

New York, June 18.—At a special meeting of the directors of the New York Central railroad Wednesday, Clauunce M. Dwyer was elected president. His selection was unanimous. Ernest Corning was elected a director.

"I have no appetite," complains many a sufferer. Hood's Sarsaparilla gives an appetite and enables the stomach to perform its duty.

Notice to Dog Owners.

CITY MARSHAL'S OFFICE, ROCK ISLAND, June 16, 1885.—Notice is hereby given to owners of dogs to register and pay the tax now due. All owners of dogs are requested to pay their tax without delay to the city marshal at his office, as the ordinance in relation to dogs will be enforced to the full extent of the law. LOUIS V. ECKHART, City Marshal.

MOUNT MCGREGOR OZONE

Has a Salutary Effect on Gen. Grant—A Good Night.

SARATOGA, N. Y., June 18.—A dispatch from Mount McGregor says Gen. Grant passed a better night Tuesday than for a month past, and feels greatly encouraged. Wednesday he was able to use his voice better than for some time back, but he avoids talking, saying that he will let others do that.

PHILADELPHIA, June 18.—Mr. G. W. Childs' business manager says he does not think there is any truth in the report that Mr. Childs has paid Gen. Grant's doctor's bill. Mr. Childs is out of the city.

THE WESTERN MEN WITHDRAWN.

An End of the Iron Strike Reached for Pittsburgh—The West Disastrated.

PITTSBURGH, June 18.—The iron strike in this district is at an end; the scale has been signed and a general resumption of work will follow immediately. Outside of Pittsburgh, however, the strike will continue, and the mills of Chicago, Cincinnati, Wheeling, and the Mahoning and Shenango valleys will remain idle for an indefinite period. This is the result of Tuesday's conference. The manufacturers here agreed to settle the disputed question of wages to be paid the sheet-iron men and for working oil to a committee composed of seven manufacturers and an equal number of workmen. This agreement was not satisfactory to masters operating mills west of Pittsburgh and they withdrew from the conference, saying that under no circumstances would they grant the demands of the Amalgamated association. Pending a settlement of the sheet-iron and oil rail classes, the manufacturers operating those departments will pay the old scale of wages. Quite a number of the mills partially resumed work Wednesday morning. Graf, Bennett & Co. began work at their Port Pitt mill, the Vale works were fired up and Wilson, Walker & Co.'s furnishing department were in operation. The Sobo mill of Moorhead, McLean & Co. will likely resume work in one department at once. At many of the mills the repairs are not yet completed, consequently it may be a week before they are all running. Fear is already expressed that the arbitration committee of selected men to adjust the sheet mill claims may not agree. This will cause a renewal of the strike. It is reported that all the mills in the Mahoning valley have refused to sign the scale.

A QUARTER OF A MILLION

Gone to Smoke and Ashes—Big Fire in Philadelphia.

PHILADELPHIA, Pa., June 18.—The large pork and lard packing house of Washington Butcher's Sons, at the northwest corner of Sixth and Moore streets, was entirely destroyed by fire Wednesday morning. The flames were first discovered on the third floor of the building, at about 3:45 o'clock. The fire engines were quickly on the ground, but in consequence of the inflammable material in the building there was no chance of saving it, and the fire soon spread, directed their energies to preventing the destruction of the adjoining property. Two firemen were injured. Nothing is left of the building but the bare walls. The loss by the fire exceeded \$200,000, including the machinery, stock and building. The insurance is as yet unknown. Upward of 300 persons will be thrown out of employment, many of them are women and young girls. The entire building is four stories in height, running back from Moore to Pierce streets, and from Sixth street about 300 feet eastward.

Resignation of President White.

SYRACUSE, N. Y., June 18.—The reported resignation of Andrew D. White, president of Cornell university, is confirmed. A meeting of the board of trustees was held Wednesday morning, and a long secret conference was had with President White, at which the latter's resignation was tendered and accepted. It is said that every effort was made to induce Mr. White to remain at the head of the institution but to no purpose. The news of his resignation caused a great commotion about the college, and expressions of regret are heard on every side.

Heavy Gale on Newfoundland Banks.

GLoucester, Mass., June 18.—The schooner Alert arrived Wednesday morning from Grand Banks, and reports that on June 6 a great gale swept over the banks from west-south-west twenty-four hours, doing serious damage to American and French fishing boats. It is feared that a number of vessels have foundered, as large quantities of wreck were seen. The Alert had her decks swept, losing six dories, and received other damage. The gale was the most severe felt in twenty years.

Death of a Famous Woman.

STRANDBURG, Pa., June 18.—Lucy Ann Stone, one of the first years ago was famous all through the Delaware river counties as the female hunter of Long Eddy, died on Saturday in a New York state insane asylum. Her romantic history has often appeared in print. Her most remarkable feature was her marriage in the guise of a man to Mary Louise Perry, a young woman whose husband had deserted her.

Inundation in Illinois.

St. Louis, June 18.—The waters of the Missouri and Mississippi are rising rapidly, and the farmers on the American bottom fear the dikes will break and let the flood in on growing crops. The bottom is fifty miles long and ten miles wide. Hundreds of farmers are working on the dike in the hope of preventing a catastrophe. The town of Venice, Ill., is partly submerged.

The Rate War Bids It.

New York, June 18.—The receivers of the Western railway failed Tuesday to pay the past due interest on the company's main line bonds as they had promised. They issued a circular explaining that the failure was due to the war of rates, the falling off in business and the inability to dispose of receivers' certificates. They pray the further indulgence of the bondholders.

A Poultry Train.

A poultry train came in from the southwest Thursday, consisting of several fat cars, which had piled upon them successive ranges of coops occupied by 8,976 live hens and roosters, 200 turkeys, 50 geese and 200 ducks. They are the shipment of C. V. Worman, of Centerville, Iowa, for New York, in charge of Mr. L. R. Gillman, who reported it was the sixteenth trip he has made to New York with the Worman poultry. The business last year required a shipment of 278 car-loads and represented \$700,000. This year 108 car loads have been shipped to date. Seven hundred pounds of food were served to the present lot yesterday morning for breakfast.

The profits of the late Hugh Conway on the shilling edition of "Called Back" were \$9,000.

SCHOOL ELECTION.

Notice is hereby given that on Tuesday the 23rd day of June, 1885, at the 9 o'clock House (Court House Square) in the city of Rock Island, an election will be held for One Member of the Board of Education, which election will be opened at eight o'clock in the morning and continue open until seven o'clock in the afternoon of that day. THOMAS MURDOCK, Mayor, Rock Island, Ill., June 19th, 1885.

THE MARKETS.

CHICAGO, June 17. The market quotations on the board of trade today were as follows: Wheat—No. 2, June, opened 89 1/2, closed 89 1/2; July, opened 89 1/2, closed 89 1/2; August, opened 89 1/2, closed 89 1/2; September, opened 89 1/2, closed 89 1/2; October, opened 89 1/2, closed 89 1/2; November, opened 89 1/2, closed 89 1/2; December, opened 89 1/2, closed 89 1/2; January, opened 89 1/2, closed 89 1/2; February, opened 89 1/2, closed 89 1/2; March, opened 89 1/2, closed 89 1/2;
