

IT COST TOO MUCH.

The Mad Experiment Which Befell One of the Astors.

In the early days of the direct trade with China, importers were anxious to secure the earliest cargoes of a new crop.

The fastest clipper ships were engaged in the trade. Great haste in loading them was followed by a hot race to reach New York first.

The first cargo brought the best price and large profits. The successful captain was always rewarded, so every known aid to navigation was adopted.

The young captain of one of his ships, a new chronometer, and with it made a quick passage, and arrived first. He put the price of it into the expense account of the trip, but Mr. Astor threw it out, insisting that such an item of expense for new fangled notions could not be allowed.

The captain thereupon resigned and took service with a rival line. The next year he reached port long in advance of any competitor, to the great delight and profit of his employers, and the chagrin of Mr. Astor.

Not long after they chanced to meet, and Mr. Astor quizzed him: "By the way, captain, how much did that chronometer cost you?" "Six hundred dollars," then, with a quizzical glance, he asked: "And how much has it cost you, Mr. Astor?" "Sixty thousand dollars."

Men are often unfortunate in the rejection of what they call new fangled notions. There are sick men who refuse, even when their physicians tell them that it does not help them, to take Warner's Safe Cure, because it is a 'new fangled' proprietary medicine. The result is they lose—life and health.

Thousands of other men have been restored to health by it, as the testimonials furnished to the public show. These testimonials cannot be doubted. The proprietors have a standing offer of \$5,000 to any one who will show that any testimonial published by them is not, so far as they know, entirely true.

Dr. Andrew Wilson, Fellow of the Royal Society of Edinburgh, the editor of "Health," London, England, says, in his magazine, in answer to an inquiry, "Warner's Safe Cure is a perfectly safe character and perfectly reliable."

The refusal of a manufacturing firm to pay for the patent of a new invention by one of their workmen, cost them their entire business. A new firm took out the patent and were soon enabled to make goods enough cheaper to drive the old firm out of business; and many a physician is daily finding his patients, long-time chronic invalids, unaccountably restored to health by the use of the new kidney specific. New fangled notions are sometimes very valuable, and it costs too much to foolishly reject them.

Tonight at the Theatre. Manager Steel has secured one of the most popular and delightful entertainments traveling, in the famous comedian, Mr. John Dillon, who is to appear at Harper's theatre tonight. It is scarcely necessary to say anything in commendation of this great actor, yet the appended press opinion will be read with interest by his many friends here. It is from the Des Moines Register of a recent date:

Not since his appearance here a year ago has Foster's cozy theatre contained such a mass of humanity as that which assembled last evening to witness the second performance in this city of his new farce-comedy, "A Sky Scraper, or Dennis O'Dowd." Throughout his entire career Mr. Dillon has been a never tiring source of amusement to theatre-goers, and his years of experience have served, as they should simply to ripen and perfect his art. Gifted with a mind keenly sensitive to the humorous in life, he has sought to amuse, rather than instruct. He has never depicted the cruelties, trials and tribulations of life; never brought shadows, but sunshine; never claimed a tear, but a smile as his reward, and so at his coming, from our shops and counters, from our mills and markets of trade we assemble to laugh away and forget our cares. Judged from this standpoint the comedian last evening must be credited with fulfilling his mission and the play a grand success. It is one of those comical creations that defies all rail of criticism, but you will laugh. The fun commenced with O'Dowd's first appearance and increased in violence until the curtain went down on the last act of a delighted audience.

Mrs. Alice J. Shaw, the whistling prima donna, is to give a grand concert at Harper's theatre Friday night. The Philadelphia Enquirer says: "An irresistible smile crept around the corners of the mouths of the ladies of the audience when Mrs. Shaw first began, just as they all do when caught with pretty pucker on their lips at home, but the novelty finally wore off, and all were devoted to the merits of her whistling. Her tone is large enough to make the house ring, and she has slightly less than a canary bird's technique."

"Man wants but little here below, nor wants that little long." says the hermit of Goldsmith. Perhaps he does, if he is thinking of colds, but if he is thinking of cough remedies, he wants it more when he gets it. Dr. Bull's Cough Syrup meets the wants of suffering humanity, and is all one wants here below to stop the ravages of pain.

For the relief and cure of the inflammation and congestion called "a cold in the head" there is more potency in Ely's Cream Balm than in anything else it is possible to prescribe. This preparation has for years past been making a brilliant success as a remedy for cold in the head, catarrh and hay fever. Used in the initial stages of these complaints Cream Balm prevents any serious development of the symptoms, while almost numberless cases are on record of radical cures of chronic catarrh and hay fever after all other modes of treatment have proved of no avail.
