

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE

LATCHSTRING OUT

At the World's Fair to Indiana Editors.

EVERYTHING WIDE OPEN FOR THEM.

They Settle Down to Business and Amusement Promptly and Vigorously—Commercial Travelers Parade on Michigan Avenue Preparatory to Advance on Jackson Park—Indian School in Operation—Popular Teachers From Pittsburg.

CHICAGO, July 25.—The Indiana editors were given a warm reception when they landed at the World's fair pier on their first visit to that great wonder. It was Old Sol who supplied it the warmth, about 100 degrees of it. But Hoosier editors are used to hot places, and so they set to work to carry out their programme as if a ther-

INDIAN SCHOOL BUILDING.

mometer ready to explode was a matter of small moment to them. Their annual summer association meeting will be held in the state building, and includes a systematic inspection of the exposition, combining business and pleasure in the daily programme of entertainment.

Held an Informal Session. Headed by Commissioner Havens the editors went first to the state building. After dinner and a short rest from their long midday trip the members of the association were called together by their presiding officer and an informal session was held. Commissioner Havens made an address of welcome which was responded to by the president. Other informal speeches were made, but owing to the excessive heat the meeting was not long and the association soon adjourned to the open air. Then they proceeded to see the outside of the buildings which took them all the balance of the day.

Entertainment at Night. At night they were entertained at a reception given in the state building between 8 and 11 o'clock. Every arrangement was made to make this a highly enjoyable social event, and the editors were at the same time able to see the exposition at night and pass upon the electric display that turns the park into fairyland and is always a pleasant surprise to the newcomer. Passes have been furnished all the editors to everything on the grounds, including the shows on the Plaisance, and in fact the latch-string is out down there for the Hoosier editor.

First Session of the Meeting. This morning the regular meetings began at 9 o'clock. The programme was as follows:

Address—R. A. Brown, the Republican, Franklin, Ind., president Indiana R. E. A. Address—General Smith D. Atkins, The Journal, Freeport, Ills., president Illinois R. E. A.

Address—H. H. Kohlsaat, The Inter Ocean.

Address—General Jasper Packard, The Tribune, New Albany, Ind.

Address—"The Press and the World's Fair," Major Moses P. Handy, chief of department of publicity and promotion, World's Columbian exposition.

"Duty of Party to Press," S. Vater, The Call, Lafayette, Ind.

"Loyalty the Nation's Defenders," C. W. Stevens, The Herald, Liberty, Ind.

"Indiana," Charles B. Landis, The Journal, Delphi, Ind.

After the reading of papers brief discussions followed, the subjects being of mutual interest and benefit to men engaged in the making of newspapers.

Organizations Consolidated. The three organizations of editor—State Press and Democratic and Republican Editorial associations—have effected a temporary organization for the purpose of seeing the fair. The following officers were:

STATUE OF BRIGHAM YOUNG.

Selected: President, John B. Stowe, Times, South Bend; secretary, John O. Hardesty. Seventy-five of the editors and publishers who are members of the Republican Editors' association of Indiana spent some time at the state building, and were in business session for one hour in the assembly hall.

The Drummers Begin Their Week. The commercial travelers met this morning on the lake front under their respective states, without regard to organization, headed by the Van Bulow Military band of sixty pieces, and escorted by the Chicago Hussars, under command of Captain E. L. Brand, who acted as chief marshal of the day. The parade marched down Michigan avenue and counter-marched, passing the reviewing stand in front of the Traveler's club, 127 Michigan avenue, where they were reviewed by Mayor Har-

INDIAN PUPILS AT THE FAIR.

They Take Possession of the Indian School House—Notes.

Forty-six pupils, thirty-one boys and fifteen girls, of Haskell institute, the government Indian school at Lawrence, Kan., have arrived at the fair, and will remain until Aug. 16. The young Indians and their instructors have domiciled themselves in the Indian school building, George R. Dave, the master harness-maker, and Robert D. Agosa, the master tanner, accompany the school, and the latter, a full-blooded Chippewa from Northport, Mich., is the only Indian in the world having full charge of a tailor shop. He works forty-five young men and women, doing all the cutting and fitting for the children of the school, numbering 600. He is a pupil of the school.

There are twenty-one tailors represented among the Indians of the school at the fair, and among the blancketed tribes represented are the Cheyennes, Arapahoes, Wichitas, Caddos, of Indian territory, and Sioux from the Pine Ridge agency. The boys have a brass band of twenty-two pieces, and this will be one of the features of the Haskell exhibit. Every day, Sunday excepted, the pupils, from 10 to 12 o'clock and from 2 to 4 o'clock, will pursue their usual school and industrial duties and while at such exercises the school building will be open to public inspection.

Fifty teachers from Pittsburg sent here by a Smoky City newspaper as the result of a vote declaring them the most popular teachers of the city, arrived at the park today. At 2 p. m. a reception will be tendered them at the Pennsylvania state building. Major M. P. Handy, chief of the department of publicity and promotion, and Wilson M. Gearhart, chief clerk of the Pennsylvania commission, will make addresses, to which N. C. Schaeffer, superintendent of public instruction of Pennsylvania, and Congressman John Dalzell, of Pittsburg, will make responses.

In the grounds around the Utah building there is a fine statue of Brigham Young, which is much admired by visitors. The statue represents the great Mormon standing with arm outstretched as if speaking, and is declared to be a first-class likeness of the Mormon leader.

Paid admissions to the fair yesterday dropped to the discouragingly low figure of 79,458, but there is a good prospect of a large attendance during the remainder of the week.

George W. Clingman, the Sunday opener, has had the World's fair authorities cited for contempt in closing the fair against Judge Stein's injunction. So that fight is on again.

This is the week of the International Scottish festival and the World's fair Caledonian games, under the auspices of North American United Caledonian association and the Scottish clubs and societies of the United States and Canada. Last evening William Gardner, president of the North American Caledonian association, tendered a reception to the delegates to the annual convention of the association at the Sherman house.

THE BUREAU OF AWARDS.

John Boyd Thacher Tells What It Expects to Do.

The much criticised bureau of awards, headed by John Boyd Thacher, is pursuing its set course vigorously, and the various ends of the work are gradually taking form and shaping themselves into a whole which promises much good to the world. In speaking of the methods upon which the work of his bureau is based Mr. Thacher said: "This bureau from its organization has proposed to cause the most complete and exhaustive examination of the exhibits in the exposition, that we might obey the injunction of congress requiring us to disclose to the world the progress made in the arts, industries, and sciences. The commercial side of the awards question sinks into insignificance when compared to the instructive side.

"Grain is to be chemically examined to discover if the farmer is utilizing his land for the best purposes. Wool is to be examined upon in the laboratory to ascertain the value of the fibre and the propriety of raising certain grades of sheep in certain localities and under certain conditions. Food products are to be analyzed and their physiological value determined. The opportunity to thoroughly investigate and weigh the best work of mind and hand brought here by the nations of the world will not occur again this generation.

"It would have been easy enough to have adopted the old-fashioned, meaningless method of making awards, and then everything would have been delightfully comfortable. But what educational results would there have been? To know that John Smith got a prize for his exhibit tells the world nothing. What we want to know is the specific merit or improvement over the past disclosed by his exhibit. I have always felt that the intelligent public would sympathize with us in this matter if it once understood our object."

Killed by His Employer.

OCONOMOWOC, Wis., July 25.—William Schumacher, coachman for William A. Thompson, of Chicago, was instantly killed by a blow struck by his employer. Young Thompson is a son of William A. Thompson, who died last year, and lives at his summer residence in Islandale, on La Belle lake. Mr. Thompson had occasion to visit his stable when he found his coachman in an altercation with another employe. Mr. Thompson interfered and struck Schumacher a blow under the ear from the effects of which he soon after died. The postmortem examination showed that death resulted from alcoholic apoplexy.

Jokey Thrown and Fatally Hurt.

CONEY ISLAND, July 25.—Jockey Thomas Flynn was thrown from his mount at the Brighton Beach race track and received injuries from which he died soon after. The accident occurred while the second race was being run. Flynn was 22 years old and rode for James McCormick.

GLOOM FOR MINERS.

Threatened With Troops by Weir City's Sheriff.

THE DYNAMITE FIEND AT HIS WORK.

Foreign Strikers Said to Be Making Bombs—Governor Lewelling Orders the Sheriff to Put Down Lawlessness—Some of the Mines at Work Protected by Deputies—The Sheriff Makes a Speech.

WEIR CITY, Kan., July 25.—A dispatch from Topeka says that the governor held a conference with the state officers as the result of the reception of a number of telegrams from this place. The conference was secret and the only thing made public so far is a telegram sent to the sheriff of this county, which reads as follows: "Under no circumstances can the state authority permit violence. Strikers must not trespass nor assault United States deputy marshals, nor destroy property. Read this to the miners." This is signed by Governor Lewelling and has stiffened the backbone of the sheriff. As a result of this the situation is hopeful for the mine operators and gloomy for the strikers.

Threatened with the Military.

Shaft No. 4 at this place has started up. The non-union miners were protected by a force of deputy sheriffs. Shaft No. 18 was also started. The sheriff made an address to the strikers. He told them that he was under orders from the governor to keep the peace and protect the men who are working, and that he would certainly obey. He also said that if he found that he did not have and could not obtain a sufficient number of deputies to protect the non-union men he would call upon the governor for troops. There are he said 200 military stationed within three hours' ride on the cars from Weir City. If brought there, he said, they would soon decimate the ranks of the strikers.

Manufacturing Dynamite Bombs.

In conclusion the sheriff said that the only thing that now causes him to apprehend further trouble is the fact that foreigners in Weir City are manufacturing dynamite bombs. The Keith and Perry mine will resume operations some time this week with a guard of thirty deputy sheriffs.

AN EMBARRASSMENT OF SILVER.

So Much of It in the Chicago Sub-Treasury That It Is Barred.

CHICAGO, July 25.—A notice has been posted in the United States sub-treasury to the effect that silver would not be received. During the day many employes of banks brought in sacks of the white metal to get currency in exchange, but they had to shoulder their loads and go again as they came. There is more silver lying around uncounted behind the rails of the sub-treasury than the force can handle. On every shelf and in piles on the floor canvas sacks filled with dollars and other coins are stacked up until there is hardly room to get about.

"We are unable to handle the big amount of silver we have on hand," said one of the officials, "and until it can be all counted and checked up we will not receive any more over the counter. For some time past great quantities of silver have been brought here by the banks to be exchanged for currency, until the amount has become greater than we can handle, and we have had to call a temporary halt. This is all there is to the matter."

RUIN OF A JEWELER'S AGENT.

He Robs His Employer, Gets into Jail and Makes a Long Confession.

ST. PAUL, July 25.—Frank M. Spohnley, a Chicago wholesale jeweler, has arrived and secured the arrest of Jacob W. Loewenberg, agent for his firm here, on the charge of embezzlement. The total amount of Loewenberg's stealing is very large, but the warrant only covers his pecuniary since February, some \$5,000. The Chicago company paid Loewenberg \$300 a month and billed him from \$20,000 to \$25,000 worth of goods at a time.

There was an ironclad contract between Loewenberg and the firm in Chicago to sell nothing here except at an advance of at least 15 per cent. Orders were, however, disobeyed by Loewenberg; he sold goods right and left at anything he could get and pocketed the proceeds. He is now in jail and has given out a confession covering fourteen typewritten pages.

The Boycott in Politics.

BUTTE CITY, Mont., July 25.—At a meeting of the merchants and business men held at the city hall, Mayor Dugan presiding, resolutions were adopted binding the participants not in any case or under any circumstances to patronize any house or use the products of any manufactory the owners or operators of which are known to be antagonistic to free coinage, "natural circulation," and extended scope of the silver dollar as a debt paying medium for commercial obligations. The Butte City board of trade adopted these resolutions.

What Congress Will First Do.

CHICAGO, July 25.—"The first thing congress should and probably will do," said Senator Vandenberg, of Nebraska, in an interview today, "is to pass a resolution that the government will keep every silver and paper dollar on a parity with gold. I am not in favor of creating a double standard, but am in favor of a double basis, and I can see a distinction with a difference between a standard and a basis."

Conductor and Brakeman Killed.

HOUSTON, Tex., July 25.—A terrible wreck occurred on the Southern Pacific, seven miles east of here. An engine escaped from the yards here without engineer or fireman and went dashing east at a terrific rate of speed. It crashed into the rear end of a freight train going in the same direction, smashing up thirty cars. Conductor Harrison and Brakeman Watson were both killed.

Another Indorsement for Altgeld.

BOSTON, July 25.—At a meeting of Typographical union No. 13 resolutions were passed commending the pardoning of the Chicago anarchists by Governor Altgeld, the resolution calling the men "the victims of a capitalistic conspiracy of 1880 to throttle the eight hour movement of that year."

Poison in a Military Mess.

ASBURY PARK, N. J., July 25.—About sixty members of the Second regiment, New Jersey militia, in camp at Seagirt, have been poisoned by oxalic poison from the tinware used in cooking. The surgeons are hard at work on the victims who will all recover.

EXCURSION ACCIDENT.

Spreading of Rails Causes a Bad Accident on the B. & O.

CLEVELAND, July 25.—A World's fair excursion train on the Baltimore & Ohio road was wrecked eight miles east of Akron this morning, spreading rails causing the accident. Five loaded coaches were thrown down a 10-foot embankment. Nobody was killed outright, but 30 were injured, five seriously. All the injured ones were sent to Akron on a special train and are in the hospital.

ABBREVIATED TELEGRAMS.

Joe Jefferson emphatically denies the report that he is afflicted with cancerous affection in the neck. The report was a special in a New York daily.

Toledo claims a population of 144,000.

The jawbone of a mastodon has been found near Virginia, Ills. It weighs 103 pounds, is 3 feet 8 inches long and 21 inches wide and contains four huge teeth.

In England 150,000 velocipedes are turned out annually. In France, where they used to laugh at the wheelmen, there are now 300,000 proprietary wheelmen, and perhaps as many more who hire wheels.

Forest fires are raging in the mountains of Wyoming, and much of the choice timber in Johnson and Sheridan counties has already been destroyed. No rain has fallen there for nine weeks.

Samuel Edison, father of the inventor, will celebrate his 91st birthday next month.

Henry Singleton, a life convict in the Mississippi penitentiary, has been indicted for the murder of a fellow convict within prison walls, and may now be hanged for it.

The New England coast was visited by a severe wind and rain storm. Buildings were blown down and unroofed and other damage done in nearly every city between Portland, Me., and Haverhill, Mass.

The body of Lee Walker, the negro who was lynched at Memphis, was afterward burned by the mob. The sheriff whose cowardice permitted this prisoner to be taken out of jail has been suspended by the judge who had ordered him to protect the prisoner.

Obituary: At Ventura, Cal., ex-Congressman William Vandever; at Jersey City, N. J., General William F. Abbott, aged 39; at Wooster, O., Nancy Q. Larwill, aged 100.

The Citizens bank of Connorsville, Ind., has closed, but says it will pay depositors in full. It is owned by ex-United States Treasurer Huston.

The lighthouse keeper at Tiverton, N. S., and his family drank rainwater that had fallen on a painted roof. His wife and daughter are dead and the balance of the family very sick.

Bradford & Church, bankers of Chicago, have closed their doors and their whereabouts seem to be unknown. The liabilities are nearly all due to poor people and amount to \$50,000.

The large steel plant of Jones & Laughlin, at Pittsburg, after being idle for several weeks, has started in all departments, employing 5,000 men.

It turns out that Shamaker, who murdered the two Lukens brothers, at Metropolis, Ills., did not commit suicide, but accidentally shot himself while reloading his pistol. During his murderous fusillade he fired one shot at Mrs. Lukens.

Senator Vance, of North Carolina, has again announced his adhesion to the free silver idea—this time to the Populists of his state.

The Woman Tramp a-Coming.

MONTICELLO, Ills., July 25.—Mrs. L. D. Rodney, who is walking 1,346 miles from Galveston, Tex., here, has left here. She has traveled 1,290 miles and has 146 miles yet to make the Dearborn station, Chicago. She lost eleven days on account of bad weather and a sprained leg, and will not attempt to make Chicago by the 27th in order to receive the extra \$500, but will endeavor to get there before Aug. 1 and win the \$5,000.

Shipping Negroes to Kansas.

BIRMINGHAM, Ala., July 25.—About five hundred negroes were shipped from here to Leavenworth, Kan. It is proposed to replace strikers with them. Agents of the mine owners will endeavor to secure 1,000 more negroes.

Hanlan Beaten by Gaudaur.

ORILLA, Ont., July 25.—Gaudaur beat Hanlan on the second trial of their race for the championship of America by seven lengths. He treated the once invincible rover to a dose of his own medicine, too. A quarter of a mile from the finish he stopped rowing—as Hanlan used to do—and waved his hand in response to the cheers of his friends. His time was 19:53, Hanlan 12 seconds later. The latter claims that the course was changed, causing his defeat, and has notified the stakeholders not to pay the money.

Caution!

Don't be deceived by ignorant, unscrupulous fakirs and confidence men, assuming to offer "Indian Remedies," and who pretend that their nostrums are made by the Indians.

KICKAPOO Indian Sagwa

and other Kickapoo Indian Remedies are THE ONLY GENUINE INDIAN REMEDIES MADE AND SOLD IN AMERICA.

The word "Kickapoo" is copyrighted and they dare not steal that.

Be sure you get "Kickapoo Remedies," and see that every bottle or package bears this fac-simile signature thus:

Distributing Agents, 521 Grand Av., New Haven, Ct. These genuine Indian Remedies are not peddled but are sold at all drug stores.

FREE! Send three 2-c. stamps to pay postage, and we will mail you a free thrilling and intensely interesting book of 172 pages, entitled "LIFE AND SCENES AMONG THE BLACK AND RED INDIANS." Tells all about the Indians.

Klug, Hasler, Schwentser.

In Buying Dry Goods Don't fail to call on us. All goods are new. Satisfaction guaranteed. KLUG, HASLER, SCHWENTSER Dry Goods Co., 217, 217½ W. 2nd St., Davenport, Iowa.

A WALK OVER.

Our Shoes have a Walk-over. For downright positive cheapness you will find it not difficult, but impossible to match our fine shoes.

Our artist's private opinion is that he has a walk-over. Well, he might be much further from the truth. Don't take our word for it; investigate the matter for yourself. A small margin on a continuous customer knocks out a big margin on a single sale every time.

That is why we are selling this shoe at a figure which no other dealer has ever dared to quote and that is why prudent purchasers are prompt purchasers.

Wright & Greenawald 1704 SECOND AVENUE.

CUT IN HALF.

We give a few of the bargains which we will offer this week:
