Edwin Ward has returned from Joliet, where yesterday he attended the funeral of his brother, Fred B. Ward, who died Wednesday, aged 50 years.

He was formerly a wellknown Henry county farmer and had many friends in Rock Island. Death was due to Bright's disease. He leaves a wife and seven children.

Rock Island's custom officer gave the Harris' Nickel Plate show a license to preempt the government lot at the corner of Sixteenth street and Second avenue for a consideration, and now the aforesaid custom officer knows not what to do with the proceeds pending such time as congress may create a special fund for their safe keeping. Evidently the local custom officer is not aware that federal officers have lost their necks for taking less liberty than this, or he would not have taken the chances for the world.

Miss Carrie, the 17-year-old daughter of C. W. Reed of Moline, eloped from her home there July 24, going to Clinton with a young man named Thomas Thompson. They were married and it appears from the statements of the father that some one committed perjury touching her age in order that the license might be secured. Opposition on the part of the Reed family led the girl to take the step. They claim to have good grounds for not favoring her choice. The young couple have not yet returned to ask parental forgiveness, but inquiries touching them have been made on this side of the river. As far as known they are still in Chicago.

Factory Notes.
The Rock Island Buggy company will shut down tomorrow to allow the employees to attend Forepaugh's circus.

The Rock Island Lumber company's mills are running full force, although the men expect to be laid off at any time. The sash shop is running, but with only about half force.

Warnock & Ralston's soap factory is running very slack. They hardly run half time, where formerly 250 boxes of soap were made weekly. Now 25 fits the bill. Orders are being cancelled and deferred.

Weyerhaeuser & Denkmann's saw mill is still running full force, except in the shipping department, where they are slack. They on an average ship only from six to ten cars a day. There was talk three or four days ago of shutting down Sept. 1, but the rumor has died out.

The Moline Republican-Journal estimates the number of men out of employment in that city, either on account of shops shutting down temporarily, or from a reduction of the forces as follows:

Conrad & Co.....	300
Union Millable.....	200

Police Points.

John Deselle was arrested last evening on general principles. His hearing was postponed until next Tuesday.

A journeyman baker employed for a few days at DeRue & Anderson's City bakery played the sneak yesterday and disappeared with a couple of gold watches, a gold ring and some articles of wearing apparel.

W. Eastman, M. McKean, W. J. Spain, G. E. Wilson and Frank Wilson were arrested last night, and this morning Police Magistrate Schroeder fined each \$20 for vagrancy, but the fines were suspended if they would leave town.

Emil Depope, a Belgian, was arrested by Officer Mancker last evening for disorderly conduct. It seems that when Depope indulges freely of fire-water he takes particular delight in choking his wife. Magistrate Schroeder imposed a fine of \$5 and casts this morning for one of these offenses.

Fakes.
It has been many a long day since Rock Island has been invaded by a greater number of fakes than there are in the city today. The town is perfectly alive with them. You see them on nearly every corner in the business part of the city, to say nothing of the suspicious characters you meet along the streets. The advance of these transient enterprises came in last night in the shape of a 6-horse wagon containing a chest in which reposed a "petrified woman—found in California," and the town will probably not see the last of these institutions for two or three days.

Chief Sexton and all his men are doing double duty, but as an additional precaution people will do well to keep their doors locked and to muzzle their dogs for the time being.

John Davidson is now devoting himself to his position as advertising excursion agent for Black Hawk Tower. Tomorrow Mr. Davidson has charge of an excursion from

Food for Powder.

What is certain is that Napoleon gained 60 battles, 10 more than Cesar, and, to quote the figures preserved at the war office, he expended during the wars of the consulate and the empire 1,700,000 men.

This man was visiting the battlefield of Magdeburg, and struck by the number of dead which lay around some of his soldiers, said to Count Rapp, "What is the regiment that has fought so well?" and upon the reply, "The Thirty-second," stopped and said meditatively, "How does it still survive? I have killed so much of that regiment, in Italy, in Egypt and everywhere, that there can be no more of it left."—London Atheneum.

One Sure Refuge.

Deacon Ironside had been attracted by an interesting story in his favorite paper, The Weekly Commentator, and had found that it led gently to an eloquent and moving dissertation on the merits of Dr. Rybold's concentrated extract of wild cherry, price 25 cents a bottle, for sale by all druggists.

"It's got so nowadays," he ejaculated, throwing the paper down in disgust, "that there's only about one publication that doesn't trick you into reading patent medicine puffs!"

And he picked up the family Bible and opened it at the book of Jonah.—Chicago Tribune.

Great Bargains.

Having purchased of George M. Loosley the entire stock of crockery, glass, china, stoneware and cutlery at 1609 Second avenue, and being desirous of reducing the stock to enable me to make extensive improvements in the store room, I will for a limited time, sell at cost any of the goods in stock. They are all in good order, fresh and in great variety.
