

LOCAL NEWS OF INTEREST

Herman Goodman and Penny Wane have framed up to put in a crop this season. They will plant 40 acres of beans and as much cane on Penny's place and maybe a lot more on the Shannon farm. The prospect for a crop this season should lure a lot of other people to get busy and plant summer crops.

Miss Clyde Dyer, of California and Miss Mabel Russel, of Tucumcari, are at the C. A. Armor home assisting in caring for Mrs Jones, whose life seems still hanging by a very slender thread.

C. E. Burton and wife of Solano were in town Friday market ting.

AMERICAN SOLDIER THE BEST

World's Records for Marksmanship All His, and He is Trained to Act on His Own Initiative.

If there is one big, distinguishing trait of the United States regular, it is individuality. In every one of the great foreign military nations, particularly Germany and Japan, batallion and company officers and enlisted men are carefully trained not to think for themselves. They are used as mere chess pieces under the guidance of a master mind. In this country, where our melting pot has yielded us an extraordinary self-reliant, cool thinking, intensive initiative product, it is only natural that our soldiers should be trained as are our civillians.

The United States army spends annually on rifle target practice five times the sum spent by any other army of an equal number of men. This applies, too, to our field and coast artillery. As a result, no better marksmen can be found than the American soldier and his cousin, the national guardsman, who is trained along the same lines. Every world's fire control and accuracy record with rifle and big gun is today held by the American soldier.

The United States army is small, in accordance with the will of the people not to support a large standing military establishment. But what we have is almost 100 per cent. efficient, the splendid nucleus of the big army of regulars, militia and volunteers which we should place in the field if occasion required. It is only in equipment — quartermaster, commissary, medicine and particularly ordnance stores—that our army is lacking.—Leslie's.

FOR SALE:— A good Shorthorn Bull, coming 8 yrs. this fall. gentle and a fine individual.

SLEDS USED IN THE YUKON

Not Constructed Along Lines of Beauty, but for Hard Work They Are Perfection.

The Yukon sled, while not a thing of beauty, is built to stand all kinds of hard wear, or, as the Irishman said, "It will last forever, and after that can be used for firewood." The sled is about eight feet long, is made of any kind of hard wood, lies close to the ground, costs from \$10 to \$14, and makes a trail sixteen inches in width. Another pattern is known as the basket sleigh, and it is to the Yukon sleigh what a three-masted schooner is to a coal barge. In length it is from eight to fifteen feet, is made of birch, oak or hickory, cuts a trail twenty-two inches in width, costs from \$40 to \$200, is raised a foot or more from the runners, and, in the best examples, is lashed together with rawhide. The basket sleigh, as its name implies, is fitted with a basket, into which the load is placed, and from the back of the basket a pair of handles project, to be used in guiding the sled on the trail. It often happens that a Yukon sled will be fitted with a home-made basket, in imitation of its more aristocratic brother. In very cold weather wooden runners are best, but in ordinary circumstances steel or brass runners are used.—Wide World Magazine.

Notice For Publication

Department of the Interior, U. S. Land Office at Clayton, N. M. Clayton, 017794.

Apr 23 1914.

Notice is hereby given that the State of New Mexico has applied to select under the provisions of the Act June 20, 1910, and the acts supplementary and amendatory thereto, the following public lands, to wit:

List 429 Serial 017794.

Lot 1, OR the NE 1/4 NE 1/4 sec. 5, T, 17 N, R. 26 E. N.M.P.M. Containing 40 acres.

The purpose of this notice is to allow all persons claiming the land adversely or desiring to show it to be mineral in character, an opportunity to file objection to such selection with the local officers for the land district in which the land is situated, to wit:— at the land office aforesaid, and to establish their interests therein, or the mineral character thereof.

Whooping Cough.

"About a year ago my three boys had whooping cough and I found chamberlain's Cough Remedy the only one that would relieve their coughing and whooping spells, I continued this treatment and was surprised to find that it cured the disease in a very short time," writes Mrs. Dalrymple, Crooksville, Ohio. For sale by all Dealers.

Early Days of Cigarmaking.

At one time in the early history of this country cigarmaking was an important industry in Germany and large quantities of German made cigars came to the United States. The first separate tabulation of cigar imports was in 1804, and in that year 4,000,000 were brought into the United States, nearly all of them coming from the West Indies.
