CHURCH SERVICES.

PRESBYTERIAN CHURCH.

Mr. Mahy will speak to the Sunday School at 9:45 and Mr. Young will sing. Let the entire school be present. Also Mr. Mahy will preach at the 11:00 o'clock service.

FIRST M. E. CHURCH.

The First Quarterly Conference of the First M. E. Church will be held at the home of Rev. Dr. Harkness, Wisconsin avenue, Saturday evening, March 20, at 7:30. All members are requested to be there. Rev. Mr. Porter will preach the next morning at 11 o'clock.

THE VESPER SERVICE.

Next Sunday the Vesper service is planned to be in sympathy and support of the evangelistic meetings. The business men of DeLand are especially invited, though the meeting will not be limited to men. All persons are invited to attend, and bring their friends.

The meeting last Sunday was for women only and it was very largely attended, but next Sunday's service is for men and women both.

BAPTIST CHURCH.

Services at the Baptist Church on Sunday, 21st, will be as follows: Bible School, 10 a. m.; Morning Service, 11

On last Sunday afternoon at 4:30 an open air service was held in front of the post office by the management of the Union Evangelistic Meetings. Large numbers collected in the street for this service. The music was good, and Rev. U. S. Tabor delivered an excellent talk, after which the men of the town gathered in Haynes Hall and listened to another address by Evangelist Mahy. At the same hour Dr. Hulley addressed the women and children of the town in the auditorium. There was excellent special music at the auditorium, while the music of the hundreds of male voices in Haynes Hall was something worth hearing.

The Union Evangelistic meetings being held in the Presbyterian church are continuing to draw large congregations, with increasing interest. On a number of evenings the building has been taxed to its utmost capacity to hold the people. The Sunday school room has been utilized, and chairs placed along the aisles to the very front, and still many persons were compelled to stand in the entries during the entire service, while others turned back from the door. Mr. Mahy preaches strong, forceful sermons. Mr. Young's singing is winning the hearts of the hearers. Notable among others who have helped in the meetings, besides the pastors of the various churches of the town, are Prof. Phillips of the Rochester Theological Seminary, Dr. Hamilton and Rev. Addyman Smith, of DeLand, Dr. Phillips, of Boston; Evangelist Cecil, of the East Coast, and others. The meetings will close with the Sunday evening service.

DR. PORTER'S WAR AGAINST THE FLY

Dr. Porter's war of extermination against the house fly is attracting considerable attention outside of the State of Florida, as evidenced from the following from a recent issue of the *New Orleans States*:

"A war of extermination against the house fly is being carefully planned in Florida by Dr. Porter, the State health commissioner, who it seems is to have the benefit of the advice and assistance of Edward

the Sand Fly Park district will be changed.

"We are also informed that a vigorous campaign against the fly is to be conducted in Louisiana under the leadership of a number of public-spirited citizens of this city. The plan is to enlist all householders in the war. It is proposed also to have southern cities adopt the plan of Dr. Woodward, the health officer of Washington, D. C., who has established a rule to prosecute all stable keepers who fail to register at his office. As a result of this registration it is possible to insure the supervision of stables by competent sanitary inspectors whose duty is to enforce measures to prevent the breeding of flies.

"It appears that all the southern states are preparing to engage in the war against the pest now known to be dangerous to human life, and as the summer advances the campaign will be started in the northern states, but the plan of warfare all along the line will be the destruction of the breeding places of the flies.—Pensacola News.

A BOY'S ESSAY ON THE EDITOR

"I don't know how newspapers came to be in the world, and I don't think God does, for he hain't got nothing to say about them in the Bible. I think the editor is the missing link we read of and strayed in the bushes until after the flood and then came out and wrote things up and has been here ever since. I don't think he ever died. I never saw a dead one and never heard of one getting licked. Our paper is a mighty good one; but the editor goes without underclothes all winter and don't wear any socks and pa hain't paid his subscription since the paper started. I asked pa if that was why the editor had to suck the juice out of snow balls in winter and go to bed when he had his shirt washed in summer.

Then pa got mad and took me out in the wood-shed and licked me awful hard. If the editor makes mistakes folks says he ought to be hung; but if a doctor makes any mistakes he buries them and people dassent say nothing because doctors can read and write Latin. When the editor makes mistakes there is lawsuits and swearing and a big fuss, but if a doctor makes one there is a funeral, cut flowers and perfect silence. A doctor can use a word a yard long without him or anybody knowin' what it means; but if the editor uses one he has to spell it. If the doctor goes to see another man's wife he chages the man for the visit; but if the editor should go he gets a charge of buckshot. Any college can make a doctor to order, but an editor has to be born.—Ex.

Mrs. Seaton, of Jacksonville, gave a most interesting account of the work of the Children's Home Society in Florida. Although begun only six years ago, the society has provided homes for 176 dependent children. The advantages of family life for the children are far superior to institutional life.

The program, in charge of the civic department, was as follows:

- Piano Solo: "Momento Capriccioso," Weber;—Miss Edwards.
- Paper: "The Science of Society," by Mrs. Crummer, read by Mrs. Stewart.
- Vocal Solo: (a) Oh, Dry Those Tears. (b) The Old Black Shawl.—Mrs. Gethro.
- Reading: "In a Hospital" Tennyson; Mrs. Strawn.
- Address: "Work of Children's Home Society," Mrs. Cora H. Seaton.
- Vocal Solo: Mrs. Gethro.

A special meeting of the club is called for Tuesday, March 23, at 3 o'clock to hear the report of the nominating committee. It is important to have a large attendance.

The civic department will have a regular meeting on Saturday, March 20, at 3:15 in the club room. The subject for discussion is: "Work Accomplished by Woman's Clubs."

The literature department calls attention to a change of day and hour for next week. The meeting will be held at the home of Mrs. Farrah on Monday, March 22, at 3:30 o'clock. The works of Will Carleton and William Dean Howells will be studied.

KENTUCKY'S NATURAL WONDERS.

The pseudo-scientist found himself seated at dinner with a stone pillar on one side of him and a red-faced commercial traveler on the other, says the *Philadelphia Ledger*. Finding the pillar unresponsive, and laboring under the necessity of human intercourse, he chose the lesser of two evils and addressed himself to the red-faced drummer.

"You—er—travel a great deal, I presume," said the pseudo-scientist.

"Yep; on the go pretty much all the time," replied the red-faced drummer.

"Where have you been recently, may I ask?"

"Just back from Kentucky."

"Ah, Kentucky. Charming section of the country. Rich in historic interest."

"I s'pose so."

"And equally rich in nature's handiwork."

"Come again?"

"I mean to say it is most interesting as regards its natural phenomena."

"I'll take your word for it."

"The Mammoth Cave, for instance. You have visited the Mammoth Cave?"

"Nope. Always too busy sellin' goods. I only hit the high places like Louisville, Newport, Lexington, an' the like. No business at Mammoth Cave."

"I presume not. But at the same time, my dear sir, it is the greatest natural wonder of Kentucky."

"Back up!"

"Sir?"

ural wonders that made the Mammoth Cave resemble a hole in the wall."

"You astonish me. May I inquire what they were?"

"You may. One was a Colonel who had actually served in the army, and the other was a judge who at one time had really been on the bench."

And the red-faced drummer retired to his plate of terrapin a la Reine, while the pseudo-scientist returned to his contemplation of the stone pillar.
