A WORTHY SUCCESSOR "Something New Under the Sun" All Doctors have tried to cure CATARRH in any form or stage of its development by the use of powders, acid gases, inhalers and drugs in paste form. Their powders dry up in the mucous membranes causing them to crack open and bleed. The powerful acids used by the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the diseased area. And old and experienced practitioners who have for many years made a close study and specialty of the treatment of Catarrh, has at last perfected a treatment which when faithfully used not only relieves at once, but permanently cures Catarrh, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches affected parts. This wonderful remedy is known as "SNUFFLES, THE GUARANTEED CATARRH CURE."
