BRONSON'S VEGETABLE PANACEA.

THE subscriber informs the public, that he has just completed the mixture of this valuable medicine. He takes pleasure in stating that he has made use of this PANACEA, successfully in a case of Scrophula, which he has been afflicted with more than twenty years. On several occasions he applied to practical Physicians for aid, (North and South,) and received no benefit. He was, at length, prevailed upon by numerous acquaintances, to try the virtue of certain ROOTS and HERBS, and believing, that the Receipt would greatly benefit him, he took it, together with an old French Receipt, from which is manufactured the VEGETABLE PANACEA.

It is proper here to say, that the quality of some, or ALL the principal Roots, are well known to the Medical Faculty, by whom they are frequently used. For Scrophula or King's Evil, Ulcerated Sores, general diseases of the BLOOD, or the effects of Mercury; it has a decided salutary effect.

For BOWEL COMPLAINT he would also recommend the use of the VEGETABLE PANACEA. Children are frequently attacked with this complaint; especially when teething. A few doses of the PANACEA will check the Bowels, and they become regular again. It has been tried by a great number of respectable individuals, and pronounced a "certain cure." He has tried it at different times in his own family, and it relieved the child immediately.

This Medicine is simple in its operations; and has a pleasant taste. Give it a trial, and judge its worth. The subscriber will keep a constant supply of the PANACEA at the different Drug Stores throughout the United States. Orders addressed to the subscriber, or to James R. M'Kain, will be promptly attended to. The PANACEA may always be had at J. R. M'Kain's DRUG STORE, Camden, S. C. PRICE ONE DOLLAR per bottle. F. S. BRONSON. July 8, 1837.

The Vegetable Elixir. PREPARED BY F. S. BRONSON. IT is with great pleasure the subscriber informs the public that he has completed the mixture of the VEGETABLE ELIXIR. This medicine is composed of Roots which grow in this State. It is useless to enter into a detail of the value of this medicine, (or any other Root medicine), as it is well known that ALL ROOTS have valuable medicinal properties. He would also state that there is not the least danger in the use of the ELIXIR. For the following named diseases, there is no medicine made or vended at the present time, better calculated to relieve the afflicted, than the VEGETABLE ELIXIR.

For Rheumatism and Consumption, the ELIXIR should be used internally and externally. For Dyspepsia or Dysury, he would also recommend the use of the ELIXIR, as he feels confident it will prove highly beneficial to those who use it.

To those who are afflicted with Pustules, Eruptive Distempers, and Venereal diseases, he particularly recommends the use of the VEGETABLE ELIXIR. Without the fear of contradiction, he recommends this Medicine as the BEST now in use—as it has proved successful in every case in which it has been used.

Orders addressed to the subscriber or Mr. J. R. M'Kain, will be promptly attended to. The ELIXIR may always be had at J. R. M'Kain's Drug Store, Camden, S. C. PRICE—75 CENTS PER BOTTLE.

PROSPECTUS OF THE

Camden Commercial Courier.

THE Establishment of the COMMERCIAL COURIER was rendered necessary by the inconvenience to which our citizens have been subjected for the want of a public channel of communication which in a commercial community like Camden, is essentially necessary, and consequently the COURIER'S claim on the public is such as should ensure a liberal patronage.

The undersigned have spared no trouble or expense in obtaining the best workmen in order to render the Paper all the advantages that it will admit of, and affording satisfaction to its patrons. In political matters the Courier will take no part; the design being to publish a Paper adapted to the interest of ALL, which could not be effected by its entering into the arena of Politics—it will be confined principally to such matters as appertain to Commerce, Agriculture and Amusement.

The COURIER is published every Saturday morning at Three Dollars in advance, or Four Dollars if not paid until the expiration of the year. Persons wishing to become subscribers must address a letter (POST PAID) to L. M. JONES & Co. Camden, S. C. May, 1837.

Removal. THE Subscriber has removed his Drug Establishment to the building opposite the store of Murray & Bryant, and two doors south of the Masonic Lodge—where he is now receiving and opening his Spring supply of Medicines, Paints, Oils, Window-glass, &c. His stock will be found as complete as any in the up country, and his prices as low. Physicians, planters and others interested, are invited to call—as no exertion will be wanting to ensure satisfaction as to quality and prices.

FOR SALE AS ABOVE. 200 Kegs Wetherill's pure White Lead. 400 Gall's N. C. Lined Oil. 120 Gall's best Sperm Oil. Window-glass of all sizes, &c. & c. JAMES R. M'KAIN. 1 tf. May 6

TO PRINTERS. E. White & Wm. Hager, RESPECTFULLY inform the Printers of the United States, to whom they have been individually known as established letter founders, that they have now formed a co-partnership in said business, and an extensive experience, they hope to be able to give satisfaction to all who may favor them with their orders.

The introduction of machinery in place of the tedious and unhealthy process of casting type by hand, a desideratum by the European founders, was by American ingenuity, a heavy expenditure of time and money on the part of our senior partner, first successfully accomplished. Extensive use of the machine-cast letter has fully tested and established its superiority in every particular, over those cast by the old process.

The letter foundry business will hereafter be carried on by the parties before named, under the firm of White, Hager & Co. Their Specimen exhibits a complete series, from Diamond to Sixty-four Lines Pica. The Book and News type being in the most modern style.

WHITE HAGER & Co. are agents for the sale of the Smith and Rust Printing Presses, with which they can furnish their customers at manufacturers' prices; Chases, cases, composing sticks, Ink, and every article used in the printing business, kept for sale and furnished on short notice. Old type taken in exchange for new at nine cents per lb.

N. B.—Newspaper proprietors who will give the above three insertions, will be entitled to five dollars in such articles as they may select from our Specimens. at 23t E. WHITE & HAGER.

Oration—Price 12-2 cents. THE ORATION of JAMES CHE NUT, Jr. is just printed, and for sale at Mr. Alexander Young's Book Store, at Mr. J. L. Jones' Store, and at this Office.

NOTICE.—All persons having demands against the estate of the late James F. Bryant, deceased, are requested to render in attested statements of the same; and those indebted to the said estate are hereby called upon for settlement. Aug 19 16 tf THOS. C. BRYANT, Adm.

The Charleston Courier will give the above 4 weekly insertions, and forward their account to the subscriber for payment.

THE success of the SOUTHERN TONIC is unprecedented. It has been anxiously sought after by all persons in every part of the United States, and its widely extended distribution has been owing to the many requests received from every section of the South and South West. Although it originated in an obscure part of the country but a few years since, it is now found in all the principal towns and villages in the Union, and its virtue as a cure for Ague and Fever, and as a general Tonic, are appreciated by all who have used it. Being as it professes a compound of Southern Vegetables, it is needless to offer the assurance that there is no Arsenic, Mercury, nor any thing in the least hurtful to the human constitution in it. It will be found a valuable Medicine in all cases of Dyspepsia and disorganized Stomach and Bowels and patients convalescing from Bilious Fever, will derive the most important benefits from the use of the Southern Tonic. It may be administered to children and infants of the most tender age with the utmost safety. JONES' PATENT COTTON GIN.

THIS Gin can be made double or single. If made double, they reduce labor, and gin just double the quantity of cotton over the single cylinder Gin, no other kind having been in use previous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether small or large, one hand will be sufficient to attend them. The Gins have mechanical feeders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hawking operation it receives from the feeders, which make two revolutions to one of the saws, it is almost in a half gined state, before it descends to the saw. By a very simple arrangement of a screw to each set of gates, on which the hoppers rest, and through which the teeth of the feeders pass, they can be made to feed slow or fast to suit the condition of the cotton at the time. When made double, the saws are placed on two sets of cylinders and turn upon each other in opposite directions, and are cleaned by two sets of brushes that have four revolutions to one of two saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feeders, &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large number of planters, merchants and others, and received their general approbation.

Several gentlemen have been so kind as to give the Patentes their written opinion respecting the merits of the Gin. A number of others could be added, but the following are deemed sufficient: From his Excellency Gov. White of Louisiana. New Orleans, Feb. 27, 1837.

Dr. A. Jones—Sir, in reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Saturday the 25th inst. and was very much pleased with its performance. The mere fact of its self-cleaning, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the process, appeared to me to be better and cleaner than from the common Gins in use, and that it saves considerably in labor. Respectfully, &c. E. D. WHITE.

From Mr. J. Compton, a wealthy planter, resident in the Parish of Rapide, Louisiana. Dr. Jones—Dear Sir, I have examined your Patent Cotton Gin, with feeders, &c. And have seen it in operation, and approve of it so highly, that I have taken the liberty of ordering one for my plantation in time for the next crop. Yours respectfully, J. COMPTON. New Orleans, Feb. 28, 1837.

From Mr. A. Longier, an experienced and eminent Cotton Broker of New Orleans. New Orleans, Feb. 28, 1837. Dr. Jones—Dear Sir, in answer to your note of this morning, I will state, that I have carefully examined your new Patent Cotton Gin, and have found it far superior to those generally used in this

State it cleans the cotton much better, and gives it a much better appearance. I hope, for the good of the country, it may become duly appreciated. Yours sincerely, A. LONGER.

From Messrs. Forestall, High & Co. Commission Merchants. New Orleans, March 1, 1837.

Dr. A. Jones—Dear Sir, we have examined the sample of cotton left with us, cleaned by your Patent Cotton Gin, and also the cotton in its uncleaned state, and pronounce the same greatly superior to the average samples which have come under our observation this or preceding seasons. Very respectfully, your ob't servants, KORSTALL, HIGH & Co.

New Orleans, March 1, 1837. From Col. Harris Smith Evans, a planter of Wilcox county; signed also by Dr. David J. Means, a planter of Green county, and Mr. Wm. C. Clifton, a planter of Dallas county, all of Ala. Dr. Jones—Dear Sir, in reply to your inquiry concerning your inquiry concerning your new Patent Cotton Gin, we deem it no less a pleasure than a duty to say to you, emphatically, that we consider it a most decided and valuable improvement. We have examined it carefully and seen it in successful operation, and we feel no hesitancy in recommending it to the attention of planters generally. Most respectfully yours, &c. HARRIS SMITH EVANS, DAVID J. MEANS, WM. C. CLIFTON.

New Orleans, March 7, 1837. P. S.—As a further testimony of my confidence in the success of your Gin, you will please order two Double Gins of 80 saws in a stand each, for my plantation; and oblige yours truly, H. S. EVANS.

As a further proof of my confidence in your Gin, you will please order me a Double Gin, of the same size, for my plantation, and oblige yours respectfully, D. J. MEANS.

Mr. Clifton also stated, that if he had not just before bought two new Common Gins, that he would likewise have ordered one or two of the Patent Gins for his plantation. From Mr. H. F. McKenna, of the house of Brander, McKenna & Wright, of New Orleans. Dr. A. Jones—Dear Sir, in reply to your note, accompanied by a specimen of the cotton, ginned by your Patent Gin, I beg leave to observe, that it exhibits a decided improvement on the usual process of ginning; delivering the staple unimpaired and free from nap or trash, clean and of good color; thereby giving the article an additional value. These favorable impressions of the advantages of your Patent Gin, have been confirmed by subsequently witnessing it in operation. The utility of the double cylinders and saving of labor, will be readily perceived and properly appreciated by the intelligent planter.

I feel a deep interest in the success of all improvements tending to benefit the important staples of our country. I trust that yours will meet with the encouragement it justly merits. Very respectfully, your ob't serv't, H. F. M'KENNA.

New Orleans, March 6, 1837. From Mr. G. Senior, a Machinist of New Orleans. Dr. A. Jones—Dear Sir, in answer to your inquiry of my opinion of your Patent Cotton Gin, I beg leave to state, that I was fifteen years engaged in the cotton factories of Manchester, England, and during four years of that time, I was foreman in the house of Messrs. Lewis, Williams & Co., and near five years spinner in the house of Messrs. Sandford & Gr. enc. I have seen your Cotton Gin in operation, and have examined the cotton ginned by it, and pronounce it better cleaned, and the staple less injured, than any cotton that ever came under my observation. It is completely ready for the breaker without the aid of the blower, and would, therefore, save the first process in manufacturing the article. I consider cotton cleaned by your Gin, would command from one to two cents on the pound more than the average crops brought into the Manchester market, and cleaned by common Gins. Yours, very resp'tly, N. Orleans, March 9, GEORGE SENIOR.

Dr. Jones—Dear Sir, in answer to your inquiry respecting my opinion of your Patent Cotton Gin, I have to state, that I have been engaged in putting up the Carver Gins for planters on Red River, and that I have seen your Gin in operation, and have examined the quality of the cotton produced by it; I consider it equal if not superior to the Carver Gins, in addition to which, I think your feeders a decided improvement, and by the aid of which, the quality of the cotton cleaned appears much improved, over that produced by the common Gins. Yours &c. S. BENNETT.

New Orleans, March 10, 1837. In addition to the above, the Patentes will refer planters to the following gentlemen, who have either seen the Gin in operation, or have examined samples cleaned by it: Messrs. N. & J. Dick, Thomas Barrett & Co., Hagan, Niven & Co., Lambeth & Thompson, Martin, Pleasants & Co., Hermann, Briggs & Co., Wm. L. Flower; Bullitt, Ship & Co.

Extra teeth where desired, for feeders, supplied at 40 cents each; the number of teeth being equal to the number of saws. One set of feeders, it is considered however, will wear out two or three sets of saws. Extra saws supplied at 80 cents each.

The Gins ordered will be delivered to the agents, of planters in any of the sea port towns of the cotton planting States, at the above prices, the agents paying the freight on the same from New York, and becoming responsible for the amount of the Gin.

It is desirable, when planters give orders for Gins, they should accompany them with their views in regard to the arrangement of saws, breasts, brushes, &c. It is found they differ in opinion. Some desire saws of larger diameter than others. The most common size is 9 or 10 inches; but some wish them 12 inches. Some wish 5 or 6 rows of brushes on an axle, while others do not want more than 4 at most. Some wish saws with 8 or 9 teeth to the inch, while others want 10 or 11. With so much discrepancy, we prefer they should, at the time of giving orders, furnish a statement of their wishes, and the manufacturers can fulfil them in every particular. Where it is left to our discretion, we shall make them on the most modern and approved plan. An order can be executed, from the time it is received, in the space of eight or nine weeks, and the Gin in that time placed in the hands of the factor. To be in time for the next crop, all orders ought to be in the hands of the manufacturers by the first or middle of May; except for plantations where they are late in commencing to pick or gin cotton.
