This company was incorporated under the laws of the state of New Jersey for the purpose of constructing a canal system by taking water from the Colorado River in San Diego County, California, and utilizing the same for irrigating a large tract of arid land in San Diego county—conveying the water to such land through Lower California, also for irrigating a large tract of land in Lower California.

In order to place this extensive system on a mutual basis in conformity with the laws of California, this company endorsed the plan of furnishing water only to mutual water companies incorporated to furnish water to their stockholders only at cost. The main canal system was so far completed that it was able to furnish water to be delivered to lands south of Imperial by the 15th day of June, 1901.

No water is furnished by this company for use in the United States except that supplied to Imperial water companies for the uniform price of fifty cents per acre foot, under contract for perpetual delivery at that price.

NO OTHER APPLICATIONS FOR WATER ARE CONSIDERED

This is a mutual water company incorporated to furnish water to its stockholders only at cost. None others can get water from the company at any price or under any conditions. It has a contract with the Mexican corporation for a perpetual supply of water to be delivered at the international boundary line, for which it pays fifty cents per acre foot, or about two cents per inch for a twenty-four hours flow.

This company owns its own distributing system of canals and ditches and has paid in full for the completion of the same, leaving in the treasury of the Company assets valued at \$25,000 with no outstanding obligations. The company will manage its own affairs in its own way and distribute the water under its control among its stockholders only at cost price and expenses of distribution.

All other Imperial Water Companies are formed on the same basis. The land to be irrigated by this company is located between New River on the west and Carter River on the east, extending from the boundary line to the center line of Townships 14 south, to the extent of 100,000 acres.

Number of Shares Sold December 15, 1902, 98,915.

The Blue Lake Town Company was incorporated for the purpose of platting and placing on the market a town located on the eastern side of Blue Lake, one of the finest bodies of water on the Pacific Coast. This town to be named **SILSBEE**, in honor of Thomas H. Silsbee, the San Diego Pioneer, who commenced work on the desert even before the Imperial Land Company was formed.

The town of Silsbee is located on the projected line of the San Diego Eastern Railroad. It will be a pleasure and fishing resort for the entire Imperial Settlements. A broad boulevard will encircle Blue Lake, forming one of the most beautiful drives in the country, lined on either side by native mesquite trees.
