THE IDEAL WINTER ROUTE TO THE EAST

IS via El Paso and the Rock Island System.

It takes you through orange groves and across a sea of salt; past the crumbling ruins of old missions and under the shadow of mountains compared with which Gibraltar is a plaything; across rivers and plains, glittering in the rays of the most brilliant sunshine in America; through towns that have grown up in a night and others that were old before New England was new.

Climatically, no other trans-continental route compares with it. No high altitudes; little or no snow and for three-fourths of the way, no cold weather.

Through trains daily, Los Angeles to Chicago. Standard and tourist sleepers, coaches, chair cars, diner. Full information on request.
