## TWO MONTHS WILL COMPLETE FLUME

Work Has Commenced on the Waterway That Will Supply Nos. 6 and 8 With Water

Work has commenced on the flume that will be the means of giving life again to the devastated districts cut off by the New river wash a year ago. General Manager H. T. Cory states that sixty days will see water flowing into No. 6 thru this flume.

A large force of carpenters are now at work on the structure and the work will be pushed to the limit with all possible speed. The railroad is completed so that material could be delivered and the lumber is being placed on the ground by floating it from the railroad to the place of construction.

Engineer Jack Carillo, in charge of the Southern Pacific construction forces here, has the grading work so far advanced that he could spare 100 men last week without delaying the construction of the road. They were sent to Orange county, where the S. P. is building a new road.

## Eugene Shaffer Dead

The sudden death of Eugene E. Shaffer, county auditor of this county, comes as a shock to the Imperial valley. He died in San Diego Sunday night from a throat abscess. Mr. Shaffer was well known in this valley. He was in charge of the San Diego excursion here in May. His popularity in San Diego was phenomenal. He had been county auditor for seventeen years and was a friend to everybody, honest, capable and charitable. His demise is a loss to the entire county that will take a long time to replace.
