

EASTERN FAIRY TALES AND WESTERN FACTS

MARVELOUS YARN ABOUT TAMING THE COLORADO.

How the Great Mr. Harriman Moves, His Wonders to Perform—Months of Titanic Labor Reduced to a Two Weeks' Miracle by Imaginative Writer.

The story of the battle of the railroad engineers with the Colorado river at the Mexican heading of the Imperial canal is a wonder story when told truly. As told by writers in Eastern periodicals it is a fairy tale excelling "Jack and the Beanstalk" in sheer absurdity.

Not one correct statement of fact in the paragraph. But this bit of prophecy, probably inspired from "on high", is not so far out: "There is coming a time when the Imperial Valley will have well paid its doctor's bill."

BEAUMONT

is Apple Paradise

\$80,000 CROP LAST SEASON

BEAUMONT apples—synonymous with the best quality fruit grown anywhere—soil, water, elevation, climate does it. Beaumont has these ideal conditions—and the apples—\$80,000 crop last season, averaging \$175 per acre, is eloquent testimony.

APPLES—sold in the home market—2c to 2 1/2c per pound—equal in cash returns to oranges, lemons and other California fruits dependent upon a market 3000 miles away, and require less expense and experience.

The apple zone of California is limited—Beaumont irrigated lands at \$140 per acre offer crop returns to prove its rank with Oregon, Colorado and other apple sections of the world where land values run \$600 per acre—more than four times the price of Beaumont irrigated land. Here is the home-seekers' paradise—apple paradise.

BEAUMONT The Land of Promise Has Become the Land of Fulfillments

See what 10 months have wrought at Beaumont—population 150 per cent increase, 102 new buildings valued at \$100,000, 40 new businesses established, a bank with \$25,000 capital, school enrollment increased from 75 to 175 pupils. From a hamlet of 400 people it has grown to a young city of 1000. The tide of values run higher with each week and the wise buyer will be a buyer this week.
