

WESTERN LIBERAL.

FRIDAY, MARCH 29, 1889.

Joe Lyle was in from Steins Pass Friday.

E. C. Schultz the barber, has moved to Clinton.

The pipe has arrived to lay a water main on Broadway.

Gold Hill seems to be well supplied with affidavits.

Dick Woods, the ironmaster, was in town this week.

W. C. Tonkin and family were in from Gold Hill Monday.

D. B. Lewis was in from Gold Hill the first of the week.

There will be a meeting of the fire department this evening.

A. B. Laird has opened a real estate and insurance office in Deming.

Stoves are getting useless, and screen doors and ellas are coming in fashion.

Col. M. J. Egan, the popular Clinton attorney, was in the city Friday, en route to El Paso.

The Little Louisiana ticket which drew the first prize is tied up in a law suit at Silver City.

Harry Small has enclosed his lots next to Charlie Clarke's and is going to set out an orchard.

Nothing has been heard of the Tonto and White Mountain Apaches, who were reported out.

A number of Gold Hill men were in town this week, attracted by the Wernsey-Molman trial.

Miss Nellie Cashman, the celebrated mining expert and grub ruster, was in the city this week.

John Naismith long connected with the Arizona copper company at Clifton has returned to Scotland.

Miss Will Gable who has been visiting Col. McWhirt's returned to her home at Trinidad Wednesday.

The Gold Hill school trustees are negotiating with Miss Elsie Paranzworth to secure her services as teacher.

There are great patches, miles in extent, of yellow flowers on the hill's sides and in the great valley north of town.

The Sunday mail service between Silver City, Fort Bayard, Central, Santa Rita and Georgetown, has been discontinued.

Deming note: Coal in neighborhood of Las Animas, but the lucky finder won't tell where. It's better than a gold mine.

Roberts & Leahy are raising up their store separator to moving it and making room for the new one, for which the men are busy at work making brick.

The blacksmith shop connected with the Standard mill at Gold Hill was burned the other night. It is supposed it caught from sparks from the chimney.

Col. Sam Carpenter, the chairman of the board of county commissioners passed through town on the Saturday evening train, bound for California on a business trip.

During the year 1888 the county of Grant spent the following: Feeding prisoners, \$7,564.25; jailors and guards, \$1,718.99; sheriff and deputies, \$3,350.42; material for jail, \$1,616.75; justices of the peace, \$1,331.74; constables, \$2,392.59; clerk's office, \$2,225.98; printing, \$1,634.92; sundry accounts, \$15,480.03. The total indebtedness of the county is \$144,300.64. The total amount of uncollected taxes is \$28,978.68.

Gold Hill has been insurating in all the delights of a well developed race of scoundrels. It seems that Wm. Wernsey had reasons to believe that his wife was not true to her marriage vows, and began an investigation. Last Saturday night Mrs. Wernsey was missing from her house and Wernsey went to find her. He said he had reasons to believe she was up at Henry Schreder's house with the man he suspected of ruining his family, Thomas Holman, and so took his son and a six shooter and went up to see about it. He went up very quietly, burst open the door, the boy scratched a match and the couple was in a flustered dilette. Wernsey was about to kill Holman, when he thought of his children, who would be left without a protector while he was in jail and so stayed the fatal shot. He retired down the gulch and, being somewhat perturbed in mind, handled his six shooter carelessly, and the result was he shot himself in the left hand. Sunday he came down town and had his hand dressed, and Monday swore out a complaint charging Holman with getting his wife drunk, and while she was in that condition committing the crime of rape. Holman was arrested and examined before Judge Jones, when was brought forth his story of what happened last Saturday night. He claims that Wernsey had discarded his wife and that she had taken refuge at Schreder's. He and a companion named Cooper heard she was destitute and went up to give her some money, out of a pure feeling of charity. Holman went in with the money while Cooper watched on the outside to see that no one, especially Wernsey, should discover the charitable deed. He was sitting on the side of the bed, the woman having retired, talking at odd matters, the room being dark, when the husband burst in, looked around and left. Nothing criminal had occurred. Judge Jones seemed to think the story slightly away for he held Holman under \$500 bonds to await the action of the grand jury. C. S. Cooper and J. Miller signed the bond for him.

MINING MATTERS.

Reports from Various Camps—Items of General Interest to Miners.

The latest quotations are: Silver, 92 1/2; copper, 14.50; lead, 3.55.

The Arizona copper company has shut down the King mine at Clifton owing to the declination copper.

El Paso is going to have public sampling works, of which Holbrook & Fearce will be the proprietors.

Four mines on one ledge at Stein's Pass have the following names: "The Bachelor" and "The Maid" "Will Prosper," "You Bet."

C. S. Kellum is sinking the Minneapolis at Gold Hill and is finding considerable native silver. The ledge is now about 4 1/2 feet wide.

Charlie Thomas and Mexican Joe have returned from Harqua Hala. It did not take them long to see all they wanted to of the celebrated place.

The mines of Pinos Altos were never so flourishing as they are at present. Two hundred and fifty men are employed and the output is weekly on the increase.

The copper market is still very unsteady and the price gradually goes lower. A number of owners of the larger copper mines in this country have gone over to France to try and arrange matters and keep the market from being utterly demoralized.

The Decorah at Gold Hill owned by Foster & Wells has recently been developed some and made a wonderfully fine showing. The shaft is down 55 feet and shows a ledge 8 feet wide with mineral all the way through it. A careful sample taken across the ledge assayed \$35.

Bob Williams and Bramble Ownby have located a couple of claims about a mile south of the Humboldt mill. The claims are on the same ledge and are named the Blue Bell and the Ben Harrison. They have a combination shaft, half on each claim, which is down 32 feet, and the entire shaft is in ore. In fact they have not been able as yet to discover either wall. The ore is a free milling gold ore. The assays run from \$47 to \$23 in gold, with a small amount of silver.

It is curious how some prospectors will deceive themselves. The other day the LIBERAL was watching a prospector fix some ore to send to an assayer. The ore was a quartz impregnated with considerable iron and supposed to contain silver. The prospector wanted an assay for his own information, and was pulverizing his specimen in an iron mortar. He powdered away on it for a while and then stopped and picked out several pieces of hard, white quartz, ranging in size from kernels of corn to bullets, which he threw away. He was asked his reason for throwing the quartz away. "Oh," he said, "there is no value in that white quartz and there is no use in grinding it up."

The tramps and peddlers around town are getting very impudent, especially when they find the man of the house absent. The other day a tramp marched in a house and rummaged around till he found the mistress, who gave him a meal to get rid of him. A peddler called at a house, and while showing his wares, sat down in a chair. Unfortunately, one of the children had recently deposited a fresh shew of gum in the chair, and when he arose the chair followed. The lady of the house, however, was equal to the emergency, and produced a kettle of boiling water and a pair of shears, and offered him his choice. Mr. Peddler accepted the shears, and now that family exhibits, with its other bric-a-brac a hard bottomed chair decorated with a end of tulu and a large plaid patch. Another peddler with a box of cheap lace called at a house and was told that he need not open his pack as no lace was needed. "Well," he said impudently, "you won't buy anything of me, but if a tramp came here you would rustle him something to eat." The lady gazed at him in astonishment when he added: "You folks don't do anything but sleep and feed tramps." This was a little too much and the lady of the house said to him: "Young man, pick up your box and fly," and at the same time she started for the corner of the room where was standing a shot gun. Before she got the gun the peddler had taken her advice and flown. It is safe for men who have to be away from home, even during the day, to leave a gun where it will be handy.

The Thespian club at Silver City has decided to present Dion Boucault's comedy, "London Assurance." Dr. Woodville is painting some gorgeous scenery for this play.

Our enterprising and popular druggist, W. H. Small endeavors to supply his customers with the best and most reliable medicines in the market. He has secured the agency for Chamberlain's remedies and is now prepared to supply these celebrated medicines to his customers. Chamberlain's cough remedy is famous for its cures of throat and lung diseases and is said to cure a severe cold in less time than any other treatment. Chamberlain's colic, cholera and diarrhoea remedy is standard throughout the United States for bowel complaint and recognized as the most prompt and reliable medicine known for colic, cholera morbus, dysentery and diarrhoea. Many cases of long standing that had resisted all other treatment, the proprietors assure us, have been cured by this medicine. Mr. Small was certainly fortunate in securing the agency for such valuable remedies. He will have them in stock by April 10th.

Machinery in Motion.

It is an old saying that you have to go away from home to learn the news, and it is well illustrated in the following list of "machinery in motion in Grant county," furnished by Col. T. B. Mills, of Las Vegas, to the statistical bureau of the treasury department. Col. Mills might have added, however, that there are between twenty-five and thirty railroad locomotives in motion, also five or six steam pumping stations:

At Silver City, there are at present in successful operation Brennan's silver mill, ten stamps; Flagler's reduction works, including a copper smelter; Black's planing mill; Coomer's planing mill and Laizure & Grabe's planing mill.

At Pinos Altos, Bell & Stephen's gold mill, ten stamps; Shillcorn's gold mill, five stamps; Smith & Aitman's gold mill, five stamps; F. J. Davidson's gold mill, five stamps; Deep Down mining company's gold mill, ten stamps; Mountain Key mining company's gold mill, ten stamps.

At Carlisle, the Carlisle gold and silver mining company's mill, sixty stamps; Silver-Rain-in-the-Face, silver mill, five stamps; J. P. Patterson & Co's gold mill ten stamps; J. P. Brockway's saw mill.

At Pyramid, the Pyramid gold and silver mining and reduction works, ten-stamp mill.

At Shakespear, Arrington's silver mill and concentrating works, twenty stamps.

At Gold Hill, the Standard mining company's gold mill, ten stamps.

At Georgetown, Mimbres gold and silver mining company's ten-stamp mill; Payne, Washington & Co's silver mill, five stamps; Moulton's saw mill.

At Santa Rita, the Santa Rita copper and reduction works.

At Paschal, Oak Grove copper reduction works.

At Blackhawk, the Blackhawk sampling and boiling works.

At Dening, D-wing sampling works. Mounts a saw mill in Grant county; Harper & McMillan's, near Pinos Altos; government saw mill on Fort Bayard reservation; Black's and Coomer's saw mill, in Twin Sisters mountain.

Quic mills: McMillan's, on the upper Gila, and Brockman's on the Mimbres.

It is rumored that the Carlisle teams will freight to Silver City on the completion of the road over the mountains. The Santa Fe is said to have offered the Carlisle people the same freight rate from Silver City that they now have to pay from Deming, and so, although it will cost more to freight to Silver, they will make a considerable saving.

The LIBERAL was a little premature in saying that L. B. Durnell left last Friday morning to attend the Paris exposition. He did not leave till Saturday. Lad has secured the stad poker privilege of the exposition. He will build a table around one of the public squares and initiate the Parisians into the mysteries of that seductive game.

The law forbidding women from entering saloons for the purpose of drinking therein or for other purposes, taken effect May 15th. It imposes a fine of from \$10 to \$50 or imprisonment for sixty days or both upon the proprietor or person in charge of the saloon permitting it.

Mr. John H. Prince, meat inspector of this county, was in the city last week. He says the compensation allowed him by law is not sufficient to pay his necessary traveling expenses; and that if such expenses are not allowed him, he will resign.—Sentinel.

New Mexico's champion wrestler, James McClain, of Pinos Altos, challenges through the Silver City Enterprise, any man under 175 pounds in weight in the Territory, beat two out of three falls, Graco-Roman, for a purse of \$200 a side.

The LIBERAL may be sent to Gold Hill to-morrow and next day. If any subscriber happens to see him the subscriber may feel at perfect liberty to tangle up three dollars, no offense will be taken at his doing so.

Rich food, and lack of exercise, during the winter months, causes the system to become torpid and the blood impure. A dose or two of St. Patrick's pills will cleanse and invigorate the system, purify the blood and do more good than a dollar bottle of blood purifier. Sold by W. H. Small.

Wright's Red Cross Cough Cure guaranteed to give satisfaction. Will cure any kind of cough or cold. Sold at Eagle Drug Store.

R. B. JONES,
Justice of the Peace,
Office at J. K. Cauthon's Store.

PROFESSIONAL NOTICE.
To Jesse Chamberlain You are hereby notified that I have expended \$100 in labor and improvements upon the Volcano Mine, situated in Kinbell mining district, Grant county, New Mexico, as recorded in Book 12 page 100, rec. pages 213 and 214, as will appear by certificate filed on November 24, 1888, in the office of the recorder of said county of Grant, in order to hold said premises under the provisions of section 224 revised statutes of the United States, being the amount required to hold the same for the year ending December 31, 1889, and if within sixty days from the service of this notice, or the publication thereof, you fail or refuse to contribute your proportion of such expenditure as co-owner which is one-twelfth interest, or \$8.33, and the cost of this publication, your interest in said claim will become the property of the subscriber under said section 224.

PROFESSIONAL NOTICE.
To W. H. Case: You are hereby notified that I have expended \$100 in labor and improvements upon the Alabama No. 3 and Black Hawk mining claims, situated in Kinbell mining district, Grant county, New Mexico, as recorded in book 12, page 100, rec. pages 352 and 353, and pages 353 and 354 as will appear by certificates filed on January 31st, 1887, in the office of the recorder of said county of Grant, in order to hold said premises under the provisions of section 224 revised statutes of the United States, being the amount required to hold the same for the year ending December 31st, 1889, and if within ninety days from the service of this notice you fail or refuse to contribute your proportion of such expenditure as co-owner, which is a one-fourth interest, or \$50, and the cost of this publication, your interest in said claim will become the property of the subscriber under said section 224. FRANK PROCTOR.

WANTED S. L. BROWN by the oldest, largest and best known insurance in the West. Permanent residence and 2500. Outside from STANLEY HUBBARD, Louisiana, Mo.

It was reported at the depot last night on the arrival of No. 19, that an attempt had been made to wreck the train, 60 miles east of Yuma, by placing ties on the track. A hole had been dug under the road bed and a tie stood in edwise while a second tie had been laid across it. The engine struck the protruding tie with such force as to splinter it but without doing further injury than to break the guard. The train was stopped and an investigation made with the above results. This dastardly attempt to wreck the train is said to have been at the end of a trestle over a dry wash, some fifty feet in extent and about ten feet deep, and had the miscreants who placed the ties in position succeeded in wrecking the train, there would in all probability, have been serious loss of life.—Tucson Citizen.

The suit of forcible entry and detainer brought by George Clark against the Arizona & New Mexico ditch company to prevent the construction of the new San Simoun ditch, has been discontinued. The suit was brought on the advice of Bowden G. Tate and he was paid to prosecute it, but as he failed to appear on the day set for trial Mr. Clark withdrew the complaint against the ditch company and swore out one against Tate for obtaining money by false pretenses. The ditch case, however, is not settled as it will probably come up before the district court in August.

Agent Felton says in regard to the Southern Pacific water, that the informant of the LIBERAL was a little off on decimal points. The solid matter in each gallon being: Carbonates, chlorides and sulphates of magnesium, 3.15 grains; carbonates and sulphates of lime, 28.10 grains; alumina, silica and organic matter, 0.25 grains; total, 31.50 grains. This proves it to be a remarkably fine water.

Hon. Jas. D. Griffin, judge of the eighth judicial district of Iowa, says: "It gives me pleasure to recommend Chamberlain's remedies, because I do so from actual experience in the use of them in my family. I refer particularly to Chamberlain's cough remedy, which I think unexcelled by any other." Sold by W. H. Small.

Shiloh's vitalizer is what you need for constipation, loss of appetite, dizziness and all symptoms of dyspepsia. Price 10 and 75 cents per bottle. Eagle drug store.

You Should Read
America,
WHY?

Because it is the only paper in America that advocates American rule in the United States.

Because America gives each week an equivalent of the contents of a 35 cent monthly.

Because America has a larger corps of distinguished contributors than any paper in this country.

Because it prints each week stories, essays, poems and miscellaneous articles from such authors as these:

Senator Allison Senator Cullom
Senator Manderson Senator Teller
Senator Mitchell Senator Dawes
Senator Stewart Theodore Roosevelt
Beth Low Andrew D. White
Ella Wheeler Wilcox Blodgett Case
James Russell Lowell Admiral Porter
Edgar Fawcett Charles Dudley Warner
Frank B. Rowland James Whitcomb Riley
J. T. Fowler Edgar Saltus
Robert Grant Julian Hawthorne
W. Clark Russell

And scores of others who are equally famous

Because you can subscribe one year for \$3.50, six months for \$2, three months \$1.

Because you can buy it of any newsdealer for ten cents per copy.

Because if you buy a copy and can truthfully state that its principles are not worthy of the support of every American citizen your money will be refunded by application to

THE CHICAGO DAILY NEWS
ONE CENT A DAY

The Real Secret of the unparalleled success of THE CHICAGO DAILY NEWS may be found in two distinguishing characteristics, which more than anything else have contributed to its remarkable growth.

FIRST—It is a Daily Paper for Busy People. The people of the busy West appreciate keenly the necessity of an intelligent knowledge of the world's daily doings, but they are too busy to waste valuable time in searching through a cumbersome "blanket-sheet" newspaper for the real news of art, literature, science, religion, politics, and the thousand and one things which make up modern civilization. They want news—all the news—but they don't want it concealed in an overpowering mass of the trivial and inconsequential. It is because THE CHICAGO DAILY NEWS is "all what and no chaff" that its circulation is over "a million a week."

SECOND—It is an Independent, Truth-telling Newspaper. The people demand a fair, impartial, independent newspaper, which gives all the news, and gives it free from the taint of partisan bias. With no more political ambition to gratify, no "ax to grind," the impartial, independent newspaper may truly be "guide, philosopher and friend" to honest men of every shade of political faith; and this is why THE CHICAGO DAILY NEWS has today a circulation of over a million a week.

THE CHICAGO DAILY NEWS now adds to these two comprehensive elements of popularity, a third, in its unparalleled reduction of price to ONE CENT A DAY.

It is always large enough—never too large. THE CHICAGO DAILY NEWS is for sale by all newsdealers at One Cent per copy, or will be mailed, postage paid, for \$5.00 per year, or 25 cents per month. The farmer and mechanic can now afford, as well as the merchant and professional man, to have his metropolitan daily.
