

P. J. Clark was down from Clifton Friday.

John F. Miles made a Silver City trip last week.

Mrs. A. N. Simpson and children left yesterday to visit Mrs. Jo Lyall.

Col. Robert Paul, the Southern Pacific detective was in the city Tuesday.

John James, of Globe is visiting his son John James and grandson John James.

W. D. Achaucer was in town Wednesday, on route from Gold Hill to Silver City.

Carl, the five year old son of A. J. Chenoweth, died last week of pseudo membranous laryngitis.

Mrs. Tom Clark received the sad intelligence last week of the death of her mother who has been sick for some time.

Mrs. Patterson has been quite sick this week, in consequence of which the scholars in the public school enjoyed a vacation.

Henry Grey, who has been in Tucson since the opening of the Wham case, as a witness returned home Wednesday. He was not put on the stand.

William Elliott—"Cyclone Bill"—is again in trouble at Tucson, having been held to answer to the charge of obtaining goods under false pretenses.

Mrs. A. Woods, was taken quite sick Saturday with symptoms of pneumonia, but under the efficient care of Dr. Simpson is now on the high road to health.

Marshall Kilburn of Silver City and Miss Emma S. Whitehill, daughter of Sheriff Whitehill, were married Tuesday night at the residence of the bride's parents.

John Naismith, accompanied by his wife, was in the city Sunday, on their way to Clifton for a visit. Mr. Naismith intends to make his future home in California.

Albuquerque Citizen: There is little demand for Spanish newspapers in New Mexico. The intelligent Spanish American can read English quite as readily as Spanish.

Miss Daisy Kellum sold the largest number of tickets for the Br-men's dance and in recognition of this fact the department presented Miss Daisy with an elegant toilet case.

P. B. Graves celebrated the fact that he was fifty-nine years old on Wednesday. Harry Claasen and P. P. Ambler celebrated their birthday Saturday, but neglected to state the number of it.

H. C. Boon returned from his visit to the Arizona metropolis on Wednesday. He was glad to again be out of the "mad-crowding crowd" and was able to get a drink of pure cold water.

Rev. James Menaul superintendent of Presbyterian home mission field for Arizona and New Mexico will preach Sunday 10th at Gold Hill at 10 o'clock. Shuk-spear 3:30, at Lordsburg 7:30. Monday he will preach at Douglas, Tuesday at Carlisle, Wednesday at Clifton, Thursday at Metcalf, Friday Morenci, Saturday, Sunday, Clifton.

For the general information of voters reference is here made to the new law, passed by the last legislature, under which in future precinct officers are hereafter to be elected. Justices of the peace, constables, school directors and mayordomes of aqueducts, are heretofore to be chosen at a separate election to be held in January of each year. The first election to fill such offices is to be held on the second Monday of January, 1890. No new registration is necessary, but the qualification of voters is the same as for any election. Judges and clerks are to be appointed as usual, but without pay, and must serve or be guilty of a misdemeanor. Newly elected officers take their offices on the first Monday of February in each year.

C. A. Whipple, of Vermont, who has been visiting with W. C. Tonkin at Gold Hill, started overland for Clifton the other day, with a gang of men who were going to work on some mining property for W. C. Tonkin. Mr. Tonkin was up there Sunday and reported Whipple as delighted with his surroundings. On Tuesday Mr. Whipple showed up in Lordsburg and explained his presence by saying that if he wanted to live in a country where the sun rose at ten and set at three and where when he arose in the morning he had to melt the ice out of his eyes he would have staid in Vermont, but as he had left the Green Mountain state for the express purpose of getting where the weather laid out doors he thought that the wisest thing he could do was to put out of the San Francisco cañon.

Engineer Sam Landon was called as an expert witness before an El Paso court the other day. It seems that a passenger on a Santa Fe train was suing the company for the big damages and claimed he got hurt by being on a passenger train when it was started up suddenly, and thereby received a shock which damaged him to extent of \$30,000. Sam was subpoenaed on the case but said he knew nothing about it. However, he was forced to go to the court room and there asked if a locomotive, coupled onto a train of six cars could start quick enough to shock a passenger. Sam said he had been running an engine a good many years but he had never been able to start a train quick enough to do any damage. His testimony was the chief evidence of the defense and succeeded in knocking the case out.

CLIFTON CULLINGS.

On Monday evening John Naismith, ex-cashier of the Arizona copper company, was the recipient of a most cordial welcome on his return from Scotland, where he had gone to become acquainted with her who now is his better half. Frank Barnum took his hand of music and an old-fashioned serenade was inaugurated. Accompanying the music was a procession composed of old time friends and to give relief to the proceedings a column was formed the inspiring strains of music, with the waving of the star spangled banner the boys reached the residence of Mr. and Mrs. Svedden, where Mr. and Mrs. Naismith were domiciled. To say that the laws of hospitality were observed would be to put it feebly. An impromptu programme was carried out and for a number of hours a spirit of fun and merriment prevailed. Songs and witticisms were the order of the day, and to enliven the affair, by contrast, a speech was delivered by Col. Egan on the subject of silver, the subject being called to his mind by Jim Smith rendering the popular song "Money, ain't it toney." The Colonel agrees with President Harrison on the silver question, which is natural as he is an unconstructed radical of radical republicanism.

MARRIED—At Burnbrae chapel hall, Scotland, Mr. John Naismith and Miss Jessie M. MacLean, on the 13th day of September, 1889.

Ting Gwon, a Chinese doctor has perfected a cure that is certainly remarkable. Frank Woodard has been suffering for years from mercurial poisoning. He has spent time and money searching for a remedy, but failed to get relief until he got this Chinaman to work on him. While the Chinaman was treating him he was arrested for practicing medicine without licence and fined therefor. The peculiar part of the matter is that he has not violated the law; nevertheless he will not get his money back. This is justice with a vengeance. At all events Frank Woodard is well and if the Chinaman did violate the law he has restored to health a man who has been considered by physicians a hopeless case.

Colin J. McKenzie, a director of the Arizona copper company is here on business pertaining to the corporation. There is also another gentleman, connected in some manner with the company, named George Thomson. It seems that he is here for the purpose examining into the affairs of the company, as to its management etc.

A. W. Rich of the firm of Geo. H. Chick & company of Kansas City, now is here introducing their "improved rifle."

W. C. Tonkin is on hand looking after some mining interests that he is handling. The property is situated up the river and is considered A 1.

Cowboys had possession of the town for a couple of days. They visited saloons on horse back and it was evident they believed there was truck fit for "for man and beast" in the institution.

The Hams has gone to the Mayflower district to do his assessment work.

Jas. Whelan of Montague, Michigan, arrived here on Wednesday's train.

NAIANT.

I read in the papers that General Miles Howard, Schaffold and others have been giving their ideas of the causes of desertions and the remedy. What does General Miles, Howard or Schaffold know about the feelings etc. of enlisted men? There are enlisted men in the army who have fine sensibilities and instincts and the natural feeling of a gentleman as any high officer that ever held a commission. Ask the enlisted men the cause of the desertion and you will find the cause and the remedy.

OLD SOLDIER.

President Maxwell and other officers of the Atchison, Topeka & Santa Fe road went through town Saturday. The party had been inspecting the Santa Fe system, and had to make the trip from California to Benson, where it stopped to look at the Barro road, and from Benson to Deming over the Southern Pacific. The Southern Pacific engineers, hauled the gang along in great shape, the fastest run being between Bakersfield and Latrop a distance of 220 miles which was made at the rate of 62 miles per hour, including stops.

The following is an extract from a letter the LIBERAL received this week from a friend who recently had to go up in Michigan: "Miserable weather up here and I should not live here if I got out of it. I would not live here if they would set me up in a good business. The southern country is good enough for me."

Last Thursday there were five Indians confined in the Florence jail under sentence of death, three for the murder of Diehl in 1887 and two for the murder of Wm. Jones near Dudleyville in 1888. Thursday night three of them committed suicide by strangling themselves, and on Friday the other two were hung.

Sam Ransom left Saturday night for Lewis, California, with his baby to place her with her grandmother. Mr. Ransom wishes the LIBERAL to thank for him the many friends who did so much for him during the sickness and after the death of his wife.

Surveyor-General Johnson has transmitted his annual report to the Secretary of the Interior. In his report, General Johnson takes strong grounds against the confirmation of the so called Peralta land grant and pronounces the same a fraud. Good for Johnson.—Stockman

Last summer Cooper went into the Gold Hill camp to buy a little mill. He could not find an owner for his land in the "basin" and so settled down there, dug a well and built the mill. Finding such good water rather surprised the natives, and when the boom struck the camp, a few weeks ago the property began to look valuable. About this time some of the oldest inhabitants began to search the tablets of their memories for location notices. Some were successful and Surveyor Parke was called in to run the lines. He was so successful in doing so that the land occupied by Cooper was entirely covered and the division line between two claims ran through the center of the well. Of course Cooper is at liberty to take the mill up on the mountain and to poll up the well and pack it in his trunk if he wants to, but he says he won't do it, that if any one wants his property they are welcome to it and that he will give them a Winchester warrant. In the meantime the Lordsburg doctors, deputy sheriffs, undertakers and reporters are all keeping horses saddled, ready to start for the seat of war at the first signal of coming battle.

B. B. Adams returned from his eastern trip Wednesday. He went up with the recent cattle shipment made by the Hart brothers and Nichol brothers. Adams had been in prohibition states before and he carried not in Kansas but made a bee line for old Missouri where a man does not have to go behind the door and make an affidavit before he can get a little noisemaker. All the same Adams says he don't calculate to make any more cattle trips. One is enough.

Mr. McKean, the chairman of the Arizona copper company in Scotland, arrived in town Sunday night over the Southern Pacific. There was a special train down over the Arizona & New Mexico road to meet him and he went directly to Clifton. The visit is the regular one of inspection which the Scottish producers have made.

News was received yesterday that Mrs. J. S. Noble was kicked by a horse one day last week, while out driving. The injury was not serious, but the narrow escape from what might have been a fatal calamity, will be a cause of congratulation from her many friends in this city.—Tucson Citizen.

The evidence is all in in the Wham robbery case, and on Tuesday the lawyers began their talk to the jury. The case will probably be completed this week. What the result will be is hard to tell.

Leaving Family and Friends.

Thousands go to southern California and other climate health resorts, who are victims of incurable throat and lung diseases, they go there from all parts of the Union. The exciting cause in almost every instance is a cold or a succession of colds, which have been improperly treated or entirely neglected. When Chamberlain's Cough Remedy is used as directed, no case of consumption ever has or ever can occur, it acts in harmony with nature, aids expectoration, relieves the lungs, equalizes the circulation, prevents congestion and keeps the lungs in a perfectly healthy condition. If you have a cough, or any symptoms of throat or lung disease, do not neglect it a day but procure a bottle of Chamberlain's Cough Remedy and cure yourself at once. Two sizes, 50 cent and \$1.00 bottles. Sold at Eagle Drug Store.

The Red Cross Syrup, made by Charles Wright & Co., is especially adapted for deep seated colds, where there is pain in the chest, and is highly recommended for pleurisy. It will stop a cold immediately. Sold at Eagle Drug Store.

THE RAIL ROAD SALOON

A quiet place for a comfortable drink.

THE BEST

Wines, Liquors and Cigars.

Worth \$1.00

The county commissioners sent over the county warrant recently to pay for the calaboose. County warrants have been at par and it was supposed that this was as good as the cash. But this manager of the Blinn leather company had a lumber bill against the calaboose and so he cashed the warrant and the other bills were paid. Mr. Titus sent the warrant to a Silver City bank for collection. The bank notified him that it held the warrant for collection and would remit when the county paid. It appears that the county is again broke and nobody at this end of the county can find out whether the warrants are worth 40 or 50 cents.

Ben S. Roberts made a trip over the Arizona & New Mexico road this week. Mr. Roberts is one of the directors of the company and was making an inspection trip. He traveled in the "director's car."

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that can not be cured by taking Hall's Catarrh Cure.

F. J. CHERRY & Co., Props., Toledo, O. We, the undersigned, have known F. J. CHERRY for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by their firm.
