WATER RIGHTS PERMITS GRANTED

TERRITORIAL ENGINEER ANNOUNCES APPROVAL OF SEVERAL APPLICATIONS

Santa Fe, N. M., April 11.—Charles D. Miller, territorial engineer, has approved the following water rights applications:

No. 477 by George Curry, Tularosa, N. M., for waters of the Rio Rinconada for diversion of 17 second feet and storage 10,490 acre feet. The project covers 15,000 acres of land. The estimated cost of the work is \$308,175. A dam of 137 feet in height will be constructed. The engineering work was done by Neel and Cooper of this city.

No. 371. W. Goff Black and Arthur Ponsford, Aztec, N. M., 50 second feet of water from the San Juan river for the irrigation of 10,000 acres. Fifty second feet additional had been acquired under previous laws and was not approved in this application. The engineer had jurisdiction only over 50 second feet of new water. Estimated cost \$80,000 for irrigation and power purposes. Application approved, giving six months in which to commence construction work.

No. 495. John Du Beau of Fruitland, N. M., waters of arroyos on the "Meadows" storage proposition for small acreage approved.

No. 494. Certificate of construction granted to owners of Tunnel Ditch on the La Plata river, construction work having been completed.

No. 22. Springer Land and Irrigation company of Springer, N. M., application for extension of time on water rights claimed to have been secured in 1905—rejected.

No. 509. Lucas Gallegos of Vallecitos, N. M., waters of Cebolleta creek rejected because of failure to comply with rules and regulations.

WHAT I WENT THROUGH

Before taking Lydia E. Pinkham's Vegetable Compound.

Natick, Mass.—"I cannot express what I went through during the change of life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold, I had creepy sensations, and I could not sleep nights. I was finally told by two physicians that I also had a tumor. I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it had worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others you may publish my letter."—Mrs. NATHAN B. GREATER, 51 N. Main Street, Natick, Mass.

The Change of Life is the most critical period of a woman's existence. Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

Politics and Politicians.

The anti-prohibitionists have made decided gains in the recent local option elections in Indiana.

United States Senator Thomas H. Paynter of Kentucky has announced his candidacy for the democratic nomination for re-election.

Elmer J. Burkett of Nebraska, who completed his term in the United States senate on March 4, has returned to the practice of law in Lincoln.

Colonel Theodore Roosevelt has accepted an invitation to speak before the members of the Wisconsin legislature in Madison on April 15.

Representative A. Mitchell Palmer of Pennsylvania, the youngest member of the new ways and means committee, won national fame by his speech on the Payne bill.

A constitutional amendment granting the right of suffrage to women will be passed upon by the voters of California at a special election to be held next October.

Congressman Ollie James, who hopes to be the next United States senator from Kentucky, has been in politics almost since boyhood, having served his apprenticeship as a page in the Kentucky legislature.

Representative Winfield S. Hammond, of the Second Minnesota district, is the only democrat, with the exception of former Governor John Lind, whom the state of Minnesota has sent to congress in many years.

A fact not generally known is that William H. Taft and Judson Harmon, who may be the rival candidates for president next year, are both members of the faculty of the law department of the University of Cincinnati.

Congressman Lincoln Dixon of Indiana, who is a member of the new ways and means committee of the house, is a country lawyer and belongs to the old school of Indiana democrats that included Thomas P. Hendricks and Daniel Voorhees.

In the event of Governor Donaghey of Arkansas declining to become a candidate for a third nomination, it is said his friends will urge the nomination of John I. Moore of Helena, who is known to favor the state policies advocated by the present governor.

Congressman Cordell Hull of Tennessee, enlisted in the volunteer army as a private at the beginning of the Spanish war and emerged as a captain. He is known as one of the quiet, earnest workers on the democratic side of the house. Though seldom heard in debate on the floor, he is nevertheless strong in the councils of the party.

Randolph Wiley, a democrat, has announced his intention to contest the seat of Congressman James A. Hughes of the Fifth West Virginia district, the only republican, according to the returns, who was elected to congress at the last election. Mr. Wiley asserts that Mr. Hughes is not a citizen of the United States, that he was born in Canada and that no record of naturalization can be found.

SALE OF ENGLY LIBRARY

Boston, April 11.—Book collectors and dealers from various parts of the country were on hand today for the opening of the sale of the private library of the late Eugene Engley of Colorado. The sale is one of the most notable that has taken place in Boston in several years. Mr. Engley, who was at one time attorney general of Colorado, devoted many years of his life to the collection of a valuable library that included many editions of de luxe and Americana and genealogy. Among the lots are rare Boston newspapers of the early colonial period, and works on Indian history, including the rare Cherokee laws.

MOISTURE GALORE IN NEW MEXICO

DRY FARMERS IN TERRITORY ARE REJOICING OVER FINE PROSPECTS

Dry Farming, the official bulletin of the International Dry Farming Congress, published at Colorado Springs, Colo., in its most recent issue, has the following interesting article from the pen of H. B. Henig, secretary of the New Mexico Bureau of Immigration:

"Reports of the United States weather bureau at Santa Fe show that the month of February just closed had the heaviest precipitation which has occurred in New Mexico during that month for forty years. Practically the whole of the south-west state was soaked by the downpour of snow and rain, and with great snow banks in the mountains and the country thoroughly soaked, irrigators, stockmen and dry farmers are happy. The dry farmers, particularly, are jubilant, and with good cause. The past three years have been years of unusual drouth in New Mexico. The dry farmers have suffered severely, and many homesteaders, unfamiliar with dry farming and but poorly established on their lands, have been forced to abandon them temporarily. With the recent heavy rains, however, the prospects for the coming season are very bright. Many homesteaders who had been forced to seek a livelihood off their claims are returning, and the prospects now are that the dry farming acreage in New Mexico in actual cultivation will be doubled this season. The increase will be due not only to the favorable weather conditions, but to the fact that the great dry farming campaign for education has had its effect in the southwest. Not only has the work of the Dry Farming Congress been felt, but the railroad systems have placed experts in the field charged with the single duty of teaching the newly arrived homesteaders and land buyers from the "rain belt" how to dry farm, what to dry farm, and when to do it. The campaign of education is taking hold, and the industry in New Mexico is upon a more substantial basis than ever before in spite of the three years of drouth."

A large addition of convicts will be sent to Socorro to combine with the present Silver City force to start with this new work.

The Albuquerque road work is being started actively by Assistant Territorial Engineer C. H. Neel. The money is available and work will be pushed rapidly.

The territorial good roads commission has returned to Dona Ana county \$1,500 recently deposited by said county for road construction. The work is progressing very rapidly. The road is graded from Dona Ana to Alameda above Las Cruces, a distance of four miles. The road has been grubbed and cleared from Anthony north a distance of ten miles. This work has been accomplished with the expenditure of only \$3,200 and use of free labor. Out of the above, two highway bridges have been purchased to make the road constructed from Dona Ana to Las Cruces continuous.

The territorial engineer, has received minutes of the proceedings of the meetings of the county commissioners of Otero county pledging completion of the La Luz-Tularosa road and Alamogordo-Clouderoft road, which will necessitate the expenditure of from \$30,000 to \$40,000 provided the territory will co-operate to the extent of \$5,000. The territorial engineer plans on locating an engineer to commence active construction work in this county as soon as the Carlsbad-Monument road is completed which will be within a few days.

When a medicine must be given to young children it should be pleasant to take. Chamberlain's Cough Remedy is made from loaf sugar, and the roots used in its preparation give it a flavor similar to maple syrup, making it pleasant to take. It has no superior for colds, croup and whooping cough. For sale by all druggists.

A Reliable Medicine—Not a Narcotic
Foley Kidney Pills contain a concentrated form of ingredients of established therapeutic value for the relief and cure of all kidney and bladder ailments. Foley Kidney Pills are antiseptic, tonic and restorative. Refuse substitutes. O. G. Schaefer and Red Cross Drug Co.

LAS VEGAS

THIS VICINITY has a climate of unsurpassed healthfulness without extremes of heat or cold, having nearly 300 days of sunshine in the year.

The water supply is abundant and pure, furnished by mountain streams or from wells of not great depth.

The annual rainfall amounts to nearly 19 inches, average, occurring principally in July and August.

The soil is highly fertile and easy of working, being generally sandy loam especially retentive of moisture.

Lands here are lower in price than we know of anywhere else where conditions are equally good.

Crops are principally alfalfa, oats, wheat, potatoes, corn and forage. Sugar beets promise to be profitable. "Dry Farming," practiced scientifically, is proving to be successful here, a large area being under cultivation. An irrigation system to cover many thousand acres surrounding the city is now being constructed. Mining developments in the adjacent mountains are showing up very promising values. Building stone of superior quality is quarried nearby.

The Pecos National Forest, which is near, affords excellent grazing for large numbers of cattle and horses at a nominal cost. Stock raising is a profitable business. A great natural pleasure ground abounds in this National Forest, with its grand scenery, its trout streams and big game. Beautiful mountain resorts within easy access of the city are open all the year for health or pleasure seekers.

GOOD ROADS WORK PROGRESSING STEADILY

IN EVERY SECTION OF NEW MEXICO CONSTRUCTION IS BEING PUSHED

Santa Fe, N. M., April 11.—Governor Mills and Territorial Engineer C. D. Miller left today for Las Vegas to inspect the Las Vegas-Mora road. Mr. Miller will return home tomorrow night.

The Silver City-Mogollon road work is being completed. Preparations are being made to hasten the removal of the camp to Socorro, on the Socorro-Mogollon road.

A large addition of convicts will be sent to Socorro to combine with the present Silver City force to start with this new work.

The Albuquerque road work is being started actively by Assistant Territorial Engineer C. H. Neel. The money is available and work will be pushed rapidly.

Health Suggestions

Don't worry. Eat sparingly of well cooked food. After forty, eat little meat. Live in the open air as much as possible. Sleep with plenty of fresh air in the room. Take a tablespoonful of Dutty's pure malt whey in a half glass of milk or water before each meal and on retiring. If you follow these rules you will not only enjoy good health, but you will be happy, the world will look brighter and you will live much longer.
