

EXPORT GOODS MUST BE MARKED PROPERLY

THE DEPARTMENT OF COMMERCE AND LABOR HAS ISSUED NEW RULES

Exporters, manufacturers preparing material for exportation, and transportation companies carrying merchandise of this character will be interested in a circular just issued by the bureau of statistics, department of commerce and labor. It calls the attention of persons forwarding merchandise from the interior for exportation at the seaboard or border ports to the importance of accompanying the same with a proper and detailed description. The official "export manifest" supplied to the collector of customs by the export agent or other person at the port at which the merchandise leaves the country is necessarily the sole reliance of the collector of customs for the description which he forwards to the bureau of statistics, and upon which that bureau must base the information which it gives to the public regarding the character of merchandise exported. Thousands of copies of this circular are being distributed to exporters, a large proportion of them being forwarded by the transportation companies and export agents. It is the desire of the bureau of statistics that all persons engaged in or contemplating entering the export trade should carefully study and comply with the law and regulations governing the description of exports. The importance of a thorough understanding of this subject is illustrated by the following extracts from the laws and regulations quoted by the circular letter in question:

"Before a clearance shall be granted for any vessel bound to a foreign place (or non-contiguous territory of the United States) the collector of customs shall require the owners, shippers, or consignors of the cargo to deliver to him manifests of the

cargo or the parts thereof shipped by them, respectively, which manifests shall specify the kinds and quantities of articles shipped by them, respectively, the value of the total quantity of each kind and the foreign country in which such cargo is truly intended to be landed. The manifests shall be verified by the oath of the person by whom they are respectively made and subscribed."

"The merchandise must be described in specific and not in general terms. Such designations as 'fruit,' 'provisions,' 'groceries,' 'meats,' 'canned goods,' 'hardware,' 'machinery,' etc., or any other general term must not be used. The quantities in all cases where practicable must be specified."

"Agents of steamships, transportation companies, and others at points of shipment on the seaboard to whom is consigned merchandise on through bills of lading, or otherwise from interior ports for export, should require the owner or shipper at the interior or initial point of shipment to accompany the merchandise with a list thereof or transmit by mail such list to the consignee or agent who is to clear the merchandise at the seaboard port for his information in preparing a proper manifest for the clearance of the goods. This list will show the kinds, quantities, values, and country of ultimate destination of the articles."

Persons desiring a copy or copies of the circular above described may obtain it free of charge by application to the bureau of statistics department of commerce and labor.

MILLIONAIRES ARE LONESOME IN THIS GANG

NEW YORK CITY CLUB MADE UP OF MEN WHOSE FORTUNES REACH EIGHT FIGURES.

New York, Oct. 23.—It is not necessary to be a millionaire to join the Recess club, which opened for the first time yesterday in its handsome quarters on the twenty-first floor of the Knickerbocker Trust building, No. 60 Broadway, but a mere millionaire would find himself as solitary as the man in the latest popular song, who declares:

"When I'm alone I'm lonesome."
There are more than 3,000 millionaires in New York City, but there are only 250 members of the Recess club, and the humblest of these estimates his wealth in at least eight figures. In addition to the 250 on the rolls of the club there are 140 on the waiting list. The membership committee in the mean time is said to be looking up their ratings.

The by-laws of the club do not specifically state that to possess many millions is a necessary qualification for membership, but it is generally understood in the financial district that smaller millionaires are not wanted.

At the top of the list are such members as J. Pierpont Morgan, Cornelius Vanderbilt, Charles M. Schwab, Jacob H. Schiff and Otto H. Kahn. The list tapers down to such comparatively insignificant personages as have a paltry \$10,000,000 each.

The main object of the club, however anomalous it may be, is to provide a restful place where members may forget their money and the worry it entails. There is not even a stock ticker where they can follow the daily fluctuations of the wealth. It is understood that such subjects as speculation and business are not to be discussed.

Aside from the mid-day menu, the topics most encouraged are art, literature and science, subjects in

which all the members are deeply interested and upon which many of them are highly erudite.

The quarters are, of course, furnished with the most expensive art works and appointments, and every modern convenience for leisure and comfort is provided. A part of the floor below the main club quarters has been reserved for wives of the members and some of the richest matrons in New York lunched there yesterday. More than 200 members took their mid-day meal on the floor above.

NATURE'S CURE FOR CHRONIC ULCERS

Only by removing the cause can any chronic Ulcer or Old Sore be cured. No one will question the truthfulness of this statement. The cause is always from an inward source, never an outward influence, and therefore the only possible way to get rid of these places is to take internal treatment. Pure blood is the one unfailing cure for chronic ulcers; just as long as the circulation is allowed to remain in an impure condition the place will be kept open from the constant discharge of impurities into it from the blood. But pure blood will change this condition and the flesh tissues will be nourished and made healthy, and then nature will promptly and permanently heal the ulcer. S. S. S. is recognized as the greatest of all blood purifiers and therein lies its power to cure old ulcers and sores. It goes into the circulation, and removes every trace of impurity or infectious matter, and so enriches this vital fluid that it nourishes all flesh tissues instead of irritating them with impurities. When S. S. S. has cleansed the blood and the place has healed over it is not a surface cure, but the entire ulcer is filled in with healthy flesh. Book and medical advice free. S. S. S. is for sale at drug stores. THE SWIFT SPECIFIC CO., Atlanta, Ga.
