

FAMOUS DRIVERS AND CARS TO COMPETE

THE BIG DECORATION DAY MEET IN INDIANAPOLIS IS TO BE CLASSY EVENT.

Indianapolis, Ind., Jan. 26.—When 30 of the world's speediest motor racing juggernauts line up at the tape next Memorial day to compete in the world's greatest race over the greatest speed course in the world—the Indianapolis Motor Speedway—two of these fire-breathing space eaters will be blue National flyers, entered by the National Motor Vehicle company of Indianapolis.

Four racing pilots that have stood the crucial test in track, road and hill climb events will alternately sit behind the wheels of the troubling monsters and pit themselves against probably the greatest field that ever faced a starter, that they may bring home another victory to the camp of the famous National in the 500-mile International Sweepstakes and incidentally win a generous slice of the \$50,000 offered by the Speedway as a reward for almost seven hours of nerve racking driving.

Harvey Herriek, the California lad, who holds the world's road racing record, and Charles Merz, the National driver, who first became prominent when he set a 24 hour record in 1905 that stood for years, will come out of the golden west to vie with Herr and Wilcox.

"Handsome Howdy" Wilcox, who has been turning fast laps and miles at the track this winter while other racing pilots were hibernating, and Don Herr, winner of the Illinois trophy race at Elgin, will represent the East in the National camp.

Not to be forgotten in the enumeration of these speed gladiators is "Happy John" Aitken, the former pilot who will be the team manager and on whom half the winning of the race will depend, for it is pit work that gives the victor his laurels. This will be Aitken's first season behind the pit wall, for he has retired—never to come back—and is now assistant to W. G. Wall, the National engineer.

Nos. 8 and 9 have been allotted to the National cars. Just what two drivers will pilot each particular car has not been decided. The National company will start a special, 50 horse power motor, 6x7 1/2 inches. The other will be a National "40" with regular motor 4 7/8x6 inches.

No end of interest centers around the promised race between these two cars, even though friendly, yet none the less severe, as these four pilots represent the East and West of National victories. From the West, Harvey Herriek, recognized road race champion and winner of many events, also Charles Merz, the victor in many races. From the East, Howard Wilcox, holder of the world's fastest stock straightaway mile record among other notable victories, and Don Herr, who sprang sensationally into the limelight last year by his conquest at Elgin.

These four drivers will relieve one another at the wheels of their particular cars. Wilcox and Herr are now in the employ of the National company at the factory. Merz, formerly a factory employe, is connected with the National Motor Car company of Los Angeles as mechanical expert, and Herriek is with this same company as salesman.

Just when these four drivers will gather at the famous paved track for practice has not been decided at this distant date, but Wilcox has kept the knowledge of the Speedway fresh in mind during the frigid winter by frequent spins on the course.

It took Harvey Herriek in his National "40" to lower the world's road race record made in 1908 by a Fiat over the Yargo Florio course in Italy. Herriek's record time now stands, an average of 74.63 miles per hour, made at Santa Monica in a 202 mile race. Just previous to this Merz in a National lowered the same Fiat record, his average being 74.42 miles per hour, also at Santa Monica. Herriek won the Bakersfield road race last July 4 and the Los Angeles to Phoenix, Ariz., desert road race of 550 miles.

Merz has driven National cars for years. He began his speed career in 1905. Since then every year has witnessed his victories. Last year he won the Oakland-Panama-Pacific road race for class C 600 and under; was second in the Illinois trophy race at Elgin, without a stop; won the Los Angeles motorhome ten mile, class E under 600, and at the same time the 25 mile class E 600 and under event; and was placed in many other contests both on track, road and beach.

Wilcox made the world's stock straightaway mile record in a National at Jacksonville beach last spring in 49.23 seconds. Before last

season Wilcox, who started as Aitken's mechanic, had also won many notable events. Last season he was a whirlwind conqueror of hill climbing events as well as being a star in other kinds of contests. At the Dead Horse hill climb Wilcox took seven firsts with National cars. He also led the field with National cars in the Stanley avenue hill climb in Cincinnati.

He won the 10 mile free for all in 7:00 flat at Atlantic-Pablo beach, the 10-mile handicap at the same beach with time of 6:59.53; the five-mile Class B 301-450 at the same meet, in 3:56.82, an average of 76 miles an hour, establishing the beach championship. To show what an all-round driver Wilcox is, he won the five-mile free for all in the time of 3:21 and the 50-mile Class E 600 and under, in 49:23.50 at the Los Angeles motorhome.

Don Herr, another versatile driver, last season won the Illinois trophy event at Elgin, Ill. This was for 203.25 miles, over a highway, for Class B, 301-450. Herr won with a National, time of 1:55:55.18, an average of 65.9 miles per hour. Herr also "cleaned up" last season at the Port Jefferson hill climbing contest, annexing four firsts. At Brighton Beach in a National Herr won the 23-mile nonstock Australian pursuit race.

This brings the total list of entries up to nine, the others being two Stutz cars, two Mercedes, two Case and a Fiat.

BREAKS A COLD IN JUST A FEW HOURS

Says Quinine isn't Effective in the Cure of Colds and Grippe.

Nothing else that you can take will break your cold or end grippe so promptly as a dose of Pape's Cold Compound every two hours until three consecutive doses are taken.

The most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, running of the nose, sore throat, mucous catarrhal discharges, soreness, stiffness, rheumatic pains and other distress begin to leave after the very first dose.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars, and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end Grippe misery so promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

THE STOCKING SYSTEM

Are you using the stocking system or the bed mattress in saving money? Why not deposit your money where it will earn interest? This bank provides absolute safety to funds entrusted to our care, and pays four per cent interest annually on certificates of deposit. The same courtesy is accorded to the small as well as large depositors. First National Bank.

WORLD GOWING WISER.

The world is growing wiser every day and the people of Las Vegas are growing wise to the fact that there is no better coffee than Golden Gate, which is sold by the Las Vegas Mercantile company. It has a delicious blend that cannot be equalled. It sells at 45 cents a pound, two pounds for 85 cents or two and one-half for \$1.

HOME MADE CANDIES

That's descriptive of the products of the Potter Candy Kitchen. They are a home product and they are made by the most expert candy makers money can obtain. Hence we lead all competitors in this district. Try a box of our chocolates. We cover the entire retail field. F. B. Potter.

IN NEW YORK CITY

You will find Hotel Cumberland, at Broadway and Fifty-fourth street, near Central Park, an ideal location in the retail shopping and theater district, with the subway, elevated and surface cars at hand. A hand some, modern, beautifully furnished hotel with one of the best restaurants in the city, but moderate in price. Rooms with bath, \$2.50 per day up. Send for booklet. Harry P. Stimson, manager.

HATS OFF

The Wallis millinery store on Sixth street has marked off the price of hats. All trimmed goods and shapes are being sold at absolute cost to make room for early spring purchases. Now is the time to make your purchases, ladies. There is a chance to make a big saving.

When buying a cough medicine for children bear in mind that Chamberlain's Cough Remedy is most effective for colds, croup and whooping cough and that it contains no harmful drug. For sale by all druggists.

LABOR WORLD NOTES.

The annual convention of the Georgia State Federation of Labor will be held at Waycross, April 25.

The Texas State Federation of Labor will hold its annual convention in Palestine, beginning May 6.

New York State Federation of Labor's executive committee has endorsed a proposed legislative measure providing for industrial insurance in that state.

The San Francisco Labor Temple association has asked the labor council to request affiliated unions to buy stock in order to create a building fund of \$45,000 to start the new building.

Fatalities in coal mines over the country average well above 2,000 from year to year and are double the number of a decade ago. The employment continues far more deadly than railroad.

The Portland, Ore., city council has authorized Mayor Rushright to appoint a committee of businessmen to conduct a series of co-operative shops where the profits would be distributed among the shareholders—the public.

On Prussian state railways the predominant working hours are eight to nine and nine to ten. More than half the locomotive men and plate layers work less than nine hours but 54 per cent of pointsmen and signalmen are on for ten to 12.

In an official report the British seamen's union states that its income is now \$5,000 a week and that the seamen's wages have been increased by the last strike by some \$10 or \$50 per annum. A new program of demands is being drawn up which will be presented to the ship owners this year.

Wisconsin's new 55-hour-a-week law for women clerks is playing havoc with the retail clerks' union. It is said the union is losing many of its women members as the result of the law. The women argue that the state law protects them and does for them just what the clerks' union was expected to do.

During the great miners' strike of 1892 the colliers of Cannelock Chase, replenished their funds in strange fashion. The Birmingham canal was emptied for repairs, whereupon the men, to the number of about 2,000, descended into its muddy bed and collected hundreds of tons of coal, which they sold at remunerative prices.

Notwithstanding the fact that Frank Morrison, secretary of the American Federation of Labor, reported to the Atlanta convention the highest paid membership ever attained the month of October, November and December, the first three months of the new fiscal year, reveal a still further increase in paid up membership.

At the New York headquarters of the United Garment Workers of America it is announced that preparations are being made for a secret ballot on a proposed nation-wide strike. It is claimed, that the strike, if called, will affect 125,000 garment workers in New York City and 250,000 throughout the country.

The employes and clerks of the Toronto, Ont., postoffice have started a movement to organize the staff of clerks and letter carriers for the purpose of making a demand upon the government for a better rate of pay than that which clerks and letter carriers now receive. If some consideration cannot be obtained, it is hinted that a strike may result that will tie up the service.

HOW MANY TIMES

Have you wished you had a good likeness of some near dear relative or a portrait that was a true likeness, with every characteristic line and a natural expression. In our portrait work we study our subject, get the proper pose and light, that's why our work is artistic. Waterman's Portrait Studio on the Plaza.

NO CRANKING NECESSARY

To start one of our horses going and no gasoline is necessary to keep them going. Nobby, clean and up-to-date rigs and good horses are what constitutes the best livery service. Remember you can get us at any hour of the day or night by calling Main 15 M. L. Cooley.

FARM STUDY FOR CITY BOYS

New York, Jan. 26.—A two days' conference on "Agricultural Education for Dependent and Delinquent Boys" was begun at the Hotel Chelsea in this city today under the auspices of the New York Child Welfare committee. The purpose of the conference is to persuade the city to give agricultural instruction in its public educational courses, so that many city boys will acquire the ambition to work on farms. The prominent speaker at the conference will include Mayor Gaynor and President Brown of the New York Central railroad.

S.S.S. HEALS OLD SORES

Before any sore can heal, the cause which produces it must be removed. As long as the blood, from which our systems receive their necessary nourishment and strength, remains impure and contaminated with disease germs, any old sore on the body will remain open, and resist every effort made to heal it. The nerves and tissues of the flesh around the places are continually fed with unhealthy matter and nature is simply disposing of the poison by draining it from the system through the sore. The only cure for an old sore is a thorough cleansing of the blood, entirely ridding the system of the cause. S. S. S. heals old sores by removing every particle of impurity from the circulation. It goes down to the very bottom of the trouble and so completely cleanses the circulation that there is no longer any impurity to drain through the sore, but the place is once more nourished with rich, healthy blood. S. S. S. heals the sore from the bottom, the place soon fills in with healthy, firm flesh, the tenderness leaves, all discharge ceases, and the skin regains its natural color and when S. S. S. has thoroughly cleansed and purified the blood the place is permanently healed. Book on Sores and Ulcers and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

IN MEMORY OF GORDON

Khartoum, Jan. 26.—A magnificent Anglican cathedral erected in memory of the famous General "Chinese" Gordon, who met his death 27 years ago today while leading the Anglo-Egyptian forces against the Mahdi, was consecrated today in the presence of a most brilliant assemblage, among whom were a number of prominent representatives of the Church of England and high officials from Cairo. The bishop of London, the Rt. Rev. Winington-Ingram, officiated at the consecration. The service was marked with oriental pomp and splendor and was enriched with wonderful music.

AGRICULTURAL EXPERIMENTERS

Madison, Wis., Jan. 26.—The Wisconsin Agricultural Experiment station opened its eleventh annual meeting here today with a large attendance of experts of the agricultural college, scientific agriculturists from various parts of the state and farmers in general, interested in experimental work. The program for the two days of the meeting includes a number of important and interesting papers on various agricultural subjects, to be delivered by noted authorities in their respective branches of experimental work and study.

BISHOP TUTTLE 75 YEARS OLD

St. Louis, Jan. 26.—Bishop Daniel Sylvester Tuttle, since 1902 the presiding bishop of the Protestant Episcopal church in the United States, reached the seventy-fifth anniversary of his birth today. Owing to the fact that Bishop Tuttle is absent from his home, attending the celebration at Pittsburgh, Pa., of the thirtieth anniversary of Bishop Whitehead's consecration, no program for the celebration of his birthday at his home in this city was arranged.

Bishop Tuttle was born at Windham, Greene county, New York, on January 26, 1837. He received his early education in the public schools of Windham and Delhi, N. Y., and then entered Columbia college, New York, from which he graduated with the degree of A. M., in 1857. Having graduated from the General Theological seminary in 1862, he was ordered deacon and in the following year priest. He was made rector of Zion church at Morris, N. Y., and held that position until 1867, having, in the mean time, married Miss Harriet M. Foote, of Morris. He was only 30 years of age when he was consecrated missionary bishop of Montana, Utah, and Idaho. In 1881 he dropped Montana and became bishop of Utah, and in 1886 he was made bishop of Missouri, with headquarters in St. Louis.

Foley's Honey and Tar Compound

"Cures in Every Case" Mr. Jas. McCaffery, Mgr. of the Schlitz Hotel, Omaha, Neb., recommends Foley's Honey and Tar Compound, because it cures in every case. "I have used it myself and I have recommended it to many others who have since told me of its great curative power in disease of the throat and lungs." For all coughs and colds fer and Red Cross Drug Co.

GREAT WHITE WAY

When you put up an electric sign at your place of business you will have done something for yourself as well as for your city, for an electric sign is the modern great white way of advertising. Keeps your name constantly before the eyes of the purchasing public and helps to make Las Vegas look like a wide awake city. Las Vegas Light and Power company.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Stomach and Liver Tablets, keep your bowels regular and you will avoid these diseases. For sale by all druggists.

Charles Durham, Lovington, Ill., has succeeded in finding a positive cure for bed wetting. "My little boy wet the bed every night clear thro' on the floor. I tried several kinds of kidney medicine and I was in the drug store looking for something different to help him when I heard of Foley Kidney Pills. After he had taken them two days we could see a change and when he had taken two thirds of a bottle he was cured. That is about six weeks ago and he has not wet in bed since." O. G. Schaefer and Red Cross Drug Co.

WILSON IN NEW ENGLAND

Boston, Jan. 26.—Governor Woodrow Wilson has come to New England with his presidential boom. Today he is in Concord, N. H., where he is to confer with some of the foremost democratic leaders of the granite state. Tomorrow he will be in Boston, speaking in the evening at the annual dinner of the Boston Real Estate exchange, and on Sunday he will run down to Providence for the purpose of conferring with former Governor Higgins and other distinguished democrats of Rhode Island.

Politicians declare that the New England states are going to be as interesting politically this year as some of the other states that have been regarded in the past as "doubtful." Encouraged by the election of Governor Plaisant in Maine and the re-election of Governor Foss in Massachusetts the democrats are going to see what they can do toward carrying New England in the national election. First attention is to be given to Massachusetts, but the missionary work of the democrats will not be confined to the Bay State alone. Maine is naturally looked upon as decidedly promising ground; New Hampshire, it is thought, is a vineyard waiting for the workers; Rhode Island gives promise of a harvest. Even Vermont is not to be neglected, for mountain and rambles are reported from the Green mountains. Altogether the democrats believe they see in New England very promising soil for cultivation this year.

TO LAUNCH REVENUE CUTTERS

Washington, Jan. 26.—Arrangements for the launching of the new revenue cutters, Unalga and Miami, which will take place at Newport News, Va., tomorrow, have been completed. Two young ladies well known to Washington society will be the sponsors. They are Miss Elizabeth Hilles, daughter of the secretary to the president, who will christen the Unalga, and Miss Barnes Richardson, daughter of Representative Richardson of Alabama, who will break the bottle on the bow of the Miami. The launching will be witnessed by many Washingtonians and officers of the revenue service.

Both vessels are built for speed. The Unalga is designed for service in Alaskan waters, to protect the seal fisheries, while the Miami will do duty off the Florida coast. They are the first of the cutters to be constructed in a private shipyard under the eight-hour law. They have each a displacement of 1,100 tons and each cost \$250,000.

MISSOURI REPUBLICANS

Kansas City, Jan. 26.—Republican politics formed the staple of discussion about the corridors and assembly rooms of the Coates House today. The state central committee went into session shortly before noon to decide upon arrangements for the state convention, while later in the day the members of the Republican State Editorial association got together for their annual convention. The joint gathering, which will continue over tomorrow, attracted nearly every republican leader of prominence in Missouri, including nearly all of the candidates for places on the state ticket. Before final adjournment is taken it is expected that the plans of organization will be laid and a pretty clear idea formed in regard to the issues upon which the fight for the state and national tickets will be waged next fall.

Gotham a Political Center.

With Oyster Bay, the home of Colonel Roosevelt on one side and Washington on the other, and as the headquarters of the booms of several presidential aspirants, New York this year has become more than ever a center of all sorts of political stories and rumors. Its personal interest is made more keen not only because Roosevelt the great unknown quantity in the coming presidential race, is practically a resident of this city, but also because Charles D. Hilles, Mr. Taft's chief adviser, who has lately had a number of tilts with the postmaster general which make the cabinet look too small to keep them both, was a well known worker here for many years. In the Hilles-Hitchcock controversy the sympathies of this city are with Mr. Hilles, as a native son. Other factors, too, detract from support of Mr. Hitchcock. His proposal for the government ownership of telegraph

NEW STYLES FOR OLD

The latest shapes and fashions in hats, styles, new and up-to-date, large and small, trimmed and untrimmed. Hats that make the old look young and the young attractive—millinery that sets off the crowning charm of femininity and gives the wearer an individuality that becomes a person all asset. All this and more is realized by the patrons of Mrs. Wallis milliner, on Sixth street.

TO MAKE A STATE OF NEW YORK CITY

TO BE CALLED MANHATTAN AND MOVEMENT IS UNDERTAKEN IN ALL SERIOUSNESS.

New York, Jan. 26.—If the movement set on foot here this week is carried through a new star will be added to the national flag within the next year or two. The proposal does not look to the admission of Alaska to the union as might be supposed, but to the creation of the state of Manhattan with boundaries practically the same as those of Greater New York, except that the whole of Long Island would be included instead of only a part as at present. The plan is being pushed in all seriousness and a bill for accomplishing this purpose has been introduced in the state legislature. Before the new state can become an actuality the proposal for its creation must be voted upon by the people of the city and those of the state and their action, if favorable, would have to be ratified by the president and congress. While there seems little doubt that the citizens of the metropolitan district would vote for a divorce from the rest of the state, it is doubtful if the residents of "upstate" would consent since the state derives two-thirds or more of its revenues from various taxes contributed by the city. It is pointed out by those behind the new movement that the state of Manhattan would be the richest in the country and that only two others would have a larger population. The cost of running the city is at present \$100,000,000 and will soon pass the \$200,000,000 mark which of course is in excess of the governmental expenses of any of the states. The new commonwealth would make a good showing in other respects than those of wealth and population, too, for its annual output in manufactures would be nearly \$1,500,000,000 and its commerce would amount to nearly \$2,000,000,000, or more than half that of the whole nation. Incidentally Tammany Hall is in favor of the new plan as most of its troubles as a political organization come from revolts originating in other parts of the state.

A Jolt for Wall Street.

The measure of Wall street's unpopularity with the rest of the United States was pretty well indicated here this week by the approval which the report of the monetary commission providing for the reconstruction of the country's banking and currency system has received from all parts of the country. The plan has been severely criticized here on the ground that it discriminates against this city by giving it a representation in the directorate of the proposed National Reserve association which is to supervise the banking affairs of the nation, of only about one-third what it is entitled to by its proportion of the national banking resources. The very fact, however, that the new plan will curb the financial power of Wall street apparently is the feature that has contributed most largely to securing the enthusiastic approval of the rest of the country for the proposed measure. According to the statement made here today by John V. Farwell of Chicago, president of the National Citizens' league, which is conducting a campaign for banking reform, the national reserve association plan is receiving the general support and approval of business men throughout the country. He justifies the discrimination against New York by claiming that the commission, in giving the preponderance of authority to the West and South, has merely favored the portions of the country most in need of credit facilities at the expense of the section already well supplied in this respect. Thirty-four states have joined in the movement for the adoption of the National Reserve plan, according to Mr. Farwell.

Gotham a Political Center.

With Oyster Bay, the home of Colonel Roosevelt on one side and Washington on the other, and as the headquarters of the booms of several presidential aspirants, New York this year has become more than ever a center of all sorts of political stories and rumors. Its personal interest is made more keen not only because Roosevelt the great unknown quantity in the coming presidential race, is practically a resident of this city, but also because Charles D. Hilles, Mr. Taft's chief adviser, who has lately had a number of tilts with the postmaster general which make the cabinet look too small to keep them both, was a well known worker here for many years. In the Hilles-Hitchcock controversy the sympathies of this city are with Mr. Hilles, as a native son. Other factors, too, detract from support of Mr. Hitchcock. His proposal for the government ownership of telegraph

lines finds little favor here where it is regarded as the opening wedge for government ownership of all public service facilities. It is becoming known, too, that railroad officials here are bitterly opposed to Mr. Hitchcock's plan for the readjustment for railway mail pay, since they do not hesitate to state that if it were applied to all the business of the roads it would force them at once into bankruptcy. They assert that the figures by which the postmaster general seeks to sustain his claim that he can bring about further great reductions in the cost of mail transportation are distorted and his conclusions unwarranted. The rumor which has caused most speculation here, however, is that from Oyster Bay to the effect that the Colonel would shortly go abroad for two months—a most significant report, since such action on his part would leave his friends free to carry forward such plans as they might decide on. Altogether with the convention still five months away, New York is getting a bit dizzy, and if rumors continue to fly at the present rate this city's politicians will be about ready for a straight jacket by the end of June.

Women Lawyers Successful.

With the admission of three women to the New York bar this week, the city has now passed the half hundred mark of Portia following the profession of law here, thus putting it considerably ahead of any other city in the country in this respect. Small as the number of female lawyers, or lawresses, may seem, it is really surprising that it is as large as it is. Investigation shows that they find it extremely difficult to get started, and all the way through their careers have a somewhat more difficult time of it than the male lawyers, who in this case at least seem to be the more deadly of the species, notwithstanding Rudyard Kipling's assertion. Just why this is the case has not been very definitely determined, although a number of reasons are suggested. The female lawyer is still looked upon as a novelty and as a result perhaps not as reliable as her more firmly entrenched professional brother. Then, too, it is pointed out that possible female clients strangely enough simply will not place confidence in a woman lawyer, being much stronger in this attitude than possible male clients. However, a number of women are making a good living at this profession, one of the most notable cases being that of a wife who is associated with her husband as equal partner.

"Whispering Gallery" Gone.

One little known feature of the great Equitable fire was the destruction of the once famous "whispering gallery" which more than a decade ago was the hane of politicians, and which probably had more to do with the making of political history than any one man knows. As was well known when Henry B. Hyde erected the building, which at that time was one of the sights of the city, he incorporated in it a private suite of rooms for himself which included a great dining room of novel design. According to the story which was always believed at Albany, many a member of the legislature visited that dining room only to discover later that a stenographic record of his suggestions, proposals and veiled threats as to insurance legislation was in existence. The explanation which finally came to be accepted was that artful curves in the panelling of the private dining room carried the most intimate conversations over coffee and cigars far away to a niche where sat the stenographer who recorded them.

JUST TRY A TEN CENT BOX OF CASCARETS

Insures you for months against a Sick Headache, Billousness, Constipation or a Bad Stomach.

Put aside—just once—the Salts, Cathartic Pills, Castor Oils or purgative waters which merely force a passage through the bowels, but do not thoroughly cleanse, freshen and purify these drainage or alimentary organs, and have no effect whatever upon the liver and stomach.

Keep your insides organs pure and fresh with Cascarets, which thoroughly cleanse the stomach, remove the undigested, sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the decomposed waste matter and poisons in the intestines and bowels.

A Cascaret tonight will make you feel great by morning. They work while you sleep—never gripe, sicken and cost only 10 cents a box from your druggist. Millions of men and women take a Cascaret now and then and never have Headache, Billousness, coated tongue, indigestion, Sour Stomach or Constipated bowels. Cascarets belong in every household. Children love to take them.
