

PRESS COMMENTS.

Public Opinion From the Four Quarters of the American Nation, as Incubated by the Press.

Advertising Certainly Pays.

Garrett Journal.

An Oklahoma girl advertised for a husband and got him. The advertisement and wedding cost \$11, and within a year the husband died and left her \$5,000. See how it pays to advertise.

Cheap Telephone in Norway.

Chicago Record.

One thing which invariably attracts the attention of the casual visitor to this city, is the widespread use of the telephone system. Everybody telephones. It is the one means of communication which is universally employed. One does not have to go far to find the reason; it is simply that the system here is as cheap as it is perfect. The rental of a telephone is only \$20 a year, instead of the almost prohibitive sum charged in most cities of the United States. There are booths in the streets where there are public telephones which may be used for 2½ cents. The government has charge of the telephone lines, and of course does not seek to make a profit out of them, hence the cheapness of the service. Its excellence is due to the same cause. The employees at the central are prompt, obliging and courteous, and consequently are not the propagators of profanity, as is the case with some of their confreres in other parts of the world. Long distance telephones unite the capital with most of the other cities in Norway, and the system is being extended in all directions. This service is also cheap and effective.

The Poor Reconcentrados.

Philadelphia Times.

Dr. Congosto, interviewed in New York on his way to Spain, throws a little incidental light upon the humanitarian side of the war in Cuba. Asked about the reconcentrados he replied: "There are no reconcentrados now." What has become of them? he was asked. "They are gone." Where? "God knows."

A recent Cuban letter states that in one town where there were 2,500 people when the blockade began there are now 1,000. The 1,500 others are "gone." And while those that remain must be close to starvation, the Spanish representatives in Cuba still object to the free entry of supplies.

Industry, Not Socialism.

New York Herald.

That \$8,000, approximately, is to be the individual share of 136 members of the disbanded Zoar Community will be accepted as a triumph of the communistic idea by believing in the socialist philosophy. Sober minded people, burdened with no philosophy, will consider a century of honest industry as a sufficient explanation of the result.

The Investigation.

Philadelphia Record.

It is too soon to express a definite opinion as to the work of the Commission of Inquiry appointed to investigate the shortcomings of the War Department; but the method of beginning

is calculated to arouse suspicion. It looks as if a case were to be made out in advance for the inculcated parties. The President has had enough to carry in carrying Alger, without adding to his burden. Having named his investigators, he should insist upon rigid investigation. Nothing less will satisfy the country. Nothing less should satisfy the President.

Peril of the Closed House.

Philadelphia Ledger.

An unused house is the generator of foul air. It is only the simplest prudence to give an unused house a thorough airing for several days before re-occupying it. Fresh air and sunlight give health and life, and a closed house should be saturated with the sun; the cellar should be cleaned and sweetened with a coat of whitewash, and the house from cellar to garret should be thrown open to the breeze before it becomes a human habitation.

The Late Mr. Bayard.

Philadelphia Press.

Senator Hayard, whose death is announced this morning, stood high in public esteem during the greater part of his mature life. He came into the Senate when Democratic senators were few and early acquired a position of influence and importance there which he retained and strengthened during the sixteen years he remained in the Senate. His standards were usually higher than those professed by the majority of his party associates, but the occasions were rare when his vote was not cast with theirs. These occasions are nearly all confined to those votes when the money question in some of its forms was the issue. Mr. Bayard was opposed to either paper or silver inflation. He was a sound-money Democrat from the beginning to the end of his career, and all his influence and powers of persuasion, as well as his votes, were given to sustain the cause of sound money.

Makes the Wheels Go Smoothly.

Snow will soon be flying and runners will take the place of wheels on the roads. This suggests that in this issue will be found the last advertisement for the season of the famous Mica Axle Grease. Later on either this advertisement or another one will appear, but for several months owners of vehicles will not invest much money in axle grease. Those who have used Mica Axle Grease during the past months will be sure to buy again in the spring and those who have never bought it would do well to cut the advertisement out of this issue and paste it up as a reminder.

The Board of Registration of Precinct 29, East Las Vegas, requests all qualified voters of said precinct to call at the City Clerk's office, in City Hall, and see that their names are registered. It is impossible for the board to know the names of all the voters in this precinct. Qualification of a voter is as follows: Citizen of the United States, residing six months in the Territory, three months in the county and thirty days in the precinct.

The football players will soon have an exclusive monopoly of the killed and wounded column.

PRIVATE LAND COURT.

In case No. 170, the Sanguljuela grant of 20,000 acres in San Miguel county, claimed by Alexander Tizelachowski, the motion for a rehearing was continued until the next term of court. N. B. Laughlin, attorney for the claimant.

In case No. 172, the Pueblo of Cochiti, or the Juana Baca grant in Bernalillo county, claimed by the Pueblo of Cochiti, the demurrer of the United States was sustained, the claim rejected and the petition of the claimants dismissed. J. H. Crist and N. B. Laughlin, attorneys for the claimants.

Case No. 231, the Alvarez grant of four leagues square in Mora county, claimed by Eugenio Alvarez et al., was submitted and taken under advisement. T. B. Catron, attorney for claimant.

Case No. 189, the San Miguel del Bado grant, an error occurred in reporting the proceedings of yesterday. The grant was not tried and taken under advisement. The case has been remanded to the lower court by the United States supreme court for further proceedings.—New Mexican.

TO HONOR JUDGE COLLIER.

At 8 o'clock tomorrow evening (Thursday) at the Commercial club, Father Mandelari will present Judge N. C. Collier the degree of Doctorate of Laws in behalf of the Georgetown University, of Washington, D. C., which bestowed that degree upon him last June. Prof. Herrick will be present and speak on "University Honors." Delegate Ferguson will congratulate the recipient in the name of the Territory, and also of the city, as Mayor Clancy is obliged to go to Washington on business before the United States supreme court; Judge J. W. Crumpacker will congratulate Dr. Collier in behalf of the Bar Association of the Territory. Miss Julia Hamm has been invited to play a few violin solos for the occasion.

This is the first time that a degree of L. L. D. has been conferred upon any one within the limits of the Territory, and the occasion therefore will be a memorable one. Invitations have been extended to all the members of the Commercial club, where the ceremony will occur, and also to all the members of the bar in this Territory.—Albuquerque Citizen.

I. O. O. F. STATISTICS.

The Sovereign Grand Lodge of the I. O. O. F. is in session at Boston.
