### THE PELTON WATER WHEEL

Give the Highest Efficiency of any Wheel in the World. Over 1300 in use.

Affords the most simple and reliable power for all mining and manufacturing machinery. Adapts to heads running from 20 up to 2000 or more feet. From 20 to 50 per cent. better results guaranteed than can be produced in any other wheel in the country.

**ELECTRIC TRANSMISSION.**  
The advantages of electric power in the way of a uniform and reliable power, close regulation, and the facility of adaptation to varying conditions of speed and pressure, have long given it the special preference and have given it the highest efficiency.

All applications should state amount and head of water, power required, and for what purpose. We have a large stock of pipe lines. Send for Catalogue.

### The Pelton Water Wheel Co

127-129 Main St., San Francisco, Cal., U. S. A.

### Pelton Water Motors.

Varying from the fraction of 1 up to 10 and 20 horse power, unsuited for all light running machinery. Warranted to develop a given amount of power with one-half the water required by any other.

Send for Motor Circular. Address the above.

### NOTICE OF FORFEITURE.

Territory of New Mexico } ss  
County of Socorro }

To William W. Dedrick, George W. Pomeroy, James D. Lucas, Hubert T. Poney, Henry W. Hillyer.

You are hereby notified that I have expended one hundred dollars (\$100) in labor and improvements upon the Wall Street mining claim, situate in the Silver Mountain Mining District, Socorro county, New Mexico, being the amount required by law to hold the same, as assessment work for the year ending December 31st, 1890, and that if within ninety days after the first publication of this notice you fail or refuse to contribute your proportion of such expenditure as co-owners, your interests in said claim will become the property of the undersigned, under the provisions of section 2234 of the Revised Statutes of the United States. JOHN J. A. DOBBIN, Socorro, N. M., Feb. 27, 1891.

### Additional Editorial.

WHEN the article on the Rio Grande bridge was put in type, we did not know a special meeting of the county commissioners was called to take action on that matter. They have met and acted, as will be seen elsewhere. Their action meets our hearty approval, as we think it will of everyone interested in the welfare of Socorro.

CONGRESSMAN CHAS. CRISP, of Georgia, has been elected speaker of the present congress. This was done by a combination of Tammany with the spoils hunters of the east and south. To a person in the west who is not initiated into the mysteries of the eastern borbon ring it seems strange a man like Hon. R. Q. Mills, of Texas, or Mr. Springer, of Illinois, would be thrown over board, but then the slogan rang and the whole party got down to do the bidding of the bosses.

ON Tuesday last, the land court judges paid Albuquerque a visit under an invitation from the bar of the city. The court has adjourned until March next. When the court reassembles would it not be a good thing for southern New Mexico to put a special car at their disposal and let them see the best part of the Territory. What says Las Cruces, Deming, Silver City and San Marcial; Socorro will be with you.

The board of county commissioners met on Thursday last in called session. They took up the matter of the franchise of a toll bridge over the Rio Grande at this point. The charter, as asked for by Messrs. Hamilton, Thwaites and Buchanan was read section by section, and was revised and debated by the citizens of Socorro present. This took all the forenoon, at the afternoon session the board granted the franchise asked for. Its principal points are as follows: Messrs Hamilton, Thwaites and Buchanan or successors, are to commence, within ninety days to build and construct the bridge, and are to complete it in six months from and after 90 days, the date of commencement. If they do not commence in 90 days and do not complete in six months thereafter, then they forfeit their rights. Time is made the essence of the franchise. The bridge is to be good and substantial, either wood or iron or both. They have an exclusive franchise for one and one-half miles above and below their bridge. The tolls under the law are to be fixed by the county commissioners. After twenty years the county can purchase the bridge at its appraised value if they so elect, the value to be determined by three appraisers, one by the county, one by the bridge company and one selected by the two appraisers. This sets at rest the long discussed question of a bridge over the Rio Grande at Socorro, and will give us an A No. 1 bridge and take the expense of building, maintaining and repairing from the shoulders of the tax payers of this county. The person or set of persons who want to use it can do so by paying a small toll for the privilege.

### NEW MEXICO VS. THE EAST.

A FEW days ago the whole United States was electrified by the abduction of a little two year old boy, son of a banker at Kansas City, Mo, the child being held for ransom which was paid. On Dec. 4th. the office of Russell Sage was entered by an unknown man who demanded a million of

dollars, being refused he dropped a dynamite bomb which exploded killing four persons, wounding Russell Sage and several other people and completely wrecking the second floor of No. 71, Broadway, N. Y. This is eastern civilization, it comes of that higher plane on which the people of New Mexico have not entered, and on which they never will enter. In the east it is a crime for a man to accumulate money; to use his brains and be successful in business. In New Mexico it is just the reverse. To be sure, men are killed out here,—there are shooting scrapes and murders, but they are of the kind that are found the world over, were started by Cain when he killed Abel, and will continue so long as man exists. There is a refinement of crime in these abductions and murders in the east, that is foreign to New Mexico and that can only come from a higher plane of civilization, and one the good people of dear old New Mexico are unacquainted with.

### Council Proceedings.

A quorum being present, his Honor Mayor Estevan Baca called the council to order, the roll was called and the following councilmen were present: J. J. Leeson, Conrad Baca, Camillo Baca, Hermanus Baca, M. W. Browne, C. T. Brown and C. Cortinas.

On motion of Councilman Leeson, Conrad Baca was appointed to act as city clerk until the next regular city election, the same was carried. The minutes of the previous meeting was read and approved.

The petition of A. Preston and citizens were read and both prayers were granted.

The report of the city marshal was read and referred to finance committee. The report of the city treasurer was read, regarding water rent collections. The same was referred to water committee.

The report of the water master was read and referred to water committee.

Finance committee, no report.

Street committee, no report.

Health committee, no report.

Public grounds committee, no report.

Ordinance committee, no report.

The report of the judiciary committee was read and accepted. As usual a large batch of bills was read. On motion all bills for salaries and rents were ordered paid, and the balance of the bills were referred to appropriate committees.

Sealed bids for the printing of 3,000 blanks were opened and read. The Industrial Advertiser being the lowest, the contract was awarded that office.

The special committee that was appointed to report ways and means for getting the claim of Socorro before the land court were divided on opinions, only one of the committee, M. W. Browne, making a report. The chair decided as M. W. Browne was not chairman of that committee and as the chairman and the other committee members did not make any report, Mr. Browne's report was not a minority report, and consequently was not properly before the council, whereupon a cloud of eloquence was poured forth by Messrs. L. M. Baca, Fitch and Hamilton on the four and eleven league grants, which continued until the small hours of the morning.

On motion of J. J. Leeson it was moved that the whole matter be taken from the hands of the committee and placed again with the council. Part of the committee earnestly requested Councilman Leeson to withdraw his motion, which he finally did, and made a motion that two more of the council be added to said committee and that they confer with a like committee appointed by the Commercial club, and report their conclusions on next Monday evening, Dec 14. This motion was carried.

On motion the health committee was authorized to expend the sum of ten dollars upon some poor sick people in the city. The council then adjourned to meet Monday, Dec. 14.

### MINING NOTES.

#### LORDSBURG.

The Pyramid mill keeps grinding along and has plenty of water in the new well.

The ledge in the bottom of the Silver Bell has opened out to five feet, to the satisfaction of Superintendent Hamilton.

#### HILLSBORO.

The upper level of the Bonanza is being worked entirely under lease.

Col. Jesse Crane and W. H. Harrison McDonald are working the Bouncer extension of the 85, a well-known and valuable property.

Dickey & Laramy are getting out some fine ore from the Deer. The pay streak is showing steady increase in volume and value as development proceeds.

The Silver Mining Company, of Lake Valley, has declared dividend No. 12 of five cents a share, aggregating \$25,000 payable Dec. 3rd, making \$100,000 of dividends paid for 1891.

Supt. McDonald is working the Copper King Company's War Horse mine at the head of Trippe gulch. The shaft is just getting into the regular formation and assays made this week show a considerable improvement.

The assessment work done this year proves the Hanlon, in Grayback Gulch, to be a valuable property. The pay streak is eight inches wide of heavy copper and sulphide ore. Enough ore is said to have been taken out to pay for the work. Messrs. Perrault & Smith are the owners.

The Richmond mill is treating a lot of ore from the Chance mine. This property in Grayback gulch is owned by Messrs. Clark & Brooks and has produced several lots of exceptionally rich ore recently, the mine has developed ore running forty per cent. copper, of a character different to anything hitherto found in the camp. The ore has the appearance of heavy iron and probably contains metallic copper.

The storm blew in one of the big glass windows in the front of Sperling's store. It also took off part of the roof of the brewery and did considerable other damage.

On Thursday night last, Socorro was treated to an east wind, blowing as they say from "God's country," well if that is the kind of wind, sand and sand storms they have in that country, we do not care to ticket for that haven, we will just take the elevator and go below out of the storm.

### NOTICE.

From and after the 15th day of November until further notice, business hours of the undersigned banks will be from 9 o'clock a. m. until 3 p. m.

Dated the 5th day of November, 1891.

THE NEW MEXICO NATIONAL BANK,

M. W. Browne, Cashier.

THE SOCORRO NATIONAL BANK,

R. A. Jones, Cashier.

### The Silver Convention.

The Southwest Silver Convention meets on December 15, 1891, at El Paso, Texas, to discuss Free Coinage and the repeal of the Allen Land laws. It is hoped Socorro county will have a full representation of mining men.

### Aviso de Administracion.

Sepan todos por estas presentes que el Sr. Jefe Brnzado Elzeo Baca, ha sido nombrado por la Hon. corte de Pruebas del Estado de Socorro, N. M., administrador del estado de Antonio V. de Baca, defunto, ultimamente de la Socorro, Condado de Socorro, N. M.; Por lo tanto toda persona que deba a dicho estado esta por este avisada de pagar la misma, y toda persona a quien deba el difunto de presentar su cuenta, al abajo firmado dentro del tiempo requerido por ley.

Elzeo Baca, Socorro, N. M. Administrador.
