YOUNG MEN.

Delegates to the Jubilee Convention Arriving in London.

Will the Lord Chief Justice of England Resign?

Is Frances Willard Sick and Will Visit England?

Walt Whitman's Friends.

London, May 31.—The delegates to the international jubilee convention of Young Men's Christian associations are rounding up here to-day preparatory to the opening of the convention to-morrow morning. Last night the American delegates gave a conversation at the Cannon Street Hotel, at which many of the delegates from England and Scotland were present. George Williams, the venerable founder of the Y. M. C. A., was the special guest of honor. Distinguished attentions are being paid to the local committee by Hon. John A. Baker, Rev. Dr. Theodore L. Cuyler, F. H. Nevell, J. E. Defenbaugh and others of the American delegates. The trials, up to noon to-day, include 2,000 delegates from Germany, 150 from Sweden, 70 from Holland, 100 from France, from the United States, and scattered contingents from the Australian colonies and other parts. The international committee has decided to issue a jubilee medal in honor of the convention. An immense marquee is being erected to cover the Thames embankment, in which the local committee will convene daily during the noon recesses. Opening service to-morrow will take place in Westminster Abbey, and the demand for tickets is enormous. Right Rev. Dr. Temple, Lord Bishop of London, will deliver the address to the delegates.

ent parts of the world among the admirers of Whitman, and to publish essays and newspapers devoted to an elucidation of his philosophy of life. The organization will be incorporated.

Terrific Hains.
Pueblo, Colo., May 31.—In consequence of fearful rains yesterday the Arkansas river has broken its levees and everything down town is in a sea of water. The worst flood in twenty years; electric lights out and cars stopped. Everything in confusion and hundreds of rescuing families in flooded houses. No deaths yet reported. Damage is expected to exceed a hundred and fifty thousand dollars. All railroads completely tied up and the governor at Victor unable to leave. Storm continues, and rain and snow general throughout the state.

Cocinito County's Court House.
Prescott, May 31.
(Special to The Citizen.)
On Monday and Tuesday Harry Zuck, district attorney, and E. B. Clark, representing the board of supervisors, argued their side of the case, while Herndon & Norris of Prescott, appeared for the Williams people, who had asked Judge Hawkins to grant an injunction restraining the board of supervisors from proceeding with the building of a court house at Pigeataf.

Misses States and strikes.
Papers have been received showing that Simon Stern, the clothier, and L. J. Strauss, the lawyer, have purchased from R. J. Ward one-half interest in the Dago Joe mine, out in Hell canon, and that Wm. Mallette purchased one-fourth interest from the same gentleman. The former gave \$50 and the latter \$200. Mr. Ward retains one-fourth interest in the mine, which is an extension of the Belvedere mine, owned and worked by E. A. Propper.

Chas. F. Hunt, who purchased the King placer claims, which are located near the Kent-Strickler placers in Hell canon, returned to the city this morning from the canon. W. B. Slaughter is Mr. Hunt's partner.

The Caledonia mine, at Hillsboro, owned by Messrs. Scott Weaver, Howell and McIntosh, is showing up beautifully, and promises to become one of the best producing properties in the west. Mr. Howell came up to the city this morning bringing with him some samples of ore from a vein just cut in a new tunnel which the company are now driving and which are as fine looking specimens of sulphides as we have ever looked at. The vein is at present about three feet and widening all the time, and the ore is also improving in quality, though we should say from the samples shown us by Mr. Sault that it is already good enough.

LA JARA AND BEAR.
Messrs. of these two canons in Cochiti District coming to the front. Thanks to the persistency with which the subject of communication and transportation facilities for the Cochiti district has been agitated, hardly a single portion of the district now remains unprovided for. The latest move is that for La Jara and Bear canons. A road can and will be built from Bernalillo to Bear canon at a very moderate expense. A natural thoroughfare exists and the distance from Bernalillo to the grand ledge of the La Jara will not exceed eighteen miles. A semi-weekly stage and freight outfit has been put on by the miners of Bear and La Jara and until the completion of the new road mail, passenger and freight will go via Wallace. A petition has been forwarded to Washington for a postoffice near Bear Springs. The camp at this point now contains about a hundred prospectors, mostly engaged in assessment work.

Considerable development work has been contracted for on the grand ledge and a custom and development tunnel 3000 feet long will crosscut and develop the grand and parallel ledges. The recent survey of the north line of the Santo Domingo reservation left but few claims within the Indian line.

Kept City is almost deserted and the Peralta canon people are moving further up the canon to reach water. In the vicinity of La Jara peak nearly every claim located has assessment work completed and many of the claims show up finely considering the slight depth reached. The northern portion of the camp will undoubtedly come out all right and as soon as good mineral is secured reduction works will be provided. The big tunnel scheme will prove most beneficial to the entire La Jara and Bear district as it will accurately determine the extent and value of the ledge matter.

Lord Cateridge's Creditors.
London, May 31.—Rumors were extensively circulated to-day that the Right Hon. Lord Cateridge, lord chief justice of England, has tendered his resignation to Lord Roseberry. The lord also took the form that the eminent jurist had intimated to a member of the press that he had reluctantly arrived at the conclusion that the long tenure of office to his country was practically dead, and that he felt it incumbent upon him to take the possibility of his resigning his position on the bench very seriously. At the Colridge residence Belgrave square, no confirmation or denial of the report could be obtained. It is admitted, however, that for nearly a month past the lord chief justice has been confined to his bed with a serious neural disorder, and that for the past days his condition has been so serious that his medical attendant, Dr. Cavendish Hale, has considered it necessary to call Sir William Broadbent, eminent specialist, into daily consultation. It was also stated that although the condition was in a measure improved, still it is impossible, even under the most favorable circumstances, for the lord chief justice to leave his bed for several weeks. These developments have created a sensation, as the fact of the jurist's illness has been sedulously veiled from the public.

Miss Willard Sick.
Chicago, May 31.—A private cable dispatch states that Miss Frances Willard, president of the World's and National Women's Christian Temperance Unions, has been abroad for nearly a year in precarious condition of health, will sail for her country on the steamship Teutonic on June 13. She will therefore be unable to take part in the great prohibition conference at Staten Island, New York, next week. The dispatch says, although much improved in health, she is still very frail and requires constant attention.

A Royal Tournament.
London, May 31.—Fifteen hundred men with 200 guns and 600 horses start to-day in the opening of the fourth Royal Military Tournament at Aldershot. The Prince of Wales and a party of friends was present at the opening exercises.

Walt Whitman's Friends.
Philadelphia, May 31.—A number of admirers of the late Walt Whitman, the eminent poet, gathered to-day for the purpose of organizing an international Walt Whitman society. D. G. Burton will be selected as the president. The objects of the organization are to establish centers in dif-

Y. M. C. A.

Monster Meeting of World's Delegates in London.

Trial of a Wholesale Poisoner in Progress.

Republican Congressional Convention in Session in Kentucky.

Poland International Exposition.

London, June 1.—Like a sudden burst of a thousand trumpets the grand old strains of the Doxology issued from within the venerable walls of Westminster Abbey this morning. The Lord Bishop of London had just concluded a stirring discourse. There was a moment of stillness. Then the great organ that has pealed forth triumph at the coronation of monarchs, and wailed requiems over the coffets of some of England's greatest dead, sounded the opening notes of that hymn that has been sung by the people of every race and of every tongue. Instinctively the vast audience, representing the nations of the earth, rose to its feet, and the memorable words, "Praise God from Whom all Blessings Flow," rolled forth like a paean of triumph and glory. They were taken up by the thousands who, unable to gain admission even to the cloisters, had been content to remain in the spacious Abbey yard. The music swelled into the air, sweeping the progress of the pedestrians on the outside of the big gates and was carried across to the new palace yard, causing the members of parliament to stop and listen. As the strains died away the resonant voice of the bishop as he pronounced the benediction came through the great doors to the open air. And thus was the opening of the International Conference of Young Men's Christian Association declared an accomplished fact.

Kentucky Republicans.
Lexington, Ky., June 1.—The members of the republican committee for the Kentucky district are in session this afternoon at the Phoenix hotel, with Mayor R. A. Hancock presiding, for the purpose of deciding upon the time, place and method of nominating a candidate for congress. A recent canvass of the members of the committee developed a unanimous sentiment that no matter whether Col. Beckenridge was nominated or not, a republican candidate should be placed in the field, it being thought that, whether Beckenridge or Owen is successful in getting the regular democratic nomination, the republican candidate should be so pronounced as to make possible the success of a republican candidate.

Polish Exposition.
New York, June 1.—A cable dispatch says that an international exposition was opened to-day at Lemberg, Poland. There are twenty six buildings devoted to fisheries, horticulture, liberal arts, electricity, mining, agriculture and kindred pursuits. The American pavilion is not yet completed, but will be one of the finest on the grounds.

While in Topeka last March, E. T. Barber, a prominent newspaper man of La Cynge, Kan., was taken with cholera morbus very severely. The night clerk at the hotel where he was stopping, happened to have a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and gave him three doses, which relieved him and he thinks saved his life. Every family should keep this remedy in their home at all times. No one can tell how soon it may be needed. It costs but a trifle and may be the means of saving much suffering and perhaps the life of some member of the family. 25 and 50 cent bottles for sale by T. H. Burgess & Son, Druggists.

J. M. Sandover, one of the biggest wood raisers in Bernalillo county, in fact in central New Mexico, was here this morning to inquire the price of wood. He was so thoroughly disgusted with the low price that he left for his home at Los Corrales at noon, declaring that he would hold his spring clips until prices advanced, if ever, under his democratic administration.

It is a fortunate day for a man when he first discovers the value of Ayer's Sarsaparilla as a blood purifier. With this medicine he knows he has found a remedy upon which he may rely, and that his life long malady is at last conquered. Has cured others, will cure you.

Ed Duval and wife, of N. H. F. Liston left last night for Sullivan, Ind., their old home. Mr. Duval was the schoolmaster and hand teacher at the government Indian school, and his wife the assistant matroness. Mr. Liston, as his Christian stated yesterday, was the disciplinarian. They were all in the employ of the government under a Superintendent Croager.

THE FLOODS!

Colorado Towns Badly Damaged by Incessant Rains.

Senator Hill's Resolution Favoring Open Committee Meetings.

Kelly's Army of Industrial Sail South from St. Louis.

St. Louis Carpenters Strike.

Boulder, Colo., June 1.—The flood here washed away dwellings, and the towns of Salina and Crisman are destroyed. All county and railroad bridges on Boulder creek and in the city are destroyed. Communication with the south side of the creek is destroyed. The water is abating. The wildest excitement prevailed yesterday, and people ran in the strong rain to Lover's Hill, fearing the town would be destroyed. The estimated loss is a half million.

Fearful Flood.
Vancouver, B. C., June 1.—The Fraser river rose ten inches more last night and is still rising. The valley for a hundred miles is inundated. So great is the destruction that ocean steamers passing through the strait of San Juan de Fuca are now encountering floating roofs of houses, etc. It is estimated that 3,000 families are homeless. The property loss is fully three million. At Halse a steamer sailed over farms and tied up to the rails of the Canadian Pacific track seven miles from where the river formerly ran. The region is cut off from the outside world.

Want Open Meetings.
Washington, June 1.—The vice president laid before the senate to-day Hill's resolution offered yesterday for open sessions of the select committee, which went over till to-morrow. The same course was taken with Dolph's resolution relating to arrest for contempt of Eliza Edwards. The tariff bill was laid before the senate, and the sugar schedule being the pending question, Manderson proceeded to speak upon it.

Important Case.
Springfield, Ill., June 1.—The papers in the appeals to the supreme court from the decisions of Judges Bookwalter, of Danville, and Creighton, of this city, in the now celebrated apportionment cases, will be finally completed to-day, and will be ready for presentation on the assembling of the court. Upon the view taken by this tribunal depends the question whether a special session of the legislature will be necessary in order that the state may be again re-districted before the November elections.

Temperance Congress.
New York, June 1.—Several hundred delegates from different parts of the country have already arrived for the great international temperance congress which opens at Prohibition park on Sunday. Gen. Neal Dow, to whom a special international reception is to be given, will reach here to-morrow. A dispatch says he has almost entirely recovered from his recent indisposition, and although very hoarse, expects to be able to address the congress.

War Ship Chicago.
London, June 1.—The American war vessel Chicago left Gravesend to-day for Cherbourg and Antwerp, where it will remain two weeks. The vessels in the harbor saluted as the Chicago steamed out. The officers are delighted with the hearty welcome that has been extended to them in London.

Strike of Carpenters.
St. Louis, June 1.—A thousand carpenters struck this morning for higher wages.

Railroad Case.
Chicago, June 1.—It is understood that Justice Harlan overruled the motion to certify the record in the appeal from Judge Jenkins' decision to-day and that argument is set for to-morrow.

Later.—The court this afternoon declined to hear oral arguments in the case Monday, June 11, instead of next Monday.

For Next Week.
Washington, June 1.—The house to-day passed the senate bill to extend to the nations with which the United States may have treaties respecting the fur seal provisions of the law of last March, to give effect to the findings of the Paris tribunal of arbitration. Representative Strauss offered a joint resolution to abolish the extradition treaty with Russia, which was referred to the committee on foreign affairs. The house proceeded to consider the bank tax bill.

Cripple Creek War.
Denver, June 1.—On the governor's return from Cripple Creek his first official act will be to issue an order to the militia to assemble at the armory to-morrow night prepared to go to Cripple Creek.

WHY SUFFER WITH Sick and Nervous HEADACHE?

You may be easily and quickly cured by taking

AYER'S PILLS

"I have been a victim of terrible headaches, and have never found anything to relieve them so quickly as Ayer's Pills. Since I began taking this medicine, the attacks have become less and less frequent, until, at present, months have passed since I have had one."—C. F. NEWMAN, Dug Spur, Va.

"Having used Ayer's Pills with great success for dyspepsia, from which I suffered for years, I resolved never to be without them in my household. They are indeed effective."—Mrs. SALLIE MORRIS, 125 Willow St., Philadelphia, Pa.

"I always use Ayer's Pills, and think them excellent."—Mrs. G. P. WATROUS, Jackson, Fla.

Received Highest Awards AT THE WORLD'S FAIR

COCHITI CO. NEWS.

Items clipped from the last issue of the Cochiti Call.
Beautiful specimens of free gold have been taken from the Lone Star the past week.

A number of workmen are busy getting out timbers for the new stamp mill at Allerton.

Lumber was moved up to the Crown Point mine Thursday for the erection of a bunk house.

A new town is soon to be laid out at the mouth of Cochiti and Medio Dia canons near the Mexican village of Canada.

Eagle has already assumed sufficient metropolitan size to require a city government and her inhabitants should proceed at once to incorporate the town.

Cochiti is now on speaking terms with the outside world. The telephone line is now completed and in operation from Eagle and Allerton to Santa Fe and Cerrillos.

Claim jumping is becoming very common and as a result the atmosphere around the head of Calla, Pino and Medio Dia is somewhat hazy with profanity. Trouble is looked for.

Andy Horn's stages left Wallace last Tuesday morning with twenty-two passengers bound for Cochiti. The same day the Santa Fe and Cerrillos stages arrived with eight more.

So many new towns are springing up in the district that it is impossible for the Call man to keep track of them all. The latest reported to these headquarters is Bear Springs at the mouth of Bear canon.

Warner A. Root, editorial correspondent of the Daily Mining Record of Denver, has been looking over Cochiti this week with a view of giving it a write-up in that enterprising journal. From Mr. Root's conversation we shall expect a good send-off, as he seems highly pleased with the outlook.

Cochiti is a poor man's camp. Five hundred dollars would make any one of the best prospects in the mineral belt a shipping mine. Take for instance those at Shiping—the Lone Star, Crown Point, Iron King and Last Chance—and not a one of them are yet below grass roots, and some of them have ore running into the hundreds of dollars per ton ten feet above grass roots in the ledges that crop out on the surface. About all the money that is required to make a good producing mine in Cochiti is a sufficient amount to purchase tools, powder, etc. for mining, a grab stake and then to get your ore to the smelter. There is no poor man's mining camp on the face of the earth if Cochiti is not one.

Yesterday V. P. Ellis, for the F. J. Primrose wood company, purchased from M. T. Moriarty his spring wood clip of 12,000 pounds. The wood will arrive this afternoon, being received by Pedro Sandoval for Mr. Ellis, who went to Socorro this morning to look after a big clip there. He will return home this evening.
