**BLACKWELL'S DURHAM TOBACCO COMPANY.**  
If you have any difficulty in procuring soap, cut out this notice and send it with your order to your wholesale dealer.

**PENITENTIARY BOARD.**  
DR. GEO. W. ATHERTON.

**This Well Known Educator in the City Yesterday.**

Yesterday was a pleasant and profitable one for many of those of our city directly interested in education.

In the morning at 10:30, Dr. Geo. W. Atherton visited the University. He was cordially received by the faculty, students and several citizens, and at chapel he delivered an intensely interesting and practical talk to the students. He expressed his confidence in the honorable purposes that filled the minds of young people, and in a very sympathetic manner he pointed out the essential elements of success or failure in life. That his discourse was highly appreciated by the students and others, was proven by the hearty manner in which all crowded around him for a personal introduction.

After visiting the different rooms, the library, natural history cabinet and gymnasium he returned to his hotel for lunch.

In the afternoon, piloted by Gov. Stover, he visited the old town schools, listened to recitations, spoke encouraging words to the students and joined with them in singing patriotic songs.

At 4 p. m., under the auspices of the Outlook club, he met the citizens at Perkins' hall and spoke on general educational topics, in the course of which he paid a high tribute to the possibilities of the great southwest and the excellent start already made in education and other factors that must precede the best civilization.

The doctor left this morning for his home in the east, but his visit to Albuquerque will be long remembered by those who met and heard him.

**New Corporations.**

The following new corporations have filed articles with the territorial secretary:

The Cortland Gold and Silver Mining Company—Incorporators, N. G. Burnham, S. T. Grant and W. R. Gray, of Denver, and L. O. Loring, of Cortland, Colo. Capital, \$25,000; objects, acquiring and operating mines and mills; capital stock, \$25,000; life, fifty years; principal place of business in New Mexico, Santa Fe; local agent, Charles E. Keady.

The Rio Grande Reservoir, Canal and Irrigation Company—Incorporators, Philip Millhiser, Walter P. Turner and Parker Earle, of Roswell, and Moses Millhiser, Gustavus Millhiser, Emanuel Millhiser, Charles Millhiser and Sampson Hirsch of Richmond, Va.; objects, constructing and maintaining irrigation systems; principal place of business, Roswell, N. M.; life, fifty years; directors, same as incorporators; capital stock, \$25,000.

The Gypsum Mining Company—Incorporators, Christian Wignand, Joe Haefner, W. G. Korter, Harry Mabry and Jan van Houten; objects, acquiring and operating gypsum stock, \$25,000; life, forty-nine years; directors, same as incorporators; principal place of business, East Las Vegas.

It's all the same, a slight cold, congested lungs or severe cough. One Minute Cough Cure banishes them. Pillsbury & Walton.

**Fire Above the City.**

Yesterday afternoon, Ambrosio Samora, who is here on jury duty and who resides four miles above the city, suffered a severe loss from fire. A spark from the cooking stove was responsible. For a burning of fifteen tons of hay, two mules, three burros, two horses, \$150 in lumber and 10,000 pounds of grain. The neighbors rendered what aid they could, but the high wind fanned the flames and it was with the greatest difficulty that the residence of the gentleman was prevented from going up in smoke.

**Suffered Eighteen Years.**  
Pains Departed and Sleep Came.

Mrs. Julia A. Brown, of Covington, Tenn., whose husband has charge of the electric light plant at that place, has been a great sufferer from rheumatism and speedy cure was obtained by her use of Dr. Miles' Restorative Nervine.

"For 18 years I suffered from nervousness and indigestion. I tried every remedy, but I was unable to get any relief. I was told to try Dr. Miles' Restorative Nervine. I bought a bottle and used it as directed. In a few days I was able to get to sleep and my appetite improved. I have not had any more of the trouble since."—Mrs. Julia A. Brown.

Dr. Miles' Restorative Nervine, is a positive guarantee that the first bottle will benefit you. It is sold by all druggists. If you do not get relief, you may return the bottle for a full refund. Dr. Miles' Restorative Nervine, is a positive guarantee that the first bottle will benefit you. It is sold by all druggists. If you do not get relief, you may return the bottle for a full refund.

**BY THE LAUDANUM ROUTE.**

**Brakeman A. L. Carver Dies of Typhoid and Makes a Hasty Exit.**

A. L. Carver, who had been employed as a brakeman on this division for nearly a year, decided that life was not worth living any longer, and took a dose of laudanum which ended his existence on earth, says the San Marcial Bee.

The deceased had his headquarters at the San Marcial house, was given to liquor and was supposed to have been a hypochondriac. He was discharged from the employ of the railroad company on March 17 for drunkenness, and since then had been languishing around, frequently indulging in noisy reflections and threats to take his life.

Among his effects are papers showing him to be a suspended member of the O. R. C. and of the Masonic order. There are also papers proving that at one time he was a member of the society of Elks, but nothing to prove whether he was in good standing or not. The San Marcial Masons telegraphed the Temple, Tex., lodge, and received the intelligence that Carver's connection with the latter lodge ceased several years ago. He was 43 years old and a man of more than average intelligence when in his normal condition. He died penniless and a subscription was taken up to defray the expenses of his burial. He left a note giving his birthplace in Traves county, Ky., and stating that he was the only child of his parents long since departed.

**Subject of Sincere Congratulations.**

Is the non-possession of an actively sensitive nervous system. There are hosts of people who, although free from any such nervous disease, are set, so to speak, upon "tenthredin" by slight noises or an unexpected occurrence of the smallest moment. Hostetter's Stomach Bitters is of inexpressible benefit to the nervous system, restores vitality, insures tranquil, healthful slumber, and used between meals it restores that sound digestion usually denied to nervous invalids. It is also eminently beneficial to sufferers from rheumatism, malaria, debility, constipation and kidney troubles. Persons falling off in the matter of appetite, flesh and the ability to sleep soundly should resort at once to this superior, restorative and tonic. For nearly half a century it has been a leading medicine, and has received the highest tributes from the medical profession. Use it and be convinced.

**Second Cripple Creek.**

Edward Dodd, born J. Rankin and W. A. Skinner returned last night from the Ladrones mining country. Mr. Dodd was met this afternoon, and he said: "I think that before six months the second Cripple Creek will be located in the Ladrones district. Everything is looking fine, and I have more faith in the Ladrones than any mining camp I have ever visited." Messrs. Dodd and Rankin are interested in six-teen claims surrounding the Lucky Jim mine on all sides, and they are now hard at work doing the assessment on them. Mr. Dodd will return to the Ladrones Monday night.

**Rescue Mission.**

Great interest is being taken in this cozy and delightful place of worship. A splendid work is being done, and the people are now beginning to understand that the mission has come to stay, and also that it is a much-needed work. The Bible reading Sunday afternoon, at 3 o'clock, will be conducted by Rev. Adkins. Do not miss it; you are invited. Meetings every night.

**New Night Officers.**

At the meeting of the Ladies' Guild of St. John's Episcopal church, held Thursday afternoon, the following new officers were elected to serve during the present year: Mrs. W. P. Fox, president; Mrs. W. S. Burke, vice president; Mrs. L. M. McClellan, treasurer; Mrs. Chandler, secretary; Mrs. A. A. Keen, corresponding secretary.

**District Court.**

Booker M. Rose, administrator, vs. the City of Albuquerque. Motion of defendant to quash service overruled.

The Territory vs. Jose Duran. Defendant withdrew plea not guilty, pleaded guilty and sentenced to one year in the penitentiary.

The Territory vs. Bernardino B. Baca, larceny, trial by jury. At the close of the testimony for the territory, the defendant, by his attorney, moved the court to set aside the jury verdict. Defendant not guilty, which motion was granted, and the defendant discharged.

**An Old Soldier Cured of Chronic Diarrhoea.**

During the war, John L. Chase, of Mill Creek, Ill., contracted chronic diarrhoea, which inconvenienced him very much and at times, greatly impaired his strength. He says: "One dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy has always relieved me and two doses cured me so that I could at once go about my business. I always keep the Remedy on hand. For sale by W. A. Maxwell Co., wholesale druggists."

**A Pleasant Visit.**

The Ladies and Pastor's union of the Lead Avenue Methodist church met in the parlors of the Strong building Thursday at 3 p. m. They are gratified to announce the net proceeds of their Easter bazaar to be about \$175.

A unanimous vote of thanks was extended to Prof. Tenney for the beautiful designs for the booths and also for his kind assistance in carrying out the plans. Those who visited the bazaar could appreciate the artistic skill displayed.

After adjournment, according to previous arrangements, the society went to the Harwood Industrial Home to make a call upon the teachers and look over the beautiful building. Several ladies brought their own conveyances and G. W. Strong kindly extended the use of his furniture wagon. The ladies had a delightful drive and a pleasant call and came home feeling justly proud of their mission home and will undoubtedly take a new interest in the Home Mission society.

Miss Apperson and Miss Rodriguez will be glad to receive calls Thursday after 3:30 p. m. and take any visitors over the building.

The William Tell Cattle Co., August K. Boullier, John G. Boullier, Emil Grandjean and Jules Grandjean have formed what is to be known as the William Tell Cattle company, with headquarters at Paria, New Mexico, says the San Marcial Bee. Horses as well as cat-

**RICH IN MINERAL.**

**Our San Pedro Correspondent Reports a Big Mine Strike.**

**FACTS THAT CANNOT BE DISPUTED.**

San Pedro, N. M., April 9.—One of the biggest strikes made since the famous Lucky mine was discovered in 1898 was made last week on the St. Klmo mine. This mine is situated about a quarter of a mile from the town of San Pedro, and has been worked, off and on, for the past eight years, but nothing but iron ore, mixed with lime rock, had ever been found before. About six weeks ago Messrs. Wilmart & Stewart, part owners of the mine, commenced staking at the mouth of the 250-foot tunnel that had been run before, and when they got to the fifty-foot level and nothing of any value had been found they concluded to drift. They had just started the drift, and when they had gone not further than four feet they ran into a body of manganese iron, which they cut clear across, and when the next wall was found the ore body measured just twelve feet across. Mr. McLaughlin, manager of the Santa Fe Copper company, took out a sample of the body of ore, clear across, and after assaying it he found it to contain \$20 per ton in gold.

The whole town of San Pedro is very much excited over the new find, and many locations have been posted on the ground surrounding the St. Klmo mine, and wherever a piece of vacant ground can be found. The St. Klmo mine is situated at the foot of the big copper mine hill and almost joins the western boundary of the Lucky mine. Since the mine was located in 1898 there has been a considerable amount of work done all over the claim in sinking shafts and running tunnels, but nothing of any great value has ever been found before with the exception of small pockets of ore now and then.

Now this find is made on government land, and by the proper owners of the mine. This is no secret find, and the mine is not for sale, by any means; but anybody who doubts that such a find has been made can come up and see for himself. The body of ore as it now stands will keep a pretty good sized plant running day and night for several months, besides quite a number of men that can be worked at the mine extracting the ore.

Let any of those incredulous people who have been trying to make liars of some persons who once in a while would try to tell the outside world that there is plenty of good mineral in this district that could be found by sinking for it—come up and with their own eyes see what reward a little development would bring to the men who are not afraid to spend a few dollars in sinking. Photo.

**WAGHS-SIMPSON.**

**Two Popular Young People Joined in Marriage.**

Last night, at 7:30 o'clock, C. F. Waugh and Miss Maud K. Simpson were united in the holy bonds of wedlock at the residence of the bride's parents on north Third street. Rev. Bennett, of the Episcopal church officiating.

W. H. Karickson and Miss Maudie Simpson stood up with the happy couple.

After the ceremony, and lunch, which was enjoyed by the few intimate friends present, Mr. and Mrs. Waugh were driven to No. 234 on north Water street—a pretty cottage, cozily and conveniently furnished by Mr. Waugh in advance for the reception of his bride.

The bridal party had hardly got seated in the new home, when the first regiment band, headed by John F. Carroll, put in an appearance, and gave them a very appreciative serenade. Later in the evening a chivalry party appeared on the scene, and the clear atmosphere reverberated with the noise from tin cans, horns, etc.

Mr. and Mrs. Waugh, however, were equal to the emergency, and all who made fun for them were royally treated.

Mr. Waugh is the popular manager for the local wholesale grocery establishment of Green, Blackwell & Co., and his wife, Miss Simpson, is the pretty daughter of Col. and Mrs. F. A. Simpson.

THE CITIZEN extends to them congratulations, and wishes that their future may be one of prosperity and happiness.

**Your Boy Won't Live a Month.**

So Mr. Gilman Brown, of 34 Mill street, South Gardner, Massachusetts, was told by the doctors. His son had lung trouble, following typhoid malaria, and he spent \$175 with doctors, who finally gave him up, saying, "Your son won't live a month." He tried Dr. King's New Discovery, and a few bottles restored him to health and enabled him to go to work as a perfectly well man. He says he owes his present good health to use of Dr. King's New Discovery, and knows it to be the best in the world for lung trouble. Trial bottles free at Pillsbury & Walton's Drug store.

**The San Simon Outrage.**

More definite information concerning the Indian outrage in the San Simon valley has been received. It is believed that Alfred Hands, the ranchman, was murdered by Chiricahua rather than by the Kid's band, as at first suspected.

The Indians secured what booty they could and left for Mexico, the trail of three Indians wearing mocassins being followed a short distance in a southern direction.

As the outrage was committed only about thirty-five miles from the Mexican boundary line the Indians are probably by this time safe in the rocky fastnesses of the Sierra Madre in Mexico.

**As badness makes one look premature-ly old, so a full head of hair gives to mature life the appearance of youth. To secure this and prevent the former, Ayer's Hair Vigor is confidently recommended. Both ladies and gentlemen prefer it to any other dressing.**

**New Round House Order.**

A new order, affecting the duties of brakemen, engineers and firemen, has gone into effect on the Atchison at Wellington. Formerly, it has been the rule for the round house hostlers to bring engines from the round house to the union depot and there place them in charge of the engine men. By the recent order it made it compulsory for both engineer and fireman to take charge of the engine at the round house, take it to the depot, and after a run is made, to continue in charge until the engine is stabled in the round house.

**Killed in a Mine.**

A telephone message from Cerrillos announces a fatal accident in the White Ash coal mine on Saturday afternoon, resulting in the death of Santos Martinez. Dolores Kepness had his arm broken. It appears that the men put a shot in a pillar of coal and instead of repairing to a distant point for safety, went immediately behind the pillar to await the explosion. The shot blew through the pillar, breaking Martinez's neck. Both are young men and reside near Cerrillos, New Mexico.

Conductor Cooper, from the Window division, is in the metropolis to-day.

**CATARH**

**LOCAL DISEASE**

It is caused by a germ which is spread by contact with the mucous membrane of the nose, throat, and eyes. It is highly contagious and is often fatal. It is cured by the use of Dr. Miles' Catarrh Remedy. It is sold by all druggists.

**Dr. Miles' Catarrh Remedy.**

It is a positive guarantee that the first bottle will benefit you. It is sold by all druggists. If you do not get relief, you may return the bottle for a full refund.

**DOUBTLESS A MISTAKE.**

**H. C. Carter, a Tourist From Iowa, Arrested in Taos on Suspicion That He Is G. O. Davis.**

Some ten or twelve days ago Mr. and Mrs. H. C. Carter and Mrs. Carter's mother, Mrs. Times, tourists, arrived in Santa Fe from their home in Iowa, says the New Mexican.

After making a satisfactory study of the antiquities of the historic capital at the suggestion of ex-Gov. THOMAS, Mr. Carter concluded to visit the ancient pueblo of Taos, hoping to see something of the practices of the penitentes. He reached Taos on Friday, and after attending Easter services at the Catholic church in Taos, and expected to return to Santa Fe the next day.

But while in church he was arrested by Sheriff Martinez on the suspicion that he was one of Davis' wanted men for some crime, since then Mr. Carter has been detained at Taos by the sheriff, not in jail but on parole, awaiting the arrival of a sheriff from the east.

Meanwhile Mrs. Carter and her mother, who are in this city, have been and still are very much distressed at the incident. Mrs. Carter has papers showing that her husband is a tax payer in Iowa and in New York City, and that he is also a member of the Sons of the Revolution, the Boston Historical society and a graduate of the school of mining and metallurgy at Columbia.

Mrs. Carter has retained Attorney Kelly to assist her husband out of his predicament, and has also had recourse to Governor Thornton. The latter has written to the sheriff of Taos, setting forth the evidence in possession of the wife, and it is hoped that Mr. Carter will be permitted to Santa Fe tonight. If this expectation is disappointed Mr. Thornton will at once apply to Judge Laughlin for a writ of habeas corpus.

Mr. and Mrs. Carter and Mrs. Times have been traveling since January and seem to be excellent people.

**Free Pills.**

Send our address to H. F. Buckley, a local druggist, and get a free sample box of Dr. King's New Life Pills. A trial will convince you of their merits. These pills are a safe and effective remedy for all ailments of the bowels, and for malaria and sick headache. For malaria and liver troubles they have been proved invaluable. They are guaranteed to be perfectly free from every deleterious ingredient, and to be purely vegetable. They do not weaken by their action, but by giving tone to stomach and bowels, greatly invigorate the system. Regular size 25¢ per box. Sold by Dr. Thomas H. Buckley & Son, Druggists.

**Schooling for Free Tickets.**

The chairman of the western passenger association has cautioned all the roads in that association against granting any free transportation to members of the national educational association for the annual meeting of that body at Buffalo next July. It is claimed that several members of the educational association have put up a little job to secure this transportation by appointing assistant managers in the various sections, and demanding free transportation for them. The chairman has warned all the roads that the granting of transport for this transportation will be a distinct violation of the agreement and it must not be done under any circumstances.

**Buckingham's Eye for the Weakness.**

A popular preparation in one bottle and colors evenly a brownish black. Any person can easily apply it at home.

**Contribute to the Cause.**

Delegate Ostrom has introduced a bill in congress providing for the donation of certain Confederate cannons to cities and A. R. posts in New Mexico. The bill recites that eight cannons, supposed to have been left by Confederates when they evacuated New Mexico, have been found and that twelve more are believed to be concealed within the territory. The United States authorities are directed by the bill to turn over all these cannons to the adjacent general of New Mexico, when they come into their possession to be distributed by him as follows: Two to the city of Santa Fe, two to Las Vegas, two to Albuquerque, two to the military academy at Roswell, one to the agricultural college of New Mexico, one to the school of mines of New Mexico, four to the city of El Paso, Texas, and the rest to be distributed among the A. R. posts of New Mexico, no post to receive more than one.

**Accused and Held.**

Last night, Policeman Harris arrested Chas. Farley and placed the man in the city jail. Farley came to this city from Wilcox, Arizona, as a discharged soldier, and had his "finis" cashed by the local paymaster of the army. Yesterday the officers received a dispatch from Will Woodson, of Wilcox, asking if Farley had received his money, and if so, arrested and held him until further orders. Policeman Harris has wired Mr. Woodson for particulars.

**Having a New Time.**

Some of our judges are having a very nice time of it. Special cars, trips to Mexico, expenses paid and the like are very little things, which, however, do not fall to the lot of the average citizen of New Mexico. But the average citizen of New Mexico is not a judge appointed by his greatness over Cleveland, Lehighburg Liberal.

**Shook and Bell.**

At the home of the Misses Bell, on the Highlands, Thursday evening, April 23, the ceremony will be pronounced that will make Mr. D. E. Shuckard and Miss Bessie Bell inseparable companions for life. The young couple will visit the parents of the groom, Mr. and Mrs. F. W. Shuckard, in Fulton, N. M., for a few days, after which they will make their future home, and where Mr. Shuckard has accepted a lucrative position under W. W. Page, auditor of the T. & S. F. railway.

**A. M. Collington, III.**

Dr. T. D. Burdick, of El Paso, who was here on a visit to his parents, was summoned to El Paso this morning, on account of the dangerous illness of A. M. Collington. The doctor called at the Cerrillos office this morning, before leaving on the north-bound passenger train, and he stated that Mr. Collington suffered a stroke of paralysis.

Mrs. Collington, accompanied by Dr. Haines, left for the sick bed of her husband on the north-bound train this morning. If Dr. Kaestor is informed by wire that Mr. Collington is considered worse, on the arrival of Mrs. Collington, he will leave for El Paso on the passenger train this evening.

The citizens trust that the condition of Mr. Collington, who for years was one of Albuquerque's prominent merchants, now retired, is not as bad as reported, and that he will survive his present sickness.

**Coal out at Cerrillos.**

A promising vein of real coal oil is reported to have been tapped in a well at Cerrillos. The reported discovery was made in a well owned by Richard Matthews and at a depth of 115 feet. The details of the discovery are about as follows:

It seems that Richard Green and W. K. Higgins were interested with Mr. Matthews in sinking a drive well on the premises of the latter about two and a half blocks north of the A. T. & S. F. railroad depot, the object being to tap the water underflow for domestic purposes.

At the depth of 115 feet, the drill then being forty feet in diameter, in a large quantity was observed flowing off with the water from the well. The five-inch iron casing was then driven to the surface, and the water was then driven into the state to ascertain the quality of oil that has been tapped.

Experts say that, after the date is passed through a large body of petroleum is likely to be encountered. Naturally the people of Cerrillos and vicinity are much excited over this find. The water in the well is reported for ordinary uses, but nevertheless, the discovery fills the hearts of the entire community with joy and hope.

**Hotel World Boston, New York and Chicago Routes West.**

Three elegantly equipped trains, with most furnished and handsomely equipped Pullman and Wagner coaches, reach the city from the north yesterday and continued over the Atlantic & Pacific for the Pacific coast.

The first train contained Chicago hotel keepers, their wives and daughters, and consisted of eight cars—four Pullmans, one combination car, two dining cars, and one baggage coach.

This train arrived at 11:50 a. m., under Conductor C. Boucher and was drawn by engine 495, with Engineer Suller at the throttle. It left for the west, drawn by two engines, with Engineers Davis and McArthur at the throttles, and under Conductor Hayes.

The second section was the New York hotel folks. This train consisted of six cars—three Pullmans, one diner and two baggage cars. Engineer Archibald, with engine 478, brought the train to the city. Conductor Henry handling the bell cord. This train arrived at 9:30 p. m., and left for the west under Conductor "Sammy" Hanks, who came in from Coach Springs for the purpose of taking one of the special trains westward.

The third section was composed of Boston hotel magnates, and consisted of three Wagons, one diner and two baggage cars. Conductor Dick Hayes was in charge of this train as far as this city, while Engineer Lowe was lookout on engine 430. This train arrived at 9:55 p. m., and was taken west under Conductor Farling.

The coaches were richly equipped, the crowd the jolliest, happiest and most liberal that ever passed through the territorial metropolis from the east, and the conductors from the north who were in charge of the trains to this city, stated that some of the parties possessed the happy faculty of telling rattling good jokes.

Traveling Engineer, Conductor, for the Santa Fe railway, with headquarters at Fort Madison, Iowa, and T. G. Mulhern, transmitter for this division, with headquarters at Las Vegas, came in on the Chicago section.

J. E. Harley, division superintendent, with headquarters at Las Vegas, and C. M. Taylor, division master mechanic, stationed at El Paso, reached the city on the New York section.

W. H. Matson, agent at this point, met the Bostonians at La Junta, and in company with traveling Engineer Conroy, came on with the excursionists to this city.

**Headless Shooting A Pair.**

The little town of Barajas, just beyond the city limits, enjoyed a headless shooting affair last Sunday evening, and a pretty scenario figured in the case. Yesterday Cristobal Garcia swore out a warrant for the arrest of Jose Valo, an Italian, charging the latter with taking a shot, with deadly intent, at him. Valo was brought before his honor, Justice Crawford, in the afternoon, and the case was dismissed, for the reason that upon investigation the justice could not tell whether Valo shot at Garcia or Garcia shot at Valo. In any event, it was a bloodless shooting affair, and both men are alive to try it again. At the request of friends, the CITIZEN'S omits mentioning the name of the lady who is the bone of contention between the two lovers.

Miss Lulu Hamilton, the accomplished daughter of Judge H. B. Hamilton, arrived last night from Socorro, being met at the depot by W. Moore Clayton and Miss Fannie B. Sowlin. Miss Hamilton will visit Miss Sowlin for a short time.

Mrs. J. G. Oranger is accompanying Mrs. J. G. Butler to Manhattan, Kansas, with the remains of the husband of the latter lady. The funeral train was caught this side of the snow drifts, and was detained at El Paso for twelve hours.

Mr. Mandell, who accompanied his wife as far as El Paso on her trip to New York, returned last night. E. Steinhart, an eastern commercial tourist, a friend of Mr. Mandell's for the past twenty years, came up with the latter gentleman to this city, and continued on north.
