FOR YOU TO READ

What puzzled me in the beginning was that I kept losing flesh without any cause for it. I could eat, I had a little trouble with my stomach, too, and after a while began to grow weaker and to cough. The cough, I thought, would soon go away and cure itself, but it didn't. It grew worse, and then I began to spit up a peculiar-looking sputum, and I never thought of consumption, but my cough had a hemorrhagic, and then was frightened in earnest and kept going through the city of Las Vegas yesterday he was informed that the railroad company expected to begin on improvements here about September 1.

Successful Operation. Three weeks ago, Dr. C. T. Phillips operated on my wife, who lives with Miss Gutierrez, north of the city, who had been kicked in the head by a horse. On examination the doctor found that the skull had been broken and shattered, and after removing a piece of the skull he placed it in the skull and sutured it up. The boy has entirely recovered and will always be twenty-five cents ahead.
