From the Herald. E. Pearce and E. McLaughlin are recent arrivals in Bland from Silverton, Colo.

BASE BALL AT EL PASO.

Game Saturday a Tie—Yesterday a Tie. The Albuquerque baseball team, with Captain Roy McDonald wearing a piece of blue ribbon tied around the muscle of his left arm, and Pitcher Patterson, with his right hand in his pocket, defeated El Paso this morning and each of every member had a "smile" to say, namely: they had a fine time, were royally received and more royally treated and the band played at intervals. "Hail to the Chief."

Captain McDonald states that owing to the washouts the train did not arrive at El Paso until Saturday afternoon at 5 o'clock, but the Browns were in uniform and they met at the depot "Oliver-Dana" Jones, who is the manager of the El Paso team. Five innings were played and the game resulted in a tie—4 to 4—being stopped on account of darkness. The pitcher and catcher in this game was Gross and McDonald respectively.

Yesterday (Sunday) afternoon the Browns went onto the grounds of El Paso and Manager Jones, with his side partner, John Jacoby, at once saw that the boys from the upper Rio Grande had been playing baseball. The game was called at 5 o'clock and 600 people were present when the umpire called "Time, play ball."

It was a long, long play ball. To make a long story short and to announce the fact that Juan Hart was present, the Browns won the game by the score of 9 to 6, after one of the liveliest games ever played in El Paso.

THAT BLAND HOLD-UP.

How Messrs. McCowan and Skinner Prevented a Robbery. Special Correspondence. Bland, N. M., Aug. 11.—The particular hold-up at Bland is as follows: Orrin McCowan is the agent at Fort Wagner's express and stage of El Paso. He is a man of some means and has a room in the rear of the office and his companion is Pearl A. Skinner, editor of the Bland News.

Friday night the office was broken into and after the robber had helped himself to the contents of the cash drawer, he turned to the safe and there he made a mistake for as he was going through the drawers belonging to the editor he ran his finger into an open blade of a knife and the robber started to run, with the editor and operator after him. They gave chase for half a mile and then returned to their room for their clothing. The delay was costly, for before Deputy Sheriff Overhous was informed the robber and his accomplices had made their way into the Cochiti mining district and their rendezvous is near Blain.

Only recently a jewelry store was broken into and several hundred dollars' worth of fine jewelry stolen and several other houses robbed.

A FATAL FALL.

Prisoner in Jail Falls From Top of Cell House Yesterday. Merritt Carter, a prisoner in the county jail who had been incarcerated there for about a year owing to a serious derangement of his mental faculties, died this morning from injuries sustained by a fall Sunday afternoon. He was allowed his liberty in the corridors of the jail and like most other prisoners was fond of peering out from the top of the cell house, which stands seven feet above the cement floor. While moving about on top he unfortunately made one step too far and fell with great force into the solid cement floor. Fellow prisoners rushed to his side, but he was unconscious and could not inform them of the cause of his injuries.

COCHITI MINING.

What is Going On in Pino and Peralta Canyons. The Navajo company has added two big mines to their holdings in Pino canyon; the pipes have been laid and they are getting out a big stream of water and appear to be making ready to begin headway shortly. It is possible the water cannot be over-come without additional pumps. This would insure an ample supply of water for the largest mill and it is the wish of the citizens of this camp that when this mill is built it will be erected in this canyon, on the company's property, as it would be a great benefit to the camp.

The Peralta canyon is now getting quieted down to a solid working basis. All of the miners are pushing their claims and only a few are still in the club together and make a deep shaft on one of the many mines there. Several miners are talking of joining the club and buying shares in the mine. It is expected that the contract will be let for the building this week and when work is once begun it will be pushed with all possible haste. The construction will be completed in three months and no doubt the building will be turned over to the owner in November.
