

# ARIZONA TOWNS

## FLAGSTAFF.

From the Gem.  
Frank McElroy has gone to Williams to reside.

Miss Eva Yost left for Santa Ana, Cal., where she will visit for the next six months.

Some of the things being done here are: an opera house, ice, flour, cigar factory, good jewelry, furniture and brass band.

Calvin Clark and Miss Neta Anness were married in Judge Landon's office. The union blessed the license, recited the marriage ceremony and made himself very useful on the occasion.

Paterson, the "south paw" base ball pitcher, who was with the Williams team last year, is here on a sabbatical. He is the Arizona Lumber & Timber company, so will probably play with the ball team here the coming season.

John Verkamp left for Cincinnati, Ohio, where he will visit for some time. During his absence he will investigate the merits of the different makes of automobiles with a view of purchasing enough machines to put on a line from here to the Grand Canyon and for use to visit other interesting places surrounding our city.

It is rumored that the Arizona Lumber and Timber company will, in the near future, construct a storage reservoir near the mills. This reservoir will have a capacity of 2,000,000 gallons of water. It will cost from \$12,000 to \$15,000. It will be a good investment for the company and they would then have plenty of water at all times of the year to run their large plant.

From the Sun.  
Clayton Black, who last week graduated from a Los Angeles commercial college, returned.

The snow has again disappeared and another snow storm is anxiously being awaited for.

C. H. Woodruff, D. O., a graduate of the American School of Osteopathy, has decided to locate here for the practice of his profession.

A. A. Fisher received a letter that his father, who is now at Pomona, Cal., has suffered an attack of paralysis. Mr. Fisher left for Pomona to visit his aged father.

The following officers were elected by Mountain Lodge, No. 15, Knights of Pythias: W. H. Carroll, P. O.; L. F. Waeleer, C. C.; J. Marshall, V. C.; Reuben Neal, P.; R. F. Bongburg, K. of R. and S.; Ed J. Gale, M. of E.; Ed Thies, M. at A.; William Lannan, O. G.; H. Heiler, L. G.; S. F. Quay, trustee.

Arrangements were made whereby a road will be built over Mtn's trail, connecting the Upper Verde valley with the Flagstaff road at a point only three miles south of Flagstaff. The road has long been desired by the residents of the Verde, as it makes a much shorter and easier route from that section to Flagstaff, and also shortens the distance between Flagstaff and Jerome about twenty miles.

## WILLIAMS.

From the News.  
Dr. F. H. White returned from a professional visit to Winslow. He says business is quiet all along the line.

Mrs. A. Tetzlaff left for Los Angeles, where she goes for the benefit of her health. She expects to remain away for some weeks. Look out for August while she is gone.

Mr. and Mrs. Ed Phelan came in from their ranch home and left for Barstow, Cal., on a visit with relatives. They will probably be absent about six days.

Mrs. S. V. Hines, a sister of Earl Harrison, arrived in the city from Pueblo, Colo., expecting to remain for some time to escape the more severe cold of Colorado.

Prof. L. E. Gifford had an operation performed last week on his face—the removal of a large and superfluous growth. At present he is getting along nicely and is much better looking.

W. R. Usher, organizer for the Foresters, has been in the city for the past two weeks reviving interest in the worthy order. He has been most successful and will leave for Flagstaff feeling justifiably proud of his record here.

For the past three days C. H. Barney has had a force of eighteen men engaged in cutting and storing a line crop of six inch ice. Mr. Barney says he will have in the neighborhood of 200 tons, and of a much better quality than before.

George Hamlin, cousin of Vice President Hamlin, under Lincoln, and brother of Secretary Hamlin, under Cleveland, was here and is now at the Grand Canyon, where he will remain and explore the same for some time.

Mr. and Mrs. George Hammond came down from Flagstaff and spent several days visiting friends here the first of the week. George, who is employed in the office of the Arizona Lumber and Timber company, thought he needed a little rest and knew of no better place to go than Williams.

Saturday, August 3, 1901, appeared the announcement of a change in the management of the News. Messrs. C. A. Neal and L. H. Dawley purchasing the present real plant from the former proprietor, and today the junior partner in the firm, L. H. Dawley, announced his retirement, C. A. Neal succeeding to the entire management of the paper.

Joe Slater came down from Holbrook, where he is in the employ of Wetzler Bros. For some time past he has been making a collection of Navajo blankets, which will be taken to the World's fair at St. Louis. At present the firm has 140 squares engaged in weaving blankets and already they have nine large warehouses filled with the most choice designs. Joe is looking exceedingly well, so well, in fact, that when he first came to the door he reminded us of Gwynne Dennis.

## HOLBROOK.

From the Argus.  
Mrs. F. M. Zuck, who has been visiting her daughter, Mrs. Fine, at Winslow, returned Tuesday morning.

Dr. G. B. Reed was called to Taylor Tuesday to attend Mrs. Tenney, who fell recently and injured her hip.

Joe Slater, who has been manager

of Wetzler Bros. here for some time, has severed his connection with that firm, and has accepted a position on the road for a first class traveling establishment.

The following were successful bidders on mail routes in this section: Lucile K. Cull, Holbrook to Esmer; O. L. Parkerson, Holbrook to Koenig's; J. W. J. Waton, Holbrook to Young; S. H. Jones to Young and Pyskon to Young; J. R. Hulst, Holbrook to Post Office.

A correspondent from Taylor to the Argus says: On the 28th of January Mrs. Tenney fell and broke her hip, and she did not call for any assistance. Wednesday being her birthday, some of the Relief Society Sisters of this place and several friends met at her home to have a birthday party, and they found her in bed not able to get up. She has been getting worse ever since. Her daughter, Mrs. H. B. Smith of Snowflake, has been with her mother since Saturday. On Monday she was so much worse that they sent to Holbrook for her daughter, Mrs. Smith, and the doctor, and they arrived on Tuesday afternoon. She is some better at this writing.

## KINGMAN.

From the Journal.  
W. W. Dunbar has opened a law office in the rooms occupied by J. W. Gerritt.

At the preliminary examination John J. and Lorin Rubin were held to await the action of the grand jury on the charge of assault to murder George N. Conrad at Burns' ranch, on the afternoon of the 2nd of January, and bonds were placed at \$2,500. The couple are now in jail, but an effort is being made to get them out on bond.

Backer Helevy, who has been an inmate of the county hospital for many years past, died at that institution. Holloway had an attack of pneumonia at White Hills about ten years ago and never fully recovered from the effects of that dread disease. He had been a miner and prospector in Mohave county for many years and was a quiet, good natured man.

George Williams, who was so severely burned in the fire which destroyed the old Santa Fe pump house on the night of the 26th of last month, died at the county hospital from the effects of the injuries then received. The poor fellow had suffered the tortures of a hundred deaths but died without the slightest whimper of pain. He called to the attendants to help him back onto the pillow as his head had slipped off. When he has been made comfortable the attendant walked away and at that moment Doctor Cowie came into the room. He went at once to the bedside of Williams and found him dead. The spasm of life had fled as the attendant made him comfortable on the pillow. The poor fellow had been most horribly burned all over the body and head but it was thought that he was getting along all right. He informed the doctor that his home was in Chicago and that he was a harness maker by trade. He was buried Sunday afternoon.

## ST. JOHNS.

From the Signal.  
Prof. Acosta has closed his Spanish school and will devote a few weeks to writing a biography of the late Father Badillo.

H. A. Brockvogel, of Clenega, N. M., accompanied by his wife and little daughter, are visiting friends in the city this week.

Jose L. Perez, the 5 year old son of Louis Perez, was badly burned last week. It is feared that he cannot recover. His clothing accidentally caught fire and before it could be extinguished he was very seriously, if not fatally, burned.

The firm of E. S. Perkins and Reamer Ling, publishing Snips and the St. Johns Herald, is hereby dissolved by mutual consent. Reamer Ling retires on account of other business. E. S. Perkins continues the business and assumes all indebtedness.

Hon. Solomon Barth and wife returned from an extended trip to Graham county. The main object of the trip was to attend the marriage of their daughter, Carlotta, which took place in Safford on the 15th of last month. The groom in these proceedings is W. E. Taylor. Mr. and Mrs. Taylor will reside in the future in Globe, Arizona. On Mr. and Mrs. Barth's return to the city they brought with them their other married daughter, Mrs. Isaac Backstein, who comes to spend a few months with the home folks.

## WINSLOW.

From the Mail.  
Mr. and Mrs. Grimshaw left one first of the week for a visit in San Francisco.

Our Chinese population celebrated their New Year's in grand style on Friday.

Mrs. T. J. O'Kelly will go to Williams the latter part of the week to visit Mrs. Dr. Melick.

The order of Eastern Star, Ruby chapter No. 3, met for the first time after the election of their new officers, at a special meeting last Wednesday night. The called meeting was for the purpose of installing Mrs. Jessie L. Null, Miss Annie E. Griffith and Mr. Burk Ward. It is stated by members of the order that the work was excellently conducted. Following are members who were present: Mr. and Mrs. J. L. Morris, Mrs. Wm. Nelson, Judge and Mrs. J. F. Mahoney, Hon. and Mrs. W. A. Parr, R. C. Crosswell, J. L. Moore, Mrs. Cook, Mrs. Grubbs, Mrs. Jacobson, T. C. Flynn. After the installation a light lunch was served and the evening was spent enjoyable to all.

## District Court.

W. E. Dame, district clerk, having returned from a visit to Santa Fe, finds himself and deputy, G. V. Crosby pretty busy preparing the civil and criminal docket for the approaching term of the Bernalillo county court.

Yesterday, the petition for a receiver for the property of the Cochiti Gold Mining company of Abconero, granted last Saturday by Judge McFie, at Santa Fe, was filed, together with the bond of William Spencer, who was appointed receiver.

The W. F. Main company vs. Al-

bertine Stampler, asking that judgment be returned in the sum of \$120, with interest, for goods sold to the said Stampler.

The First National bank of Albuquerque vs. Robert B. Benham, suit to recover on promissory note for \$1,300.

SERVANT GIRL QUESTION.  
One Country Where This Is Not a Venetian Problem.  
Senorita Carolina Huidobro, of Chile, claims to be one of the foreign speakers at the coming international congress on the coming convention in Washington, has been giving in Boston a series of lectures on the Women of Spanish-American.

The senorita says the domestic service problem is not so troublesome in Chile as in the United States. There are two distinct classes of cooks. Advertisements read: "Wanted—A cook with red inside," or "Wanted—A cook with red outside." The latter sort of cook can always be had. Domestic prefer the "red outside," because a cook who does not sleep in the house has more liberty. She does not begin so early in the morning, and her mistress cannot get quite so much work out of her, yet her services in the main are satisfactory. After dinner every evening the cook comes for orders as to the next day's meals. Even if unable to read she will remember every item of an elaborate menu.

Money is given a certain amount of money to buy the provisions, for everything is bought in small quantities, just enough for one day. The laundry work is all done out. Every servant who sleeps in the house brings her own bed and furniture. A girl from the country will arrive with only a sack and a pair of shoes, and she will leave at the end of three or four weeks with a cartload of goods that she has accumulated. When several servants are leaving at once with their bedding and furniture, it looks as if the whole family were moving.

The Spanish-American ladies, even those belonging to the richest families, all know how to cook, and if the cook takes offense and proposes to leave, the threat has no terrors for her senora. She simply says: "Very well, I will go into the kitchen and get the dinner myself." This and generally, she says deprecatingly: "Ah, no, senora, you must not spoil your pretty hands," and with this she puts on the apron that she had taken off in sign of leaving, and goes quietly back to her work.

The Spanish-American women are not lazy. They have gained the reputation of being so because of their calm and easy manner. The Spanish-American woman never hurries; she thinks it injures her dignity, and she accomplishes a vast amount of work as she never gets nervous prostration.

The rich and well to do women have many societies for church and charitable work, and there are an immense number of mutual benefit societies and labor organizations among the working women. Women of all classes take a keen interest in politics. Whether you listen to the talk of ladies in the parlor or market women on the street, you will find them well informed about public affairs. The mother takes her child to the market to have a son go away to war. The women of Chile and the Argentine had much to do with preventing the threatened breaking out of war three years ago, and Senorita Huidobro expresses her belief that woman suffrage would help greatly to check the frequent wars and revolutions in South America.

INDIAN SCHOOL NOTES.  
Special Correspondence.  
Albuquerque, Feb. 13.—Our farmer is having the irrigating ditches cleaned out and is preparing to raise a large crop during the coming season.

The carpenter with his boys is hauling material for the new shops and soon active work will be begun on the shops and store rooms.

Paul J. Smith, who has recently been appointed farmer at Laguna, spent a couple of days at the school making preparations for his work.

Miss Mabel Collins has been transferred from the Model reservation to Acoma and will take up the labors of field matron at Acoma.

Miss Edie Marmon, who has been acting as assistant nurse at this institution, has returned to her home at Laguna. Miss Marmon has made a host of friends while here and she will be greatly missed.

The position made vacant by the resignation of Miss Dennison is being filled very efficiently by Mr. Adams, from Laguna.

Word has been received from Mrs. Dedman that she is having a pleasant time sitting places of interest in Old Mexico.

Miss Ethel Greig, a former employe at this school, but now in charge of the Santa Ana day school, made a short visit here on Sunday.

W. A. Lee, the efficient industrial teacher at this school, who was called home by the illness of his father, writes that his father died before he reached home. His many friends here are sorry to learn of his bereavement.

The large herd of the school held a meeting last evening and organized a base ball team with Supt. Collins as manager, Dr. Woods as coach and Mauricio Laws as captain. The boys are enthusiastic over the sport and expect soon to be in shape to play the national game.

H. H. Whitehill Married.  
A couple of weeks ago "Uncle" Harvey H. Whitehill quietly left Silver City for a trip to the Charleston exposition and other points of interest in the south. Not even his most intimate friends suspected that he had matrimonial intentions, and when word was received last Wednesday that he had been married on January 29 to Miss Sarah Brown, of Athens, Ga., the surprise was most complete. It is understood that Mr. Whitehill will shortly return to Silver City with his bride, and when he does he will find the congratulations of his friends none the less sincere for his failure to take them into his confidence.—Independent.

Wants to Play Here.  
A letter from Amos Huale, once the greatest base ball pitcher in the world, but whose appetite for the congealed beverage got the better of him, has been received here. He says he is as good as ever, but a little rusty, and would like to get a chance to play ball here, and show the big organizations

what they have missed by not signing him. There is no chance for Amos, breaking in with the local team, as his trial with Cincinnati last year proved that he was not only unreliable but was a "has been" with no chance of ever recovering any of his old time speed and curves. Had he paid more attention to his profession and less to "batting booze" he undoubtedly would still have been a great ball pitcher, drawing the princely salaries that are now paid the big league artists.

KINGMAN DISTRICT.  
Interesting Paragraphs About Miners and Their Prospects.  
The mill of the Southwestern Mining company at Eldorado Canyon is pounding away on good ore.

At the Blanchard mines, on Bill Williams Fork, work is in progress and the mines showing up well in copper values.

At the Alexander mine, on the Basin, drifting is being carried on and good ore is being sent to the surface. The ore from the drifts is far better than that found on the surface.

Men are at work rearing the tunnel in the American Flag mine and cleaning it out, preparatory to making a thorough examination of the property. In the lower tunnel a large cave was encountered and it is expected that this cave may snap up an ore body of considerable extent.

At the 100 foot a rich body of ore was struck in the old Planet mine, this week. Work is being pushed on both shafts and in the deep one the ore is coming in solidly and shows big copper values. Quite a number of men are employed on the property. E. H. Webb, superintendent of the property, is in Kingman after supplies.

E. S. Osborne is in Kingman from his camp on Bill Williams Fork. He is working a force of men on some gold claims and the veins are all showing up wonderfully well. The ore besides carrying gold also carries some values in copper. On the copper claims in which he is interested, the ore at a depth of 100 feet is showing better values than on the surface.

Work on the Ilex Searlight road is now in progress. The road runs up through the Ilex valley and little grading is necessary to put the roadbed in condition to commence laying ties and steel. The company has purchased a large amount of steel and intend to have the road operation in about six months. It will open up one of the richest mining sections in southern Nevada. Needles will receive large benefits from the building of this line of road.

This week money for the purchase of the Telegraph mine, one of the Burro group, was deposited in the Arizona Central bank, at this place. The mine is owned by J. A. Smith and W. D. McCright. Mr. McCright is expected in Kingman to sign the deeds. Negotiations are in progress for the sale of the Burro mine to the same parties. The sale is a cash deal and the new owners intend to at once begin work on an extensive scale.

S. C. Bagg came into Kingman yesterday from the Katherine mine of the new Constock Mining company. He reports that ore is being taken from the mine and hauled to the mill of the Arizona and New England Consolidated Mining company, on the bank of the Colorado river, one mile distant. The cost of extracting and hauling the ore to the mill is about one dollar per ton, and this will be reduced below Las Vegas when the mine begins to produce regularly. Several hundred tons of the ore will be run through the mill to test its value and if satisfactory a mill will be erected by the company capable of handling at least 100 tons daily. In the crosscut at the bottom of the shaft the ore is cut to a width of twenty-three feet without sign of walls. The average of this ore is nearly \$11 per ton.—Mohave County Miner.

CONSTABLE'S PREDICAMENT.  
Pretty Woman With Tearful Blue Eyes a Short Sandy Man and a Trunk Cause Deep Distress.  
Constable Tom Clay was between two fires yesterday. As a matter of fact he was singing a little today and he will remember about it tomorrow and the next day, says the Las Vegas Optic.

If Tom Clay isn't gallant he isn't anything. It's the plague of Judge Wooster's life trying to decide whether to give the palm for gallantry to Tom Clay or Judge Wilson. It is no wonder then that Mr. Clay was all broke up when an exceedingly pretty young woman came to him yesterday with her blue eyes swimming in heart breaking tears and told him she was being pursued by a bad man who wanted to attach her trunk and prevent her escape. Nor did it help matters any for the genial constable when a short, sandy man appeared on the scene of troubles and insisted that the young woman with the blue eyes swimming in heart breaking tears, was his wife. The short, sandy man went behind the scenes and the pretty young woman took charge of Mr. Clay again. She brought her eyes with her and they were bluer than before and swam in brighter, sadder tears.

That is why Tom Clay looked very, very perplexed yesterday and today and that is why he contemplates a short, sandy man appearing on the scene of troubles and insisted that the young woman with the blue eyes swimming in heart breaking tears, was his wife. The short, sandy man went behind the scenes and the pretty young woman took charge of Mr. Clay again. She brought her eyes with her and they were bluer than before and swam in brighter, sadder tears.

Blue Book on Advertising.  
From the J. Walter Thompson company, the well known advertising agents of New York, Chicago and Boston, comes a handsome book in blue, appropriately styled the "Blue Book on Advertising." This handy volume of 26 pages does not aim to be encyclopedic, and tell all about all the publications of the country, but rather to skim the cream and present a choice list of advertising media, with some advice on how to use them, and some telling examples of the advertising shape, useful contents and fine typographical appearance make the book one that will be kept on the desk and often consulted.

A Difficult Operation.  
Yesterday evening a number of our city physicians performed a very difficult operation on Maria Delgado, an Indian girl from Santa Fe, who has lived with Mrs. Henriques for some time. They removed a tumor weighing ten and one-half pounds from the girl's

abdomen, and it took them three and one-half hours to perform the operation. The girl feels bright and cheerful today after her complete recovery is assured. She has been at the Ladies' Home for three months, and it may be needless to say that she is receiving that tender care and vigilant attention for which that mode institution has become noted.—Las Vegas Record.

SILVER CITY.  
Elks Will Entertain—John Lee Dead—Painful Accident.  
Silver City, N. M., Feb. 11.—Eugene Warren and sister, Mrs. A. B. Mooreman, left the latter part of last week for a trip to Mexico on pleasure.

Mrs. Frank Nichol, was a passenger on yesterday's outgoing train for a visit to relatives in Old Mexico.

The funeral of James S. Carter, who died in this city last Friday, was the largest ever seen here. The number of huggings in the funeral procession were close on to one hundred.

The local lodge of Elks will give their annual ball in Newcomb hall on the evening of the 22nd of February. Invitations will be issued to the friends of the order and as the Elks always excel in any entertainment that they give this will undoubtedly be a grand social success.

The death of Mrs. James Carlisle occurred in this city early this morning from heart disease. The deceased had only been sick for a few days and her death was a sad shock to her husband and friends.

John Lee, a well known rancher of this county died at the Ladies' hospital last Saturday morning. Mr. Lee accidentally shot himself about ten days ago on his ranch by a pistol going off in his pocket. The ball went in the abdomen, causing a wound which proved fatal.

Silver City is enjoying some spring weather these days and the temperature is hanging around 50.

A. Whisel, treasurer and collector for Grant county, will leave the last of this week for a several month business trip to Denver. He is thinking of carrying business there.

It is reported that George Ulter has made a rich strike on the mine he is working in the Pinos Altos mountains. He has a six foot vein of ore that runs big in copper and several other metals.

The ladies' ball given by the ladies of Silver City to their gentlemen friends at Newcomb hall last Friday evening was a grand success.

J. M. Fritter, while driving in from Santa Rita last Saturday met with quite a painful accident by his team coming away and throwing him out of the buggy. He was considerably bruised and skinned up but nothing serious happened.

W. L. Jackson backed his horse off of a cliff near Georgetown the other day about fifty feet high and the fall so injured him that his injuries may prove fatal, but there are hopes for his recovery.

CHIEF OF POLICE CURRY.  
He is All Right in That Position Over in Manila.  
The Manila American, which is received in bunches at The Citizen office, contains the following biographical sketch of an ex-New Mexican:

"One of the most important departments of the city government has for its head a man of wide experience and during his term of office Chief George Curry has brought the police department to a high degree of proficiency.

Chief Curry was born at Bayou Vista, La., in 1837. In 1879 he located in New Mexico where he served as clerk of the employ of Darling & Co., merchants at Fort Stanton. He was elected treasurer of Lincoln county, N. M., in 1886, clerk of the same county in 1888, assessor in 1890 and sheriff in 1892. In 1894 he was elected senator and re-elected in 1896, the latter term being president of the territorial senate. He was appointed clerk of the district court in 1896 and resigned that position in 1898 to accept the captaincy of H troop, Roosevelt's Rough Riders.

He served at the battle of the Cuban campaign with the famous organization and was mustered out in September, 1898. He served on the staff of the governor of New Mexico after this, and was president of the board of recruits of the Military Institute at Roswell.

"On August 11, 1899, he accepted a first lieutenant in the Eleventh cavalry, and upon the muster out of that regiment in June, 1901, was appointed governor of Ambos Camarines. He resigned to accept the position of chief of police of Manila. During the time Mr. Curry has been serving his country he has sacrificed his business interests. He has, however, made himself popular with the natives not only as a governor, but as chief of police, he believes in fighting when there is any fighting to be done and as a civil officer he devotes himself to bettering the conditions of the people.

"He is a personal friend of President Roosevelt, having won the confidence of his colonel during his distinguished service with the Rough Riders."

RESULT OF ACCIDENTAL SHOT.  
Sad Fate of John Lee, the Gila Ranchman Who Dropped His Gun.  
John Lee, the Gila ranchman who was accidentally shot by his own revolver on January 25, died at the Ladies' hospital in Silver City, where he had been brought for medical treatment, early last Saturday morning. It was hoped at first that he would recover but pneumonia and other complications ensued and death resulted. Interment was made Saturday afternoon in the Silver City cemetery. Mr. Lee has been a resident of Grant county for several years, coming to that section from Texas. A sad feature of the affair was that he was only married last August, his bride being Miss Thurman. Deceased was a good citizen and held high in esteem. He was about 25 years of age.

Word comes to the city from authenticated sources that Watrous is bidding for the proposed extraction works, with good prospects of success. A number of prominent Watrous capitalists are busy at work quietly raising money and are said to have \$7,000 of the \$10,000 already raised. They have received encouragement from the Union Extraction company, for some of the property of the company, at Cuyote which is located several miles near Watrous near Las Vegas. The company figures that it can handle rail-

road business at the same rate from either place. Now is the time for Las Vegas to wake up to her opportunities and earnestly investigate the proposition. If such a plant is to be located in this vicinity Las Vegas wants the plant. Let the committee that has the work in hand watch with jealous eye every movement of the company and get full particulars concerning the plant. An earnest effort should be made to raise the money and get the plant here.—Optic.

NORTHERN NEW MEXICO MINES.  
Rio Arriba, Taos and Santa Fe County Mining Operations are Progressing Satisfactorily.

The King Richard Gold & Copper company in the Bernalillo district, Rio Arriba county, will soon build a ten-stamp mill on its property.

The Brown, in the same district, has begun shipping ore.

On account of the heavy snow in that locality, the Fraser Mountain Copper company near Antietam, Taos county, has been obliged to discontinue its pipe laying. It will keep its men at work on other improvements, however, in order to have them on hand when the weather will permit a resumption of pipe laying.

Work is progressing rapidly in the San Lazarus mine, southern Santa Fe county. The men will reach the strike soon when they expect to make a rich find.

The McKinley Gold Mining company is working night and day on its property at the upper end of San Lazarus gulch. It has rich ore in sight.

Two of President Roosevelt's Rough Riders have begun work on the gold Standard in southern Santa Fe county. The mine is a producer.

Considerable work is being done on the Froitzman group, and upon the Ora Quay mountain parties have been trying to pierce a tunnel from east to west under the mountain. These properties are in southern Santa Fe county.

OJO CALIENTE OIL.  
Seeps From Great Depth With the Hot Water of the Bernalillo Springs.  
Hon. Antonio Josepe, of Ojo Caliente, who arrived last evening to spend several days in Santa Fe, reports the discovery of oil at Ojo Caliente, Taos county, says the New Mexican.

For several years he has noticed floating on the surface of his famous hot springs an oily scum, but which he deemed of no significance as it did not mingle with the water and therefore did not impair the remarkable curative qualities of the water. Lately, however, an oil expert has been visiting in the morning and at once announced that oil was seeping up from great depth with the water and that the oil is of the finest quality he had ever examined. He also found that the formation of the country around about is very favorable to the discovery of oil and that the oil belt extended probably all the way into Colorado and down into Santa Fe and Bernalillo counties.

Mr. Josepe does not care to have any boring for oil done in the immediate vicinity of his springs, but believes that all through Taos and Rio Arriba and adjoining counties oil could be found in paying quantities in localities where the indications are favorable.

OVER EMBANKMENT.  
W. L. Jackson Meets with Serious Accident Near Georgetown.  
Wilbur L. Jackson, of this city, was the victim of a serious accident Thursday night, and up until yesterday, grave doubts were entertained of his recovery, says the Silver City Independent.

Just how the accident occurred is not known, and the injured man has not yet been able to give an intelligent account of his mishap. He was driving over to the Mines, and when a short distance this side of Georgetown, the vehicle in which he was riding went down over a steep embankment. Mr. Jackson was caught under, beneath the wreck, and remained there all night for a period of twelve or fourteen hours. He was found the next morning and brought home by G. B. Stohle, of Georgetown, and Forest Ranger Hanna.

An examination showed a severe concussion of the brain, but by careful treatment, he is slowly improving and it is now thought that he will ultimately recover. The buggy is almost a total wreck, and the horse was also badly hurt.

Bitten by a Rattler.  
Prof. George Wharton James, author and lecturer of New York city, was bitten by a rattlesnake at Phoenix on the left thumb. He was given medical attention within four minutes, and is pronounced positively beyond any danger.

The snake was a big one and he grabbed it by the neck in a case, for the purpose of laying it on the ground to photograph it. The snake was too strong for him and loosened its head enough to twist around and bite him.

Worse Than a Blow  
from a hard fist is the buffet of cold wind upon a pair of improperly protected lungs. A few minutes exposure to cold may be the beginning of consumption. Lose neither time nor courage. Fight yourself against pulmonary troubles, including consumption, with Allen's Lung Balm. A few doses will loosen the cough and enable you to get rid of the phlegm that produces it. Cure soon follows.

Extra Territorial Judge.  
Delegate Rosley, of New Mexico, has filed a request with the committee on the judiciary of the house for an extra territorial judge in New Mexico, says a dispatch from Washington. There are five judges there at present and it is asserted that these are insufficient to cover the territory. It is thought the committee will act favorably upon the request, and recommend the addition. The new appointee will probably be stationed at either Roswell, Carlsbad, or Lincoln.

The Las Vegas Optic says: Mrs. Herbert D. Romero left for Albuquerque, where for two weeks she will be the guest of Mr. and Mrs. Frank A. Hubbell, of that city. Mr. Hubbell has for a day or two been the guest of Mr. and Mrs. Romero, and he accompanies Mrs. Romero to Albuquerque.

Mr. and Mrs. W. H. Farr and children, of Milwaukee, who have been in Santa Fe several months, have arrived and will remain here for a short time. Mr. Farr is a timber expert in the employ of a New York syndicate.
