

Gallup, Cerrillos and Bland

News Notes From Exchanges

GALLUP.

From the Republic.
The bridge plan will be fixed by next week.

William C. Jones, of Bland Springs, spent his week-end here.

Miss. Justice has held her property in full payment to Mrs. Hugh Brown, late of Albuquerque.

Joseph K. Smith, who lived in Gallup many years, died and was buried in Pueblo, Colo., on Thursday.

The contract for extending the main for this year from D. J. post to Tucson, Ariz., and Fort Huachuca, has been awarded by Public Works to El Paso for \$1,400,000. About \$1,000,000 will be for the bridge up to good shape.

United States Marshal Finley came with a number of imposing and United States marshals, which means that there will be some arrests among the various cases. Rita Winters, W. K. Kessler, and Mrs. Dan Miller, among others, have been arrested.

On the 10th inst. the United States Marshal, J. H. Finley, arrived in Gallup, Ariz., and was well known to everybody from Window to Alamogordo. For many years he made his home in Gallup.

His death was caused by pneumonia.

On Monday, the 10th inst., a number of men from Gallup and Clarkville left for San Antonio, Tex., to see the new mine established near Trinidad.

A number of men have gone to Washington. Quite a number of railroad employees have been discharged at Albuquerque and Window on account of a fight between the two.

However, these two things will probably not last for a month.

A quota of men by the name of Ginn, who was in the way of Arizona, attempted to cross over a freight train near the depot on Tuesday, when the engine which was coupled onto the train moved and the man's foot caught between the iron rail and the dead-end. A locomotive ran to his assistance and the man was removed with a badly broken foot. He was taken to the hospital, where he will probably remain for a few weeks.

CERRILLOS.

From the Register.
Mrs. S. R. Ross returned from her Albuquerque visit.

Walter Graham, of Albuquerque, was a special visitor for a few days.

Dr. C. W. Harrison returned from a three-week business trip to Watson and other points east.

S. G. Gilling and S. P. Conner, of San Pedro, were business visitors to Cerrillos a few days the first of the week.

Miss Berta Rogers visited at Lamy. She was accompanied home by her sister, Amelia, who had been visiting at that place several days.

Mrs. G. W. Harper, who had been visiting for some time at the home of O. L. Merrill, of this city, left for Arizona, where she expects to reside in the future.

Next Friday Miss Amelia Goffman will close the most successful term of school Golden has had for several years. Miss Goffman is a well educated and refined young lady, and an excellent teacher, and it is with regret that our people will see her leave the country.

Dr. and Mrs. E. E. Roberts left for San Francisco, from which place they will sail for Manila, where the doctor has a government position. Though the doctor and his beautiful young wife have lived in Cerrillos less than a year they have made a host of friends, who, while they regret to see them leave this community, will wish them success and happiness in their new home in Manila and a far away island possessions.

BLAND.

From the Herald.
Work for Bland and its interests.

Mrs. George Carson intends to leave in a short time for Arizona on a visit. George Carson, the handsome man in the country, went down to Thornton on business.

J. H. Overholser and family are now residents of Bland, having moved over from Albuquerque the first of the week.

Mrs. Joseph Routledge led the meeting at the church last Sunday evening. The young were out in force, and the choir furnished excellent music for the occasion.

Daniel Callender has accepted a position with and will travel for an eastern cigar firm. He left to assume his duties. Everybody in Bland wishes him success.

Lulu and Harmon Rodriguez were arrested on charges of trying to pass a forged check, and were bound over in the sum of \$400 each, to await the action of the grand jury.

Mrs. W. H. Knight writes from Prescott, Ariz., to a friend in this city, that she is well pleased with her new home and that she is preparing to open a large rooming house there. Their trip was a most pleasant one, she says.

Judge S. W. Young departed for Albuquerque, taking with him that agreement between Bland property owners and the Navajo company. He goes to procure the signatures of some twenty-five Bland property owners, who now reside in Albuquerque.

W. S. Grouch, who had his foot badly crushed by machinery at the works in Albuquerque last November, and who left last week for Houston, Texas, was given "knockout drops" in El Paso and relieved of \$240, all the money he had. He is being cared for by the Masonic fraternity in El Paso.

R. P. Hall and wife left for El Paso and will be absent about ten days. Mr. Hall was for several months mine superintendent for the Cochiti Gold Mining company, which position he filled with credit and ability. Last week Mr. Hall was given a similar position with the Navaho company.

The Valentine social given at the church by the Busy Bee society, was a success in every way. Cake and coffee was served, games were played and the little girls who conducted the social made everyone enjoy themselves to the utmost. The society cleared over seven dollars, above all expenses, which will be used to purchase litera-

ture for the Sunday school. The little girls are now busy making the social the success it was.

DEWING.

Special Correspondence.
Dewing, Feb. 21.—Sunday afternoon, the 10th inst., a light snowfall and was followed by the prompt action of the city board of health. Had it not been for the whole block would have been, including J. B. Hodgson's store and the postoffice. Dewing will soon have a water system that will enable his citizens to laugh at a little snow, and will save much valuable property.

Several fine Dewing boys left town played the latter this from an El Paso city and were in the case of 25 to 18. Not a bad showing so early in the season.

Thomas Hughes, the editor of The Citizen, was in town on Monday and Tuesday of this week, looking over the real estate records and general business of Dewing, and expressed himself as highly pleased with the town and its prospects, going so far as to select a lot or two for himself. Look out for the special Dewing edition of The Citizen on Saturday, March 8.

General MacArthur and staff spent last night in Dewing. The general is on a tour of inspection of the army posts of this section, and went up to Park House this morning. He was accompanied by Mr. Morgan, the superintendent of the Hudson road, and F. M. Murray, president of the Present Park, and the Prescott & Phoenix railroad. The gentlemen were entertained at the Adelphi club, and expressed themselves as very well pleased with the town and its condition of them.

Eastern capitalists are actively engaged in the promotion and execution of a fine sanitarium for pulmonary troubles at Dewing, and have selected the land for the site of the enterprise. It is in some three miles southwest of Dewing on the Bland road.

The master of the Hudson railroad went through to the front this morning to see the men there. The Hudson road is working up a good passenger traffic, and all the freight traffic can handle from both ways. All this is due to Dewing from one direction or the other.

Mr. Chan and wife and partner, of Kingston, N. M., is in our city looking at property. He has purchased a good block of property from the Dewing Real Estate and Improvement company, after looking into the matter thoroughly and to intend to build a house for himself and to rent. He has a level head.

Col. F. R. Smith is in El Paso on business connected with the real estate company.

W. H. Granger is in El Paso today on business of the Victoria Land and Cattle company, of which he is manager.

ABOUT A. G. WELLS.

History of the Railroad Work of New Santa Fe Manager.
A. G. Wells, the new general manager of the main lines of the Atchafalaya and Santa Fe, is 49 years of age and has been in railway service since 1876. Early in his career he was associated with the Atlantic & Pacific, and one of the roads of which he is now general manager. He left the Atlantic & Pacific to become assistant to the general manager of the Ohio & Mississippi, and later was successively general superintendent Ohio Indiana & Western, and division superintendent of the C. C. & St. L. In September, 1891, he accepted the position of assistant to the first vice president of the Atchafalaya, Tonala & Santa Fe, and on January 1, 1895, was made general superintendent of the Atlantic & Pacific, which was reorganized on July 1, 1895, as the Santa Fe Pacific. Mr. Wells has since been in charge of the property as general superintendent, and in September, 1897, was also appointed general superintendent of the Southern California. When the Santa Fe acquired the San Francisco & San Joaquin Valley, in 1899, Mr. Wells' jurisdiction was extended over that road. He was acting manager of the Santa Fe roads from January 1 to September 1, 1901, during the illness of W. G. Nevitt, and when the latter died, in January of this year, it was but natural that Mr. Wells should be selected to succeed him as general manager.

CONFERENCE AT LOS ANGELES.

Santa Fe Coast Lines Trainmen Want More Pay.
A Los Angeles dispatch says: "The main P. L. Cleveland, of the Brotherhood of Trainmen employed by the Santa Fe system in this territory, and several of his colleagues, expect to meet General Manager A. G. Wells and General Superintendent Shepard in a few days, the object being to discuss subjects of mutual interest to employer and employees. Accompanying Mr. Cleveland are Charles Mair, third vice grand master of the grand lodge of Brotherhood of Locomotive Firemen, Traveling Representative Burke of the same order and Chas. H. Herby of the engineers. The session will have under discussion the question of a raise in wages of the trainmen."

TO OPEN NEW SHOPS SOON.

Rock Island is Spending \$50,000 for Improvements at Chickasha.
W. H. Herbig, commercial freight agent of the Rock Island, returned to Wichita from Chickasha, J. T. He said, in speaking about the territory town: "The Rock Island machine shops at that place are now ready for the machinery, and it will soon be installed. The company is also building fourteen additional engine stalls to the roundhouse and the improvements which are making there will amount to \$50,000. The grading for the new track from Watonga to Greary is nearly completed and the steel gang will begin work next week."

Heavy Snow at Santa Fe.

The first heavy snowfall of this winter in this vicinity occurred last night, and almost three inches of snow covered the ground this morning, but had almost all melted by this evening. The

maximum sun temperature yesterday was 47 degrees, maximum shade temperature 44 degrees, minimum temperature 35 degrees, the highest since last November. Temperature at 6 o'clock this morning 31 degrees. The indications for tonight and tomorrow are mild.—New Mexican.

STOCK NOTES.

Jim Turner, of Carlsbad, predicts that mutton in the spring will be in demand at from \$6 to \$7 on the market.

F. J. Turner, the Colorado state rate inspector, located in New Mexico, is here today on business connected with his duties.

Taylor Brown, of Midland, was at Carlsbad looking after his 5,000 mutton. He will drift back to Texas, if he can't find the stock here.

Remember the Rio Texas Cattle Raisers' association convention in Fort Worth, the second Tuesday in March. El Paso is in the race for the 1902 meeting.

T. Borgmann, the brother of Dr. J. J. Borgmann, of Las Vegas, who recently arrived from Holland, has decided to raise about 100 head of cattle for a few months and will be taken to ranch Chumacero by C. R. Van Houten.

News has been received of the death of D. R. Brigham, of Brigham & Hicks, of Santa Rosa and the Brigham & Adams Live Stock company, of Denver. Mr. Brigham died last Friday. He had large interests in New Mexico in the case of the purchasers of the Agua Negra grant.

A. R. Robertson, manager of the Hat ranch, Eddy county, opened the last selling season this year, when he sold 2,000 head of a year olds from the Hat ranch, 1,000 from the Borden county ranch and 1,000 from the Galloway county ranch. He got prices ranging from \$21 to \$24—about same as last year.

Next Sunday of Monday George H. Webster, Jr., of Carlsbad, will ship out two more double-neck cans of fat lard to the Kansas City market. His lard is of the highest quality, and is very profitable this year, and the Kansas City stock market is making a record that commands ready sales and high prices in any market.

J. J. Rouse and family have moved to Rockwell to reside permanently. "Uncle Jesse" has bought him a ranch on Lower Arroyo near Roswell, and has moved in with the family. He is a member in that section being a resident of the Rockwell before his departure was ever dreamed of. He was one of the most popular men in Eddy county.

Don't fail to read the ad. of the "Isa-watha" incubator company in this issue. Esposito says it is the most successful incubator yet invented.

CAUGHT TEXAS FEVER.

A Number of Cattle Exhibits at Charleston Have Died.
A special to the Dallas News dated Fort Worth, Texas, February 15, says: "The letter following was recently written by T. E. B. Southard, a well known member of the Texas Live Stock association, relative to cattle which he exhibited at the Charleston exposition contrasting the Texas fever."

"I regret to inform you and the public that through some negligence on the part of the officials of the Charleston exposition, a part of my show herd, namely, Thickhead, Chockmate, Lead Star and Golden Lassie, were brought in contact with southern cattle at the Charleston exposition, and contracted Texas fever. Chockmate and Golden Lassie died on the road home. Thickhead died on Wednesday night during the Kriterion sale January 23, and Improver died on Friday, January 31. Lead Star, on account of his youth, bids fair to recover. The strange part of this matter is that the other five members of the show herd, namely, Pure Gold, Galator, Improver's Calf, Princess Pearl and Wood Maid, were not exposed, or they have shown no symptoms, whatever and are well and hearty, the time for development having been passed several days. Strange to say, these five cattle, that are well and hearty and have never shown any symptoms, were kept on one side of the alley at the exposition, and the five that were taken sick were on the opposite side. Chockmate was the first to succumb, and when Golden Lassie followed, treatment was commenced promptly and the railroad companies agreed to make a good home as fast as possible. When they arrived home the well ones were isolated and put in quarantine, and the sick ones were kept in a car on the side-track."

A Demented Soldier.

A demented man named Crawford told Judge Wooster a pitiful tale this morning, says the Las Vegas Record. He served three years as a soldier in the Philippines, and on landing at San Francisco purchased a ticket for his home in Iowa, and obtained a New York ticket for \$25, which he had on his person. On his way to New York he imagined that robbers were trying to get his money and he tore the draft for \$25 into fragments, scattering the pieces. When he reached Lamy, this territory, he discarded his soldier's uniform for an old pair of pants and overshirt. When he reached here he was very little of anything only a lot of misery and want. He will be detained until his relatives can be heard from.

A Pastor Resigns.

Rev. H. B. Gibbons last Sunday morning tendered his resignation as pastor of the Baptist church in this city, to take effect March 3. He has accepted the pastorate of the Baptist church in Carlsbad, N. M., for which place, on March 4, he and Mrs. Gibbons will leave. Mr. Gibbons announced his deep regret that the state of his health rendered the change from Raton to a lower altitude imperative. Both he and his worthy wife have made friends of all our people, who will be sorry to have them leave, and whose best wishes will follow them to their new Pecos valley home.—Raton Range.

A Force of Lantry Brothers' men are

at work putting in granite abutments for a new steel bridge across Sacramento wash, four miles west of Yucca. Rock for the work is being gotten out at a point below the site for the bridge and Indians and other workmen are loading this broken stone on the cars. The bridge will have seven piers and will be one of the most substantial structures on the road.

FOREST RESERVES.

Instructions Received by Superintendent Hanna as to Sheep Grazing.

Superintendent of Forest Reserves, I. B. Hanna, received from the department of the interior, the regulations which are to govern the grazing of sheep on forest reserves, on which sheep grazing is to be permitted. In the case of New Mexico that being only the Gila reserve. The matter of making allotments is to be left to the Wood Growers' association of the district interested, but as New Mexico has no wood growers' association, the matter is left in the hands of the forest supervisors and superintendent. The rules governing the making of applications and allotments can be procured from Mr. Hanna, whose office is in the federal building at Santa Fe. This number of sheep to be permitted on the Gila River reserve this season is 20,000 until August 31, 1902, but not more than 10,000 shall be sheep of owners living outside of the reserve, the other 10,000 being reserved for local residents within the reserve. The actual residents will have the preference, whether they reside on or near the reserve. In other words, outsiders cannot have more than 10,000, no matter how few are owned on the reserve, and if the reserve residents own more than 10,000 then the balance for outsiders must be reduced so that the total number applied for by residents and the outsiders combined shall not exceed 20,000. The reserve residents being provided for at not less than 5,000, then the outsiders who own permanent ranches within the reserve but who reside outside come second for consideration. Then the persons who own no ranches or farms in the reserve, but who live near to the reserve come third, and all other persons who have some equitable claim to the use of the reserve are to be considered last.

THE RESERVATION RULES.

The following penalties are imposed upon the holders of permits for grazing on the reserve for a violation of the rules: For obtaining or attempting to obtain a permit on false representations for which trespass, from ranch where not permitted, either on closed ground or the range of others, for setting out fire to clear range, for willful negligence in leaving camp or other fires, for refusing to observe promptly any direct order from the department requiring an observance of any rule, the permits to be cancelled or returned.

The penalty of reducing 15 per cent. the number of sheep covered by any permit will be imposed for the following causes: For allowing a neighbor's range without the consent of said neighbor; for bedding sheep more than six nights in succession in any one place, except when bedding bands of ewes during lambing time; for entering the reserve prior to the date authorized, for remaining on the reserve after the permit has expired, for corraling within 500 yards of a running stream or living spring, for carelessness in leaving camp fire for failure to add an extinguisher to a fire occurring within the range occupied when possible so to do; for failure to remove sheep promptly upon order of forest officer when damage is being done to the range; for failure of holder to report to range, upon order of forest officer or ranger, when number of sheep appears to be greater than the number covered by permit; for such minor violations of the rules as may occur.

On the Pecos river forest reserve no grazing of sheep and goats will be permitted under any circumstances.

SILVER CITY.

Special Correspondence.
Silver City, N. M., Feb. 25.—Yesterday evening considerable excitement was caused upon the main street of the city by a man named Reed, who was being taken to the Silver City jail by a few citizens, and he had a double-barrel shotgun to do the job.

Reed has been employed as a range rider on the Gila forest reserve, and the other day came into town to celebrate his long stay in the hill and proceeded to fill up on whisky. In the evening he went into one of the leading Chinese restaurants and ordered a good supper and endeavored to get out without paying for it, but the Chinese boy confronted him, which so annoyed Reed that he went to a near by saloon and procured a shotgun and went back saying he was going to send a Chinaman to heaven. Fortunately the gun proved not to be loaded, but the almondeyed individual is still saying his prayers. Reed was arrested and will have a hearing before Justice Newcomb tomorrow.

The spring term of the Grant county district court will convene in this city on next Monday, March 3.

Mrs. N. C. Gregg died at the home of her son, O. D. Manning, near Pecos about last Sunday morning. She deceased was 71 years of age and had been in bad health for some time.

The Denning, Jr., base ball team defeated the Silver City, Jr., club in the first game of base ball at Athletic Park last Sunday afternoon by a score of 23 to 18.

Mrs. A. S. Goodell returned the first of the week from a short visit to relatives in Clifton.

Assistant United States Attorney E. L. Medler came in Saturday from Albuquerque to attend to legal matters in this city.

Harry W. Whitehill and wife returned to Silver City from the south the latter part of last week and the other evening his young friends gave him a musical serenade.

H. M. Stecker of the Silver City Beer & Ice company, left Sunday for Las Vegas on a short visit, and from there he will go to Douglas, where he will start the Douglas Beer & Ice company to going.

Mrs. Joe Sheridan and little daughter will leave about the first of March for a several months' visit to California for the benefit of her health.

INDIAN SCHOOL NOTES.

Special Correspondence.
Indian School, Feb. 26.—Our champion tennis players are again practicing and are getting in trim to challenge any and all aspirants for championship honors in the territory. Croquet is also being indulged in to

quite an extent by the ladies of the school.

Superintendent Collins has just returned from an official trip to San Felipe.

Miss Anna T. Durkin, of Cleveland, Ohio, is now filling the position of nurse in the hospital at this school.

Two of our nincoms were out on Saturday, and after walking several miles up the river, they returned empty handed—fired but never much. Mr. Sedonville was out on Monday evening and succeeded in bringing in some live duck.

Miss Inez Bland made a short visit with old friends at the Indian school this week, and has been in Washington, D. C., and various points in the east, visiting her brother and other relatives. She was highly pleased with Washington and its many attractions.

Mrs. C. E. Vaughn made a short visit to her daughter and granddaughter on Monday.

WINSLOW.

Special Correspondence.
Winslow, Arizona, February 21.—Mrs. Jack Penner was in Winslow from Albuquerque, New Mexico, the guest of Mr. and Mrs. Ernest Weiss, on Second street.

Mrs. Richard Davis and Mr. Scotty and Miss Curtis came in from Albuquerque to attend the Engineers' ball on Friday. They were the guests of Mrs. C. E. Kelly, on Kinsey avenue.

The Engineers' ball on Friday night was a grand success from every point of view. There being present about 150 couples, they coming from points along the line from Albuquerque to the Navajo, Colo.

Miss Isabella Carr, who has been on the sick list the past week, is reported improving. She will be out in a few days.

Mrs. J. E. Miller was in town this week to attend the ball. She was the guest of Mrs. Thomas McGinty.

R. C. Cressell is improving his livery stable by putting in several new stalls. Ben Burks is putting the finishing touches on the new place of G. R. Bauerback.

EXPECTS TO LIVE 400 YEARS.

Chicago Has a New Methuselah, Who Announces Himself.
Chicago has a Methuselah. He expects to live for 400 years. He is 87 years old and looks to be less than 30.

Three handfuls of popcorn suffice for his daily food. When he wants a change he swallows a spoonful of olive oil.

Strangest of all, the teacher of this new cult, this promulgator of the latest doctrine of life theory, asks no pay. Why should he? Popcorn is cheap.

The name of this teacher is the Rev. Dr. Otman Zar-Adustan Hanish. Still further, he is Methuselah-Mann of the El-Rimman people, leader in the art of breathing, etc., etc.

He calls the new faith "sun worship," but this use of the word "sun" is metaphorical. To him the sun is the "inner sunlight." The most practical and easily understood feature of his teachings is the breathing. Perfect breathing means perfect life, perfect condition of the brain, perfect thinking and freedom of fatigue or disease.

His explanation of 100 years of life is based chiefly upon his mastery of the art of breathing. He breathes, Mr. Hanish wages war on the world. The women in his audience cannot follow his breathing instructions when they are tightly laced. That he has a devoted Temperance does not seem to bother his audience. Moreover, he does not deny it. His work, however, is purely orient-al—urban, ash, robe.

"I ask no pay," he tells his audience nightly at the Atheneum building, 26 Van Buren street. In consequence his hearers are many and are making heavy drafts on Chicago atmosphere.—American.

Of Local Interest.

Mr. and Mrs. Alonzo B. McMillan spent today in the capital of New Mexico.

Mrs. D. McNair of Albuquerque, was an arrival in Santa Fe on last evening's train from the south.

Governor Otero received a telegram from Albuquerque inviting him to come to the Duke city to take part in the reception to General Arthur MacArthur on Thursday. The governor has accepted the invitation and will go down tomorrow evening.

Mr. and Mrs. George W. Armitage returned from their wedding trip to Washington, Philadelphia, New York and other eastern cities, more firmly convinced than ever that there is no country like New Mexico. Mr. and Mrs. Armitage while at Washington were pleased because Senator Stephen B. Elkins in speaking to them persisted in using the Spanish language. Senator Elkins has an excellent command of that tongue and his accent is said to be perfect.—New Mexican.

Mumps at Roswell.

The mump wave that has passed over Roswell has been a good thing, everything considered. There is nothing like it as a reminder that the flesh should not be proud, for its way is one of tribulation and at times of exceeding soreness. It lays hold upon an Adonis and makes of him a poisoned pup. It seizes a debilitate and makes her look like a nut laden squirrel. It reproves the lad who imagines that she is a grown up woman, and reminds her that whooping cough and measles are not such ancient history. It reminds the stripling that the down on his lip is no guarantee of manhood. Best of all, it causes the man who is a talking machine, to shut up and go away back and sit down. Great is the mumps! Since its effects are not serious, it is a pity so many people go through life with ever knowing the great pride reducer—mumps.—Record.

The Great American Climate.

On the heels of a bright mild day comes a howling blizzard and the next thing you know the weather is spring like again. No wonder people have colds and sore throats and stiff backs. Luckily, Perry Davis' Painkiller is at hand to give relief. Take it internally and rub it into the aching flesh. All druggists sell it. There is but one Painkiller, Perry Davis'.

Harvey Whitehill, one of the oldest

and most popular residents of Silver City, went to Athens, Georgia, a few weeks ago and married a charming lady of that city. He came home with his bride last Saturday evening, and

his old friends gathered and gave him a serenade. To the editor of The Citizen fell the pleasing duty of welcoming the bride to her western home. The groom is in the prime of life, and his hundreds of friends in New Mexico wish the happy couple all the good things of married life.

ELKS' COMMITTEE.

The Opera House Soliciting Committee Named and Held Meeting.

The Elks have lost no time in beginning work for the new opera house. With the energy characteristic of the order, work to the end of securing the building has been promptly taken up.

No necessary spirit prompts the Elks in this undertaking, for the individual members will have to meet heavy expenses in starting the enterprise. In addition, the members will have to take upon themselves a vast amount of disagreeable work to carry it through. The only benefit the lodge will derive will be to have a lodge room, but Albuquerque badly needs an opera house and with commendable public spirit the Elks have undertaken to help provide it. The plan will be fully and frankly laid before the citizens and their cooperation is requested.

Charles F. Myers, grand ruler, today announced the funds committee and this afternoon the members met to decide on a method of procedure. Those on the soliciting committee are: C. F. Myers, Alfred Grunstedt, Herman Blawie, J. F. Pearce, P. A. Hubbard, David Wolman, T. N. Williamson, Frans Strages, C. C. Hall, B. Rapp, A. B. McGaffey, W. H. Hahn, D. A. Macpherson, Thos. Muggs, John Beaven, Frank McKee, C. W. Kinn, M. Mandell, H. B. Ferguson.

MARRIAGE.

R. E. Peltow and Miss Nina R. Jamieson Married.

R. E. Peltow, the popular and efficient manager of the local Harvey house, and Miss Nina R. Jamieson, a charming young lady of rare beauty and accomplishments, from Chicago, were united in marriage last night at St. John's Episcopal church. The ceremony was performed by Rev. Robert Bonham, pastor of the church.

Mrs. E. Jamieson, mother of the bride, who came from Chicago, to attend the wedding, and R. D. Madigan of this city, were the only guests present.

The bride and groom have both spent their childhood in Chicago. They became acquainted as school children many years ago in Chicago. A friendship sprang up that has ripened as they attained manhood and womanhood.

It will be regretted by the many friends of the happy couple that they will, in the near future, leave for Jacksonville, Cal., where Mr. Peltow has been tendered the management of the new Harvey house at that place. The Elks join with a host of friends in the expression of good will and best wishes to the happy young couple.

WOMAN'S RELIEF CORPS.

Officers Elected and Arrangements Made for the Entertainment of Old Soldiers.

At the annual election of officers of Carleton corps No. 2, Woman's Relief Corps, Santa Fe, the following officers were chosen:

President, Mrs. McKee, senior vice president, Mrs. Whitman; junior vice president, Mrs. Cleburne; chaplain, Mrs. Berger; secretary, Mrs. Wolman; treasurer, Mrs. Bishop; conductor, Mrs. Davis; assistant conductor, Miss Waring; guard, Mrs. Forsha. The ladies of the corps will entertain the command of Carleton post No. 2 and their wives and old soldiers on Saturday evening of this week at the post hall in this city. An enjoyable time is anticipated as refreshments will be served, the old war songs will be sung over again and other suitable entertainment will be provided. A "banquet" will be given by Carleton post, Grand Army of the Republic, some time this spring to which the public will be invited.—New Mexican.

DURANGO AND CLIFTON.

Light Grade for the Entire Proposed New Railroad.

A Clifton dispatch says that the preliminary survey for the Durango and Clifton railroad has been a surprise to everybody. It is shown that the grade for over 400 miles will not exceed 1 per cent. at any point, and there is only twelve miles of 2 per cent. grade.

Captain McConnell is now in New York arranging to finance the road, and it is reported that he has practically secured the money necessary to build the road.

It is expected that dirt will commence to be broken now and fall.

The Shilston school at Clifton will be one of the most complete in the world.

It is quite evident, from the sub-

joined dispatch sent out from Santa Fe to the Denver Republican, that the recent declaration made by Senator Turner, as to the condition of Indian schools, was a bit of the capital city. About 100,000 children are enrolled in the Indian schools. The following are the statistics:

In answer to charges that United States Indian schools show large mortality
