

STOCK NOTES

Bryan & Budget shipped 2,000 head of cattle bought from Hachura, A. T., from the Deming stock yards, during the week. The stock goes to pastures in Montana.

There are now only sixty odd cars of fatted lambs in Weld county, Colo., to go to market. Some of the feeders are talking of holding their lambs on feed until the middle or latter part of May, in spite of the high price of feed.

All sheep men are aware of the fact that wool from grain fed sheep will out weigh that grown on the back of hay fed sheep, but all are not cognizant of the fact that it will outstrick it as well. Sell corn fed wool in the dirt.

It is reported that cattle being shipped from Arizona points are dying in transit on account of their emaciated condition. The ranges in Arizona are in bad condition, and cattle are being shipped in order to save as many as possible.

The lack of snow last winter had the effect quite naturally of creating considerable dust on the range and wool is not so clean this spring as it might be. Besides an alkali sand accumulates in the wool and thus not only takes longer to shear a sheep but the shears are more rapidly worn out. It is said that there is a great shrinkage in some wool, owing to the presence of this alkali sand.

Ryan Bros., of Leavenworth, Kansas, who own and control extensive ranches in the San Simon valley in southwestern New Mexico and southeastern Arizona, are preparing to make extensive cattle shipments to Kansas and Montana. The stock is now being gathered and it is estimated that between five and seven hundred carloads of cattle will be shipped from their range within the next few weeks. The shipments will be made over the Bisbee railroad to Deming, thence going over the Atchison, Topoka & Santa Fe railway east. This action of Ryan Bros. is brought about by the fact that the range in that section has become somewhat overstocked and it is necessary to give it a rest that grass may again become plentiful.

Mule raising at the present time is proving more profitable to the farmers than the production of almost any other kind of stock. The recent wars have taken many mules, but the great immigration and commercial enterprises that follow in the wake of war reconstruct and develop the devastated territory and always require a much greater amount of supplies than the armies themselves. Such will be the case in South Africa, the Philippines and Cuba. Every New Mexico locality should have a good jack and there is no better way than for a few men to get together and invest \$1,000 in a mulee gentleman. Such an animal would add many thousands of dollars to the neighborhood each year and will safely pay 75 per cent on the investment per annum.

One thing is certain, there will be plenty of muttons to feed next year. All this season the country has turned out but few muttons compared with the offerings of lambs. The reason for this state of affairs is that western feeders prefer not to handle muttons unless they can get corn cheap. When corn is high and lambs cheap as was the case last fall, feeders go in almost exclusively for young sheep and leave the muttons to remain on the range.

Espanola—P. H. Leese—Dry and windy. Wheat is being irrigated as it needed water badly. Snow in the mountains decreasing very fast and water getting scarce although still sufficient. The range is very dry and there is no new grass. Fruit is in very good condition; orchardists will begin spraying next week.

Stanton—E. W. Halstead—Fine weather for the growth of vegetation, and planting is well under way. Alfalfa growing well. Water plentiful as yet, but a shortage is looked for unless rains begin early as the snow in the mountains is practically gone. Highest temperature, 81; lowest, 25; no rain.

Frisco—Clement Hightower—With strong south winds during the day and cold nights, vegetation has made scarcely any growth the past week. Corn planting has begun on temporal lands. Weather continues dry and the water in the streams is falling. Stock holding up fairly well.

Gallinas Springs—Jas. E. Whitmore—Dry weather continues with wind cutting. No temporal planting as yet awaiting rain. Cattle doing very well, but lambing turning out very poorly. Fruit still all right, although some of the blooms wasted by the winds. Highest temperature, 87; lowest, 34; no rain.

Los Alamos—Wm. Frank—The unfavorable droughty weather conditions continue. Almost all the lambs dropped die for lack of nourishment. Lambing will begin in earnest about the 5th instant, and all hope for rain about that time. No more seeding being done. Alfalfa holding its own.

Michlin Park—A. M. Sanchez—Warm weather; cloudy but no rain. Rain is badly needed, especially for the ranges. Alfalfa is beginning to bloom; wheat is doing well; nearly all the corn is planted. There is still plenty of irrigation water. Highest temperature, 88; lowest, 36; no rain.

Ojo Caliente—Antonio Joseph—The unprecedented drought continues, to the great dismay and discouragement of farmers and stockmen. Added to this the grasshoppers have appeared and are considerably damaging growing crops. There is little grass on the ranges, but there is still an abundance of water for irrigation. Highest temperature, 75; lowest, 40; no rain.

Red Rock—Louis Champie—Some corn has been planted; spring vegetables are rather backward. Peaches promise a full crop. There is plenty of water for irrigation purposes, but the river is quite low for this time of the year. Out ranges are badly in need of rain.

Santa Fe—U. S. Weather Bureau—Fruit trees and gardens are well advanced. Irrigated alfalfa is knee high and growing well. There seems to be sufficient irrigation water but the river is quite low for the season. Highest temperature, 72; lowest, 38; no rain.

Toek—Hugh A. Toel—Warm weather with no frost or rain. Fruit prospects continue promising; crop growing well. Corn is planted. Oak brush is growing and cattle thriving.

Watrous—M. C. Needham—Drought continues. Irrigation water is scarce

which is 25,000 feet, or about four and one-half miles long.

The Mont Conis tunnel, through the Alps, connecting railways of France and Italy, is 39,840 feet, or about seven miles long, twenty-five feet, three and one-half inches at the widest part, twenty-six feet, two and three-quarters inches at the widest part, and twenty-four feet seven inches high, the arch being nearly semi-circular.

The Mont St. Gothard tunnel, also through the Alps, connecting the railways of Switzerland and Italy, is 48,840 feet, or nearly ten miles long.

A third tunnel through the Alps—the Simplon tunnel has now been commenced, which will be nearly thirteen miles long.

By means of compressed air, improved drills and modern methods, the rate at which tunnels can now be driven is twice as great as it formerly was, with corresponding saving of time and reduced cost.

Business experience has shown that the three great tunnels through the Alps, aggregating thirty miles in length, are fully justified by the saving of distance and time thereby effected.

WEEKLY CROP BULLETIN.

United States Department of Agriculture, Climate and Crop Bulletin of the Weather Bureau, New Mexico Section.

Santa Fe, New Mexico, May 6, 1902.—The dry weather continues and is becoming very serious in the east central sections. Some planting is being done on "temporal" land, but as a rule, this work is delayed awaiting rain. While the drought is most severe in east central and northeastern counties it is becoming quite serious throughout the territory, especially as regards stock interests. As a rule stock is doing fairly well, especially cattle, excepting in the sections mentioned but the ranges everywhere are extremely dry and outside water holes have dried up. As yet irrigation water is sufficient in all but the northwest counties, but the streams are very low for the season and the snow is nearly all gone from the headwaters. Lambing is well begun in northeastern sections and reports indicate that hardly 25 per cent of the lambs will be saved in many of the large flocks.

Corn planting is about finished in southern counties, and well begun in northern. Not much late planting has been done as yet on unirrigated lands. Where irrigated, field crops, as wheat, oats and alfalfa, are doing very well and are well advanced. Throughout the territory fruit at present promises an excellent yield.

The following remarks are extracted from the reports of correspondents:

Arabiola—A. M. Richardson—Planting finished; but little corn up on account of dry weather. There is no surface water and stock look badly, especially cattle. Highest temperature, 84; lowest, 58; no rain.

East Las Vegas—J. Thornhill—Dry, windy weather continues, and farmers are doing very little planting, neither oats nor corn has yet been planted as the ground is too hard and dry to plow. Irrigated alfalfa looks well. Water is setting very scarce.

Espanola—P. H. Leese—Dry and windy. Wheat is being irrigated as it needed water badly. Snow in the mountains decreasing very fast and water getting scarce although still sufficient. The range is very dry and there is no new grass. Fruit is in very good condition; orchardists will begin spraying next week.

Stanton—E. W. Halstead—Fine weather for the growth of vegetation, and planting is well under way. Alfalfa growing well. Water plentiful as yet, but a shortage is looked for unless rains begin early as the snow in the mountains is practically gone. Highest temperature, 81; lowest, 25; no rain.

Frisco—Clement Hightower—With strong south winds during the day and cold nights, vegetation has made scarcely any growth the past week. Corn planting has begun on temporal lands. Weather continues dry and the water in the streams is falling. Stock holding up fairly well.

Gallinas Springs—Jas. E. Whitmore—Dry weather continues with wind cutting. No temporal planting as yet awaiting rain. Cattle doing very well, but lambing turning out very poorly. Fruit still all right, although some of the blooms wasted by the winds. Highest temperature, 87; lowest, 34; no rain.

Los Alamos—Wm. Frank—The unfavorable droughty weather conditions continue. Almost all the lambs dropped die for lack of nourishment. Lambing will begin in earnest about the 5th instant, and all hope for rain about that time. No more seeding being done. Alfalfa holding its own.

Michlin Park—A. M. Sanchez—Warm weather; cloudy but no rain. Rain is badly needed, especially for the ranges. Alfalfa is beginning to bloom; wheat is doing well; nearly all the corn is planted. There is still plenty of irrigation water. Highest temperature, 88; lowest, 36; no rain.

Ojo Caliente—Antonio Joseph—The unprecedented drought continues, to the great dismay and discouragement of farmers and stockmen. Added to this the grasshoppers have appeared and are considerably damaging growing crops. There is little grass on the ranges, but there is still an abundance of water for irrigation. Highest temperature, 75; lowest, 40; no rain.

Red Rock—Louis Champie—Some corn has been planted; spring vegetables are rather backward. Peaches promise a full crop. There is plenty of water for irrigation purposes, but the river is quite low for this time of the year. Out ranges are badly in need of rain.

Santa Fe—U. S. Weather Bureau—Fruit trees and gardens are well advanced. Irrigated alfalfa is knee high and growing well. There seems to be sufficient irrigation water but the river is quite low for the season. Highest temperature, 72; lowest, 38; no rain.

Toek—Hugh A. Toel—Warm weather with no frost or rain. Fruit prospects continue promising; crop growing well. Corn is planted. Oak brush is growing and cattle thriving.

Watrous—M. C. Needham—Drought continues. Irrigation water is scarce

SAVE THE CHILDREN.

Statistics will prove that a large percentage of deaths among children may be traced to complications arising from the early souring of milk by bacteria. Cholera infantum is the most fatal disease of infancy, and common, especially with bottle fed infants. Perry Davis' Painkiller in the emergency is the best remedy and saves many a child's life while the doctor is coming. 25 and 50c bottles.

CROWNINSFIELD.

Rear Admiral Crowninshield has hoisted his flag on the battleship Illinois and gone to take command of the European squadron. No previous officer or assuming flag rank has been so favored as has Crowninshield. His is the choicest of assignments. He has been given the pick of the ships, and he is to take a conspicuous part in the naval demonstration in English waters incident to the coronation of King Edward. All of his wishes have been respected. Other officers reaching the rank of rear admiral have been sent wherever the department saw fit to assign them to duty.—News Dispatch

"Oh, who is Crowninshield, papa. That he should have the best of everything there is to have. And shine over all the rest?"

"Great Crowninshield, my son, has done a lot of wonderful things. And now he reaps the proud rewards. That virtue always brings."

"What were the virtuous deeds he did. That he should simply name. The thing he wants for his rewards. And straight annex the same?"

"Oh, you can never understand. The wonders he has done. The right they reap the proud rewards. And that was great, my son."

"What other fights were fought by him. Whose flag so proudly flies. High on our greatest ship, before. The world's admiring eyes?"

"No other sailor ever sat. Behind a desk and fought. As glorious a fight as that. Or planned as grand a feat."

"But when and where did Crowninshield stand on the burning show. His 'battles' how to train their guns. Against the firing foe?"

"Oh, he upon your 'firing foe'. And 'battles' such things. Great 'Crowninshield' sat at his desk. And deftly pulled the strings."

"And was that all he did, papa. That he with building ships. Should head the list of heroes now. Eclipsing all the rest?"

"Go out and chase the pup, my son. And bother me no more. Great 'Crowninshield's' the greatest tar. That ever stayed ashore. —S. E. Kiser, in Chicago Record-Herald.

Coughs and colds, down to the very borderland of consumption, yield to the soothing, healing influences of Dr. Wood's Norway Pine Syrup.

The Old Albuquerque Tigers took the ball game at the fair grounds yesterday afternoon from the Santa Fe Pacific team by a score of 7 to 1. The game was won in the first inning, when the shop boys made a series of wild plays which enabled the Tigers to pile up five runs. With the exception of this one inning the game was as pretty until the end of the ninth as any seen on the local diamond in many years between amateur teams, the Tigers scoring but two and the shop boys one run in the remaining eight innings.

The shop boys, after the first inning, steeled down and played a fine game but the lead was too great to be overcome. The game put by the Tigers would have been hard for the best of them to beat, as Chaves was invincible, allowing but three scattering hits and striking out about ten men. Shepard pitched for the shop team.

A Pathetic Excuse.

Teachers in the public schools often find laughter and tears close together in their experiences with pupils. In one of the west side schools a teacher in the primary grades had had great difficulty in impressing on her pupils the necessity of bringing written excuses when, for good reasons, they were absent or tardy. She even went so far as to call on the parents of some of the pupils and explain the matter to them personally. One of the families on which she had the hardest work to impress the necessity of sending excuses was that of a little boy named Isadore. His parents had been in this country but a short time and did not understand the American cus-

Nasal Catarrh quickly yields to treatment by Ely's Cream Balm, which is agreeably aromatic. It is resorbed through the mucous membrane and heals the whole surface over which it diffuses itself. Druggists sell the 50c. size; Trial size by mail, 10 cents. Test it and you are sure to continue the treatment.

To accommodate those who are partial to the use of atomizers in applying liquids into the nasal passages for catarrhal troubles, the proprietors prepare Cream Balm in liquid form, which will be known as Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid form embodies the medicinal properties of the solid preparation.

HOSTETTER'S STOMACH BITTERS

This medicine will purify the blood, restore the appetite, make a keener liver, active and positively cure

Flatulency, Belching, Headache, Indigestion, Dyspepsia and Constipation

Try a bottle and be convinced.

and stock in poor condition. If present conditions of little grass or water on the ranges last much longer there will be heavy loss in cattle. Alfalfa doing well.

Weber—E. H. Biernbaum—The drought continues. Some corn has been planted; irrigated lands are doing very well. The Mora river is filling rapidly; farmers are utilizing every drop of water. Forest fires west of this valley have destroyed valuable timber and spreading to the prairie have caused stockmen much trouble and expense.

Woodbury—A. J. Woodbury—Highest temperature, 81; lowest, 35; no rain.

R. M. HARDINGE, Section Director.

toms, but finally the teacher after several calls, succeeded in impressing on them the importance of what she had asked.

Two or three weeks later Isadore was absent for three days. The teacher made up her mind that something serious must be the matter. The boy was a bright and willing pupil and she had become much interested in him. Finally on the morning of the fourth day another pupil, whose parents lived in the same block with Isadore, came up to the teacher's desk when he reached school in the morning and handed up a tear-stained and dirty little piece of paper.

"Dear teacher," it said, in painfully laborious letters, "please excuse little Isadore for being absent. He is dead."—Chicago Tribune.

BELEN WINS.

The Heydey Club Entertains the Albuquerque Visitors Royally.

Leon Hertzog's Sunnyside bowlers met defeat at the Heydey club's bowls in Belen yesterday in four straight games. It was a Belen walkaway from beginning to end.

Promptly at 8 o'clock yesterday morning the Sunnyside bowlers and about twenty-five enthusiastic Albuquerque rovers appeared at the depot. The train advertised to leave at 8:10 did not go until 10:15.

A special car, freshly painted railroad red and furnished with all little conveniences as possible, was attached to a local freight which is due to arrive in Belen at 10 o'clock, but is generally five hours late, sidetracked the elegant special side-door pullman at Belen at exactly 12:15, and just in time to allow the passengers to partake of refreshments before dinner.

The first game was called about 1:30 by umpire Becker and the scores of the games were as follows:

FIRST GAME.

Belen.	178
Davis	169
Zweiger	192
Reinken	130
C. A. Dalles	134
Le Brun	154
Total	948

Albuquerque.

Hertzog, captain	172
Frost	134
Brooks	132
Picard	171
Weller	140
Summers	138
Total	887

SECOND GAME.

Belen.

P. B. Dalles	145
Davis	149
Zweiger	190
Reinken	177
C. A. Dalles	169
Le Brun	163.25
Total	998

Albuquerque.

Hertzog	167
Frost	190
Brooks	126
Picard	173
Weller	128
Summers	152
Total	936

THIRD GAME.

Belen.

P. B. Dalles	159
Davis	168
Zweiger	168
Reinken	168
C. A. Dalles	172
Le Brun	159
Total	994

Albuquerque.

Hertzog	157
Frost	168
Brooks	141
Picard	139
Weller	165
Summers	178
Total	948

FOURTH GAME.

Belen.

P. B. Dalles	142
Davis	158
Zweiger	144
Reinken	169
C. A. Dalles	134
Le Brun	172
Total	919

Albuquerque.

Hertzog	197
Frost	117
Brooks	153
Picard	161
Weller	121
Summers	132
Total	881

The individual averages for the four games:

Belen.

P. B. Dalles	156.00
Davis	158.75
Zweiger	173.50
Reinken	160.25
C. A. Dalles	152.25
Le Brun	162.25
Team average	160.66

Albuquerque.

Hertzog	173.25
Frost	152.25
Brooks	138.00
Picard	161.00
Weller	138.00
Summers	150.00
Team average	155.55

Leon Hertzog made the best individual score and was beaten 25 for the best individual average by Zweiger, Belen's crack bowler.

Belen's main fault was in cool steady work, as is shown by the score. Of course Hertzog's men were handicapped to a certain extent by the fact that they were playing on a strange alley.

The umpires were L. C. Becker and H. Willie Meyers. Scorekeepers, Clarence French and Ralph Hunt.

The second event of the tournament will be played at the Sunnyside bowling alley in Old Albuquerque on May 25.

Refreshments were served during the entire afternoon.

The Heydey club boys are royal entertainers and they did themselves proud yesterday, and the Sunnyside boys will have to hurry to return any such hospitality when the return game is played.

The following Albuquerque gentlemen witnessed the game: H. Willie

It's Just a Cough

that gets your lungs sore and weak and paves the way for pneumonia or consumption, or both. Acker's English Remedy will stop the cough in a day and heal your lungs. It will cure consumption, asthma, bronchitis and all throat and lung troubles. Positively guaranteed, and money refunded if not satisfied. Write to us for free sample. W. H. Hooker & Co., Buffalo, N. Y. J. H. O'Reilly & Co., and B. H. Briggs & Co.

Meyers, Wilmet Booth, Geo. Thomas, George Albright, Tad Maloy, M. S. Otero, Chas. Hawks, Ralph Hunt, L. Bennett, Ben Jafa, F. W. Mohman, Sol Benjamin, S. Benjamin, the second, Charlie White, Art Shaw, Oscar Gobel, Dan Padilla, James Grunsfeld and O. A. Matson.

The Most Common Ailment.

More people suffer from rheumatism than from any other ailment. This is widely unnecessary, too, for a cure may be effected at a very small cost. G. W. Westcott, of Meadowdale, N. Y., says: "I have been afflicted with rheumatism for some time and it has caused me much suffering. I concluded to try Chamberlain's Pain Balm and am pleased to say that it has cured me." For sale by all druggists.

SANTA FE.

From the New Mexican.

Policeman Antonio Ortega handed his resignation to Mayor I. Sparks. Juan Antonio Ortega will probably be appointed to succeed him.

L. T. Hardy, proprietor of the steam roller flour mill at Santa Cruz, and T. J. Williams, an Albuquerque railroad, are in Santa Fe on business.

Caterpillars are already doing business in local orchards. The best remedy is to cut off the branches in which they have their nests and burn them.

A number of Cochiti Indians are in Santa Fe trading. They report that they have very little rain the past few days and that the range is very dry.

T. A. Herlow is suffering from inflammatory rheumatism in his right hand, which gave rise to a rumor current today that he had been bitten by one of the Gila monsters on exhibition in the window of the Wells-Fargo express company.

Miss P. Ford, who has been employed by the New Mexican Printing company as stenographer and typewriter for the past nine months, has resigned and has accepted a position as stenographer and bookkeeper at the College of Agriculture and Mechanic Arts at Mesilla Park. She expects to leave for her new post of duty about the first of June.

Soltero Martinez, mysteriously shot some time ago while on his way to his home on the south side, is reported to be very low and but slight hopes are entertained for his recovery. He has made an affidavit to the district attorney and an arrest will soon be made. The bullet still imbedded in Martinez' chest and as it grazed the lungs it is dangerous to probe for it.

GOLDEN.

Special Correspondence.

Golden, May 10.—J. P. Olimpious and Laughridge, of Denver, Colo., arrived today in Golden and will make examination of the Monte Cristo Placer company's ground and machinery. Several days will be spent by Messrs. Olimpious and Laughridge in giving the property a fair test.

George Alexander & Co., one of the heaviest contractors in the district, have taken the contract to sink the well at the Baird placer ground to 200 feet deeper, where the company expects water will be found to supply their thirty-stamp mill.

WHITE OAKS.

From the Eagle.

The Baptist revival, conducted the last ten days by Rev. Fred Allen, closed Wednesday night.

Mrs. C. D. Leon, Mrs. A. Ziegler and children reached home. They have been in California the past five months.

Mrs. H. G. Miller, wife of Dr. Miller, the Congregational pastor, and son, Ray, came in from New York. The doctor is happy, so is his flock.

David Thompson, a son of Pete Thompson, formerly a resident of this place, was killed in a Capitan coal mine one day last week by falling rock.

Misses Campbell were up from Carrizozo Saturday. The elder Miss Campbell has been employed to teach the school at Jicarilla.

Nic Bastion and Lee McGehee and family came in from the Gallinas, followed by Bob Haynie and family the next day. The work on the Tatiatero property has closed temporarily.

George Ousey returned home last week, after a six months' stay in Arizona and Mexico. George says there is plenty of work for miners in that country and at good wages, but the summer months are very unhealthy; hence the reason for the return of all the boys.

Deputy Supreme President LaBrue organized a lodge of Select Knights and Ladies here with a charter membership of about twenty. White Oaks has several society organizations, and this last promises to be one of the leading organizations of the town.

School will close Friday, May 16. The present term began in September and has continued for a period of nine months. When school began the district was in arrears \$300 or \$400 for teachers' salaries for the previous term, but that was paid, the expenses of present term have been fully met, and a small balance will be left in the treasury for next year. The poll tax fund has not been touched, and the apportionment of July will go to swelling the fund or a good beginning in the fall.

CARLSBAD.

From the ARGUS.

J. W. McQuerry, recently here from Midland, has decided to locate, and has bought from G. B. Herron the Pecos Valley hotel. He took charge on May 3.

Joe Klanser is in charge of a force of men at work near the flume seeking a bed rock foundation for the proposed new flume, soon to be built for the irrigation company at a cost of about \$40,000.

According to the Alamosgordo Advertiser, Mrs. Thomas Fennessey is suing her husband for divorce on the grounds of non-support and abandon-

ment, praying for the custody of their two children and alimony. Tom Fennessey used to live here, being Edmeado county's first prolate clerk, and consequently well known to all old timers.

Fire destroyed the home of J. S. Iyer, on the Francis Stock Farm, eight miles south of here, Wednesday, about 3 a. m. The flames made such rapid headway that practically nothing was saved and Mr. Iyer's personal loss was about \$250. Loss on the house, owned by W. R. Allison, was \$400. No insurance. Blaze caused by defective flue.

There is no doubt now but that there will be an immense fruit crop in the Carlsbad district, this season, of peaches, especially. Every orchard in this vicinity will produce a maximum crop and the work of thinning out the fruit is necessary in most instances. It is estimated that about fifteen carloads of peaches will be shipped out during the season.

La Huerta bridge caught fire, and but for the timely assistance of Mr. Love, who lives nearby, would have gone up in smoke. It seems that some one threw a lighted cigar or cigarette stub down and it lodged between the double plank flooring of the bridge and set fire to the structure. Slight damage was done, but a lively time was had for a few minutes.

Sheriff Collier, of Dickens county, came in, and in company with Fayette Baird, went up to Red Bluff and arrested three men named Sanders and a boy, who are charged with the theft
