

## DEMING WINS

### Basket Ball Game With Silver City—Score 18 to 6.

#### SILVER CITY OUTCLASSED.

The sport loving people of the active and progressive city of Deming are jubilant over the overwhelming victory of the young ladies' basket ball team in the contest with a team of Silver City young ladies at Deming Monday night.

J. Weldon Berrey, a well known authority on basket ball, who has been at Deming coaching the team for the past week, and Grover Strong, the local enthusiast, who was requested to umpire the game, returned to Albuquerque this morning. Both gentlemen speak in the highest terms of the hospitality of the citizens of Deming and the enjoyable time extended to them by the courtesy of the people. But their most laudable terms of praise are in favor of the basket ball team, composed of young ladies from the Deming high school, who carried off the victory by a score of 18 to 6, and they are more deserving of admiration by reason of this being their first game.

The Silver City team, under the management of Prof. H. A. Owens, have been in continual practice for the past year, several of the players being veterans in the basket ball world. Time and time again the Silver City team challenged the Deming girls for a game. There being a rivalry between the two neighboring towns, the young ladies of Deming made up their minds that they would show their neighbors who and what they were.

They immediately wired Mr. Berrey, who has umpired several games here, asking if they could secure his services as a coach. He gave them a favorable reply and went to Deming a week ago last Saturday. The young ladies were short on practice and knew very little about the rules of the game.

Mr. Berrey immediately put the young ladies under a systematic practice, compelling them to leave dances and social functions alone during the term of the practice, much to the displeasure of some of the young gentlemen.

When the people of Deming learned of the coming event, everyone became greatly interested in the game, and tickets were sold in an astonishing manner.

Big demonstrations accompanied the event of Monday night.

The Silver City team were met at the train by over 150 people who tendered them many social pleasures.

As soon as the game was called and both teams were playing their best it was plainly evident that the Silver City team was outclassed. Their coaching had been inadequate, and the young ladies could not be blamed for their lack of knowledge of the game.

The team work of the Deming girls was excellent, displaying skillful and expert playing that can only be identified with accomplished players. The Deming team young ladies range between 15 and 17 years of age, but they are clever in the art of basketball.

In the second half, the Silver City team seeing they were not in the game left the field, giving the Deming girls a complete victory.

The young ladies of the winning team could not thank Mr. Berrey enough for his one week of effective coaching. In appreciation of his services he was presented a handsome gold medal, bearing the names of the young ladies in the basket ball team.

This one victory is only a starter; they will continue with daily practice, and in short time will be in a position to meet any young ladies' team in the territory. They will undoubtedly play a game with the Las Cruces girls, the champions of the territory, in the near future.

Umpire Grover Strong won considerable popularity by his fair and just decisions, and the teams were very grateful to him for his valuable services.

Messrs. Berry and Strong were tendered a reception at the Adelphi club and treated with highest respect by their hosts.

A successful future is predicted for the young ladies basket ball team of Deming.

#### Cement Railroad Ties.

Railroad officials are much interested in experiments that are being conducted on the Pere Marquette road and the Michigan Central in the use of railroad ties made of Portland cement. The manufacturers claim for their invention that the cement tie is practically indestructible, and therefore an assurance of a great reduction in first cost as well as that of maintenance. Wood blocks of varying thicknesses are shirred between the tie and the rail. These act as a cushion to receive and distribute the vibration and can be quickly replaced without removing or disturbing the tie. These blocks are chemically treated, so as to make them indestructible. They are held to the cement ties by spikes driven into holes in the cement filled with wooden plugs, these plugs being inserted before the cement has set and hardened.

#### MISS EDNA A. HOTELLING.

Her Death at Her Residence Early this Morning.

Miss Edna Alice Hotelling, the estimable and highly respected daughter of Dr. E. Hotelling, died this morning about 3 o'clock. Miss Hotelling and a sister, who died just two years ago yesterday, came to Albuquerque about

seven years ago from Chicago. After the death of the sister, Mr. Hotelling sold all his interests in Chicago and moved to this city, as it was known that the other daughter could never return to the east to live, but there was never a doubt but that the invigorating climate of the southwest would benefit her condition.

The untimely death of the young lady was a shock to her many friends in this city. Since her residence here she has been a favorite with all those with whom she associated.

The remains were prepared for burial by O. W. Strong & Sons. The funeral services will be held at the residence, 616 South Arno street, tomorrow afternoon at 2:30 o'clock. Rev. H. E. Powell, of the Baptist church, will officiate. The body of the deceased will be laid to rest in Fairview.

A band concert will be given at the fair grounds Sunday afternoon by the First Regiment band. They will first appear on Railroad avenue, where they will render some fine music and then they will go to the fair grounds.

## HERE FROM FT. WINGATE.

Major F. H. Hardie, of the Fourteenth United States cavalry, stationed at Fort Wingate, accompanied by Col. J. S. Van Doren, arrived here last night on passenger train No. 8 and are comfortably quartered at the Alvarado.

Major Hardie is called here to appear as a witness in the investigation to be made this afternoon of Frank H. Bush and George H. Smithover, privates, charged with having deserted at the fort on the 13th inst.

Bush and Smithover were arrested here Wednesday and have since been held in the county jail. They have employed W. E. Hancock as their attorney. He will bring about habeas corpus proceedings and try and secure their release.

At these proceedings Assistant United States Attorney E. L. Medler will conduct the case for the war department, and the circumstances, which are very unusual, will be investigated thoroughly.

Major Hardie is the officer in command at Fort Wingate and a very conservative gentleman, and does not think it his duty to talk of the case, as it is now in the possession of the courts. He thinks that it is very strange that these men should desert at this time, considering that their term of enlistment will be finished in a year and that they are likely to be taken to the Philippines. In case they were taken to the islands it would be a great trip, as they would have the opportunity of seeing a great deal of the world and at the same time draw pay. It would be more of a pleasure trip than a campaign of war, as things are very peaceful on the islands at present.

The Fourteenth is ordered to the Philippines and will probably embark from San Francisco about August 1. Major Hardie reports fine weather at Wingate.

#### Will Be Court Martialed.

Bush and Smithover, the United States army deserters, were arraigned before Judge Baker this afternoon in a habeas corpus proceedings, instituted for their release by their attorney. The court ruled to the contrary and they were turned over to the custody of Major Hardie, of the Fourteenth cavalry, from which regiment they are deserters. They are now under military law and will be taken back to Fort Wingate and tried before a court martial. Major Hardie and Colonel Van Doren will return to Wingate tonight.

#### Lafayette's Southern Trip.

Easton, Pa., March 20.—The base ball team of Lafayette college starts on its southern trip today, and will play Columbia university at Washington, D. C., tomorrow and the University of North Carolina at Chapel Hill on Monday and Tuesday of next week.

Captain Johnson is encouraged by the showing the team has made in its practice work and appears confident that the season will be a successful one for Lafayette.

#### Copper Syndicate Extended.

New York, March 20.—Arrangements having been made for the extension of the underwriting syndicate of the United States Copper company, the syndicate did not expire today by limitation as it would have done otherwise. The syndicate was incorporated in New Jersey in April of last year by F. Augustus Heinz and his friends, with a capital of \$80,000,000. It is said in Wall street that so far the syndicate has not been very successful in disposing of its securities.

Michigan and Wisconsin in Debate. Madison, Wis., March 20.—The debate between representatives of the University of Michigan and the University of Wisconsin, for which both institutions have been preparing since last fall, takes place here tonight and it promises to be the event of the university year.

The subject of debate is embraced in the following: "Resolved, that the adoption of a general income tax levied by the United States government would be for the best interests of the nation."

The funeral services of Mrs. H. Jay Stone, whose death occurred yesterday afternoon, will be held from the undertaking parlors of J. W. Edwards at 6 o'clock Saturday morning. The Rev. W. J. Marsh will officiate. The death of the good and estimable woman has caused a gloom of sadness to come over her many friends in this city.

## FROM WASHINGTON.

### The Reason for Postponement in the Judge McMillan Case.

#### DELEGATE RODEY DETAINED.

Special Correspondence.

Washington, D. C., March 14.—Reliable information has been obtained by the correspondent of The Citizen, at the department of justice, that owing to a combination of circumstances it has caused this long delay in reaching a decision upon the charges preferred against Judge D. H. McMillan, of the Fifth judicial district.

The Panama canal, the Cuban treaty, the session of congress and several other very important matters have just forced this matter over. After the adjournment of congress the attorney general was so worn out by hard work and so near a sick spell that he had to take a trip to Florida, where his family is, to recuperate. Judge Russell, who was placed in charge of the case, after the long, full and careful report by Special Agent Meyer, was himself compelled to go to Paris to investigate the title of the present Panama Canal company to the canal.

The attorney general decided before going to Florida that he would give Judge McMillan a couple of weeks more time to secure more affidavits in his defense; that Judge McMillan, as the defendant, would be given an oral hearing, before the attorney general, upon his return from Florida, probably about the first of April; that Judge McMillan, as the defendant, would be permitted to be present, and that some one or more of the assistant attorneys general would prosecute in behalf of the government, and that Judge McMillan would be permitted to appear in his own defense, or by attorney, if he so desired, and he no doubt will be in Washington at or before the time set. The case will be very fully gone over, and the attorney general will promptly decide, one way or the other, as soon as it is heard.

Judge Freeman is giving his very careful and undivided attention to the case, and will ask, as the representative of the people, to be present at the hearing, to hear just what defense Judge McMillan will make. Reliable reports say that Judge McMillan charges most of all of those that have made charges against him as being liars, thieves, jail birds, convicts and other pet titles. The fact that after his answer, which is about as thick as a Webster's dictionary, has been filed, he is given further time to file more affidavits, of itself looks unfavorable to Judge McMillan.

Judge McMillan was furnished with copies of the charges that were made against him when they were sent to Washington, and again given access to copies of all papers or charges against him upon his arrival in Washington, by the department of justice, while on the other hand, the people of New Mexico, through Judge Freeman, who is acting for them, in regard to the charges filed, have been refused the poor privilege of seeing the long and voluminous answer filed by Judge McMillan. Of all the departments of the government it would be supposed that the department of justice would willingly and freely accord equal and exact justice to both sides in a cause pending before it. The American people, and particularly those in the west, do not take very staidly to any secret or star chamber trials where the people as well as some certain individuals, with an influential pull in some high places, are concerned. The press, and particularly the religious press of the country, may be relied on as a last resort, for justice, fairness and equity.

Owing to some hard fights for postmaster in several small towns, and some other important matters in the various departments, Delegate Rodey will be detained here for some time longer than he had expected. Mrs. Rodey and youngest son left this evening for Philadelphia, and if Delegate Rodey is not able to join her within a few days, she will not delay longer, but start for New Mexico.

Mrs. Helen Rodey will remain here at school until vacation.

J. P. Garcia will probably be appointed postmaster at Springer, Colfax county.

The contest at Taos is between two "Roosevelt" Rough Riders" and Mrs. Martinez, and the president has the last say.

#### L. M. BOND.

#### A STRANGE ACCIDENT.

The Cab Was Set on Fire and the Engineer Killed.

Andy Whitlock, of Denver, one of the fastest runners and oldest engineers on the Union Pacific, met death Tuesday as the result of a singular accident to his engine, says a dispatch from Ellis, Kan. Passenger train No. 4 was behind time and running very fast. When near Aroya, Colo., fire was thrown from the fire box in such large quantities that almost instantly the entire cab was on fire. Engineer Whitlock, after shutting off the engine and setting the air brake, either fell or jumped, breaking his neck. Fireman Barnard was severely burned about the face and hands, but escaped more serious injuries by crawling back over the tender.

#### Sanitarium Benefit.

Following close after the appreciative gifts made the ladies toward their bazaar by Hon. Felipe Chavez, of Belen, a horse; J. Korber & Co., a saddle; T. F. Keicher, a bride, came the gifts

of a Morris chair, by O. W. Strong & Sons; a fine steel range, by Whitney company; a fine gold ring with native setting, by S. Vann & Son, and a gold watch by H. E. Fox.

The merchants are making their donations liberally and the prospects of the bazaar as a money maker are very flattering.

#### Fisher vs. Matthews.

New York, March 20.—The only athletic event on the tapis this evening of any importance is the wrestling bout at the New Polo Athletic club between George Fisher and Tom Matthews. Both men have many followers in the sport and the result of the bout is awaited with no little interest.

The funeral services of Frank Sullivan, who passed away Wednesday, was held from the Immaculate Conception church yesterday morning at 9 o'clock. The ceremony was performed by Father Mandarini. Quite a number of friends of the deceased were present and followed the cortege to Santa Barbara cemetery, where interment was made.

## OLD RACKET WORKED.

The familiar old holdup game, where one man buys while the other helps himself, was worked in Mike Mandell's clothing establishment about 7 o'clock this morning, just after Mr. Mandell's nephew, a boy about 16 years old, had opened up.

Two men came in, and seeing the boy alone, one asked to see some overalls. The overalls were at the rear of the room, and the boy suspiciously nothing, went with the man who wished to see the overalls, while the other man remained in the front part of the store. He was a large man, sandy mustache and wore a large duster, while the other man was small and smooth-faced. Neither were dressed in a manner that would speak well as to their mode of living. The little man seemed to be a hard customer to suit. After he had looked at a number of different styles, the other man called back to him that he would meet him on the corner. As soon as the large man had left the store, the hard-to-please customer selected a pair of overalls, paid for them and left the store. When Mr. Stein, the head salesman, arrived the boy told him of the two men visiting the store. Mr. Stein, having had many experiences in clothing store holdups, became suspicious and examined the clothing on the tables in the front part of the store and found a coat, vest and two pair of trousers, all of spring styles just received, were missing.

The discovery was soon made as the goods had just been placed on the tables yesterday. The man was undoubtedly on his job as he selected out his size, taking a 38 coat and vest, but of different patterns, and trousers to fit himself and partner. The clothing stolen were of small striped and black and white check patterns.

City Marshal McMullin was immediately notified and started on the trail of the men. The trains were watched by the officers and young Mandell, but the men steered clear of the depot. The officers state that they have a clue and expect to land their men before evening.

#### Men Arrested.

Officers J. H. Bennett and Joe Salazar arrested two young men giving the names of Arthur Drake and John Willis, at Rancocas de Albuquerque about noon today. They had three pair of pants and a coat and vest in their possession. When they were brought back to the city Drake was identified as the man who bought the overalls at Mandell's and all the clothes were identified as those stolen from the store.

The first information of the men was obtained by Bennett who trailed them beyond the vicinity of the mission schools. They had made several attempts to dispose of the goods to people, whom they met along the road. The description of the men answered that given by young Mandell. As soon as Bennett knew he was on the right trail he sent for the buggy. Officer Salazar made haste with the hurry-up wagon and the men were overtaken about six miles north of the city, at Rancocas de Albuquerque.

Drake is a young man about 19 years old, claiming to hail from St. Louis, and Willis is about 18 years old. He claims Houston, Texas, as his home.

Their story is that they purchased the goods from the missing man, who came into the store with Drake, for \$7, and were trying to dispose of them. They did not know the man of whom they bought the goods, as they had just met him this morning.

Only two men entered Mandell's store, but there was undoubtedly three men mixed up in the affair. The officers are on the lookout for the man, who evidently was the leader of the trio. The boys state that they had just come up from El Paso, and were walking to Bernalillo to get a train. When arrested Drake had \$1.25 and Willis had 90 cents. Willis was wearing Mandell's coat and vest, having discarded his old ones. They were locked up in the city jail and will be given a hearing in the morning.

S. E. Edmunds, the tobacco expert, who has written several letters here to prominent people concerning tobacco cultivation in the Rio Grande valley, is expected to arrive tonight from Kentucky. The matter of tobacco cultivation in the Rio Grande valley has been discussed to a considerable extent by the Commercial club, which organization has appointed Gov. E. S. Stover and T. J. Curran as a reception committee for Mr. Edmunds.

## CHLORIDE DISTRICT.

### A Few Interesting Facts About Mining in This Arizona Camp.

#### MINERS AND PROSPECTORS.

Special Correspondence.

Chloride, Ariz., March 18.—A gold discovery that is attracting very widespread attention has just been made here on the Erickson mine by Stephen Smith. The rich ore body was struck in a shaft at a distance of seventy feet from the surface, and exactly at water level. The vein is fifteen inches wide and samples give from 2 1/2 to 30 ounces gold to the ton. Mr. Smith and Judge Shafer own a group of fine claims contiguously situated, and adjoining properties belonging to the Philadelphia & Arizona Mining company and not far from the Minnesota and Mother Lode mines, belonging to them. This is very generally pronounced the largest and richest gold discovery ever made in Mohave county.

Gold ore is richer and better quality is also coming out of the Homestead mine, belonging to Thomas Thornton, and two claims distant southeast of the new gold discovery. Development on this property, however, are not down half the distance as upon the new gold find, but the quartz and formations are identically the same, and give several ounces gold to the ton. Mr. Thornton is considerably handicapped in the development of his discovery from a financial standpoint and is doing the work alone as fast as he can, feeling assured from present facts and indications that he will reap a rich reward by and by.

The Samoa mine, being operated by the Hoffman Bros., is in bonanza gold and silver ore at a depth of 400 feet. The gold value has only lately come in, where there was a general change of formation in the workings. The first car load of the new and rich ore went out last week and shipments promise permanency.

The Elkhart mine, which was recently taken hold of by C. Barramore, as manager for the company owning, is making wonderful success in the production of ore. This is an old ore chute that had been overlooked for years by former foremen and managers, and since the opening of the vein it has produced ore in car loads, the largest and freest from waste that ever came out of the mine. This size and quality of ore, however, is not up to the standard of its first discovery, but nevertheless there is a goodly quantity in the mine, and the 100-ton mill is far behind in the treatment of milling stuff.

The Tennessee mine and mill are still hanging up, and no definite news as to when work will be resumed is not obtainable. H. N. Botsford and family still remain, and the former still retaining general management of affairs.

The mine and mill have been worked incessantly for a number of years, and only when all the surface workings and improvements were visited and destroyed by fire three years ago, has there been any let up in work and production.

The Queen Bee mine at Mineral Park has lately had a new steam hoist installed at work, and developments in that fine property is considerably accelerated.

#### The Electric Road.

Manager Epperson, of the Las Vegas and Hot Springs electric road and power company, materially added to the crowd last night, by running cars between the city and the springs during the evening. A great many people took advantage of the running of the electric cars, who could not make connections for the special train.

Parties who rode on them last night pronounce the trip most enjoyable, the cars running as smooth and as fast as the regular train.—Las Vegas Optic.

#### HILL INVADES CALIFORNIA.

Survey for Road North and South from Santa Rosa.

The report that President J. J. Hill, of the Northern Securities company, has his agents at work in California with a view to securing a right of way for the Great Northern railroad from Portland to San Francisco, says the Call, is finding considerable confirmation. W. W. Remington, of New York, is said to have surveying parties in the field for a road to run north and south from Santa Rosa and eventually to be connected with other parts of the projected line. The southern terminus of this road is to be somewhere on San Francisco bay, possibly on Belvidere island near Tiburon.

#### SELF-CONFESSED MURDERER.

A Man Says He Choked Nora Fuller to Death.

Lincoln, March 20.—A special from Fremont, Neb., says:

A man who gives his name as John Bennett, and who asserts he is the murderer of Nora Fuller, a girl who was killed at San Francisco over a year ago, surrendered to Sheriff Bauman and is being held. The man appeared at the jail door last night and begged the sheriff to imprison him,

saying that the face of the dead girl haunted him. Bennett, in his confession, says that he choked the girl to death at a house at 1121 Walnut street, San Francisco. He would not tell why he committed the crime, but said that after it was done he left the city hastily. He will be held for investigation.

#### Petite Court.

Celeo Gallison, a native of Los Lunas, was sent over to the county jail for sixty days by Judge Crawford for carrying concealed weapons.

Two drunks were in court this morning. They received the same old fine, \$5 or five days.

Mrs. H. I. Dunning and children, who sojourned at Santa Fe during the legislature, returned to the city last night.

The 4 months' old girl of Via Herrera, one of the territorial grand jurors, died at the home eighteen miles north of the city last night. Mr. Herrera will be unable to return home on account of the important business before the grand jury.

## EAGLES LAST NIGHT.

The Eagles made another upward flight toward the great kingdom of success and popularity by their delightful entertainment at Colombo hall last night.

The opening scene, that of a merry picnicking party, was a unique and novel idea of introducing the talent of the company.

The First Regiment band, in their appearance on the street and in rendering orchestral music, was an enjoyable feature.

A. Moya, a talented member of the band, played several cornet solos that won the high praise of the audience.

The program, consisting of twenty attractive features, divided into two parts, was well prepared and arranged in a manner that no number became tiresome or lacking interest. The large and appreciative audience was pleased and in a good humor throughout the performance.

Everyone was more than pleased with the Barnes Bros. in their clever sketches and songs, especially the crutch clog dancing of J. W. Barnes.

Songs of a various character, sentimental and humorous, were greatly in evidence. Mrs. Rosa Berry sang the latest songs. Spanish songs were rendered by Lee Mitchell. The Eagles quartet, composed of Mrs. Rosa Berry, Messrs. C. E. Burg, Frank Hughtate, C. W. and J. W. Barnes, was well received. Miss Grace Houghton received the popular attention of the music lovers by her sweet and charming voice. The songs and recitations of Francis Elmer showed that the young gentlemen was a stage artist. Mrs. Rosa Berry and Mr. Elmer appeared in an original raucous piano duet which was heartily applauded until they responded.

The people seemed to feel proud of the attractive and charming appearance of Albuquerque's daughters, Misses Virginia Finch, Grace Houghton, Glenna Seidomridge, Eva Lugton, Ethel Bowser, Lizzie Taylor, Lena Seidomridge, Irene Harper, Katherine Corcoran and Marguerite Ingram, under Captain Mrs. Rosa Berry in the drill song, "Hear the Music in the Park."

Herry McKay, an accomplished monologist and impersonator, furnished a spicy and amusing interval by his clever sketches. His impersonation of an old southern darkey won the admiration of the house. His local hits were also enjoyed.

Mrs. Rosa Berry and William Grimmer made a hit in the latest song, "When the Wintertime Comes Around," assisted by the company. Mr. Grimmer was an amusing character in many a touching scene, and appeared as a German in a character sketch which demonstrated his ability as a performer.

D. E. Strachan caused hearty laughter by catching bees at the picnic.

Speechmaker Nat Greene added to the attractiveness of the surroundings by his stately and attractive appearance. Chaperone Billy Berry was here, there and everywhere. His watchful eye prevented any blunders in the performance of the company. The best number on the program, according to the opinion of the pleased audience, was the song composed by Mrs. Berry, "A Trip to the Orient, or the Pickle Actor." The leading part was taken by Mrs. Berry, assisted by Miss Grace Houghton, Miss Ethel Bowser, Miss Virginia Finch, Messrs. Lee Mitchell, Thomas Walsh and Frank Hughtate. The song is captivating and was received with popular esteem. This is the first time the song has been given in public, having just been copyrighted.

A novel number of the program was the animated song sheet, sang by Mr. Elmer, and assisted by twelve young ladies, whose heads were unexpectedly thrust through a large sheet of music, extending the width of the stage, at a timely interval. Piano accompanists were Miss Hanthorne and Miss Bertha Loeb. The musical part of performance was under the supervision of Mrs. Berry and the dramatic part and arrangement under J. W. Barnes.

The Eagles scored another grand success.

## NOW FOR BROOMS.

### Parties Here Looking Over the Field for a Factory.

#### MACHINERY NOW ON THE ROAD.

Albuquerque is soon to have a new industry, which may in time grow quite extensive and be very beneficial to the farmers of the Rio Grande valley, as well as the people of the city. It is a broom factory. J. W. Swisher and R. T. Broadhead, two businesslike young gentlemen, arrived here last night from Abilene, Kansas, and are today looking over the city with a view to establishing a broom factory. They were seen by a representative of The Citizen this morning and expressed themselves pleasantly impressed with Albuquerque as a field for such a factory and were then looking for a suitable building for their factory. They stated to The Citizen that their machinery and factory equipment is packed and ready for shipment from Abilene. It is their intention, at present, to ship the broom corn raw from Kansas, and will continue to do so until a crop of corn can be raised here. They will give away a quantity of broom corn seed to farmers and ranchmen, who will make an effort to grow it. It is thought that it can be grown in the valley profitably and its cultivation become a great industry for the ranchmen.

The young men seem enterprising and thoroughly acquainted with the business they intend to engage in and doubtless will be successful in their new venture.

#### We are Corrected.

The Albuquerque Citizen made the statement the other day under glaring headlines, that the first piece of cloth ever produced in New Mexico had been run off the looms at the Rio Grande woolen mills in that city. Why, McCright, there was a woolen mill in successful operation and turning out cloth by the wholesale in Cherry Valley, Mora county, almost before you were born, at least before you ever thought of coming to New Mexico.—Las Vegas Record.

#### Union County Divorce Case.

Lucinda Rael de Mondragon has entered suit in Union county against her husband, Ramon Mondragon, for absolute divorce. The couple were married in December, 1897, and lived happily ever after until May 20, 1898, when, according to her story, Ramon tired of home, sweet home, and did cruelly desert her without just cause or provocation and has continued to refuse to live with her, all of which is real mean of Ramon, so she prays the court to set aside the bonds of matrimony that bind them, and to give her such other relief as to the court may seem proper.—Las Vegas Record.

#### LETTER LIST.

Following is the list of letters remaining uncalled for in the postoffice at Albuquerque, N. M., for the week ending March 14, 1903:

#### Ladies' List.

Ayers, Mrs G G Neale, Miss Virginia Boyd, Miss Bertha In Curry, Mrs Daisy Morris, Mrs J W Cumber, Mrs George Norwood, Elena Corwell, Mrs S P Seymour, Mrs F C Field, Mrs Martha Sanchez, Mrs Magurule, Mrs Reyes, Mrs Trujillo de Harwood, Mrs V. Sanchez, Senora Jovina G. seña

Martinez, Mrs Mary Tegner, Mrs Clara McCullough, Miss Walton, Mrs Elizabeth

#### Men's List.

Aragon, David B. Henderson, I. L. Haensger, Jos Hagen, Albert Jones, E O Kelley, G B Anderson, W H Kerr, Alf Armour, Warren E Lentz, S P

Almo, Joe A. Murphy, Francis Bishop, Levi H. Bryant

Byrnes, W J. Mack, H W Barnes, Maurice Montoya, T Morgan, Joe
