

OFFICIAL MATTERS.

Territorial Funds—Notaries Appointed—Enforce the School Laws.

GRAN QUIVIRA DECISION.

The following homestead entry was made: Maynard Childs of Rowe post-office, 160 acres in San Miguel county.

Territorial Funds.

The following funds have been received at the office of J. H. Vaughn, territorial treasurer: From Engenio Romero, collector and ex-officio treasurer of San Miguel county, \$12,864.46, taxes for 1902.

Notaries Appointed.

Governor Otero has appointed the following notaries public: Benjamin Franklin Adams of Albuquerque, for Bernalillo county; Juan Basilio Archuleta, Sandoval postoffice, for Sandoval county; Melvin D. Dunlavy of Torrance postoffice, for Lincoln county; George L. Davis of Thoreau postoffice, for McKinley county.

United States Court Commissioners.

Associate Justice John R. McFie of the first judicial district court, on Saturday appointed the following United States court commissioners for the district: George P. Miller of Taos, Edward G. Beatty of Aztec, Thomas D. Burns, Jr., of Tierra Amarilla.

To Enforce the School Laws.

Col. J. Frank Chaves, territorial superintendent of public instruction, during the past week has sent out 3,000 copies of the circular letter issued by him recently, addressed to county superintendents of schools and to district school directors, calling attention to the law which requires that all teachers of the public schools to be employed hereafter must fully understand the English language and that no teacher can be employed or be paid from public funds unless this is the case and they hold a legal and properly issued teacher's certificate. Colonel Chaves proposes to see to it that the law as it exists is carried out.

Decision Affirmed.

In the contest case heard about three months ago by the register and receiver of the United States land office in Santa Fe, involving 160 acres of land in the northeastern part of Socorro county, and upon which the ruins of the Gran Quivira and other community houses are situated and which was instituted by Mrs. Virginia D. McClurg of Colorado Springs, Colo., vs. Mrs. Clara A. B. Corbin, widow of William G. Corbin, who claimed the exercise of the right to prove up on the homestead by her late husband, the decision of the register and receiver here which was to the effect that Mrs. Corbin has not complied with the law and could not complete the entry, has been affirmed by the commissioner of the general land office. The tract in question is situated on the E. 1/4 of the S. 1/4 of section 34 and the S. 1/4 of the S. 1/4 of section 35, T. 1 N., 8 E. Mrs. Corbin is allowed sixty days in which to appeal from this decision to the secretary of the interior.

Five Thousand Dollars for Silver City.

Territorial Auditor W. G. Sargent on Saturday drew a warrant against the territorial treasurer for the sum of \$5,000 in favor of J. W. Fleming, mayor of Silver City, that being the amount of an appropriation made by the thirty-fifth legislative assembly in aid of the town of Silver City, for the purpose of constructing dams and other safeguards against the annual floods which have injured the streets and buildings of that town during the past few years. In accordance with the law, the warrant was drawn against the territorial fund. Solicitor General E. L. Bartlett, by request of the auditor and treasurer, rendered an official opinion to the effect that the provisions of the law referred to above were legal and had to be complied with. Hon. Charles A. Spiess of Las Vegas appeared as the attorney for the town of Silver City.

Most Popular in the World.

What is the most popular advertised medicine in the world? A few years ago it was supposed to be a brand of pills made in England claiming a sale of 6,000,000 packages a year. This record is badly beaten, however, today by the famous American family medicine Cascares, Candy Cathartic, which are selling at an average of over 30,000 boxes every day, over a million boxes a month, and over twelve million boxes a year. This appears to be evidence of overwhelming popularity, the most noteworthy on record.

Another Enjoyable Dance.

Eight couples enjoyed dancing at Park hall last evening to the music furnished by Miss Hanthorn.

Those present were: Misses Mable Strong, Mildred Fox, Susie Dobson, Mary Telfer, Flossie Mitchner, Laura

Hayden and Mrs. Dobson and Mrs. Ed. Medler as chaperons; Messrs. Grover Strong, Will Pruitt, John Hughes, Ward Anderson, C. L. Panoast and Ed. Strumquist.

Very Remarkable Cure of Diarrhoea.
"About six years ago for the first time in my life I had a sudden and severe attack of diarrhoea," says Mrs. Alice Miller of Morgan, Tex. "I got temporary relief, but it came back again and again, and for six long years I have suffered more misery and agony than I can tell. It was worse than death. My husband spent hundreds of dollars for physician's prescriptions and treatment without avail. Finally we moved to Bosque county, our present home, and one day I happened to see an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy with a testimonial of a man who had been cured by it. The case was so similar to my own that I concluded to try the remedy. The result was wonderful. I could hardly realize that I was well again, or believe it could be so after having suffered so long, but that one bottle of medicine, costing but a few cents, cured me." For sale by all druggists.

Coming to the United States.

Chief Lew Adams of the local immigration force, today completed the report of the number of Mexicans who crossed the river for the United States the month of June, and the total number is 2,298. A total of 2,796 were examined, but 498 were turned back as undesirable residents.—El Paso Herald.

Valuable Time Saved.

Slight injuries often disable a man and cause several days' loss of time and when blood poison develops, some times result in the loss of a hand or limb. Chamberlain's Pain Balm is an antiseptic liniment. When applied to cuts, bruises and burns it causes them to heal quickly and without maturation, and prevents any danger of blood poisoning. For sale by all druggists.

OF LOCAL INTEREST.

J. Sampson and wife and Miss Metzger of Albuquerque arrived in the city at noon today and are guests at the Palace.

Sisters Mary Jerome, Hildebrando and Mary De Sales of St. Vincent's academy at Albuquerque arrived from the Duke city at noon today and will remain at St. Vincent's sanitarium for the next two weeks while Sisters Mary Gonzales and Mary Paul are observing retreat.

Judge A. J. Abbott, United States attorney for the Pueblo Indians, received a telegram this morning from Superintendent Allen of the United States Indian school at Albuquerque, informing him that trouble exists at the Laguna pueblo. Several drunken, marauding Navajo Indians had visited the pueblo recently and one Laguna Indian was found murdered a few miles from the pueblo. Mr. Allen requested Judge Abbott to proceed immediately to the scene of the trouble, and the judge left this afternoon for Albuquerque for that purpose.—New Mexican.

Catarrh of the Stomach.

When the stomach is overloaded; when food is taken into it that fails to digest, it decays and inflames the mucous membrane, exposing the nerves, and causes the glands to secrete mucus, instead of the natural juices of digestion. This is called catarrh of the stomach. For years I suffered with catarrh of the stomach, caused by indigestion. Doctors and medicines failed to benefit me until I used Kodol Dyspepsia Cure.—J. R. Rhea, Coppell, Tex. Sold by H. B. Briggs & Co., S. Vann & Son.

Picnic at Whitcomb Springs.

This morning in Trimble's big "Jumbo" wagon drawn by four horses, a gay, happy party of youngsters, boys and girls, hid themselves to Camp Whitcomb to spend the day. The picnic was given by James, John and Frank, Jr., sons of Hon. and Mrs. F. A. Hubbell, and the following ladies went along as chaperons: Mrs. F. A. Hubbell, Mrs. Herbert Romero, Mrs. H. F. Lee and Miss Anna Thomas. The citizen representative was unable to get a complete list of the little people in "Jumbo," but noted down the following: Misses Harris, Maloy, McClellan, Borders, Schuster, Kempinich, Dobson, Fearer, Strickler, Grunfeld, Chaves and Stinson; Masters Wroth, Hesseldein, Dobson, Strickler and Rodey. An extra wagon, loaded with provisions, of course accompanied the party to the resort.

Just About Bedtime.

take a Little Early Riser—it will cure constipation, biliousness and liver troubles. DoWitt's Little Early Riser are different from other pills. They do not gripe and break down the mucous membranes of the stomach, liver and bowels, but cure by gently arousing the secretions and giving strength to these organs. Sold by H. B. Briggs & Co., S. Vann & Son.

Police Court.

A. Barclay was charged this morning with being a vagrant. Ten days of work.

John Thomas, for scrapping, paid \$10, and Ike Worth, for pushing a woman's face, paid \$10.

RIVER RUNS HIGH.

Rio Grande Changes Its Course—Much Damage Done.

SANTA FE TRACK WASHED OUT.

The Las Cruces Citizen says that the Rio Grande went on the rampage down the valley last Friday and changed its course for a distance of twelve miles, doing considerable damage to farm and railroad property.

The river changed its course near Mesquite, and crossed the Santa Fe track at that place, continued to the foot hills, and took a southerly direction until within a short distance below Berino when it again crossed the Santa Fe track and returned to the old channel. The farmers in the flooded section will suffer considerable, as nearly all the land between Mesquite and Anthony, is under water, which means the destroying of many fine stands of alfalfa and other crops.

The river has been a source of annoyance and aggravation to the railroad company, and the traveling public for the past several years. There has been no train from El Paso for a week, and it is probable that it will be two weeks more before traffic can be resumed. The river carried away one hundred feet of track at Mesquite in making its new channel.

The bridge construction crew has been at work all week trying to bridge the river, but so far have failed to make any marked headway. Wednesday night a rise undone all the work accomplished in a few days and it appears that unless the river subsides considerably, it will be almost impossible to bridge it. Another force of workmen has been added to the crew and a large amount of constructing material is now on hand to push the work as rapidly as possible.

The telegraph lines of the Postal and Western Union between here and El Paso have been washed down, and their humbug in that direction will be silent for some time. At present the only means of communication with the Pass city is by telephone, and it is used quite freely.

A Surgical Operation.

is always dangerous—do not submit to the surgeon's knife until you have tried DeWitt's Witch Hazel Salve. It will cure when everything else fails—it has done this in thousands of cases. Here is one of them: I suffered from bleeding and protruding piles for twenty years. Was treated by different specialists and used many remedies, but obtained no relief until I used DeWitt's Witch Hazel Salve. Two boxes of this salve cured me eighteen months ago and I have not had a touch of the piles since.—H. A. Tisdale, Summertown, S. C. For blind, bleeding, itching and protruding piles no remedy equals DeWitt's Witch Hazel Salve. Sold by H. B. Briggs & Co., S. Vann & Son.

MINE ACCIDENT.

Broken Sheave Drops Cage and Imprisons Twenty-five Miners.

A special dispatch from Bisbee, Arizona, dated July 1, says:

Last night at 10:30 the sheave wheel broke in the Lake Superior and Pittsburg hoist, and the cage dropped to the 900 foot level, where it was stopped by a safety catch. No men were in the cage, but twenty-five were employed below where the cage stopped and all were entombed by the shaft being injured and had no egress. The heat was made intense by the escaping steam, besides the general temperature at this depth. Two men were seriously injured by a falling timber and rocks. Foreman Joe Cully, who descended the entire 1,100 feet in a man-way, had his hands scalded and blistered and was overcome by the heat. He would allow no one to go on top. The men were most overcome by suffocation, the mine being supplied with air by pumps, which the accident broke, causing a cut off of air.

At 2 o'clock the entire party was rescued by the repairing of breakage. The property is the deepest mine in the district. Injured: L. H. Hanson, by rock falling; James Chisholm, arm dislocated by piece of timber, both single. The property is owned by Michigan and northern Minnesota people. A defective casting is said to be the cause.

No Pity Shown.

"For years fate was after me continuously," writes F. A. Gullidge, Verbena, Ala. "I had a terrible case of piles causing 24 tumors. When all failed Bucklen's Arnica Salve cured me. Equally good for burns and all aches and pains. Only 25c at all drug-gists.

WILL CONTINUE DIVIDENDS.

Santa Fe Can Still Satisfy Holders of Common Stock.

A Chicago dispatch, dated June 30, says: A decrease in the net earnings of the Santa Fe railway for the last year has led the more timid to sup-

pose there is a possibility of that road being unable to continue the payment of dividends on its common stock. A more careful examination of the facts will show that there is no immediate danger of a cessation of these payments.

The amount of interest charges ahead of the preferred stock at present against the property may be taken at \$1,200 per mile of road. Dividends on the preferred stock appear to call for a further sum of \$750 per mile, making interest charges and preferred dividends together \$1,950, which for safety may be placed at \$2,000. Taxes and rentals make \$300 additional. This makes for first charges, including taxes and preferred dividends, \$2,300 per mile. Dividends at 4 per cent on the common will call for another \$500 per mile, making \$2,800. This is the amount that the company must provide from net earnings if dividends on the common are to be continued. Sinking funds on the debentures call for approximately \$300 per mile, bringing the total up to \$3,100 per mile.

Maintenance of way will no doubt require \$900 per mile on a safe annual average. The Santa Fe has a good deal of mileage that does not require very expensive maintenance, but to be safe take the total requirements as stated. Maintenance of equipment on the inventory at present owned might not take in excess of \$5,000, 000 as a maximum. This would be say \$700 a mile. General expenses at \$200 per mile are ample. This makes a total of \$1,800 per mile for maintenance and general expenses, excluding conducting transportation. The latter item will probably not absorb more than 31 per cent of gross earnings in the fiscal year just ending and it is probably safe to reckon on 31 per cent as the requirements. From this it appears that \$1,900 per mile is 63 per cent of the total gross earnings per mile required to pay all fixed charges, including sinking fund, all preferred dividends, all common dividends and full maintenance charges on the property. The indicated amount of gross earnings, therefore is something less than \$7,000 per mile. Let it be remembered, however, that this includes provisions for the payment every year of \$2,500,000 in retirement of funded debt. The appropriation for this purpose, while it is no doubt, a strict requirement of the mortgage, is nevertheless tantamount to an appropriation of income for the improvement of the property. Therefore, the Santa Fe could beyond any doubt pay the present dividend on the common stock and set aside a sum of money equal to 2 1/2 per cent additional out of the earnings for the repayment of capital.

The gross earnings per mile of the Santa Fe for the current fiscal year will in all probability be in the neighborhood of \$7,700 per mile. The Santa Fe consequently could stand a reduction of 10 per cent at the least from the present gross earnings per mile without having any difficulty in paying the dividend on the common stock. It could probably stand a reduction of 12 1/2 per cent and still take care of everything, including sinking funds.

All Druggists Will Buy It Back. You assume no risk when you buy Chamberlain's Colic, Cholera and Diarrhoea Remedy. All druggists will buy your money if you are not satisfied after using it. It is everywhere admitted to be the most successful remedy in use for bowel complaints and the only one that never fails. It is pleasant, safe and reliable.

Sisters Still Improving. A telephone from the St. Joseph's hospital this afternoon report Sisters Cecelia and Angelas as gaining. This will be good news for their many friends.

No man or woman in the state will hesitate to speak well of Chamberlain's Stomach and Liver Tablets after once trying them. They always produce a pleasant movement of the bowels, improve the appetite and strengthen the digestion. For sale by all druggists.

Civil Service Positions. The United States civil service commission announces that there will be an examination for the position of teacher in the Philippine service on July 22 and 23. On August 5 and 6 for the position of architectural and structural draftsman and writer of specification in the quartermaster's department at large, St. Paul, Minn., at a salary of \$1,200 per annum. On August 5 and 6 for the position of electrical engineer and draftsman in the office of the supervising architect, at a salary of \$1,200 per annum.

Application blanks can be obtained of the secretary of the board of examiners or by applying to the United States civil service commission, Washington, D. C.

A notice received at The Citizen office gives the information that W. M. Walker, late of the Planters' hotel St. Louis, has been appointed manager of the Crescent hotel, Eureka Springs, on the "Frisco" route, vice E. E. Sumner, resigned.

INDIGNATION MEETING.

People of Las Vegas Denounce Insane Asylum Whitewash.

CONDEMN INVESTIGATING COMMITTEE.

Special to The Citizen.

Las Vegas, July 1.—The court house was crowded last night to the utmost capacity, and sweeping resolutions were enthusiastically adopted condemning the desecration of dead; brutal and inhuman treatment by the insane asylum officials found by the commission and brands it as barbarous and illegal; condemns the board for efforts to hide the crimes and mismanagement from the public to the extent of using asylum funds for defending officials; condemns the matron for brutality and outrages and demands her removal. The resolutions condemn the governor for aiding and encouraging the whitewashing; condemn the management of the asylum for violent attacks on the editor of the Las Vegas Advertiser; condemns the Denver News and its Las Vegas correspondent for the libelous attacks on the town to alienate attention from the asylum; condemns the directors and officials for dishonorable methods used to cover up crimes, and M. Brunswick, secretary of the board as a vile usurper in refusing to divulge the expense of the commission; condemns Governor Otero for the farce practiced upon the people by a prejudiced commission consisting of colleagues and friends of the accused, and proclaims admiration for the fearless and honorable findings of E. V. Chaves, for his courage in exposing such deeds as they proved to be by the testimony; congratulates the Las Vegas Advertiser, La Voz del Pueblo, Citizen, El Combate and the Santa Fe Bulletin for defense of decency; and resolved that a copy of the resolutions be furnished the press and a copy sent to the secretary of the interior to be displayed to the president.

SANTA FE.

From the New Mexican. The following real estate transfer is reported by the probate clerk and ex-officio recorder of this county: The Silver City National bank to Ismael Sparks, lots 2/4-2/4, situated near the Santa Fe depot in this city. Consideration, \$150.

A divorce suit was filed in the First district court for Santa Fe county by Jose Tapia vs. Manuela Martinez de Tapia on the ground of desertion. Plaintiff alleges that he was married to the defendant in this city two years ago and that early in the present year she deserted him without just cause.

M. T. Moriarity and daughter, Miss Lizzie, of Moriarity, are in the city. Final poor was made of a homestead entry made by Miss Lizzie Moriarity. Mr. Moriarity will soon begin work on a store building at Moriarity which will be 80x25 feet and will be occupied by the Dunleavy Mercantile company.

George A. Fleming, assistant territorial secretary, and Mrs. Fleming arrived in the city recently from Chicago and are stopping at St. Vincent's sanitarium. Mrs. Fleming was formerly Miss Maude E. Woods of Chicago and the young couple were married at the home of the bride's parents in that city on June 17. The time since then has been spent in Chicago and northern Michigan.

J. Frank Miller, of Lyons, Kansas, and Miss Catherine Hartnett, of Sutton, Nebraska, were married at St. Francis cathedral by the Very Rev. Anthony Fourchegu. The ceremony was witnessed by Major Frederick Muller of this city and Helena K. Werner, a teacher at the United States Indian industrial school at Tucson, Arizona.

Judge McFie signed a decree in favor of Nathan Salmon requiring Nasario Gonzales within fifteen days to make deed to Salmon for the San Francisco street premises and directing Salmon to pay \$10,000 into the hands of Major Palen, as trustee, less certain credits to which Salmon is entitled, also within fifteen days. The property involved is that which lies between the First National bank on San Francisco street and the property of Bernard Hanley. Messrs. Renehan, Bartlett and Knaebel represented the plaintiff, Salmon, and Catron & Gortner the defendant, Gonzales. It is understood that very soon Mr. Salmon will commence the erection of a fine business block. Rumor has it that he has offered to give the Elks a good frontage on San Francisco street if they will erect their proposed lodge home and an opera house on it. This offer is under consideration by the Elks.

FAN OUT SMOKE.

New Plan to Be Tried by Pennsylvania in Baltimore Tunnel. Hugo electrical fans are to be used to clear Pennsylvania railroad tunnels under Baltimore of the smoke and

gas. Plans drawn by the company's engineers have been submitted to builders for estimates. The designs show that the tunnel will be tapped near North avenue by a smoke duct of stone, about ten feet in diameter and roofed over by layers of concrete about twelve feet in depth. This duct will connect with the fan room in the building, where enormous motors, will form a violent suction and drive the bad air and smoke up a huge smoke-stack about sixty feet in height. The vacuum caused in the tunnel itself will make the air at the other end rush in to supply the absent air pressure, and, as a result, in addition to the fans, a high draft is expected, which will keep the air in the tunnel free from gas.

For a lazy liver try Chamberlain's Stomach and Liver Tablets. They invigorate the liver, aid the digestion, regulate the bowels and prevent bilious attacks. For sale by all druggists.

TWO WOMEN DROWNED.

While Bathing in Rio Grande Near El Paso Smelter.

Late yesterday the turbulent old Rio Grande claimed two more victims to the already long list of dead, says the El Paso Herald.

The two latest victims were women—Trifolia Melendez, aged 15 years, and Romana Serros, aged 30 years, sisters and residents of the Mexican settlement at the smelter. The latter is a married woman, but has no children.

The two drowned women were in swimming with three other Mexican women from the smelter settlement, at a point about opposite the plant of the El Paso Brick company, when the Serros woman was caught in one of the many whirlpools in the river, and her sister, Trifolia Melendez, went to her rescue, when she herself was drawn in, and both women sank before they could be rescued.

The other three women tried to save the unfortunates, when they were also caught, but luckily other friends came to their rescue and they were soon safely landed.

Although the unfortunate accident occurred yesterday afternoon late, the matter was not reported in the city till this morning, when Dolores Melendez, brother of the two unfortunate women, appeared at police headquarters and related the facts to Chief Wootton and the police. Mounted Officer Juan Franco took the man in charge, and informed him that every effort would be made to recover the bodies, but so far neither has been found.

There was great distress in the little settlement over the unfortunate occurrence and searching parties put in all last night dragging the stream and searching for the bodies of the dead women. "Sacred candles" were also lighted and floated down the river all night in the hope that the bodies could be located, there being a superstition among the Mexicans that if a candle that has been blessed by a priest, is floated down a stream it will stop over the place where a dead body may be located. All efforts were without success, however, and the bodies of the dead women still lie at the bottom of the treacherous old river.

This is the fifth person drowned in the river near this city since the recent high water, not counting the Duarte boy, who was drowned at Yaleta a few days ago.

Cholera Infantum.

This has long been regarded as one of the most dangerous and fatal diseases to which infants are subject. It can be cured, however, when properly treated. All that is necessary is to give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, as directed with each bottle, and a cure is certain. For sale by all druggists.

NEW DEPOT.

At San Marcial Is Nearing Completion.

The new depot at San Marcial is nearing completion and it shows up to be a big improvement over the old one burned. It is a much larger structure and more modern in architecture. The building is so far advanced that the lathers have finished and the window moldings and windows are now being put in. A broad porch or veranda encircles the entire building, with the exception of the north end, where will be the baggage room. The second floor is arranged for office rooms.

J. A. Harlan, the contractor, has experienced much trouble and has been aggravated considerably while building the San Marcial depot on account of the tardy arrival of material, but his troubles in regard to it will soon be over and it is easy to guess that he will be exceedingly glad when he turns it over to the company completed.

Unique Sign.

Over the Harvey cario rooms' entrance there is a unique sign. It is safe to say that two-thirds of the people who look at it won't know what it means, but then that's where the secret comes in and that is just what will make the people curious and want to see what is inside.

Only the Indians and a few others know what it says and they will explain it for you.

COCHITI RAILROAD.

Vice President and Chief Engineer Dunlap Here Today.

NOW LOCATING LINES.

D. C. Dunlap, vice president and chief engineer of the New Mexico Railroad company, is in the city, and was a pleasant caller at The Citizen office.

Mr. Dunlap is now stationed at Bland, in the famous Cochiti gold mining district, and is locating lines for the above railroad across the mesa and through the canyon from a connection with the Santa Fe road near Thornton to the town of Bland. This work will take several weeks yet, after which he will secure the right of way. He hopes to commence grading on the new road some time the coming fall and winter. At present it is the opinion of Mr. Dunlap that the Cochiti road will connect with the Santa Fe just a little east of the Thornton bridge, skirt across the mesa to the Rio Grande and cross the stream on a 75 foot high bridge at Moore's ferry, two miles above the village of Cochiti. From here the road will run through Pino canyon to Bla. J. This will be the terminus for the time being, but it is quite likely that an extension up to the famous Jemez and Sulphur hot springs will soon follow. Mr. Dunlap says there will be some high trestles on the road after it strikes the mountains, and the route will be very picturesque and beautiful.

The officers and directors are as follows: P. L. McKinnie, president; D. C. Dunlap, vice president and chief engineer; A. L. Allen, secretary; Ralph and Leonard McKinnie, directors. The promoters are Chicago men of wealth, and they mean business in this matter.

The Foundation of Health.

Nourishment is the foundation of health—life—strength. Kodol Dyspepsia Cure is the one great medicine that enables the stomach and digestive organs to digest, assimilate and transform all foods into the kind of blood that nourishes the nerves and feeds the tissues. Kodol lays the foundation for health. Nature does the rest. Indigestion, dyspepsia and all disorders of the stomach and digestive organs are cured by the use of Kodol. Sold by H. B. Briggs & Co., S. Vann Son.

PLUNDER RECOVERED.

Diamond Ring, Brooch and Purse Found by City Marshal McMillin. Frank Hunter and Henry Freeman, cooped, the two youngsters who went into F. E. Griffith's home at 501 East Silver avenue yesterday, as related in The Citizen of last night, took a purse containing about \$15, a diamond ring and a brooch, were not in the police court this morning. The territory of New Mexico needs a reform school for such boys and needs it bad. There are cases coming up now and then where it would be a shame to send such small boys to jail or a prison. The reform school is what is needed.

City Marshal McMillin found the youngsters and after some little persuasion they told him all about it. Two dollars and a half they had blown off for fireworks and ice cream sodas. The rest was recovered. They didn't have any use for the diamond ring so they threw that in a well. The marshal had a nice time getting it, too. The brooch they threw in a ditch. Here the marshal had more fishing to do. These youngsters should receive some kind of a punishment for this kind of work, but it is out of the question to put them in jail.

Mrs. J. C. Marshall, who has been seriously ill the past few weeks, is reported convalescent.

IT'S IMPOSSIBLE.

To Disprove Facts—It is Decidedly Easy to Verify Albuquerque Opinion. Nothing by way of an introduction could be added to the experiences and opinions given below, which could increase their value. Albuquerque people can safely be left to draw their own conclusions based on such convincing proof as this citizen offers. What is there lacking in evidence like this to satisfy a dried-in-the-wool doubting Thomas?

Mrs. M. J. Butler, (M. J. Butler, night watchman in the Santa Fe shops), residence, 717 East street, says: "When I went to the Alvarado Pharmacy for Doan's Kidney Pills I had an attack of backache. It was only one of many which had annoyed me for two or three years. At first they were mild and I expected they would leave just as mysteriously as they came, but with the passing of time the attacks were more frequent and of longer duration. I used three boxes of Doan's Kidney Pills and was rewarded with an entire cessation of the aching. Up to date, and it is considerably over six months since I stopped the treatment, there has not been a sign of any recurrence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name Doan's and take no substitute.
