A traveling fakir had a ring game on the street Monday, by the aid of which the children could win toys and the grownups could lose money. There was a doubling up process by which men had to put up more money in order not to lose what they had invested, and the doubling up process lasted as long as the victim would stand for it. One prominent citizen deposited eight or ten dollars, and his children contemplate the appointment of a guardian. The game had no gambling license, it being a sure thing game, not a gambling device. It took the afternoon train for Clifton.

ALBUQUERQUE'S SCHOOLS

Much Activity Displayed in the Line of Public Education in This City.

The meetings of the public school teachers are held twice a month, instead of once in two months, as was erroneously announced by a city paper.

The last meeting considered the subject of painting, taking up the characteristics of Chaldean, Egyptian, Assyrian and Persian art, as they have come down to us from remote antiquity. The next meeting will consider Greek and Roman painting. There will then follow four lessons on the Italian masters and six on modern art, as exemplified in the Flemish, English, French, German, Spanish and American schools. This question of art study was selected by the teachers on vote at a recent meeting.

Superintendent A. B. Stroup informed The Citizen that work in all the ward schools, and in every grade of each school, is progressing quite satisfactorily. The enrollment is larger than ever before, exceeding that of last year by 100 pupils. The daily attendance is even greater in proportion. Enthusiasm among teachers and pupils alike is very encouraging, exciting anything ever known in the schools during previous years. "In fact," said Superintendent Stroup, "I consider the present condition of the schools 100 per cent better than at this time last year."

The art exhibit, in the high school building next week, has aroused much interest among the children, each ward endeavoring to excel the others in tickets sold. The fact is, that outside of school hours, the little ticket vendors can be seen on all the public thoroughfares.

Up to last evening the sale of tickets at the different wards was reported as follows:

First ward, 200; Second ward, 65;

Third ward, 620; Fourth ward, 500; Central school, 20.

The proceeds of the art exhibit will go to beautify and adorn the several city school buildings, the money to be divided amongst them in proportion to the number of tickets each shall sell.

Albuquerque should give liberal patronage to this enterprise, as nothing contributes more to the development of the better elements in human character than does the surrounding of the young by the beautiful in nature and art.

W. M. Goff, a well known and popular young gentleman of Shelbyville, Ky., stopped off between trains this morning and called on his Kentucky friend at the Citizen office, continuing to Shelbyville via Chicago, on the No. 2 passenger train. Mr. Goff had been in Tucson, Arizona, on a visit to his brother and sister, Thomas and Miss Catherine Goff. He reports the former in the employ of the Southern Pacific road at Tucson, and the health of his sister much improved as a result of her stay in Arizona's dry climate.

WILL GIVE THANKS

Albuquerque has been noted for years for its hearty celebration of Thanksgiving festivities, and 1903 will not be behind any of its predecessors. Music, dancing, dining private socials and public assemblies, will mark the day on which the American people give themselves up to feasting as evidence of their gratitude for favorable conditions afforded by benignant nature.

Hadley Portrait Unveiled.

There were special Thanksgiving exercises held at the Hadley Laboratory this afternoon, beginning at 3:30. The program had been carefully prepared, and was excellently rendered.

District Attorney F. W. Clancy delivered an address on the "Growth of Our Schools," to which he had evidently devoted much thought and considerable research.

This was followed by the formal unveiling of the portrait of the late Walter C. Hadley, after whom the laboratory is named, and to whose widow this valuable adjunct to scientific investigation chiefly owes its origin.

After the unveiling was read a paper, contributed by Prof. C. E. Hodgkin, upon personal recollections of Mr. Hadley. This paper was forwarded from California, where Prof. and Mrs. Hodgkin are spending the winter. It proved of unusual interest even to those who had not had the pleasure of personal acquaintance with Mr. Hadley.

The Hadley laboratory is devoted to climatological investigations, directed more especially to the cause and cure of consumption. Mr. Hadley having died of this disease. It was appropriate, therefore, that Prof. J. Weinzler, director of the laboratory, should have delivered an address on the "Value of Climatological Research," and that President W. G. Tight should close the program with remarks on the "Future of the Laboratory."

Miss Hazel Mitchner and Miss Stella Boatright assisted the school in rendering some pleasing musical selections.

Commercial Club Annual.

On Wednesday evening the Commercial club will enjoy its annual reunion. This is an event as regularly expected as is the return of the day we celebrate.

This year very elaborate preparations have been made, and the attendance promises to be the largest known.

Non-Sectarian Charity Ball.

This event is planned for Thursday evening, and will be given by the benevolent association, the purpose being to raise funds for the relief of the poor of the city. It will take place at Colombo hall, and a liberal patronage should be given it, for the purpose is most praiseworthy.

The society today received a load of goods and \$5 in money from the school children, the drayage upon which was donated by W. L. Trimble & Co. The school children had collected from the general public. The donations were turned over to Mrs. J. W. Edwards, president of the society.

City School Program.

In connection with the Horace K. Turner art exhibit, which will take place tomorrow evening at the Central school building, there will be a musical program in which the seventh and eighth grades will participate. The proceeds of the entertainment will be divided among the different ward buildings for decoration purposes, in proportion to the number of tickets each has sold.

Commercial Club Ball.

The Commercial club dance tomorrow evening will be of unusual elegance. No dance occurred last week and the effort spared at that time is to be applied on the arrangements for tomorrow evening. It will be a real Thanksgiving eve ball, turkey lunch, hot coffee and punch. A large crowd is expected out and an unusually "large" time is expected.

Union Church Service.

The Congregational, Presbyterian, Baptist and two Methodist churches will unite on Thanksgiving day, in conducting divine service at the Baptist church. Rev. Dr. M. W. Manville of the Highland Methodist church will deliver the sermon. The other minis-

\$500 Reward For Women Who Cannot Be Cured.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors of Dr. Pierce's Favorite Peppermint Cure now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

Shaver, of Mount Hope, Lancaster Co., Pa., "and can say that I am cured of that dreaded disease, uterine trouble. Am in better health than ever before. ers will participate in the exercises. A fine musical program has been prepared.

Narrow Escape.
Ben Tranner, waiter at the Central hotel, Las Vegas, and a narrow escape Saturday night, which ought to teach him a lesson. He borrowed a 38-caliber revolver from Clay Preston and started across the street. As he walked he pulled the gun from one pocket and put it into another. It caught and went off. Luckily the young man wore a metal belt which deflected the bullet or he would not have been alive to tell the tale. As it was, the skin was grazed as if from a sharp knife. What earthly reason there is for men and boys to "tote a gun" about on any and all occasions is more than ordinary people can find out.

When one of these "chronic cases" accidentally shoots himself he gets small sympathy from a large majority of good citizens.

LABOR TROUBLES

Down in Arizona on the Eve of Settlement.
A dispatch from Phoenix, dated Nov. 22, says:

An injunction made permanent by Judge Sloan at Prescott the other day marks the final chapter in a tense Arizona labor situation. It represents the legal outcome of a discussion between mine operators and workers, that has lasted since the eight-hour law went into effect, and the decision rendered established a precedent for future labor troubles in this country.

The court has permanently restrained the miners and the unions from interfering with the operations of certain mines, which appeared as the petitioners.

The petitioners charged that various unions and many of their members had forcibly restrained non-union men from working in the mines of Yavapai county; that they had used threats and a display of firearms to intimidate, citing several instances of firing on miners engaged in work.

The defendants were represented by J. F. Wilson, congressional delegate of Arizona, as leading counsel, and they put up a stubborn fight.

A large number of witnesses were heard and two weeks were consumed in the examination. The scale of wages offered by the Mine Operators' association of Yavapai county, and the scale demanded by the unions present few differences, and it is expected that the decision just rendered will result in an early compromise that will preclude further labor trouble for some time, at least, and cause the return of the miners who hold out on strike to the last.

Indiana Capitalists.

Hon. Thomas Taggart, president of the famous French Lick Springs Hotel Co., French Lick, Ind.; Crawford Fairbanks, the millionaire brewer and street car magnate of Terre Haute, Ind.; Dr. H. Jameson and J. C. Sipe, both capitalists of Indianapolis, are in El Paso.

The party are all directors in the Indiana & Sonora Copper company of Cananea, Mexico, to which place they are en route on important business connected with their property, which is among the best in that section. The late Samuel E. Morse, former editor of the Indianapolis Sentinel, who met his death about a month ago by falling from a window in the second story of the Sentinel building in Indianapolis, was president of the company. Mr. Taggart was twice mayor of the city of Indianapolis and present democratic national committeeman of Indiana. He is a good friend of New Mexico, an Arizona, and has always been outspoken for us in the cause of statehood. It is understood that, on their return from Mexico, the gentlemen will come north over the Santa Fe and stop over a day in the city.

A special meeting of the city council was held last night, to consider affairs on North Sixth street and Fruit avenue. Parties building the "h" have lapped over each other and onto the alley, owing to the fact that they

did not observe the set off in the street and alley. The council concluded to let the people interested settle it among themselves.

Mr. J. G. Creager of Bland was a visitor in Albuquerque yesterday. Mr. Creager speaks enthusiastically regarding the future of Bland and the Cochiti mining district and to show that he has the correct of the opinion, and believes in the permanency and future prosperity of the camp, he is always adding to the attractions of his home there. Yesterday he purchased a high grade Chickering Bros. piano from Geo. P. Learnard. This with the wonderful "Cecilian" piano player which Mr. Creager purchased some time ago, will insure the best of music for the camp and stamp Bland as being up-to-date in esthetics as well as commercial spirit.

W. R. Mansfield, Chinese Inspector, has been ordered from this city to Alamogordo, for the future making his headquarters at the latter. ADDITIONAL FACTS

Hon. Alejandro Sandoval interviewed About His House Being Dynamited.

BURGLARY WAS ALSO COMMITTED

The commodious two-story residence of Hon. Alejandro Sandoval at Los Hornos, which was maliciously fired and dynamited Saturday night, is a complete wreck and the damage done is greater than first reported. Every pane in the house is cracked and some of them are badly shattered. Not a single window glass remains unbroken in the entire house and the doors hang loose on their hinges. The house cost Mr. Sandoval \$8,700. He carried \$6,000 insurance and hopes to recover a part of that amount.

Mr. Sandoval, who was in the city at the time his house was blown up, went out to view the wreck yesterday and returned to the city this forenoon. On his arrival here this morning he was seen by a reporter of The Citizen and through an interpreter, said:

"My house is almost beyond mending. The walls are full of cracks, the windows are all out, the furniture is broken and tumbled about the house and all in confusion. Fire destroyed several of the interior walls and burned the carpets and wall fixtures.

"Was there any evidence as to how the incendiary entered the house?" was asked by the reporter.

"Yes," said Mr. Sandoval. "The burglar entered through a window; that is plain to be seen. One window or the piece of one shows the tell tale marks."

"Have you any idea as to who your enemies are?" was the next question.

"Well I have my suspicions, but we can prove nothing just now—we may find out something later."

"Do you think that the wrecking of your house could have been the work of political enemies?"

Mr. Sandoval was a little backward about answering this question and rather paired it by saying that anybody in politics has enemies.

It seems that the crime committed Saturday night
