DR. PRICE'S CREAM BAKING POWDER

A pure, healthful, Cream of Tartar Baking Powder

When buying an article of food you are entitled to know exactly what you are buying—its quality and ingredients.

If this information is refused don't buy it.

Some of the low grade baking powders are advertised, but the ingredients of the powders are scrupulously concealed.

A housekeeper would not use a baking powder containing alum if she knew it.

It is well when buying to examine the label on the can. Unless it shows the ingredient cream of tartar, don't buy it.

Dr. Price's baking powder is absolutely free from alum.

HIGH SCHOOL NOTES

(continued from page one)

to practice in a day or so.

The Grammar School team trimmed the second Hi team to a very sad tune in a practice game this week. They at once challenged the first Hi, but they failed to "bring home the bacon," although they put up a mighty good fight.

Some of the boys from Tularosa, have been down looking over the athletic field and learning all they could about the forthcoming field meet. They are good athletes and will make the Alamogordo Hi's go some to retain their honors.

Mr. Bryan Not Worrying About Random Guesses

Waycross, Ga., Nov. 20.—"I have not conferred with Mr. Wilson since the election and have never discussed with him at any time any person in connection with any office, and I have no intention of going to Bermuda."

This answer was made tonight by William J. Bryan in reply to reports that he proposed to visit the president-elect in connection with a cabinet appointment.

"The public knows that Governor Wilson has gone to Bermuda to rest and that he is not selecting a cabinet. They ought to let him do the selecting and not spend their time in guessing. If they do guess, I see no reason why I should spend my time in discussing their guesses."—Albuquerque Journal.

In Sharkey's Behalf

Tom Sharkey, the ex-pugilist, runs a cafe in New York. He has a reputation for frugality that is almost national.

When the sub-way was being dug along 42nd street a stranger, evidently from the deep woods, came along one day and contemplated the sight. In a jagged cavern forty feet below the street level hundreds of men were digging with pick and shovel, while steam drills puffed, and steam scoops swung, and mighty derricks creaked. The countryman turned to a citizen.

"Mister," he said, "what are all them fellers diggin' fer?"

"Tom Sharkey lost a quarter," said the native.
