

Silverton

From first page

and other points have asked the question what is Silverton? Is it a town? No Silverton is a schoolhouse, where we have Sundayschool, lectures, preaching and all other sociable affairs, is surrounded by a very good neighborhood, composed of people from Texas, Kansas, Oklahoma, Kentucky and some few from Michigan. Therefore a neighborhood of good sociable people who know how to make the best of a new country and who are good pioneers in every respect but hope to make it a town.

The S. G. K. Club, by previous arrangement, met at the home of Mr. and Mrs. Fred Kutchin, on Sunday and another pleasant sociable time was spent. Mrs. Kutchin is a fine cook and her dainty dinner was enjoyed by all. After dinner the host and hostess delightfully entertained with instrumental music, after which we all joined in singing old time Gospel hymns. All enjoyed a duet by Mesdames Kuykendall and Eben. A good shower of rain fell in the afternoon making everyone glad and we parted feeling that it was good to be together. The next meeting of the Club is to be at the home of Mrs. Kuykendall at "Kentucky Lodge" ranch on May 21st.

Thickest Skin of Any Animal.

The skin of a hippopotamus is about the thickest covering worn by any animal on earth. That of the whale is only slightly thicker, but then the whale lives in the sea and not upon the earth. By reason of this thick hide the hippopotamus can laugh at ordinary bullets, which merely tickle him unless they strike him in the eye, the nostrils or the ears. Therefore, when shooting hippopotami, the sportsman uses explosive bullets with sharp steel points.

Judging From Experience.

A little girl whose father was a commercial traveler sat on the porch holding a kitten, and creeping up close her mother heard this: "Kitty," said the young miss, "I know you an' I know your mamma an' I know all your little brothers an' sisters, but I ain't ever seen your papa"—then after a brief pause—"I spec he must be a traveling man."

Neglected Opportunity.

A learned professor lectured the students recently on "Embryosac development and polyembryony in *Smilacina racemosa*." As no record was made for Umbyby-bybyby Phono-no-no-nograph company of New York-ork-ork-ork and Pa-pa-pa-riis, however, you will have to deny yourself the pleasure of hearing it reproduced.—Washington Herald.

Tragedy in Prison Cell.

Some time ago a whole family was murdered at Potchep, in southwest Russia. Two men named Gluster and Shakhin were charged with the crime, and although protesting their innocence to the last the former was hanged and the latter sentenced to a long term of hard labor. It was subsequently ascertained that there had been a miscarriage of justice, and the real murderers were arrested and tried by court-martial at Chernigoff and sentenced to death and were confined in Chernigoff pending execution of their sentences. Two of them were found dead the other day in their cell. They had been strangled by their companion with a piece of twisted linen. The three had drawn lots as to which of them should kill the two others, and then commit suicide. The man who lost fulfilled the first part of the bargain, but at the last moment shrank from doing away with himself.

"Title Talks"

The Business of Abstracting

The business of Abstracting titles is of comparatively recent growth. As lands increase in value, the need of title security becomes more and more imperative. It is just as sensible to safeguard the title to a thousand dollar vacant lot or to any other property, as it is to keep your thousand dollar bond under lock and key. PROTECTION IN EITHER CASE IS THE THING SOUGHT. Good titles make real estate as negotiable as stocks and bonds. There is no way of being sure about the title except by the help of an abstract by a reliable company.
