Pen and Paper.

"Paper," whether of rags or of wood pulp, still takes its name from the papyrus. "A book" is the beech, the wooden rod on which our forefathers cut their runic letters. And a "pencil" is still by derivation "pencilus," a little tail, having been originally the name of the Roman painter's brush.

Teacher Should Rank High.

If education is to do what we hope for our children, it is imperative that the best and most gifted men and women should be attracted into the ranks of teachers and that they should be regarded as filling one of the most highly honored positions in the land.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all dealers.
