**ELECTRIC SHOW TO  
 BE OPENED  
 TONIGHT**

Big Display of Scientific and  
 Educational Worth to Be  
 Held in Whiting Block.

A display which will be of great  
 educational value in more than one  
 way to the people of Albuquerque will  
 be formally opened this evening at  
 211 South Second street, when the  
 "Electric Show," which the Albuquer-  
 que Gas, Electric Light and Power  
 company is arranging will formally be  
 declared open.

Mayor John W. Elder will open the  
 show at 8 o'clock tonight by pressing  
 a button, when the whole place will  
 be illuminated at once. All the lights  
 will blink forth simultaneously and  
 the show will be formally declared  
 open.

The display is absolutely free and  
 the public is invited to attend it. It  
 is under the direction of E. E. Reed,  
 commercial manager for the Federal  
 Electric Light and Traction company of  
 New York, and of Manager E. C.  
 Butler of the local company.

Electric clocks and instruments of  
 all kinds will be on display. All day  
 today Mr. Reed and a corps of electricians  
 have been busy installing the  
 various articles which go to make up  
 the display and with the electric  
 signs, bunches, chandeliers and chandel-  
 iers the place will be a veritable bow-  
 er of light tomorrow evening when it  
 is opened.

All the local electric supply houses  
 and houses handling electric instru-  
 ments will have displays, as will the  
 telephone company. Electric cooking  
 devices are a special feature and a  
 demonstrator from the Westinghouse  
 company of Pittsburg, Miss Anna  
 Marshall, will demonstrate their use.  
 A paper reading has will be given  
 each day attending the show.

The display will last a week from  
 the day of opening. Displays were

**ARCHDEACON WILL  
 LECTURE ON THE  
 PASSION PLAY**

Rev. Mr. Webber at St. John's  
 Church Tonight in Famous  
 Lecture; No Admission  
 Charged.

One of the most interesting lectures  
 ever delivered in Albuquerque will  
 be given this evening at St. John's  
 Episcopal church, when Archdeacon  
 Webber, who has been conducting  
 mission services in this city for sev-  
 eral days, will lecture on the Passion  
 Play.

Archdeacon Webber needs no in-  
 troduction to the people of Albuquerque.  
 As a thinker and an orator he has  
 won high standing and anything that  
 he may have to say on any subject  
 will possess unusual interest. He has  
 made many friends during his stay  
 in the city, and the mission services  
 that he has been conducting have  
 been highly successful.

The Passion Play is a subject on  
 which Archdeacon Webber is well  
 qualified to speak. He has seen the  
 famous Biblical drama presented at  
 Oberammergau on two different occa-  
 sions, has studied the history of its  
 origin and development, and is well  
 versed in all lore pertaining to the  
 subject. It is safe to say that the  
 lecture will be an able and scholarly  
 effort of special interest to the many  
 who have read of this world famous  
 event which takes place only once in  
 a decade.

No admission will be charged. The  
 lecture will begin at 7:30 this evening  
 and a large audience will doubtless be  
 present to hear the distinguished lec-  
 turer.

colving with genuine enthusiasm

 Sherman has secured for their en-  
 tertainment this week. The vaudeville  
 feature of the program is a sprightly  
 comedy skit presented by the Two  
 Joers, a dainty soubrette and a Ger-  
 man dialect comedian who is giving  
 a revelation to those who know good  
 dialect work when they hear it. The  
 Two Joers also have a couple of catchy  
 songs while the moving pictures  
 shown are unusually interesting and  
 entertaining.

**'THE TWO NEWSIES'  
 AT PASTIME**

Picturesque and Lively Vau-  
 deville Act and Good Pic-  
 tures Are Features of  
 Strong, New Bill.

That the management of the popu-  
 lar Pastime theater proposes to pro-  
 vide only genuinely high class vau-  
 deville for its patrons is attested by  
 the unusual excellence of the variety  
 act which heads the bill tonight. The  
 performers are Kraft and Myrtle, a  
 team which has won great favor in  
 California. This clever pair are pre-  
 senting a unique and most attractive  
 little sketch called "The Two News-  
 ies," which is pleasantly interrupt-  
 ed every few minutes with singing  
 and dancing stunts.

The feature picture tonight will be  
 "The Sealed Confession," which com-  
 bines a strong love interest with the  
 interesting operations of an aristo-  
 cratic thief.

**COUNCIL RESCINDS  
 CEMETERY ACTION  
 AFTER HEARING**

City Fathers Play Odd and  
 Even With Plan of Local  
 People to Establish Burial  
 Place South of Town.

Heeding the prayer of a number of  
 residents of the south highlands, the  
 city council of Albuquerque last night  
 refused to ratify its former action in  
 granting permission to promoters,  
 necessary to establish a new cemetery.  
 The promoters of the proposed bury-  
 ing ground asked authority to estab-  
 lish a city of the dead some few blocks  
 south of the city limits. This permis-  
 sion was granted by the council some  
 weeks ago. Objections being made by  
 near residents, the council last night  
 rescinded its former action. This  
 means that the cemetery will not be  
 established as proposed. When the  
 location of the cemetery promoters  
 was first presented to the council, it  
 was referred to the board of health,  
 which approved it.

There was a large number of resi-  
 dents from the southern portion of  
 the highlands, the section most affect-  
 ed and which made the protest, pres-  
 ent last night, and added their moral  
 support to a speech made in their  
 behalf by Attorney H. B. Cornell.

Mr. Cornell made a lengthy address,  
 basing his opposition to the establish-  
 ment of the cemetery on the grounds  
 that it would depreciate the value of  
 the surrounding land, and would be a  
 menace to the health of near resi-  
 dents. He also said the water from  
 decomposing bodies would contaminate  
 the wells of people lower down the  
 hill.

A report from the fire committee  
 was made, saying that the new alarm  
 system had been installed and was  
 working well, and recommending that  
 the contract price, \$2745 be paid to  
 the representative of the company in  
 town.

The recommendation was accepted,  
 the fire alarm system was formally ac-  
 cepted by the city, and a warrant for  
 that sum ordered drawn.

Mayor J. W. Elder entered, as re-  
 quired at a previous meeting, his re-  
 sponse for not signing the paving con-  
 tract. By general consent, it was  
 agreed that these should be read to  
 the council at the next meeting.

The mayor's statement follows:  
 Gentlemen of the council:  
 Some reasons for refusing to sign  
 the paving contract are as follows:  
 The right of the mayor to have an  
 attorney has been ignored since I  
 have been in office. Consequently I  
 have been without advice as to the  
 legality of the various steps taken in  
 the legislation on paving. I have also  
 been without advice on a number of  
 questions which arise in connection  
 with such a contract. For instance:  
 1st. As to the validity of the law  
 of 1902.  
 2nd. As to the contract itself. It  
 is a lengthy document and involves a  
 number of points.  
 3rd. As to the bonds offered—to  
 know just what security is given, and  
 just what is guaranteed.  
 4th. As to the company receiving  
 the bid. It would be desirable to  
 know a number of things, among  
 them to know where and upon whom  
 service, which would be effective,  
 could be made.

Whether the mayor is signing a con-  
 tract, thereby making it effective and  
 putting it into force, assumes a full  
 share of the responsibility, or whether,  
 in signing the contract, he does so  
 with absolutely no responsibility, and  
 whether this duty can be delegated to  
 another, and whether a contract signed  
 by another so delegated, is a legal  
 binding document, to the terms of  
 which the party of the other part can  
 be held to a strict observance, are  
 questions which I cannot answer, and  
 I will not spend money to have them  
 answered by the courts.

So not knowing whether the law  
 under which the work is being under-  
 taken has been repealed by the law of  
 1909 or not, not knowing what the  
 contract contains, not knowing what se-  
 curity is given the city for the proper  
 fulfillment of the contract, and not  
 knowing what responsibility the mayor  
 assumes in signing a contract, I have  
 refused to sign the contract between  
 the city of Albuquerque and the Texas  
 Bitulithic company.

J. W. ELDER,  
 Mayor.

**An Innovation in Oil Heaters**

The Perfection Smokeless Oil Heater, with its  
 drums enameled in turquoise, is an ornament to any  
 room, whether in the country or city home.

No home is quite complete without a Perfection Oil  
 Heater. It is a necessity in the fall and spring, when it is too  
 warm to start the regular heating apparatus, and too cool to be  
 without heat. In the midst of winter it is often convenient as  
 an auxiliary heater, as there are always some cold corners  
 in a house.

The enameled heater always presents a nice appearance, as the  
 enamel will not tarnish or burn off. It is not an "enamel paint," but it  
 is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating  
 device you can find. An automatically-locking flame spreader prevents  
 turning the wick high enough to smoke.
