Saved by Lydia E. Pinkham's Vegetable Compound.

Swarthmore, Penn.—"For fifteen years I suffered untold agony, and for one period of nearly two years I had hemorrhages and the doctors told me I would have to undergo an operation, but I began taking Lydia E. Pinkham's Vegetable Compound and am in good health now. I am all over the Change of Life and cannot praise your Vegetable Compound too highly. Every woman should take it at that time. I recommend it to both old and young for female troubles."—Mrs. EMILY SUMMERSGILL, Swarthmore, Pa.

EUROPE TO DECIDE FATE OF CONSTANTINOPLE Paris, Nov. 7.—The Balkan allies will ask for the partition of European

Turkey, leaving the fate of Constantinople to the decision of the European powers, according to Premier Pachitch of Serbia in an interview today with the correspondent of the Temps in Belgrade. The Serbian statesman continued: "Serbia wants the ports of St. Giovanni Di Medua, Alessio and Durasso on the Adriatic sea, which Serbia possessed in the middle ages, and by which she was territorially related to the rest of Europe. Serbia, M. Pachitch said, had not received any proposal from Austria, but assuming that Austria has no territorial designs, Serbia is quite willing to favor economic and commercial expansion for Austria. The premier concluded by saying that the Balkan allies desired Turkey to treat directly with them concerning peace and not through the powers.

FIGHTING RENEWED IN SOUTHERN MEXICO

Bloody Conflict Raging in Vicinity of Cuernavaca; Bullets Falling in Streets of the Town; Both Sides Lose Heavily.

(By Leased Wire to Evening Herald) Mexico City, Nov. 7.—Fighting between the federals under General Blanquet and Zapatistas, led by General Genevoso De Lao was renewed at 2 o'clock last night, to the south of Cuernavaca, after the rebels had been signally routed in the La Trincera hills, to the north of the city, earlier in the day.

When darkness started the combat bullets from rebel guns were falling almost in the outskirts of Cuernavaca. The federals, commanded by General Anacleto who had been hard pressed by the rebels in the earlier fighting were reinforced by a train from the north with artillery, and by General Blanquet, who made a hard cross-country march with infantry. It is expected at the war department here that General Blanquet will be able to repulse the insurgents.

LIVELY SCRAMBLE FOR PIE COUNTER NOW ON AMONG DEMOCRATS

Numerous Patriots Casting Covetous Optics Upon the Albuquerque Postmastership and U. S. Marshal's Job.

BELIEVE VICTOR OUGHT TO HAVE THE SPOILS

The election returns showing the victory of Wilson were not fairly out of the wire in Albuquerque before there began a most active and busy scramble for the vacant seats at the official pie counter and hearburnings have already commenced to develop among the Democratic patriots who have been active in the Democratic campaign from a sense of civic duty and from principle alone.

The Albuquerque postmastership is regarded as first prize for the faithful and the applicants are numerous and anxious. Among those chiefly active in the jostle for this particular plum are Alphonse Fleischer, whose inactivity in the campaign just past is said to have been due to the kind but negative Mr. Fleischer received from some of the powers that be when he announced his desire to officiate as postmaster.

Other candidates for the place are said to include Judge William W. McClellan and Joe Richards, while others are tentative or receptive candidates for the position.

Mr. Hopkins is generally recognized as one of the ablest and most efficient federal employees in the south west, and a movement to favor someone else at the time of the last political shuffle this year disappeared in view of the strong popular demand for his retention. The movement to keep the postoffice out of politics, so ably forwarded by President Taft, has grown in New Mexico as elsewhere among the masses of the people, and any attempt to sacrifice efficiency in the local office for political purposes is likely to be viewed with the gravest disapproval by patrons of the office and the people who want public service and not politics.

There are also a number of ambitious applicants for the position of United States marshal, to which job Secundino Romero was appointed some months ago by President Taft. It is understood the only man in this city who has publicly announced his candidacy for the position is Fred P. Kahn.

MR. FERGUSON'S MAJORITY AT ABOUT 3,500

Electors Generally Running a Thousand Behind Congressional Candidate Throughout the State.

AMENDMENT CARRIES BY DECISIVE MAJORITY

Santa Fe, Nov. 7.—The election of H. B. Ferguson as congressman from New Mexico is assured by at least 2,500 majority and possibly more, according to the figures in possession of state secretary Karl Green of the Democratic organization this afternoon. This is based on official returns from 139 out of the 519 precincts in the state and on scattering, incomplete and unofficial returns from other sections. The 139 precincts give Ferguson 7,100; Jaffa, 4,400; De Baca, 2,400.

Returns available indicate that in spite of the 1,000 adverse majority in Chavez county the constitutional amendment removing the language qualification will carry by an overwhelming majority while the 1909-1900 good roads bond issue will barely scrape through, although a safe majority for the bonds is believed to be certain.

Secretary Herbert W. Clark at republican headquarters does not concede the election as yet and will not do so until the complete official returns are at hand from all counties, believing that the final result will be very close.

In San Miguel county twenty out of fifty-three precincts give Jaffa, 1,000; Ferguson, 855, and De Baca 125. In Rio Arriba county, fifteen out of thirty-four precincts give a majority of 205 for Jaffa.

Taos county will be so close that it will take the returns from the last precinct to show who is the winner, the democrats claiming it will go for Ferguson by fifty majority.

Mojo and Colfax are claimed for Ferguson by small majorities, with Ferguson running about 100 behind the electors. Grant county is claimed by the democrats by 500, the republicans asserting it will be less than two hundred, while Ferguson, according to the democratic estimate will have 400 to 500 majority over the electors, which is also disputed by the republicans.

General reports show that the democratic position is generally run about 1,000 behind Mr. Ferguson in the state at large.

By tomorrow it is expected to have the final returns from fully half of the precincts. The republicans hold out that with official returns in from only one third of the precincts in the state it is too early to afford the democrats any basis for the claim of 3,500 and that complete returns may put a different aspect on the result.

ROOSEVELT CARRIES THIS COUNTY BY TWO HUNDRED. Complete returns, including those which arrived today from the mountain precincts show that Roosevelt carried Bertrillo county by a majority of slightly over 200, while the results otherwise are not affected.

VICTORY OR DEFEAT RINGS DISORDER SAYS JORDAN

Horrors of War Graphically Depicted By Noted Peace Advocate Before Large Audience Last Night.

No war can bring financial, social or political gain to any nation. Victory or defeat alike bring disorder, confusion, debt and bankruptcy. An armed peace, by which nations are supposed to be frightened into acquiescence, is in the long run likely to be ruinous. Though war has ceased, its cost still goes on.

so declared Dr. David Starr Jordan, president of Deland Stanford university of California, to a large audience in the Elks' theater last night. The distinguished advocate for peace spoke on the occasion of the formal opening of the twenty-seventh annual meeting of the New Mexico Educational association. Dr. Jordan's audience was an intelligent one, his speech was greatly appreciated. In a low voice of remarkable clearness, the words of the speaker penetrated with ease every part of the theater, introduced by Hiram Hadley of Mesilla Park. Dr. Jordan at once began his speech, reviewing the history of wars of ancient and modern times, and quoting figures to prove the astounding cost in dollars and cents of the battles that had changed the maps of the old and the new worlds. Taking up the cost of war in lives, Dr. Jordan declared:

"Those who fall in war are the young men of the nations, men between the ages of 18 and 45; they are the men of courage, alertness, dash and recklessness, who value their lives as much in the service of the nation. The men who are left are, for better and for worse, the reversed of all this, and it is they who determine what the future of the nation shall be. They hold its history in their grasp."

Describing the trail of death left by the wars in Europe, Dr. Jordan discussed briefly wars in America, referring to the Civil war, Dr. Jordan said in part:

"It cost us \$50,000 lives of young men to get rid of slavery," he said. "I saw not long ago in Maryland 150 acres of these young men. There are some 12,000 acres filled with them on the fields of the south. And this number, almost a million, north and south, was the best that the nation could bring. North and south, the nation was impoverished by the loss. The gaps they left are filled to all appearances. There are relatively few of us left today in whose hearts the scars of forty years ago are still unhealed. But a new generation has grown up of men and women born since the war. They have taken the nation's problems into their hands; but their hands are not so strong or so clean as though the men that are, stood shoulder to shoulder with the men that died in 'the weary time' had better stuff in them than the father of the average man of today. Through all time war has told the same story."

Bringing his remarks to a close, Dr. Jordan said:

"Supplies once said, two thousand years ago: 'War does not of choice destroy bad men, but good men ever.'"

"Schiller said: 'Der Krieg Verschlingt die Heisten' (War devours the best)."

"An old French proverb says the same: 'Ce sont toujours les memes, qui se font tuer.' They are always the same who get themselves killed. The same motive, the same lesson, lasts through all ages, and it finds new expression in the words of the wisest men of our early national history, Benjamin Franklin, 'Wars are not paid for in war time; the bill comes later.'"

At the conclusion of his address, Dr. Jordan was tendered great applause by the audience, which had thoroughly enjoyed the efforts of the distinguished guest of the association.

Preceding the address, glee clubs from Santa Fe, Tucuman and Las Vegas rendered pleasing selections.
