TWENTY CARS START IN EL PASO-PHOENIX ENDURANCE RUN

Motor Drivers Are Expected to Reach Phoenix on Wednesday Afternoon According to the Experts.

WILL BE FIRST BIG DRIVE ACROSS THE DESERT

Phoenix, Ariz., Nov. 4.—(City Edition) A big drive of twenty motor cars started this morning in the first annual El Paso-Phoenix road race, over 517 miles of desert roads. The first car left El Paso at 5:15 a. m. and the others are leaving at intervals of ten minutes each. The cars are expected to reach Phoenix Wednesday afternoon, and it is believed will be well above thirty miles an hour. The cars will check in at six stations along the route.

The cars and drivers starting today are:

1. Buick, Oliver Creech.
2. Buick, John Johnson.
3. Buick, John Hutchins.
4. Buick, Tony Workman.
5. Buick, J. Van Harrington.
6. Buick, M. L. Naquin.
7. Buick, M. D. Miller.
8. Buick, H. H. Clark.
9. Buick, C. H. Corbett.
10. Buick, Eddie Steffen.
11. Buick, G. G. Miller.
12. Buick, H. H. Clark.
13. Buick, C. H. Corbett.
14. Buick, P. Thompson.
15. Buick, G. G. Miller.
16. Buick, C. H. Corbett.
17. Buick, J. H. Good.
18. Buick, A. H. Auglar.
19. Buick, H. H. Clark.
20. Buick, A. C. Felix.

Oldfield's Death Proves Utrac.
 Phoenix, Ariz., Nov. 4.—A report that Harry Oldfield, one of the leaders in the Los Angeles to Phoenix race, had been killed twelve miles east of Yuma proved unfounded when Oldfield's car was reported later passing Castle Dome, forty miles this side of the scene of the supposed accident.

The report of Oldfield's death was spread when he "sideswiped" a rancher's buggy on the road east of Yuma. The rancher's horse ran away and the man was injured.

Oldfield thinks he will win. Yuma, Ariz., Nov. 4.—In the order of their arrival last night the twenty-three motor cars that started the 517-mile race from Los Angeles to Phoenix were away this morning on the last 204 miles of the journey. Oldfield was first off at 5:25 o'clock, confident that before noon he would have rounded into the finish at the Phoenix fair grounds. Charles Sunda was second. Barney Oldfield lost twenty minutes at the control but declared he would catch up. The fourth out was J. C. Rice.

Three Cars Pass Douglas. Douglas, Ariz., Nov. 4.—Three of the twenty-three cars in the El Paso to Phoenix automobile race arrived here this afternoon between 2:44 and 2:50 o'clock. John Hutchins checked in at 1:45, elapsed time, 7:45. M. L. Naquin arrived at 2:00:15; elapsed time, 7:20. J. H. Johnson was third at 2:05:00; elapsed time, 7:15.

ROUTINE MATTERS IN PROBATE COURT

Judge Burg Passes on Number of Minor Motions and Petitions and Adjourns Until Thursday.

Routine business occupied this morning's session of the probate court presided over by Judge John Hays Burg.

In the matter of the estate of Valentin Trullio the petition of Antonio de Carli, to be named executor was granted and the bond was fixed at \$500.

In the matter of the estate of E. Nunniss the final report of the administrator was approved and the administrator discharged. Similar action was taken on the final report of the administrator of the Cruz Vigil de Olguin estate.

In the estate of Amelia P. Parent the intermediate report of the administrator, Atanacio Labato, was approved.

The final report of M. S. Lihgov, administrator of the estate of Dan M. Richards, was approved and the administrator discharged.

The petition of F. A. Lawson to be appointed administrator of the estate of Amy M. Gruninger was granted and the bond fixed at \$100.

The hearing on the final report of the administrator of the estate of Elizabeth Lett was set for December 7.

The hearing on the final report of the administrator of the Fred B. Hornby estate was set for December 7, as was also the report of the guardian of Fred B. Hornby, Jr.

The will of the late Charles W. Burns was approved and Mrs. Elizabeth G. Burns was appointed administrator without bond. Claude Hutto and W. J. Johnson were appointed administrators.

The intermediate report of Ed. Doran, administrator of the estate of Mrs. Lena Doran, was approved.

The report of Maria Hoch, guardian of Rosa Hoch, et al., was approved, as was also her report as administratrix of the estate of Herman Hoch.

MAY START FIGHT ON SALOONS IN ALBUQUERQUE

Rev. J. I. Seder, Fresh From Dry San Juan County, Considering Movement Here.

Enthusiastic over the result in San Juan county where the people, by an increased majority, voted against the granting of liquor licenses, Rev. J. I. Seder, superintendent of the New Mexico anti-saloon league, returned to Albuquerque yesterday.

"The people of San Juan county," said Mr. Seder this morning, "are determined to keep their county free from saloons and bootleggers, and also, if possible, they are going to prevent the shipment of liquor into their territory. Investigation is now being made to determine whether or not the provisions of the Webb bill, the federal law designed to prevent the shipment of liquor into dry states, can not be made to cover smaller units such as counties."

Asked concerning the intentions of the league with reference to starting an agitation to abolish the saloons in this county, Mr. Seder said the matter was now being seriously considered and it was quite possible that petitions would soon be circulated asking the city council and the county commissioners to submit the question of license or no license to the people of both city and county as provided for in the existing local option laws.

"If it is possible," said Mr. Seder, "we aim to have the election for the city and county held on the same day, but there is some doubt of our ability to do this since local option for cities is covered by a different statute from that which applies to rural communities."

MAYOR PROPOSES TO BUILD WATERWORKS SYSTEM

Sellers in Vigorous Address to Council Advocates Issue of \$750,000 Bonds to Carry Out Project.

ALDERMEN READY TO CONSIDER PROPOSITION
Committee Named to Confer With Water Company Regarding Possible Placing of Price on Existing Property.

Mayor D. K. B. Sellers sprung a new and somewhat startling program on the city council last night when, in a vigorous address, he proposed that the city lease its water rights for the construction of a municipal water plant, the purchase of the present plant, or any reasonable and business-like solution which can be reached in fairness in the taxpayers and the Water Supply company.

The mayor's statement followed a presentation of the claims of Highland people asking for the planting of trees in the park, made by Mrs. Harold Pierce, a lawyer representing Highland Park people and others directly interested in the improvement of that section of the city.

The council, while it did not take affirmative action in favor of municipal ownership or construction of a water plant, favored the program proposed by the mayor and appointed a committee of Alderman Clarke, Mr. Sellers named a committee composed of Aldermen Scher, Skinner and Clarke, to interview the Water Supply company and ascertain whether or not it desired to sell its plant and at what price.

Water Supply Company Makes No Statement.
 Mr. A. B. McMillen, president of the Water Supply company, declined to make any statement today regarding the mayor's statement or the action of the council.

"I have nothing to say," said Mr. McMillen. "This is a business proposition and we are prepared at any time to entertain a business proposition. But I have had no meeting with the council committee and pending such a meeting know nothing about the situation."

Mayor Sellers has had in mind for some time the proposal for a municipal plant and last night, evidently with the approval of a majority of the members of the council he sprung his plan. Every yard of completed paving here has cost the Water Supply company money, says the mayor, although he did not say it last night. The mayor has no idea of what the existing plant will cost. He knows that large sums of money are invested in it and that considerable sums are being invested right along.

But Mr. Sellers has the theory that since the present franchise is to expire in about six years the city should be fully informed of the situation, will do well to acquire the water plant at this time, or construct its own plant, as best business policy demands, that the town owning its own water plant is going to be able to proceed more rapidly than any city can hope for from a privately owned plant.

Mr. W. E. Metcalf seconded the mayor in his address, stating that he had advocated warmly the purchase of the present Water Supply company's plant when its purchase was proposed some years ago.

The mayor today said that he had no desire to bring about any immediate agitation of the matter, but that he believed the purchase of the water plant or the construction of a new one would result in far reaching development, not only in the city but in its environs.

"Municipal ownership of our water system," said the mayor this morning, "means not only everything that I had occasion to say concerning it last night, but it means the development of our mesa lands, an extension of our municipal development, which can be accomplished in no other way."

"There is not a one of us in the city government who has any fault to find with the local water works. The company has been managed admirably and has furnished us a system that is about perfect. But the franchise of the company is to expire in a short time and it should be prepared to proceed on the basis of municipal ownership."

The council last night apparently was prepared to carry out the mayor's program for an inquiry as to whether or not the present water plant may be purchased and at what price.

MOTOR ENDURANCE RUN BIG THING FOR THIS CITY

Not Too Early to Begin Planning for Another, Is Sentiment Among Gasoline Enthusiastic Boosters

The newspaper dispatches are full this week of news of the great automobile races from Los Angeles to Phoenix, and El Paso to Phoenix, the El Paso and Los Angeles papers devoting whole sections to the big endurance events. The vast amount of advertising the cities concerned are getting out of the gasoline dashes across the desert recall the great El Paso-Albuquerque endurance run entered by a large number of fast cars which did not occur during the state fair.

"I believe it would have been a great deal more exciting than the state fair," said Mayor Sellers in discussing the general proposition of auto road races today. "In fact, I believe you will admit it started with a bang; the El Paso newspapers and motorists were enthusiastic in boosting it and we had every chance in the world to pull off a big successful run. But these things don't go on of their own momentum; the race came to an end before it got off the front pages of the newspapers simply for lack of a concerted local effort to follow the matter up and see it through."

I believe it would have been a great stunt, the greatest of the fair; and I still believe such a race can be put on. Once get in the game and Albuquerque, like Phoenix, can become the official terminus of annual road races from El Paso, from Denver or Trinidad, from Clovis or Roswell and points west. But these things don't happen of themselves without determined and persistent boosting and real work."

There are now nearly 2,000 autos in New Mexico according to the registration list of the secretary of state. Albuquerque has some 300, is believed; El Paso is full of auto enthusiasts and there is no reason why the present El Paso race should be going to Phoenix rather than Albuquerque, except that Albuquerque didn't rise up on her hind legs and out it over the pages of the newspapers and scientific boosters believe we should begin at once plans for an endurance run to Albuquerque and plan to make it stick.

MORTUARY.
Funeral of T. J. Shinkle.
 This morning from the Immaculate Conception church was held the funeral of the late T. J. Shinkle, one of the pioneer residents of Albuquerque. Solemn requiem mass was celebrated by the Rev. Father Mandulak, S. J.

The pall bearers, all intimately acquainted with Mr. Shinkle in early days, were E. M. Ballard, J. W. Palmer, Emil Mann, W. T. McLaughlin, T. M. Delahoyd and E. J. Alvarez.

The services in the church and followed the body to the grave in the family plot in Santa Barbara cemetery.

FAMILY AVOIDS SERIOUS SICKNESS
By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whittaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get it package to-day. N. C. 124

COLORADO GUARD IS NOT FIGHTING TYPHOID

All the Brave Boys Marching About Trinidad Now Must Be Inoculated Against the Berc.

VERY LITTLE ELSE IN MILITARY ACTIVITY

(By Lensed Wire to Evening Herald.)
 Trinidad, Colo., Nov. 4.—The general order to inoculate every member of the Colorado National guard to render them immune to typhoid fever was put into effect today.

Several companies have been composed to the district at the Ludlow tent colonies, where five camps have developed within the past few days. No soldiers have been stricken. The task of inoculating the soldiers began at noon and the remainder of the day will be occupied in the work.

The sanitary measures have caused a temporary cessation in the work of disarming the strikers and the deputies of the district.

It is stated that more rifles have been placed in possession of John H. Lawson to be turned over to the troops.

Lewis King, a negro striker, was placed under arrest this morning charged with the shooting of the two children of Frank C. Wootton on October 25, at Tabasco. King is also charged with having shot a deputy near the camp on the day following.

C. E. Seeborn of Denver, representing the Brotherhood of Locomotive Firemen and Engineers, conferred here today with J. D. Welch, general superintendent of the Colorado and Southern and J. H. Abrams, division superintendent, over the recent discharge of the train crew who refused to leave here for Berwind and Tolson with a special train carrying mine deputies. The train was finally taken out alone by the guards but was stopped by strikers near Ludlow.

It is understood that the trainmen contend that they refused to go because of the danger while the railroad officials declare that no protest as is required was made and that it was a plain case of insubordination. Late this afternoon the conference was still in session and efforts to secure statements were unsuccessful.

SOCIALIST LEADER SAYS COLORADO STRIKE IS JUSTIFIED
 St. Louis, Mo., Nov. 4.—"The laboring class of America is more downtrodden than that of Germany," such was the message delivered to eleven hundred at Louisiana by Philip Scheidtmann, Socialist leader and first vice president of the German Reichstag in an address here last night.

He referred to the trouble in the Colorado mining district and declared the strikers were justified in resorting to violence because of their treatment at the hands of capitalists and the militia.

"Wage slaves will be slaves only until they will wake up and count themselves," he said; "when they discover they outnumber the capitalists 99 to 1 they will be slaves no longer."

A year ago when the war fever was at its height in Europe, Scheidtmann was a guest of Germany to the French Socialists.

PUT ONE OVER ON THE COLORED AND WHITE BREAKERS
 Colorado, Nov. 4.—Two striking coal miners who represented themselves as strike breakers, rode from Denver almost to Lovellville last night in the automobile operated by the company owning the Hecla mine. When near the Hecla mine they held up the automobile and robbed three genuine strike breakers who had been their fellow passengers. Then they attacked the mine guard at the Hecla mine and escaped.

"LENTZ" TABLES

from their very make-up, are apart in style from other pieces of a dining room suite, and "Lentz" patterns are so comprehensive that they can be matched successfully with

the majority of modern dining furniture. The line is midway between the cheap and the high priced. Never buy your dining table until you have seen "Lentz."

STRONG BROS.
 SECOND AND COPPER.

CITY IS VERY SHORT OF READY MONEY

Council Instructs All Departments to Shut Off All Kinds of Unusual Expense for Three Months.

The taxation situation in New Mexico was somewhat vividly illustrated in the city council of Albuquerque when the mayor, by advice of the council, instructed all departments to cut off every extraordinary expense.

"The city will be able to meet its current bills, but it will hardly be able to meet any new obligations for some time to come. Nine new electric arc lights were ordered, upon a report of Alderman Scher. A number of city official reports were presented, being largely in the nature of routine."

The estimate of the city school board, as to the taxation needs, was approved, and a bill was ordered purchased for the traffic officer at Second and Central.

A large volume of routine business was transacted.

The HERALD want Ad gets the best results.
