TRAVELING AUDITOR COUNTS CELLS IN LAS VEGAS JAIL

San Miguel Sheriff Demonstrates How Bastille Can Hold More Prisoners Than It Has Cells.

Las Vegas, N. M., Nov. 26.—Traveling Auditor Howell Earnest, who is here as a witness before the grand jury investigating affairs in San Miguel county offices, was yesterday afternoon taken through the county jail. An accommodating jailer, by means of elaborate stratagems, demonstrated to Mr. Earnest how it was possible that the jail could hold more prisoners than there were cells in the institution. In his report to the governor the traveling auditor intimated that the sheriff had overcharged the county when he reported thirteen prisoners in a jail only intended for twelve. Mr. Earnest left the institution convinced that it was possible that a cell might be made to hold two prisoners and that it was the custom not to lock petty offenders in cells but to allow them the liberty of the common room of the jail. Mr. Earnest declined to make any statement concerning the purpose of his being called before the grand jury.

He was employed by the Santa Fe as a freight brakeman.

is practically settled that there will be an open season to which the friends of the organization will be invited and a private one for the members alone. There will also be a banquet and a series of meals from older men. One member of each year's class will give a resume of the history of the year following his initiation. The committee is hard at work on the other features of the event. Fraternity men, members of the local chapter, will likely be here for the celebration from points as far distant as New York and Oregon. An effort will be made to have some prominent figure in the New Mexico Pan-Hellenic association address the fraternity and its guests at the open session.

AMONG THE FARMERS. CARLSBAD PROJECT SPLENDID COTTON COUNTRY

Francis G. Tracy Proves It with Crop; Sells 30,000 Boxes of Peaches to New Yorkers.

COLFAX GRAIN AND HAY CROPS LARGE

(Special Correspondence to the Herald) Carlsbad, N. M., Nov. 26.—Francis G. Tracy, who has been a witness at Carlsbad in the investigation of rates before the Interstate Commerce commission, is well pleased with the progress made. Mr. Tracy is also pleased with other things. "I have just received returns from 23 bales of cotton sent to W. E. Cleveland company, cotton brokers at Houston, Texas," said Mr. Tracy. "Four bales classed as middling, six bales as strict middling and 14 bales as good middling. Any one who knows anything about classification of cotton will see that this is a mighty good send off for the Carlsbad project as a cotton country. "I have the figures on the contract just closed and filed with New York fruit men for my peaches. I had about 52 cases of peaches and delivered on the cars here something over 120,000 peaches at 55 cents per box. These, of course, were peaches of not less than 108 to the box, many of them were twice that big. I sold the other peaches to the local trade and am very well satisfied with my year's peach work."

BIG HAY AND GRAIN CROPS IN COLFAX

The grain and hay crops from French, Sprinker, Cimarron, Moreno, Valley, Rayado, Miami and all other communities of this county are reported as away above the average and with the prevailing good markets there should not be a farmer or rancher in that country who is not contented with his lot. The great orchards, bearing and coming into bearing here, suggesting to the world that Colfax county is the orchard country to reckon with. The Geo. H. Webster orchard, the M. M. Chase orchard, the Capt. Wm. French orchard, the Hagadorn orchard, all near Cimarron have certainly demonstrated what is possible here as to a future fruit country. Not an orchard failure in the county, with thousands of acres of young orchards coming into maturity. It gives this newspaper great pleasure to chronicle the reports from these districts. Conservation of our water, which only recently has become a work in earnest, is transforming thousands of acres of raw prairie land into luxuriant fields of alfalfa, wheat, oats, timothy and young orchards. The change is becoming very noticeable and but few years will elapse when Colfax county will know a new order of things agriculturally.
