HUNDRED THOUSAND TO FIGHT BOOZE AMONG INDIANS

Indian Commissioner Sells Issues Statement Regarding Last Indian Appropriation Bill and What it will Accomplish.

Washington, D. C., Aug. 10.—Cato Sells, commissioner of Indian affairs, today made the following statement concerning the Indian appropriation bill just passed by congress, which carries appropriations amounting to about \$11,580,000, \$1,500,000 of this amount being appropriated from Indian funds:

rights of the Indians of the country. There is included in the bill an appropriation of \$25,000 to cover salaries and expenses of probate attorneys under the direction of the commissioner in the working out of probate reforms for the protection of the property of Indian children in Oklahoma, which will be done in harmony with rules of probate procedure adopted at a conference of the county judges with the commissioner of Indian affairs held in January and recently adopted and promulgated by the justices of the supreme court.

The bill also carries \$100,000 to support a widespread and aggressive campaign for the suppression of the liquor traffic among Indians. The bill gives the commissioner six confidential inspectors with special civil service qualifications. It is expected that this appropriation will result in thorough investigations being made on Indian reservations and throughout the Indian country generally that he may be advised of the actual conditions as a basis for their effective reform.

The bill provides for the consolidation of the offices of the five civilized tribes and the union agency and with it a reduction of \$50,000 over previous years in the expense of conducting these two branches of the Indian service.

Another question which has been in dispute for a number of years is settled by providing for allotting the remaining unallotted Indians on the Bad River reservation and the distribution per capita of the remaining tribal timber to the unallotted Indians. Out of the funds of the confederated bands of the Indians in Utah and Colorado this bill appropriates about \$800,000, \$100,000 for the purchase of stock for the Navajo Springs band of said Indians in Colorado, \$200,000 for the Utah, White River and Uncompagne bands in Utah and the balance to be expended among all of said Indians for the promotion of civilization and self-support among them, one of the chief purposes of which is to protect the water rights of the Indians from being forfeited within the period fixed by law, and all of which is to give them much needed help in industrial progress.

The Markets

Chicago Grain. Chicago, Aug. 11.—Wheat prices broke quickly today under a rush of selling orders by commission houses. Liverpool dispatches said that local crops were sufficient for present needs. After opening 3-1/2 to 20 lower, prices here suffered a moderate further decline. The close was weak at 21-1/2 to 21-1/4 net decline. Rains eased the corn market. The opening, which ranged from 11-1/2 to 12-1/2, was followed by a decided setback all around. Corn close unsettled, 7-1/2 down to 7-1/4 like amount compared with last

On the recommendation of the Indian bureau large reimbursable appropriations have been provided in this bill for industrial work among Indians. These reimbursable appropriations will amount to more than \$200,000. The Indians have heretofore been obtaining land but they have not been provided with tools and general farm equipment. This appropriation will enable the commissioner of Indian affairs to improve stock conditions and place herds of cattle on a number of Indian reservations. It is expected that this appropriation will aid very materially the industrial activities among the Indians of the country and go far towards developing their self-reliance. This bill carried a somewhat reduced amount for irrigation work on Indian reservations and contains a clause which will require detailed information regarding each of these projects to be furnished congress at its next session. The Indian irrigation projects have heretofore been appropriated for and constructed largely without adequate detailed information and it is expected at the next session of congress that the Indian office will furnish a complete statement regarding each of these projects so that congress may have a thorough understanding of conditions on each of the reservations where irrigation projects are being constructed. It is also expected that the information obtained from these reports will result in providing administrative and legislative action which will protect more securely the water
