GOVERNOR KEEPS A STRICT SILENCE ABOUT NEW LAW

Executive Spends Sunday in Office Surrounded by Piles of Bills But No Word Seeps Through Rewarding Actions

Santa Fe, N. M., March 14.—Although Governor McDonald spent the larger part of Sunday in the executive office surrounded by piles of bills passed during the last three days of the legislative session, and although many of these have been read by the governor, no announcement was made yesterday or this morning as to what of the legislation is to be approved and what is to be relegated to the files of matter that failed of the executive approval. The governor, under the constitution, has six days from the termination of the session, or until the evening of Thursday to approve a bill, thus making it into a law, or to simply force it, place it in the official waste basket, or in the capitol furnace.

Little progress, likewise, was made in determining the status of the legislation passed during Saturday and Friday afternoon, following the expiration of the statutory time for the legislative session. It was understood that the senate record was being rewritten, under motions made late in the session Saturday morning, so as to eliminate all reference to the constitution of the fifty-ninth legislative day, and to make all action taken on Saturday noon, show in the record as part of the sixtieth constitutional legislative day. It is urged that courts have never gone behind the record of the legislative houses in determining the constitutionality or validity of legislation and that they will not do so in this case. The effort to stretch the session by calendar days was abandoned Saturday morning, due to the evident complications arising. This morning Governor McDonald had not read the appropriation bill. He indicated that his action on some items might be influenced by what he found when he had figured the totals and the probable income of the state to be realized and which can be realized to meet the appropriations.

JOSHUA SIMPKINS COMPANY CARRIES ITS OWN SCENERY

The "Joshua Simpkins" company, carrying their own special scenery, a band of music and the orchestra, will produce the great pastoral comedy drama of that name at the Crystal theater Thursday, March 18. The piece deals with country life and people, three acts of the play being laid in one of the many quiet villages of Vermont. The second act (in three scenes) portrays Uncle Joshua's first visit to Washington city. In the third act a sensational scandal effect is shown, being nothing more or less than a complete sawmill in full operation, cutting up genuine timber. The saw is a genuine buzz or circular saw, and cuts up real timber at lightning speed.

"TIZ" FOR TIRED SORE, ACHING FEET

Ah! what relief. No more tired feet; no more burning feet, swollen, bad smelling, sweaty feet. No more pain in corns, calluses or bunions. No matter what ails your feet, or what under the sun you've tried without getting relief, just use "TIZ." "TIZ" draws out all the poisonous, irritating elements which puff up the feet; "TIZ" is magical; "TIZ" is grand; "TIZ" will cure your foot troubles so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never, never hurt or get sore, swollen or tired. Get a 25 cent box at any drug or department store, and get relief.

LOAN BROKERS ARE STRUCK SEVERE BLOW BY LAW

One of Legislature's Last Acts Said to Put Healthy Crimp in Thriving Business of Charging 12 Percent.

(State Capital Bureau of Evening Herald, 51 De Vargas Hotel.) Santa Fe, N. M., March 14.—Senate Bill No. 82, amending Section 1 of Chapter 31 of the laws of 1912, relating to commissions which may be charged by money lenders in New Mexico, which finally passed the senate on the last day of the session, as amended by the house is said to be one of the severest blows that has ever been dealt to money lenders, in southern and eastern New Mexico especially, who have been reaping great profits from negotiating loans upon the dry farm lands, where they charged at the rate of twelve per cent per annum for money lent upon mortgages which were negotiated to eastern brokers at seven and eight per cent per annum. The law of 1912, it was thought would entirely curb the exorbitant charges of these money lenders, but it was thought necessary to make an amendment which prohibits the calculating of interest for more than one year. The following is the bill as finally passed, with amendments.

Section 1. That Section 1 of Chapter 31 of the laws of 1912 be amended to read as follows: "Section 1. That for negotiating or securing any loan, no person, association of persons, or corporation shall in any manner whatsoever, charge, collect or receive in excess of the following amounts: Upon any loan not exceeding five hundred dollars, four per cent; upon any loan exceeding five hundred dollars, four per cent upon the first five hundred and three per cent upon the remainder; upon any loan exceeding two thousand dollars, four per cent upon the first one thousand dollars, and two per cent upon the remainder. Provided, however, that the rate herein specified shall be calculated upon the total amount of the loan so made, regardless of the time said loan may run, and no commission shall be collected upon any renewal of said loan, or any extension of time secured or granted for the payment thereof." Provided, however, that the provisions of this act shall not apply to loans made where the interest (together with the commissions, or charges, whether as brokerage or otherwise, shall not exceed the sum of ten per cent in any one year.

INDIAN CONFESSES TO MURDER OF MEDICINE MAN

"Doctor Jack" Opened Veins of His Children to Let Out Evil Spirits, So Charlie Davis Killed Him.

Fresno, Cal., March 15.—Charlie Davis, a Digger Indian under arrest here, has confessed to having killed Doctor Jack, aged medicine man of the tribe, in the square valley on February 8 of last year to avenge the death of his two children who had been subjected to bleeding by the medicine man "to drive away evil spirits." The arteries of the children's faces with pieces of glass and they quickly bled to death. Another reason that prompted the killing, Davis said, was to prevent the medicine man from taking the lives of Davis' remaining children, his wife and of himself, all of whom were subject, he asserted, to the doctor's will. The Digger Indians, it is understood, have known of the crime for more than a year, but being in accord with the father's action, which they regarded as a manifestation of the Great Spirit, they maintained silence.

IT'S SURPRISING That So Many Albuquerque People Fail to Recognize Kidney Weakness.

Are you a bad back victim? Ruffer twinges; headaches, dizzy spells? Go to bed tired—get up tired? It's surprising how few suspect the kidneys. It's surprising how few know what to do. Kidney trouble needs kidney treatment. Doan's Kidney Pills are for the kidneys only. Have convinced Albuquerque people of their merit. Here's an Albuquerque case; Albuquerque testimony. Kidney sufferers hereabouts should read it. A. W. Bambrook, 965 E. Broadway, Albuquerque, says: "I was greatly troubled with pains in the small of my back and in my sides. The kidneys were very painful. I had often noticed Doan's Kidney Pills recommended by local people and I got a supply. At first they helped me and my kidneys were strengthened. I soon felt better in every way. Since then, whenever my kidneys have bothered me, I have used Doan's Kidney Pills and they have never failed to help me." Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Bambrook had. Foster-Milburn Co., Props., Buffalo, N. Y.

DEVELOPE ROAD BY BUILDING UP TERRITORY

Receiver R. C. Ely of New Mexico Central, Goes Back to Primal Causes in Measures for Relief of Line.

(State Capital Bureau of Evening Herald, 51 De Vargas Hotel.) Santa Fe, N. M., March 14.—Ralph C. Ely, receiver of the New Mexico Central railroad, left here yesterday afternoon for Willard, where he will meet a corps of department heads of the state agricultural college who are to make a trip through the Estancia valley with him on a farm demonstration organizing tour. In the party will be Prof. E. P. Humbert, the agronomist of the college; Mr. Hixby, of the irrigation department, the head of the domestic science department, and several others. The chief purpose of the trip is to arouse the interest of the farmers in the districts around Willard, Estancia and Moriarty and to pave the way for the coming of a farm demonstrator for Torrance county. Under the terms of the Smith-Lever agricultural extension act that the legislature has accepted, the state college will have about \$12,000 a year for additional farm demonstration work and Mr. Ely hopes to be able to secure the placing of a county demonstrator in Torrance county at once. He believes that the surest way to provide a future for the Central is to begin the development of the farm land resources along the line.

SHERIFF SEEKS FOR COWPUNCHER ON HOLDUP CHARGE

Good Old-Fashioned Stand-Up and Deliver Your Money Stunt Pulled Off at Engle Saturday Evening.

Engle, N. M., March 15.—The first of the good, old-fashioned holdups to be perpetrated in New Mexico for so many days, was sprung here Saturday night when a masked stranger invaded a bank room in one of the local establishments and proceeded to line up and go through the participants in a poker game in approved manner. He got away and the sheriff has a posse out after him at present, with a reward of \$500 for the man who brings in the artist.

The holdup made victims of several local residents who were playing poker with a stranger who had just entered in town that evening, bringing with him a roll that would command respect. Said citizens are reported to have annexed certain portions of said roll when a masked man entered with a large gun.

The players were forced by him to line up along the wall and tender contributions of money, watches, etc. All went well until the man reached Walter Thompson, who tendered his watch and reached for the gun at the same time. A struggle ensued, in which Thompson was shot through the thigh. This increased his nerve and he succeeded in taking the gun away. The masked man took a hit for the door, Thompson firing at him but missing.

CIRCUS CAN'T GET IN BECAUSE OF QUARANTINE

With an airtight quarantine raised by the state against everything that walks on four legs in the fight against the spread of foot and mouth disease, all chance of the coming of the Sells-Floto show to this city for their organization and rehearsal period has gone glimmering. There was some hope, even with the quarantine impending, that a special arrangement might be entered into between the Sells-Floto company and the state that would permit the big circus, with its army of employees and livestock to come here, but Col. D. K. B. Sellers, who has been trying to get the show here, received final word from Governor McDonald today that there wasn't a chance. The quarantine will stick without the opening of a chink through which even an underlined germ might slip through. The quarantine is a blow at some prospect for Albuquerque. The circus army would have been here four days, and not only would the company have spent a big sum in this city for feed and other supplies—it requires 1,500 meals a day for the men and women with the show alone—but the performers would have reported for the first time this season and were to have "traced" their first advances in pay here, which would have meant a lot of trade for the dry goods and furnishing stores.

Did You Ever

- STOP TO THINK THAT WHEN YOU PAY YOUR GAS BILL YOU DO NOT HAVE—
1 TO PAY THE SCAVENGER TO HAUL AWAY THE ASHES?
2 TO PAY THE STOVE MAN FOR CLEANING OUT THE SOOT FROM THE STOVE AND CHIMNEY?
3 THAT YOU DON'T HAVE TO BUY NEW GRATES AND FIRE BOX LININGS?
4 THAT YOU DON'T HAVE TO GET UP AN HOUR BEFORE BREAKFAST TO CLEAN OUT THE ASHES AND START A FIRE?
5 THAT THERE IS NO KINDLING TO BUY IN ADDITION TO THE COST OF COAL?
6 THAT A GAS STOVE IN THE KITCHEN ENABLES YOUR WIFE TO COOK THE MEALS IN GREATER COMFORT THAN IF SHE HAD A COAL STOVE AND A SERVANT?

UNION PAINTERS GO IN BUSINESS TO FIGHT BOSSES

Say They Have Been Denied Raise and Locked Out, and They Will Compete for Jobs Throughout City. Union painters and their employers came to a parting of the ways Saturday night, when the time limit set by the union for the operation of the present scale of pay came to an end. The painters served formal notice on the bosses January 7 that beginning today they wanted \$4.50 a day. A week ago last Saturday when committees called on the bosses they were told that the employers would not sign the new scale, and last Saturday the bosses informed the men that if they wouldn't work for the \$4 scale they might as well pack up their overalls. It was a virtual lockout, according to the union men. Today the union completed arrangements to go after painting, paperhanging and kindred jobs on a cooperative basis in competition with the bosses. They have advertised for business, and headquarters and office have been established at 217 1/2 South Second street. They will solicit business throughout the city and vicinity. Secretary C. D. Thomas, of the union, said this afternoon that about thirty-five journeymen and apprentices were affected by the strike, and all the chief painting firms in the city.

OIL BURNER FIREMEN WANT SAME WAGE AS IF ON COAL-BURNERS

Chicago, March 15.—A plea that firemen on oil burning locomotives should be paid no less a wage than their harder worked brethren on the coal burners was made today before the board of arbitration in the western wage case. The witness making the plea was O. W. Karn, representing the Brotherhood of Locomotive Firemen and Enginemen on the western system of the Southern Pacific railroad. "In wage conferences since 1910 the principle that pay should be based on work accomplished for the company by the firemen has been recognized," said Karn. "The introduction of labor saving devices, such as the oil burner, has nowhere resulted in a decrease in wages. Pay should be based on the amount of work done for the company, regardless of whether it was done with great effort or with comparatively less."

Eight-hour Law Too Costly.

Denver, Colo., March 15.—Governor George A. Carlson today vetoed the bill providing an eight-hour day for guards and employes at the state institutions, on the ground that it would be too expensive. It was a virtual lockout, according to the union men. Today the union completed arrangements to go after painting, paperhanging and kindred jobs on a cooperative basis in competition with the bosses. They have advertised for business, and headquarters and office have been established at 217 1/2 South Second street. They will solicit business throughout the city and vicinity. Secretary C. D. Thomas, of the union, said this afternoon that about thirty-five journeymen and apprentices were affected by the strike, and all the chief painting firms in the city.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Thickness. Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, stops scalp itching and falling hair. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. GUTIERREZ REPORTED TO HAVE SET UP A CAPITAL

Brownsville, Tex., March 15.—A report that General Eulalio Gutierrez, former provisional president of Mexico, has established a capital at Mator Arroyo, Nueva Leon, Mexico, was brought here today by Captain George J. Head, of the local Texas national guard. Head returned from the vicinity of Monterey, which is about 150 miles north of Mator Arroyo. He said Gutierrez has several of his cabinet members there and that he claims he has not resigned the provisional presidency.
