People who have recently visited the North West, say that it is an overdone and no-account country. It has had ten times as big a boom as it could stand and the result is so disastrous as to paralyze all present hope. May the good Lord protect New Mexico from a boom. We want all the progress and development possible, but no boom.

The most successful newspapers in New Mexico appear to be those that have an open reputation for black-malling. Either they suck the newspaper fund nearly dry by drawing from those who might be able to patronize a newspaper liberally all the money they can spare for the purpose, on some "hush" scheme, or else the men most interested in having good newspaper work done in and for the Territory, are careless and negligent enough of their own best interests, to allow legitimate newspaper enterprise to die a death of starvation, unrecognized and unrequited. There is no question but what the newspaper in this Territory which tries to honestly build on a basis of merit, has a hard time and often has cause to feel discouraged. It has to contend against a non-reading public, a slowly developing country, a chilling indifference on the part of many who should be first in its support, and on top of this the unenviable reputation which the whole press must bear because of the nefarious conduct of a few—and to come back to the beginning—these few the leading newspapers of the Territory. What then is there to induce honest journalism, if merit and legitimate effort are not recognized?

OBITUARY.

Ex-Governor Samuel B. Axtell died on the 6th, at the residence of his son-in-law, Charles M. Phillips, in Morristown, N. J., after a brief illness. He was born in Franklin county, Ohio, October 14, 1819, and was educated at Oberlin and Western Reserve colleges. In 1851 he went to California, and was prosecuting Attorney of Amador county in 1854. He was sent to Congress from the First Congressional district, California, in 1867, and re-elected two years later. In 1874 he was appointed by President Grant Governor of Utah Territory, and then transferred by President Hayes to New Mexico. Subsequently, in 1882, he was appointed Chief Justice of the Supreme Court of New Mexico, from which position he resigned in May, 1885. Since that time he had practised law in Santa Fe. At the time of his death he was chairman of the Territorial Republican Central Committee.

Roy Cooper, son of Mr. and Mrs. J. W. Cooper, of the upper Pecos Valley, died suddenly on Friday of last week, from brain trouble. The funeral took place from Mr. Harvey's residence in Santa Fe, Saturday morning, Rev. W. P. Olcott officiating. On Sunday the family sadly returned to their home.

If in no other way the newspaper earns its support by keeping its locality and the resources thereof always before the public. Again, no persistent reader of his surrounding local papers will go through a year without finding something worth to him more than the subscription price of each, unless he is a drone in business.

"I was wondering," she replied, "if I touched the button, would you do the rest?"

It isn't particularly more people that is needed in New Mexico. It is more money invested in a manner so that more could be supported. As it is, one half of the people in the Territory to-day are desperately hard up.
