

RUSSIA QUILTS FOR EDUCATION

(BY UNITED PRESS)

Petrograd, June 5.—Many of Russia's soldiers are so busy acquiring and education that they haven't time to fight. They are crowding the children out of the schools. In many sections they have started schools of their own. Minister of War Kerensky has had tremendous success in instilling the fight spirit in the troops actually at the front, but there are thousands of fighters who still roam about freely over Russia or else have laid down the rifle for the school book.

Here is Petrograd a Jaeger regiment today opened a "soldiers university" where fighters are taught mathematics and history. At Polecon the soldiers have usurped the desks of children in the schools. At Samara the munitions workers have felt the same yearnings for knowledge and have opened schools alongside their factories.

"Darkest Russia" is no more—and the people as a whole, now seeing the light, want knowledge to guide them in the dazzling glare of their new-found freedom.

Extraordinary efforts are being made all over the country to back up Minister Kerensky's appeals to make the soldiers fight. Notwithstanding this, all trains are crowded with uniformed men visiting their families or just wandering about.

Yesterday I witnessed the departure from Petrograd of the weekly Vladivostok express. Scores of soldiers clung to the doors, the rails—even the roofs—of the cars so desperately were they to reach their homes. I was told the sight was by no means unusual. These are the men on whom the government is now exerting every possible persuasion to make them see that the new liberty they enjoy must be fought for and won on the battlefields.

Food difficulties still give trouble. Official estimates today put the total of Russia's wheat stocks at about 200,000,000 pounds—a good supply. But there are tremendous problems in the transportation of this grain.

One other source of difficulty is the inclination of the peasants to hold their wheat among themselves and not sell it in the villages. The peasants claim in past years the villagers have over-charged them for shoes and clothes. Many instances are reported here where the farmers have refused high prices in the towns—and then given their produce freely and without charge to the soldiers. At Smoosh, Tamboff and Shamlinoff, where villagers were literally starving for lack of food, the peasants' congress now in session here finally succeeded in persuading the farmers to relent and sell their crops to the villagers.

Minister of War Kerensky today ordered establishment of a government life insurance bureau for benefit of Russia's sailors.

LAND POSTED
We desire to notify all persons that the Johnnie Weeks place, the Alexander Lookingglass farm, the Albertson Lookingglass farm, and the Albertson Norfleet farm, are posted against fishing, hunting and trapping. Any person violating this notice will be dealt with according to law.

TANOLINE IS BEAUTY AID, ANNOUNCES SPECIALIST

Mildred Louise Talk of Interest to Women

As health is a first aid to beauty this story, told by Mildred Louise beauty specialist, of Boston, Mass., is of unusual interest.

"I can recommend no better health giver than tonoline," said Mildred Louise.

"I was for many months a victim of stomach trouble and nervousness. I had suffered terribly from pains that followed eating. Headaches also would add to my worries. Poor digestion finally brought on nervousness.

"Relief came, however, when I took the advice of several women who said, 'Take tonoline.'

"Not long after I started the tonoline treatment, my patrons began to remind me of the improvement in my condition. And because health is the quickest way to beauty, the improvement was particularly noticeable in my face.

"What tonoline did for me I cannot say. I am so grateful that I am very willing to recommend tonoline publicly."

Tonoline is a purely vegetable preparation which goes to the seat of common maladies—stomach and kidney trouble, catarrhal affections of the mucous membranes, liver ailments and impurities of the blood—and quickly restores proper action. Tonoline is being explained daily to many people at E. T. WHITEHEAD & Co.

Notice:—As tonoline is a wonderful flesh builder it should not be taken by any one not wishing to increase his weight ten pounds or more. Although many reports are received from those who have been benefited by tonoline in severe cases of stomach trouble and nervous dyspepsia, chronic constipation, etc.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing, sweetening and freshening effect upon the system.

Flies Breed in Filth **Red Devil Lye Eats Filth**

Kill the Cause

Germ-carrying flies bring disease direct to your home from the privy and outhouse. They wipe their germ-laden feet on your food, bathe in the baby's milk and leave many forms of sickness—then come the doctor's bills—and you know what that means.

Flies carry on their feet filth and the germs of typhoid fever, malaria, consumption—perhaps infantile paralysis and other dread diseases.

Red Devil Lye
Destroys The Fly Eggs

SPRINKLE RED DEVIL LYE FREELY once or twice a week in your privy or outhouse. You can't use too much. It will clean up these places, remove the foul odor and stop fly-eggs from hatching.

RED DEVIL LYE is also simply wonderful for making soap, conditioning hogs and making compost for fertilizer.

ENLIST YOUR DOLLARS IN THE WAR

In this time of our country's crisis and idle dollar is as much a "slacker" as an idle man. Are your dollars doing their duty?

"The Liberty Loan of 1917" invites the immediate response of the American people. Every dollar subscribed will make it a success. The quicker the better. Armies of dollars are an absolute necessity for national defense. Unless the dollars at home stand back of them, the soldiers in the field cannot do their utmost to protect our households and our freedom.
