

**COAL ROLLING**

If you place your order for "Winifred" Coal, you are assured of the very HIGHEST QUALITY. Why take chances? "Winifred" costs no more than the us-

ual poor quality coal. In fact, you will find it much cheaper, when you deduct the amount of waste in poor quality coal from the actual weight paid for, besides a winter full of trouble, for good measure. Place your order

at once, with cash covering the order. 9-24-5t

**NOTICES TO ALL UNLICENSED COTTON GINNERS:**

There are a number of cotton ginner in the State who have not yet applied for license to operate a cotton gin during this season. Their attention is called to the fact that the last season of the legislature passed a law requiring that all ginner make application for license to the Commissioner of Agriculture and that such ginner collect for the next two years a tax of twenty-five cents per bale on all cotton ginned, remitting this tax monthly to the Department of Revenue.

The law imposes a fine of five dollars per day on all ginner who operate without securing State license. Therefore, it is directed that ginner who have not yet secured their license to operate write the Commissioner of Agriculture requesting a form of application for license, which should be filled out and forwarded immediately.

As a matter of information I desire to state that the tax referred to constitutes a fund which guarantees the integrity of the warehouse receipts issued under the State Warehouse System, and that nine-tenths of this fund will be loaned for the construction of warehouses, the individual loan not to exceed fifty per cent of the total warehouse cost. The attention of your readers is called to the benefits high they may obtain by availing themselves of the provisions of this law either in regard to the operation under it of existing warehouses or in borrowing money for the construction of new warehouses.

W. A. GRAHAM,  
 Commissioner of Agriculture.
