### RECOLLECTIONS OF SCOTLAND NECK 51 YEARS AGO

By Thomas N. Hill

Mrs. Peoples lived on her farm with her two sons, Wesley and Andrew. Andrew died in the late seventies. Wesley is still living in Eastern N. C. With the exception of Tom Fenner Wesley could make more noise than any man I ever saw, especially when he was riding a little white pony at breakneck speed through the town.

The professional men in Clarksville at this time were Dr. Stuart Hall and his son, Dr. James B. Hall, my father, a lawyer and Mr. Alex H. Smith, a lawyer; the Rev. John Norwood, Rector of the Episcopal Church who lived with us when we lived at the Luther Purrington place and when we moved to the Smith place he lived in the little Fenner cottage. Mr. Durham was the first Baptist minister I have a recollection of in Clarksville. he was succeeded by Mr. Vann, and he in turn by Dr. Huffham. The first dentist of my recollection was a red headed man named Murrell. I don't think he remained very long in Scotland Neck. Dr. Murrell was not a resident of Clarksville. He lived somewhere in Newtown, and I mention his name because I am sure a great many of the old people in S. N. have long since forgotten all about him.

There was a travelling dentist who came through the country now and then, pulling teeth and filling them, named Robinson. I remember when he pulled some teeth for my mother in 1873; of course he used nothing to deaden the pain; his instruments were clumsy; he was a very large man and not very apt with his tools; consequently when the old doctor was around you could always tell it by the cars his patients made when he was at work.

The first school I ever attended, not as a pupil, but as a visitor now and then with my brother "Caesar," was taught by Miss Mary Davenport. Her school room was one of the front rooms in Mr. Fenner's house. I do not remember much about the boys and girls who went to Miss Mary, nor about her except I thought she was very pretty. She not only had beauty but a temper as well. All were afraid of her and there was no laughing or talking in her school room.

# LINCOLN

Get Behind the Wheel

A ride in a Lincoln is one continuous trip of comfort and enjoyment. Changes in road conditions bring scarcely any perceptible difference in the smoothness with which your car travels.

Rear springs shackled at both ends; final drive through a torque tube; combined with superior control of the motor power itself, afford a master sense of security in any driving emergency.
