

THE WILSON TIMES.

WILSON, N. C. TUESDAY JULY 26, 1910

Vol. 9—No. 138

NEW SERIES OPENS TODAY

Today a new season of the Eastern Carolina Baseball League opens with Raleigh at Wilson, Wilmington at Goldsboro and Rocky Mount at Fayetteville. Owing to the waning interest and poor attendance due to great difference in the standing of the clubs the season has been disastrous and it seemed last week that the Wilmington and Raleigh clubs could not continue the season, but first Wilmington and Saturday night the Raleigh club secured the necessary financial backing and the league will continue intact.

Fayetteville will be declared the winner of the first series and the winner of the second series, if other than Fayetteville, will play the Highlanders for the pennant. The standing of the club at the close of the first series was:

Standing of Eastern Carolina Clubs.	Won.	Lost.	P.C.
Fayetteville	35	14	.714
Wilson	30	20	.600
Goldsboro	22	27	.449
Wilmington	22	29	.431
Raleigh	20	28	.417
Rocky Mount	21	32	.396

The directors of the league will meet this week to determine the length of the new series and the number of post series games if it will be necessary to play such a series.

Hettie Green Calls Son Home.

New York, July 25.—Col. Edward H. R. Green, Hettie Green's son, is back from Texas to make his home henceforth with his mother. He isn't sure whether that will mean New York or Chicago.

"I still think Texas has the greatest future of any of the states," said Col. Green today. "I left a great many friends down in Dallas and admit that I did not tell all of them good bye, for you see I expect to drop in on them some of these days. You can't transplant a tree of my weight over night. (Col. Green weighs 250 odd pounds) and I've lived in Texas a good many years.

"I am here to be of aid to my mother. If she wishes me to make my home here I shall do so, but mother has interests worth between \$12,000,000 and \$18,000,000 in Chicago, and I don't know but what I am more needed there.

"We'll decide that in due time," put in Mrs. Green with an enigmatical twinkle in her eye. "For the present I am glad to have my son home."

Shot Through 300 Feet of 20-inch Pipe

Washington, D. C., July 25.—Shot through three hundred feet of twenty-inch drain pipe in a column of water at high pressure a laborer on the Gatun dam on the Panama canal lived to tell the tale.

Juan Antolia was the human projectile, according to the report made to the canal commission. From a float platform where he was keeping the rubbish in a hydraulic fill from clogging the drain, he fell into the pool and was sucked into the pipe.

His companions rushed to the outlet but Antolia preceded them by some seconds and was ashore.

Twenty-five Victims of Storm.

Milan, July 25.—A terrific cyclone swept over the district northwest of Milan Saturday doing great damage to the towns of Sarono, Ravellasca and Lonate Pozzolo. It is estimated that about twenty-five persons were killed and many wounded. The victims include several workmen employed on the railway.

Many houses were unroofed and telegraph lines were levelled. Some of the dwellings were cracked and shaken as though they had been through an earthquake.

Cotton Letter.

New York, July 25.—There was a good demand for the new crop options Saturday and the market gave indications of going higher. The near months were barely steady. Spot sales none, but quoted twenty points down. LATHAM, ALEXANDER & CO.

Hubbard Bros. Market Letter.

Cotton—With the ending of the week the most interesting state of the market continues. The sharp decline of a few days ago, was apparently brought about by a misconception of the attitude of the bull interest, which disclaimed with vehemence afterward that their holdings had been sold out, and waited with unabated confidence and indifference till the end of the selling had been reached. This sublime assurance on the part of those who have the old crop positions well in hand, has been enough to offset the effect of the cotton pointing here from all directions, from Europe, New Orleans, and from the spinners of the Eastern states who are disposing of their surplus at the high rates ruling on contracts here. This is a sufficient and splendid vindication of the validity of the contracts on the New York cotton exchange. They must be filled to the letter.

This approach of cotton is without effect upon the market, it seems to have been expected and provided for. It is realized that whatever shipments may come here, must be replaced from the early receipts of the new crop, and in view of this the market is steady to firm, with sellers bidding the time when the outlook will be clearer.

Conditions at present are generally favorable. Advices vary little from day to day, trade reports are not encouraging, and crop reports in the main are excellent—with the high prices stimulating every effort to make the best of casual local poor conditions. But the necessity for a large yield, causes sellers that would be to hold aloof to be watchers of the outcome of the immediate conflict, rather than participants in the distant one. Outside trading is limited to those influenced by crop conditions near home, and apart from this and the belated ones who are uncertain and nervous over the July-August situation and strength, business is inconsequent. Developments will be rapid and interesting.

Wheat—The situation in the northwest only gets worse as we go along, and the foreign situation has turned very bullish with sharp deterioration in the Russian and French crops and unfavorable weather in Argentine. The loss west of the Rocky Mountains has been quite severe also, with Washington the worst sufferer. The winter wheat news has been favorable with larger yields of fine quality. The farmers are free sellers, principally on account of the high price ruling, which is attractive. The northwest will not have enough wheat for their needs and reserves without buying a lot of winter wheat. The ability to hold wheat by farmers is very little impaired in our opinion, and after the run of wheat from the first threshings is over, we look for a decided hardening of their holding policy. The situation is so delicately balanced now as to supply and demand that with any further strength abroad high prices will easily be attained and probably held. While the winter wheat movement is on, is the only chance, we think, to buy wheat that will look comparatively cheap as we go along.

Corn—Has had a shock of fear about the growing crop which has advanced prices very sharply. While no material damage has been done as yet, the fear is well grounded, and any lack of moisture during the rest of July and through August would result in higher prices. It is a weather market purely and while in this situation can be bought on breaks.

Provisions—We have been bearish so long as it is refreshing to see a chance to change. We now feel that the tendency is likely to be higher and prefer the long side.

Bisbee, Ariz., July 25.—A cloud-burst resulting in a great flood struck Bisbee Friday evening. Two persons, Mrs. John Baker and Daniel Murphy were drowned near here and six persons are missing. Many houses were demolished, store basements flooded and street traffic was tied up by the debris. The damage was more than \$150,000.

THE CHAMPIONS TAKE THREE STRAIGHTS FROM FAYETTEVILLE

Wilmington and Rocky Mount Break Even. Raleigh Beats Goldsboro.

Fayetteville, July 25.—Twice in succession Saturday did the once mighty Luyster go down with his team in defeat, the Tobacconists proving too much in a double header for the Highlanders. The first game was lost by a score of 3 to 1 and the second 1 to 0. By agreement, only seven innings were played in each game.

First game: R. H. E. Wilson100 200 0—3 5 3 Fayetteville100 000 0—1 8 2 Batteries: Stewart and Westlake; Luster and Galvin. Umpire, Pemberton.

Second game: R. H. E. Wilson000 001 0—1 4 1 Fayetteville000 000 0—0 7 2 Batteries: Stewart and Westlake; Luyster and Galvin. Umpire, Pemberton.

Red Birds Won Out.

Goldsboro, July 25.—The fate that is staring the Red Birds in the face did not prevent them from playing an excellent game Saturday and they won out over the Giants by score of 4 to 2. Turner and Anderson both pitched splendid ball. Score: Raleigh000 020 002—4 3 1 Goldsboro020 000 000—2 2 3 Batteries: Turner and McCormick; Gundersen and Daly. Umpire, Sharpy.

Wilmington and Rocky Mount Break Even.

Wilmington, N. C., July 25.—The largest crowd to attend a ball game here in several weeks witnessed the double-header Saturday afternoon between the Sailors and Railroaders, the first game having been won by the Sailors by the score of 4 to 3. The Railroaders took the second by the score of 1 to 0. Only seven innings were played in the second game in order to allow the railroaders to catch the evening train for Rocky Mount.

First game: R. H. E. Rocky Mount002 000 0001—3 5 2 Wilmington010 010 002—4 10 2 Batteries: Thorpe and Dussault; Hanks and Kite. Umpires, Henderson and Barre.

Second game: R. H. E. Rocky Mount000 100 0—1 7 0 Wilmington000 000 0—0 4 1 Batteries: Thorpe and Dussault; Howard and Kite. Umpires, Henderson and Barre.

BASEBALL SATURDAY.

Carolina League.

Charlotte 8, Greenville 5. Spartanburg 4, Winston-Salem 2. Anderson 5, Greensboro 4.

Eastern Carolina League.

First game: Rocky Mount 3, Wilmington 4. Second game, Rocky Mt. 1, Wilmington 0. Raleigh 4, Goldsboro 2. First game: Wilson 3, Fayetteville 1. Second game: Wilson 1, Fayetteville 0.

National League.

Brooklyn 2, Pittsburg 7. Philadelphia 3, Cincinnati 2. Boston 6, Chicago 7. Boston 6, Chicago 7. New York 9, St. Louis 2.

American League.

Chicago 1, Washington 4. St. Louis 3, Boston 0. Cleveland 0, Philadelphia 2. Detroit 6, New York 2.

Virginia League.

First game: Richmond 2, Norfolk 4. Second game: Richmond 3, Norfolk 1.

First game: Roanoke 5, Petersburg 1. Second game: Roanoke 4, Petersburg 2. Lynchburg 4, Danville.

No Vessels for Nicaragua Traffic.

New Orleans, July 25.—All efforts to secure vessels for service between this port and Bluefields, Nicaragua, have failed according to an announcement made at the offices of the Bluefields Steamship Company here. With three of its steamers tied up here as a result of the order of the Norwegian government, recognizing Bluefields as a closed port of entry, the Bluefields Steamship Company, has tried every means possible to procure one or more steamers of some other than Norwegian register to handle the Norwegian-New Orleans trade.

The suspension of all traffic between New Orleans and Bluefields, following the instructions of the Norwegian government, may result in serious consequences to the Estrada forces. Gen. Richard Sussman, nominal consul of the Estrada government at New Orleans, asserts, however, that the insurgent forces are plentifully supplied with supplies and ammunition.

With no means of conveying fruit to the American market, the banana growers of the east coast of Nicaragua, have suffered heavy losses as the result of the enforcing cutting off of shipments from here and it is probable that local commercial exchanges will consider the matter tomorrow with a view of making a further appeal to the state department at Washington.

Davis Memorial Needs Aid.

New Orleans, July 25.—An appeal for the Jefferson Davis Home association is made in an order by Gen. Geo. W. Gordon, commander in chief of the United Confederate veterans, issued from the headquarters of the organization by Gen. William E. Mickle, adjutant general and chief of staff.

In part the order says: "The general commanding cannot but feel that, if the attention of officers of camps of the order were properly directed to the needs of the Jefferson Davis Home association, the small indebtedness resting on the association would be paid in a very brief period.

"According to the report of the treasurer presented at the Mobile reunion, the entire cost of the Davis home farm was \$7,050. It would have been impossible for the association to pay this had not Gen. Bennett H. Young, with his usual patriotism and liberality, advanced the amount. Through contributions subsequently made to the fund, the amount advanced has been reduced to \$2,200, which it is most earnestly desired to settle speedily and in full. This should be done, not only should the money be paid to the generous comrade who advanced it, but because till then there is a cloud on the purchase which make every Confederate who reverences the name of Jefferson Davis have a consciousness of shame that what may be called an indignity rests on his memory.

"It should be the pleasure of every member of this glorious federation to be one of the contributors to this noble object, ever though the amount given be small, and the general commanding indulges the hope that the simple announcement by him that there is a debt will result in a timely and generous response on the part of all."

Cotton.

At noon today January was 13.19, July 15.75, August 15.38, September 13.89, October 13.34, December 13.23. The market closed at 3 p. m. as follows: January 13.24, February 13.26, March 13.28, May 13.39, July 15.68, August 15.00, September 13.96, October 13.44, November 13.32, December 13.29.

WEATHER FORECAST.

Washington, D. C., July 25.—For N. C.: Generally fair and continued warm tonight and Tuesday, brisk southwest and west winds.

McGraw Picks Winner.

Atlanta Journal. "I've not given up the fight yet, not by any means," said John McGraw after Monday's game. "Neither should Clarke or Griffith give it up, for baseball is an uncertain game, and all sorts of things may happen. But, if you were to ask me as a student of form, both of men and horses, I'd have to say 'The Cubs.'"

"And the chief reason? Not their pitching staff. Nor their individual or collective excellence as players, but their experience and steady play which they can keep up without the rattles interfering. Of course, if they were so old that their physical condition wouldn't stand the gaff, the experience would not save them, and youth would be served. But they are still young enough to go the route, and their long training in the field of championship ball will bring them through.

"Take for instance, one happening today that cost my team heavily. With a man on first, Devore ran on a pop fly and muffed it. Despite the muff, he had a certainty. All he had to do was to walk in with that ball—the man had been on first had no chance to beat him to second. Instead the boy got rattled, threw away wide of second, and let in a flock of runs.

"The Cubs don't make breaks of that kind. A play of that sort, in their hands, is as safe as the Rock of Gibraltar. But my younger Giants are not yet fully ripe and are always liable to spoil the play. So are young Reds—always likely to make a foolish break that the Cubs will not commit. Pittsburg has been playing disjointedly and has missed Vic Willis a whole lot. Hence here are three teams out of the first four that cannot put up the steady concerted game needful to beat the Cubs, and that's how the situation is today."

Roosevelt May Get Air Ride.

New York, July 25.—When Theodore Roosevelt had a chance to dive below the sea in a submarine he jumped at it, now he has an invitation to skim the earth in a n aeroplane.

Clifford Harmon, the wealthy amateur who makes daily practice flights at Mineola, L. I., said last night that Mr. Roosevelt is expected at Mineola on August 19 to lay a cornerstone that it was generally understood he would motor to Hempstead Heath to watch the flying and that he was sure of an invitation to go up, if he wished to try the sensation.

"Nothing would please me better," added Harmon, "than to give the colonel his first ride in an aeroplane, and if he comes here I hope I shall be able to induce him to let me take him up."

Stockholders of Peoples' Bank Will Pay All.

Raleigh, N. C., July 25.—In discussing the situation as to the closing of the Peoples' bank of Chapel Hill, closed by the state bank examiner a few days ago, a member of the corporation commission said that it looks like that with close management by the receiver the depositors will get all their money. However, it looks like the stockholders will have to go down in their pockets for an amount of money equal to the outstanding stock in order that this may be done. This is under the operation of the act of the last legislature making stockholders liable for double the amount of their stock in the event the interests of the depositors become

Big Labor War Ends.

St. Louis, July 25.—Formal announcement was made last night by J. T. Templeton, secretary of the Bucks Stove and Range Company of the end of the fight with organized labor. The employees of the plant are to be organized. The secretary, however, did not state if the present workmen would be required to join the union.

The announcement in part says: "The present management is and always has been friendly to organized labor. We believe labor has a right to organize for its protection and advancement."

FALSE REPORT OF ACCIDENT

Late last night a report became current on the streets that an awful accident had happened at Morehead City, and twenty-seven lives had been lost by the overturning of a boat there.

On learning of the reported accident this morning the Times at once wired Mr. Frank P. Morton, manager of the Atlantic hotel at Morehead City for full particulars and received the following reply:

Morehead City, July 25, 1910.

Daily Times, Wilson, N. C.:

No accident, no dead. Where did you get your information?

F. R. MORTON.

Where the report started can not be traced down, but until it was learned to be false a great deal of anxiety was caused by the rumor as many Wilson people are at Morehead, and their relatives and friends were much perturbed.

There should be some punishment for the party originating such a fabrication, for it is certainly merited.

Plan Royal Greeting for Americans.

Mexico City, Mex., July 25.—Plans by members of the American colony in Mexico City to give big banquet in honor of the American delegates to the Mexican centennial independence celebration in September are now being discussed.

While the Americans here are more than willing, really anxious, to show extended attention and courtesies to the delegates from the United States, it is understood that their time will be so much occupied in attending centennial functions that only one day can be set apart for a colony reception or banquet.

The American delegates will be housed in the Cobian place, on Salle Bucareli, according to present arrangements. They will live in luxuriantly furnished apartments. It is expected that they will arrive in time to attend a big reception that will be given to the visiting delegates from all of the nations to be represented by Enrique C. Creel, formerly Mexican ambassador in Washington, and now minister of foreign relations in the Diaz cabinet.

This function will be a brilliant one, as members of the entire diplomatic corps will be invited, also government officials and prominent men.

Mayor of Berne, Switzerland, Sends Regards.

New Bern Journal. Mayor McCarthy is in receipt of an attractive and unique acknowledgment of an invitation to attend the bi-centennial celebration from the mayor Berne, Switzerland.

The acknowledgment is written upon a very thin piece of parchment and the style of the letters is besides being very unique and appropriate, one of the best specimens of handwriting it has ever been the writer's pleasure to peruse. The parchment was closed in a very attractive leather case which is a very clever piece of the maker's art.

The sender regrets the fact that he is not able to attend this momentous event and sends his best wishes for its success.

Harriman Fortune.

New York, July 25.—Edward H. Harriman was worth \$71,000,000 at the time of his death. The records of the state comptroller's office, into which inheritance taxes are paid, show, as made public, that Charles A. Peabody, president of the Mutual Life Insurance Company, who has acted as Mrs. Harriman's adviser since her husband's death, paid on March 5 last, \$675,000 as the amount to which estate was entitled under the transfer tax law. A little arithmetic shows to those familiar with the law that the estate on which his tax was paid was valued at \$71,063,737.
