SIX HUNDRED MILLION

RED CROSS SEALS MADE

In preparation for its Christmas drive 600,000,000 Red Cross Christmas Seals are now being printed by the National Tuberculosis Association. This is by far the greatest number ever issued and the objective in view is at least to double last year's sale, which as shown by a tabulation now completed totaled over 175,000,000, or sixty per cent more than in any year previous.

Owing to the new problems indirectly due to the war, the demands upon the National, State and local anti-tuberculosis associations have greatly increased, and additional funds sufficient to deal with these problems along curative and preventive lines are needed. For such funds the associations are dependent chiefly upon the income derived from the sale of the Red Cross Christmas Seals, under a cooperative arrangement by which the American Red Cross Society allows the proceeds to be devoted to the furtherance of the campaign against tuberculosis throughout the United States.

EVERY CITIZEN SHOULD HELP

Raleigh, N. C., June 7.—From information coming to this office and to the office of collector of internal revenue, I am convinced that we prohibitionists must bestir ourselves to keep down the illicit manufacture of liquor.

Since no liquor can lawfully be shipped or brought into the State it has advanced in price to ten dollars a quart in some places. This price is such a strong temptation to some that they are yielding and are beginning to make it. I fear the illicit manufacture of whiskey is on the increase in the State, and officers and citizens must get busy to check it.

It is the duty of the sheriffs and other police officers to arrest criminals and stop crime. It is equally the duty of the citizens to aid him. The citizen who does not do his duty to break up the blockade still by telling on the blockader has no right to criticize the sheriff or police for not doing his duty. Each is sworn to uphold the law, and our government compels everyone to tell all they know about crime.

In order that our citizens may be protected in giving this information

against liquor makers I advise that a Law and Order League be organized in each county and I have, after much study, drawn up a constitution under which such an organization can operate.

Such an organization will cooper-

ate with every official whose duty it is to catch the blockaders, and will protect the individual against danger and criticism for giving information.

Think on these things. Talk to other influential citizens of your county about this matter and if liquor lawlessness abounds organize such a league. I am sure it will do good. Write me if you desire, and if you organize be sure to report the same with the names of officers to the North Carolina Anti-Saloon League, Raleigh, N. C.

Yours for a clean State.
