

MINING AND ITS RESULT

New Machinery For South Eureka Mine.

GROSS HOIST TO BE THIRD HIGHEST IN AMERICA

Rich Quartz At the Sheep Ranch.—High Grade Ore At the Giuffra.—The Grizzly Mine.

AMADOR COUNTY.

The mines, producers and prospects, in the vicinity of Jackson are going forward as usual. No new developments this week.

Hoffman-Jackson.

It is rumored that a shaft will soon be sunk on the Hoffman property near Jackson.

Central Eureka-Sutter Creek. Rock from the Central Eureka mine is being handled at the Zella mill.

South Eureka-Sutter Creek.

The pay-roll of the South Eureka mine is being increased. A large order has been placed with Knight & Co. of Sutter Creek, for a complete set of hoisting machinery. In consequence thereof a larger force will be required at the foundry. The machinery is expected to be completed in about four months.

Defender-West Point.

At the Defender mine the shaft is down about 240 feet and drifting north and south is in progress. F. B. Joyce is the superintendent and half owner of the mine.

Belmont-West Point.

Mr. McKelvey, owner of the Belmont, the next claim south of the Catherine and Adeline, has just finished the hoist which is to be run by steam power. The shaft has been retimbered and sinking is in progress.

Catherine and Adeline-West Point.

The Catherine and Adeline, two claims located east of the Defender mine, will be unwatered as soon as possible and sinking will begin. The hoist will be finished this week. Messrs. Stewart and Zavalla are the owners of these claims and feel very much encouraged as to future prospects.

Keystone-Amador.

At the Keystone mine Superintendent W. A. Pritchard has been making a number of changes for the purpose of working the plant more economically and systematically. The Keystone like the other Mother Lode mines is preparing for the profitable working of the immense bodies of low grade ore, long known to exist. The superintendent has added men, expert in this special work to the office and mill and a number of new men to the mine, the latter to shorten and cheapen the methods of getting the ore from the mine and to supply the increasing capacity of the mill. The mine at present is without a foreman. The most experienced timber men are at the head of the largest stopes and the underground work is directly in charge of the superintendent. An air compressor is being built to supply waste for filling the large stopes and for stopping. The rumor that some big married men will be employed is without foundation.

CALAVERAS COUNTY.

Prospect: W. W. Cook of Campo Seco is about to erect a 10-stamp mill on his mine near that town. Contractors Getchel and Austin will commence work on it next week.

Record: Workmen are preparing the ground for the foundation of the new iron hoist which is to be erected at the Cross shaft. A giant was put up Wednesday and the ground is being cut down for masonry. The hoist, which will be made of iron, is to be sixty feet high, and have a 30-foot base. It will be the third highest in America, the other two being the Calumet & Hecla and the Anaconda.

The Union mine was cleared of water Tuesday and the work of putting in the new machinery will now be commenced. About 150 men will be employed and all the old machinery will be taken out at once.

Mountain Echo: The Albany Flat mines are coming to the front. There is a prospect of the Big Spring mine at Marble Springs being sold to an eastern syndicate before long. The St. Lawrence mine is being handled in a manner that promises to make it a mine of great value. The Romaggi mine has been bonded for \$35,000 and operations will shortly begin on it. The Santa Anna mine is being opened up and will receive a thorough test. The Tulloch mine, although being prospected now, will eventually come to the front and be one of our leading gold producers. This is a good mine and the time is coming when the fact will be proven to the full satisfaction of everybody in this locality.

Citizen: The meeting of the stockholders of the Ford mine has been postponed until Monday next. It is hoped that there may be a large attendance of local stockholders. Nearly all the assessments have been paid up and the drilling is said to be in splendid condition. Drifting is continued and the management is thoroughly satisfied. A full report will be made to the stockholders on Monday evening.

L. S. Pelton on Wednesday left for Banner, where he goes to work the assessment on the '00 mine.

Frank Cuneo, an old time resident of San Antonio Camp, was in San Andreas on Wednesday and called at the Citizen office. He reports the mining industry in his section to be looking up and expresses the belief that that belt offers the greatest possible inducements to capital. Work is being prosecuted on the Cuneo mine, with reassuring results.

M. C. Higney and William Casey, Jr., on Tuesday left for the Ritter mine, near El Dorado, where they will do some cleaning up and extend an old tunnel crosscutting the vein.

L. H. Carver, of the Table Mountain mine, better known as the Martin, went below last Friday and returned on Monday, accompanied by Mrs. Martin. He expressed great confidence in the property of which he has possession and he believes that he is in the true blue gravel and the indications are that this old property will soon again be a large producer. It is said this property belongs to George W. McNear, the great wheat man, who is amply able to work it.

Adjoining property owners having declined to sell them needed lands, save what they consider as extraneous tracts, A. B. Thompson, of the Jupiter (the San Domingo) mine, and Mr. Purington, of the Jack Rabbit and Garibaldi, of Dogtown, have determined to jointly run a tunnel to tap their properties. They will thus obviate any further necessity of buying \$5-an-acre land at fancy figures. The development made on these mines justifies these heavy expenditures.

The Demarest with its rattle trap five-stamp mill has just made a cleanup of a thirty days run, netting about \$3200 in natural gold, and ten tons of sulphates, valued at from \$100 to \$125 a ton. Not bad. The Demarest needs greater development and a 20-stamp mill.

BICYCLE AND BOY COLLIDE

Mrs. F. Abott Lectures At Plymouth.

SERIES OF REVIVAL MEETINGS AT AMADOR CITY

Our Correspondent At Amador City Notes a Number of Visitors This Week.

PLYMOUTH NEWS.

A Pleasant Time is Had at a Birthday Party—The St. Patrick's Ball.

PLYMOUTH, March 21, 1900. A birthday party was given in honor of Miss Laura Clifton last Friday evening. A pleasant time was enjoyed by all who attended. The guests were: Misses Laura Clifton, Anna Little, Amy Boddy, Bulutha Dyer, Kate Bunker, Alice Clifton, Edith Little, Valla Potter, Thillie Wise, Celia Ninnis, Grace Wise, Mrs. H. Cupps, Mrs. Alice Wheeler, Mrs. Lucy Livingston, Messrs. Herbert Cupps, Jim Devore, Jonathan Bunker and William Boddy. Miss Clifton received many well selected presents.

Master Cleveland Jones, of Jackson, came over Monday of last week to stay for some time with his guardian, A. J. Crain.

The ball given on the eve of St. Patrick's day was well attended and proved a financial success.

Mrs. Glasson, who has been very sick for the past month, is reported still very low.

When Mr. A. Hawkins was coasting down Potter's Hill a little seven-year-old boy purposely ran in the way of the wheel. The gentleman dodged and escaped running over him, but threw the boy face downward in the dust. No serious damage was done by the collision.

William Jones, of Jackson, visited his relatives at this place and Shenandoah Monday and Tuesday.

Mrs. Florence Abott delivered a lecture on "Christianity" Sunday, at 11 o'clock a. m., in the M. E. church. On Monday at 4 p. m. she lectured on "Temperance" to the school children.

Mr. Gordon, Superintendent of Schools, paid a visit to the Plymouth school Monday and Tuesday.

Mrs. Illa Adams returned from Oakland Sunday.

Revival meetings are being held at the M. E. church and all are cordially invited to attend.

OMEGA AND OSWEGO.

AMADOR CITY.

Andrew Wote, late of the Keystone Mine, is Now Employed at the Onaida.

AMADOR CITY, March 20, 1900. Mr. Bartlett and wife visited Jackson Saturday.

Mr. James Bennetts and wife have gone to the city for an extended visit with their daughter, Mrs. Jeffrey.

Mr. W. L. Fuller of Placerville, is the guest of Mrs. H. B. Hinkson.

W. Williams and family of Kennedy, visited relatives in Amador Sunday.

John Rooney and sister, of Plymouth, visited relatives in Amador Tuesday.

Myrtle Gonoslas, Josie Nowell, Laurel Lathlean and Lila Pengally, visited friends last Wednesday in Amador.

Mr. Richard Bennetts, accompanied by his sisters, Irene and Louise, and his uncle, Mr. Caroline, visited relatives in Ione Sunday.

Arthur Palmer and James Bodinar visited relatives in Jackson Saturday and Sunday.

John H. Moon visited relatives in Amador Sunday.

Mr. Noce has been successful in obtaining employment at the Onaida mine.

Quite a number of men from Grass Valley have been employed at the Keystone mine.

Mrs. Florence Abott, a temperance lecturer, is visiting our little town. It is uncertain whether or not she will lecture here.

Church services on Sunday as usual, and revival meetings during the week. Mr. J. J. Smith and Mr. Towney will be present Wednesday night and continue until the meetings cease.

E. LOIS.

He Pleases the People.

McMillan makes a fine display at his door of medallions in water opals, Foto jewelry and stamp novelties—all the very latest. He also exhibits some of the very latest old and long panels in carbon prints. Patrons of his gallery can always be assured of the very latest styles in all branches of the Foto Art.

He would advise mothers to bring their children for Baptism in the morning, from 10 a. m. to 3 p. m. being the best hours for them.

STAGE TRAVEL.

The Raggio Stage Lines Are Conducted By Competent Drivers.

The Raggio stage lines from Ione to Jackson and Sutter, are doing a good business, judging from last Sunday's travel. When the train reached Ione, Agent Gordon found that his way bill, when all noses had been duly counted, called for seats in the Jackson and Sutter stages for nineteen or twenty passengers, and a pile of baggage about the size of a Sutter Height's sand dune.

In the best of good nature, Chris Hanson, and Jack and Will O'Connell, the respective drivers of the three stages, fell to and stored the baggage, after which the passengers were assigned seats and made as comfortable as possible. All this was done in a very short space of time, but without any bustle or false motions and without any "oath" being uttered. Raggio's drivers are gentlemen.

When everything was "all set," Judge Hughes and Stenographer Doan got into the stage, occupying the seat of honor by the side of Chris Hanson, the word was given and away we went, as jolly a set of travelers as one would

SHORT LOCAL NEWS ITEMS

More Houses to Go Up In Jackson.

MOTHER OF MRS. HEPBURN DIES IN CHICAGO

The Promoters of the Jackson and Ione Railway Inspected the Line This Week.

DOCUMENTS RECORDED.

SATISFACTION OF MORTGAGE. F. Nell to F. Traylor.

G. Ganz to Geo. Brown.

Read This Carefully.

The ice-cream season has begun and those wishing a cool refreshing drink should go to Cain's Superior Candy Factory. Why? Because it is the neatest and most convenient place in town.

His affable proprietor will soon have eight handsomely furnished booths for the accommodation of his patrons. The crushed fruit he uses in his favors, and he has a great variety. It is of the freshest obtainable. His ice-cream sodas are pronounced the best in town. His confectionery is fresh and of a superior quality. Hot tomatoes every night.

The Second Hold-Up.

A San Andreas dispatch dated last Monday, March 19th, says: "At about 5 o'clock this evening the Milton and Copperopolis stage was held up by a lone highwayman. As the stage was nearing the mining camp of Hodson's a masked man with a double-barrel shotgun stepped out from the roadside and ordered the driver to halt."

"The driver and three passengers were ordered to hand over their valuables, which they did. The total value of the booty secured will not exceed \$17. The mails were untouched. This stage line does not carry Wells, Fargo's express."

"Sheriff Thorn was notified by wire of the hold-up and has a description of the man. This is the second hold-up within a week in this county."

Resolutions of Respect.

At a regular meeting of the Order of Chosen Friends, the undersigned committee, was appointed to draft resolutions to be presented to the members, and while this bereft would submitatively bow to the will of "Him who doeth all things well."

Resolved, That in his gentle and courteous deportment and uniform kindness of heart our brother endeared himself to the membership, and while we mourn the vacant place in our ranks we look forward to a reunion on high where the burdens of life are all laid down and the mysteries all unfold.

Resolved, That we extend our sympathy to the bereaved wife and family and a copy of these resolutions be presented to the family of our lost brother.

Resolved, That a copy of these resolutions be placed in the minutes and the charter of this Lodge be draped for thirty days in mourning.

Committee: E. J. MASON. W. E. KIST.

Pink Tea and Cake Walk.

On Friday evening, March 30th, an entertainment will be given in the M. E. church under the auspices of the Ladies' Aid Society and the choir. It will be in the form of a pink tea, and those who attend will be entertained with a musical programme and novel cake walk. Admission will be 25 cents. Refreshments will be served during the evening without extra charge.

Elect Officers.

At the annual meeting of the stockholders of the Jackson Gold Mining and Milling Company, held at Jackson, Cal., March 20, 1900, the following officers were elected for the ensuing year: President, Charles Peters; Vice-President, E. A. Freeman; Treasurer, E. G. Ginochio; Secretary, W. H. Willis; Directors, Charles Peters, E. A. Freeman, George W. Brown, E. Ginochio and George F. Van de Mark.

Doing Nicely.

Vernon Hawkins, the nine-year-old son of Landford Hawkins of the Central Hotel, who was injured in the Zella mine sawmill several weeks ago is on the road to recovery. If no unlooked-for relapse takes place the lad will be about again in due time.

The Finest Building Lots.

Remember that W. P. Peck has the finest building lots for sale in Jackson. Terms easy. See display advertisement in this paper.

attention of the court during most of the week. Judge Hughes has made many warm friends during his short stay in Jackson. He is a most companionable gentleman.

A reporter preaching about the devil's Kingdom. Subject at M. E. Church Sunday evening, March 25th. That amphitheatre filled with men fighting against God's wishes. Morning subject.

V. A. Marini is excavating for his home in the Hamilton tract. He has a valuable lot, and intends building a fine house thereon. Kuhlman has drawn the plan and will probably get the contract.

Mrs. Stagg, mother of Mrs. George Folger, who has been visiting our Postmaster and his family for some time, went to Lodi Wednesday, where she will visit relatives for a short time and then proceed to her home in Seattle.

Two more houses are in contemplation for the Peck Addition. Postmaster Folger, the pioneer of the tract, will have near neighbors in future. It is a delightful location for a home and no mistake. See notice elsewhere in the LEDGER.

Rev. J. W. Daniels, assistant superintendent of the Children's Home Finding Society, 131 Montgomery St., San Francisco, arrived in Jackson yesterday and will remain until Saturday. He reports excellent progress of the good work.

Mrs. Hepburn, principal owner of the Bellwether mine, was summoned to Chicago, a few days since, on account of the dangerous illness of her mother. A telegram from Mrs. Hepburn was received Tuesday announcing her mother's death.

W. H. Storms, "expert in the field" under Governor Gage, who began his investigation of the mining industry last January, selecting Jackson as his starting point, arrived here Thursday and registered at the New National. His report will appear probably some time in June.

D. Gutmann and General Manager Woodward, of the Jackson and Sutter Creek Railway, arrived in Ione Wednesday evening, and are inspecting the line as recently surveyed by Chief Engineer Fousier. We understand that contracts for grading will be let as soon as the engineer is ready for grading to begin.

William C. Hoss, of Antelope, registered at the New National Tuesday. He informed a representative of the LEDGER that vegetation in his vicinity is unusually advanced for the season of the year, and that fruit would seriously suffer if a frost should occur. He predicts a dry season, basing his conclusions on the fact that the snowfall in the mountains is inadequate, there being but six or eight feet of snow where there ought to be at least fifteen to twenty feet. He also dropped a hint that, perhaps, later on, some encouraging mining news might be forthcoming from his section.

Several of our Democratic townsmen are anticipating a trip to Sacramento, next Monday, to see and hear Wm. J. Bryan.

Mrs. F. A. Voorheis, wife of Landlord Voorheis of the New National, has been quite ill of late, but is now improving.

Mr. Gilbert Boon, clerk at the New National, went to Angels Wednesday. George Dorman took his place in the hotel during his absence.

Mr. Willard Calkins, the well-known versatile writer, is in poor health and is now residing in this county, with headquarters at Sutter Creek.

D. Gutmann, General Manager Woodward and Chief Engineer Fousier, of the Jackson, Sutter & Amador Railway Company, were in Jackson yesterday.

Owing to a misunderstanding, the advertisements of Dr. C. H. Gibbons were omitted in the last two issues of the LEDGER. They will be found in this issue.

A very interesting article by Will A. Newcum, on dredging for gold appears in this issue of the LEDGER. Mr. Newcum has treated the subject ably and thoroughly.

Mr. and Mrs. Willard P. Calkins of Oakland, accompanied by the young son of H. M. Calkins, were passengers on the incoming Sutter Creek stage Sunday evening.

John F. Davis and L. A. Kent were elected as delegates to represent Excelsior Parlor No. 31, at the Grand Parlor, N. S. G. W., which meets at Oroville on April 23d.

Lloyd Brubaker, of the Standard Electric Co. returned from a visit to Angels and vicinity the first of the week. He expects to go to Bear River Monday or Tuesday next.

W. F. Detert, president of the Argonaut and Bunker Hill mines, and superintendent of the Zella mine, went to San Francisco and other places where he has business interests, last week.

J. I. Godfrey, the well-known cabinet maker, now in his 82d year, has just completed an office desk for George W. Brown that "knocks the socks" off anything heretofore. It is a fine piece of workmanship and is valued at \$75. Mr. Godfrey is hale and hearty and apparently good for many years of hard work.

Mrs. Charles Zimmerman, Milesburg, Pa. says, "As a special cure for coughs, colds, croup and sore throat One Minute Cough Cure is unequalled. It is pleasant for children to take. I heartily recommend it to mothers." It is a truly harmless remedy that produces immediate results. It cures bronchitis, pneumonia, grippe and throat and lung diseases. It will prevent consumption. City Pharmacy.

At Sutter Creek.

The Jackson Historic Club presented "Queen's Evidence" to the people of Sutter Creek last Monday night, the audience being well pleased with the performance. Owing to other attractions the audience was not as large as otherwise would have been. Tomorrow night the Sutter Creek Dramatic Company will give a return play in Jackson and, will, no doubt, be greeted with a large and appreciative audience.

Summer is near and ladies and children are preparing for it. The neatest and most fashionable dresses, etc., are made at prices within the reach of all by Misses BOTTO and MUGFORD, Mrs. Schwartz's residence, Broadway, Jackson. 3-16-3t

Give us daily some GOOD BREAD—Pioneer flour makes the best.

Mrs. Harriet Evans, Hinsdale, Ill., writes, "I never fail to relieve my children from cramps at once by using One Minute Cough Cure. I would not feel safe without it." Quality quacks cough, cold, grippe and all throat and lung disease. City Pharmacy.

Rev. W. E. Stitzer, W. Canton, N. Y., writes, "I had dyspepsia over twenty years, and tried doctors and medicines without benefit. I was persuaded to use Kodol Dyspepsia Cure and it helped me from the start. I believe it to be a panacea for all forms of indigestion." It digests what you eat. City Pharmacy.

Take Advantage of This. With small capital anyone wishing a good investment, which will bring good interest, call on Mrs. E. B. Robertson, Jackson, Cal. 3-9-2t

Strictly First-Class Fresh Fish. Can be had every Thursday and Friday at Caminetti's Central Market. 6-2-99

Five thousand spring samples of clothing, the latest patterns, on exhibition at the White House. 2-23-t

Lewis Ackerman, Goshen, Ind., says: "De Witt's Little Early Risers always bring certain relief, cure the headache and never gripe." They gently cleanse and invigorate the bowels and liver. City Pharmacy.

Promissum Floret is the same yesterday, today and tomorrow. Gilbert still sells "No Name Thread," 3 spools for 10 cents. Considered the best. 34-2t

Early Rose seed potatoes for sale at Jackson Cash Grocers. 3-8-100

Peck's Addition now open for the sale of lots. These resident lots are the cream of the town. They are in town virtually, and yet up out of the dust and dirt. They are cheap. 3-2t

Dr. M. B. Smith, Eastport, Mich., says "De Witt's Little Early Risers are the very best pills I ever used for constiveness, liver and bowel troubles." City Pharmacy.

DIED. CARPENTER—In Sacramento, March 21, 1900, Mrs. Hannah C. Carter, mother of Mrs. Silas Perry, aged 78 years, 8 months, and 15 days, a native of Kentucky.

IRRIGATION IN OLD SPAIN

Large Areas Are Artificially Watered.

THE COUNTRY, HOWEVER, IS NOT VERY ARID

The Effect of Irrigation on the Population.—Methods of Irrigation in Rice Culture.

The most prosperous agricultural provinces of Old Spain are the two in which the soil is probably the poorest in the kingdom. But the valleys of both provinces are thickly seamed with irrigation canals and the slopes are carefully terraced for cultivation. This explains the paradox.

A very large proportion of Spain's cultivated area is under irrigation. Almost all the vegetables and garden fruits, lemons, oranges and rice are grown by irrigation, while the grains, vines and olives are chiefly dry farmed. Supplemental irrigation is practiced, irrigated crops being grown alongside of non-irrigated. Ancient and modern methods of irrigation seem to go along almost hand in hand. Simple water wheels are in common use to obtain water from wells, the power employed being a horse, and the method of conveyance small buckets, after the ancient Egyptian fashion. On the other hand, many artesian wells have been sunk for irrigation and modern windmills are coming into use.

ROMAN AND MOORISH WORKS. The total irrigated area of Spain is nearly 3,000,000 acres, and some of this comprises systems of great age and of expensive construction. In Valencia and Gatalonia the water used is derived from swift mountain streams, whence it is conveyed by long canals or acequias along the mountain sides or by lofty aqueducts to the fields on which it is to be used. Some large storage reservoirs called pantanos have been constructed, feeding a dense network of canals distributed over broad plains. Many of the old irrigation works, such for example as those of the plains of Taragona, date from the Romans and many other from the Moorish period, while new ones are being laid out at the present day.

POPULOUS UNDER IRRIGATION. The effect of this irrigation is shown by the significant fact that the irrigated portion of the province of Murcia has a population of 1681 per square mile as against only 101 per square mile from the entire province, while Orhuela has a population of 767 per square mile as against 194 from the whole province. This shows the accomplishment of irrigation in a humid region. Of course in our own territory the difference in population between many irrigated and non-irrigated sections is far greater and might be as one to 100, if not one to 1000.

When the great progress being made in irrigation in other countries is considered, and it is remembered that the work has scarcely begun in the United States where tens of millions of acres lie waiting for reclamation, it must be acknowledged that half the productive capacity of the world has not yet been reached.

THE MOST PRODUCTIVE RICE LANDS are always irrigated. Over a hundred thousand acres of rice are irrigated in Louisiana, and the method employed by the planters place them at the head of the world in rice culture. Their advantage lies in irrigating in such a manner that they can cut their crops by machines instead of by the ordinary method of the hand sickle. Rice irrigation contemplates a complete flooding of the field and leaving the roots under water, rice being an aquatic plant. This being the case the only way left for harvesting is for the negroes to wade into the marsh and cut the grain by hand. The Louisiana planters, however, lay their fields off in plats and throw up furrows around them, forming little walls or levees. Then at the proper time the water is turned in and the rice grows. When the grain is just about matured these miniature walls are broken down, and the water run off. After several days the ground is dry and firm enough to allow horses and machines to go upon it and harvest it as they would wheat or other grains. This places the rice crop of Louisiana abreast of these other crops, whereas, under the old method it is a hundred years to the rear. What would next year's wheat crop be if its harvest were dependent upon sickles? And yet, with the exception of these Louisiana fields, the rice crop of the South is to-day irrigated and cut as it was a century before by Brigham Young's followers laid out their first ditch in the wilds of Utah.

NOTES. JACKSON, January 2.—I intend to leave for Alaska early in the season. All persons indebted to me are requested to settle before February 1st, as my unsettled accounts will then be placed in the hands of the collector.

For Sale. One 4-Horse Power Engine with 7-horse power belter. One City and Gravel Worker, 1-horse power. One Derrick and hoisting outfit. DR. C. H. GIBBONS. 3-25-t

Uncalled-for Letters. Letters remaining unclaimed in the Jackson, Cal., Postoffice, for the week ending March 23, 1900: Mr. C. Laverra Mr. Andro Rosoyia Mr. John Perryman Mrs. Bagdad Antonio Canonica Mrs. R. D. Ieragiora Mr. T. J. Dunstan The Baptist Minister G. C. FOLGER, Postmaster.

Rev. W. E. Stitzer, W. Canton, N. Y., writes, "I had dyspepsia over twenty years, and tried doctors and medicines without benefit. I was persuaded to use Kodol Dyspepsia Cure and it helped me from the start. I believe it to be a panacea for all forms of indigestion." It digests what you eat. City Pharmacy.
